

Georgia. Second South-Caucasus Divine Principle seminar Maka Abugbaia - November 6, 2017

During three days from November 4 till 6 of 2017, brothers and sisters of Georgia, Armenia and Azerbaijan held the second joint Divine Principle seminar of the South Caucasus countries and the second such seminar for the year.

Initially it was planned to be organized as a CARP-style event for new young guests similar to the first seminar with duration of 7 days. Later we realized that the guests are not ready for such long period of time, therefore we decided to change to a full 3-day seminar.

The Georgian side decided not only hosts this event but also provide lecturers. For the first time at the seminar 3 lectures were given by the representatives of Georgia in the Georgian language.

Until the last day there were changes in the number of participants and the staff team. As a result, the seminar was attended by the Blessed families with children and guests: one person from Armenia, five people from Azerbaijan, and 13 people from Georgia, altogether 19 participants, including Second Gen children. It happened that all the guests were members' relatives. Someone has already started to study DP, and someone listened for the first time.

All staff sacrificed sleep and comfort for the sake of preparation. They had many new responsibilities, and each met certain limitations. It was quite challenging to unite but through group meeting staff overcame disagreements and united. As a result, the seminar from the "CARP" style turned into a Tribal Messianism seminar.

We have been seriously thinking for several months how to actively testify to relatives, this seminar turned into an unexpected opportunity. Despite the different personal limitations and inconsistencies in formats, the seminar was a good impetus for the further development of the Tribal Messianism and at the same time the point of no return in this important mission.

For staff the seminar was a good step forward in the opportunity for local members to take responsibility in the educational issue. For each family the seminar was an opportunity to start a mission of the Tribal Messianism.

We thank Heavenly Parent and True Parents for the successful seminar!
