**there is no fee to apply, but a \$2000 USD down payment will be
required to initiate the visa process*

Now onto what the missionaries have been up to!

Junior Class Missionaries

Next Gen Mission concluded its first workshop on our brand new campus, check out more here: <https://familyfed.lpages.co/next-gen-property-fundraiser/>
In line with the theme, the missionaries were taught the value of Jesus and the value of True Parents. The missionaries were in trinities to study together and deepen their understanding of the educational content.

Staff Sarah Naito giving the talk, The Value of Jesus

Staff Nadya Kamiyama giving the talk, The Value of True Parents

The first workshop on the new youth campus was a success, and Next Gen Mission looks forward to using it for years to come.

Standing on Higher Ground: I am True Mother's Hope is the theme for this spring mission. In line with our continental director, Demian Dunkley's tour, *Higher Ground*, we want to recognize the spiritual foundation on which Next Gen Mission stands and remember who we are.

Learn more about what's happening in our movement and holy community here: <https://motherofpeace.com>

If you would like to show support, you can do so here: <https://help.familyfed.org>
Missionary teams are now spread out through the western states on the frontline. Please pray for their safety and health.

Senior Class Missionaries

Romania RO

After finishing the 2 Day workshop for guests, the missionaries entered a period of reflection and refreshment.

Their week consisted of a trip to a museum, a trip to Peles Castle, a mountain hike, reflection, and team meeting with their mission leader to discuss their witnessing strategy for their final witnessing sprint.

On Friday, they officially began their 3rd sprint, going out to witness and attend an Italian and Hungarian Culture night hosted by the Empower Team, where everyone had a chance to learn about Hungarian and Italian culture and enjoy some food from the countries. As the next week rolls in, they'll be starting the first full week of their 3rd witnessing sprint!

Senior Class

Austria AT

To kick off the week, the team went on a rainy but refreshing morning hike, taking time to reflect on their mission in Austria and debrief with Entela. With her guidance, they adjusted their schedule to include one hour daily for DP study and lecture practice. They then enjoyed a delicious dinner all together alongside David, who shared his blessing testimony!

On Tuesday, Entela joined HDH before departing. Thank you for visiting the team Entela! The team then planned their weekly PULSE, went witnessing, held a media meeting, and met with new Central European regional leaders Anna and Anatoliy, along with the community—making it a full and productive day!!

Wednesday included a meaningful lunch with Anna, Anatoliy, and David, during which the team shared their experiences serving on mission in Graz. In the evening, they attended Nadiia's (a second-gen sister from the community) piano recital to show support. They were amazed by the heart and emotion behind her music!

On Thursday, the team hosted PULSE on Grounded in Gratitude, with one of their guests sharing a heartfelt main message on practicing gratitude. This week, the team set a new record for guest attendance with 6 guests!

On Saturday, after witnessing, the sisters enjoyed bowling and a café outing with young moms from the community—building connection and feeling grateful for the time together!

Senior Class

Croatia HR

This week, the Croatia missionaries picked up garbage in one of Zagreb's parks, held DP study sessions with guests, and cleaned up the newly tiled Konekt Lab center. Following an eventful week of welcoming the NGM mission leaders and visiting Zadar, the missionaries eased into the week by returning to their roots and cleaning one of the parks in Croatia's capital city. The following days were filled with study meetups with guests, including an online session, as the city was swept by winds and snow—a once-in-a-200-year event!

After the storm had passed, on Saturday, the team worked with longtime guest, Hari, to clean the Konekt Lab center. The team spent hours wiping windows, peeling off old tape, and sweeping the new tiles of the future community center. The team enjoyed dinner with a guest afterward at an Italian-Mexican restaurant.

Stay tuned to see how the missionaries go deeper with their guests and support the community in the fourth-to-last week of their overseas mission.

Applications for the Next Gen Mission year 2026-2027 are open! If you know someone who will be a high school graduate or equivalent, or who is looking to deepen their character, life of faith, and relationship with God and True Parents, encourage them to look here.

As mentioned earlier, the early-bird application period ends tomorrow.

Application — Mission

Note: It takes about 2 weeks to complete your application. You must complete your application to be eligible for the early bird fee, which ends tomorrow!
