

## “The environment - our only home”

Report by Elena Chirulli, CARP Italy

The third interreligious event entitled "The environment - our only home" took place successfully on 28 March 2021, created under the umbrella of the Heavenly Parent's Holy Community in collaboration with FFWPU Padua and CARP Italy. The theme was suggested for the occasion by the Taracittamani Center and close to the UN International Days of Nature and Forests. Catholics, Buddhists, Muslims and many other religious and associative components came together to dialogue and offer food for thought on a topic that is more relevant than ever. The common thread saw the Earth as the protagonist of the meeting, understood as a common home and heritage of humanity. An opportunity to stimulate and promote love for the environment, encouraging the different faiths to cooperate for a global peace. The meeting had about a hundred participants.
