WFWP International is excited to announce the launch of our brand-new Instagram account: WFWPI Global Activities. It is a fresh global hub created to spotlight the inspiring impact of WFWP chapters and partners around the world.

This account is a shared platform for our international sisterhood, where your activities, stories, and achievements can be seen, celebrated, and amplified globally.

Why We Created This Account?

Across every region, WFWP chapters are uplifting communities through women's empowerment, youth leadership, education, service, peacebuilding, and SDG-aligned action. Yet many powerful stories remain local, unseen beyond national borders.

WFWPI Global Activities was launched to change that by bringing our global impact into one visible, vibrant space.
