

CARP Workshop Held in Albania

Gani Rroshi - April 19-21, 2019

About 70 young people participated in a three-day workshop organized by CARP of Albania from April 19 to 21.

The workshop focused on students who are actively participating in our events and are joining the weekly CARP meetings in our centers.

It was a nice retreat in which young people could listen to the CARP lectures together with others of the same age.
