

True Mother's message from the Korean Detention Center in Seoul

Hak Ja Han

March 8, 2026

Shared during President Masaichi Hori's Online Worship Service - March 8, 2026

Dear beloved members in Japan, please stay strong.

Heaven is clearly alive even now and continues to work among us. If we look with the eyes of faith, we will realize that Heaven has never been silent.

Throughout the 6,000-year providence of human history, Heaven has continuously guided and led history forward. Even at this very moment, Heaven is working to fulfill love and the divine will through the beloved sons and daughters of God.

The Heavenly Parent, who has waited with patience throughout the 6,000 years of human history, is always with us. In the end, the dream of our Heavenly Parent will surely be fulfilled.

Therefore, no matter what circumstances we face, we must not lose heart. We must continue forward with faith in our Heavenly Parent.

Our Heavenly Parent knows all of our prayers and devotions. Heaven knows every tear we shed and every hardship we experience.

When we look back at the providence, we see that God has always begun new providential works from within times of suffering and difficulty. From a human perspective, it may appear as hardship, but when seen through the eyes of faith, we can see that God's will is being prepared within it, and a new path will open.

When we reflect on the heart of the Heavenly Parent who has waited for 6,000 years of human history, we can believe that the difficulties we are experiencing now are also part of the process of fulfilling Heaven's will.

Beloved members in Japan, please do not lose sight of the center until the very end.

The dream of our Heavenly Parent will surely be fulfilled.
