

Principle of Creation and Radionics Bureau: facilitators recreate human balance

Marta de Carvalho

October 2016

WFWP Portugal

WFWP Portugal held another lecture with Holistic Therapist Ines Rodrigues O Sousa - this time under the theme: “The Principles of Creation and Radionics Bureau as facilitators to recreate human balance.” It took place in October 2016 in Portugal. WFWP Portugal President Dr. Marta de Carvalho opened the event and spoke about the Principles of Creation, highlighting that we must first find the purpose of our lives in order to find solutions to current problems.

She spoke about our desire to find true happiness, about the growth process of our lives, and how in many ways different factors may lead us away from fulfilling our God-given happiness and purpose, like our ego, genetic and spiritual inheritance, in some cases emotions and others.

After that, Inês Rodrigues O Sousa, explained about the importance of balancing our energy through the ‘Radionics Bureau’. She also spoke about the influence our ancestors may have on our spiritual well-being. We then shared our experiences and impressions over refreshments. We’d also like thank Liberto Silva and Sergion Vieira for supporting the event
