As Our True Mother is asking all of us to educate all the people of the world by starting the education of at least 43 couples in our tribe, Alexander and Anna, a blessed couple from Luxembourg, who have a tribe in the Ivory Coast, in the region of Mé in Yakassé Attobrou, did their best to educate their tribe.

After education of the people from five villages, FFWPU Angola decided to hold a 7-day Divine Principle seminar for some representatives of the tribe. Then the representatives will be able to take care of the other families as the representatives of the FFWPU Angola in their tribe.

On Sunday March 20, 2023 we had our Seminar in the Education Centre of PROZYBANFLA, the tribe of Brother Yao Bi, with 9 people representing 3 villages.

The participants appreciated the heavenly teachings as well as the place and the food we offered. They wish to continue study in another more advanced seminar and we will help to make this happen. But in this workshop, a roadmap was given to them at the end of their training in order to start forming a group of 3 to 4 families to begin the Home Groups. This is a group that we need to follow in order to create a branch of the FFWPU in this region.

The lectures for this workshop were given by brother Aboulé Yves and Rev Beugré Richard (BFD of Africa ). This seminar was supervised by Gahe Henri, Yessotie Didier, Ablavi Sabine and Kouman Clément.
