November 25, 2025

The purpose of this event was to commemorate the International Day for the Elimination of Violence Against Women. It was organized by Faiza Chaker, President of AIDES/Afrika. France, in collaboration with several partner NGOs, including WFP France.

The program featured four panel discussions, and Brigitte Wada, WFP president spoke on the second panel, addressing the theme: "Building inclusive public policies together and achieving effective gender justice."

Her main message emphasized that women are essential contributors in every sector of society, but that their engagement should be guided by a spirit of living for the sake of others - not for personal privilege or in competition with men.
