

## Ilshin Stone's Stone City Showroom Opens 'Gallery S'

Jeong Soon Jo  
October 1, 2014

On October 1st, Ilshin Stone opened an exhibition showroom in Stone City (Ilshin Stone's Icheon Factory).

The primary marble export partners of Ilshin Stone (with 16 new businesses opened domestically and abroad) were all in attendance at the exhibition, and a diverse array of stones and minerals from stone industries around the world were displayed.

Interior designers, building contractors, individuals interested in purchasing marble, as well as others in the stone business, were free to visit the showroom project.

A stone circulation system was also implemented, which cut down on both time and expenses, allowing attendants of the showcase to freely pursue and investigate all aspects of circulation, including purchasing, in just one visit.
