HOLDING CHARITY DANCING MASTERCLASS FOR ORPHANS IN ONE OF THE MAIN ORTHODOX CATHEDRALS

Reflection of schoolchildren on lectures:

- ▶ In the lecture I was moved by the moment when we talked about suicide. I have always thought that it was the only way out of problems but because of this lecture I have changed my mind.
- ▶ My opinion has changed. Before I could think only how to have a good time with some girl but now I will do my best to change and to look for my true spouse.
- ▶ I could understand that we shouldn't give up and try to commit suicide. Recently I hear many stories from my friends that they want to commit suicide because of the unshared unhappy love.
- ▶ I thought that it was normal to have sexual relationship before marriage. I thought that it doesn't require any responsibility. After this lecture I could realize that this kind of irresponsible relationship can do unrecoverable harm to my life and to some other person's life. I could deeply understand the explanation of the serious spiritual and emotional consequences of the free sex relationship. My viewpoint on life has changed (a boy)
- ▶ Honestly speaking I thought that using cursing words meant being cool and if I use them I would be considered cool by everybody. After this lecture I will do my best not to use any bad words. I was moved by the statement that honor and culture of Russia start from me.
- ▶ After this wonderful lecture I have understood and realized many things and one of the main things is: We shouldn't try to be like everybody else. We should have our unique personality and keep our own dignity.
- ▶ I think that it is necessary to hold such lectures more often so that people who have already committed mistakes could stop on time and those who haven't made mistakes yet – don't even start doing anything wrong.
- ▶ I already thought before that we shouldn't have sexual relationship before marriage but I thought that I was the only person who had such an abnormal opinion. After this lecture I could realize that I was not abnormal but I was right!
- ▶ Before this lecture I thought that it would be good to have much sexual experience before marriage and I wanted to have some variety but after this lecture my opinion has changed. I think these lectures should be held more often. I could see based on my own experience that such lectures really help young people to start deeply thinking of their present and future life.
- ▶ Before this lecture I thought that I should try sexual relationship, that I couldn't wait till I get married. But after this lecture I could realize that I should really wait for true love and a true person in my life.
- ▶ When I was listening to this lecture I could hardly hold my tears. When I was 13 my boyfriend forced me to have sex. I felt so miserable. Now I feel so bad that I am not a virgin. That boy didn't really need me. Thank you for your lecture. Just it is such a pity that you have come late!
- ▶ Why has nobody told us this information before? One year ago I had sexual relationship because of curiosity and I really regret it now.
