The ‘Mommy and Me members’ of WFWP Norway gathered in Oslo to mark the UN "World Creativity and Innovation Day” with an afternoon of creativity and connection, on Sat, 21 Apr 2018.

The children were very creative with empty egg cartons and paint.

Then, we played outside on a grass meadow, which is finally free of snow, with balls, leaves and bubbles.

The children even found a sledge and enjoyed so much sledding down the grass hill.
