

## Divine Principle Workshop in Albania

Gani Rroshi - May 23-26, 2019

Even though it is challenging to witness due to our concentration on many other events, witnessing has always been a key activity of our communities in Albania. As such, we concluded the month with a workshop on the Divine Principle and the teachings of True Parents.

There were 15 participants, of whom five were introduced to True Parents for the first time. They expressed deep gratitude for the workshop and felt very special to be among the few who know they are living in the same era as True Parents.
