

## WFWP Armenia student's presentation on harmful effects of smoking and alcohol

Nora Barseghyan

January 10, 2026

My classmate works at a school, and in January she presented a project with 8th-grade students about the harmful effects of smoking and alcoholism.

She used materials from the Women's Federation and informed the school administration about it.

The project was successful, and they would like to conduct similar lectures in other classes as well.
