

## FFWPU Cote d'Ivoire: New Training Center for our Tribe in the village of Gouabo

Richard Beugre  
September 11, 2022

As requested by Our True Mother we must educate our 43 couples! It is in this perspective that we have worked so that our Tribe can have an education center in order to continuously educate our blessed couples who have received the Blessing.

It is on September 11 in the department of Agboville village of Gouabo that we have installed an education center called Education and Training Center of Gouabo.

For this ceremony we invited the village chief, the notables and the economic operators as well as the central blessed families to participate.

The whole program was like a worship service!

During this ceremony the main message was given by the Rev. Beugré Richard, Director of BFD of Africa president of this tribe. Four personalities received the Book of the Divine Principle (Black Book) that was the message we received in Korea for these four VIPs to help the peace and reunification of the village of Gouabo.

The sponsor of the ceremony Yaboudjro Henoc Ambassador of Peace offered kits composed of rice, soap and oil as well as clothes to the families of this tribe.

In this ceremony four couples received the blessing of True Parents and they decided to respect the 40 days of separation and live an absolute fidelity!

Moreover, Pastor Justine was officially introduced to the community as well as his staff.

The ceremony was held in a festive atmosphere with the musical group peace angel from Abidjan to enhance the ceremony.

At the end of the event a meal was served to all the guests!
