

Ma non finisce qui

La vita di coppia ci fa crescere attraverso la relazione di coppia. E' sempre buona confrontarsi con altri, scambiandoci esperienze e spunti per crescere insieme e diventare in futuro genitori capaci di amare e trasmettere alla prossima generazione la cultura dell'amore. Vivere nel servire la società è una conseguenza logica di una vita benedetta.

Per questo abbiamo creato programmi e attività rivolte alla coppia, sulla genitorialità, per lo sviluppo di famiglie più responsabili della loro felicità e di persone esemplari.

Dio vi benedica!

Blessing Preparation for Singles and Couples

Italy, November 13 - 14, 2021

By Franz & Patrizia Kerschbaummayr

The first Blessing preparation workshop in Italian language was organised online for both singles and couples who had already received lessons on DP from their Pastors or spiritual parents in their communities.

The workshop was organised by the Blessed Family Department with the support of Pastors after a prayer condition that began 4 weeks before, with the goal to create a base where couples and singles could connect and understand the deep meaning of the Blessing and prepare themselves to receive the Cosmic Blessing. This was done to give support to CheonBo families and help those who wanted to reach this goal and qualify as victorious Cheonbo couples.

The content of the lessons was based on the content of the European first level preparation workshop for first generation candidates and it was adapted to the situation of singles and couples in Italy.

The lessons were based on Divine Principle with a deeper understanding of the family and blessing and about the foundation of faith and substance we should establish to have a new beginning through the blessing.

Our goal was to reach 21 guests in this first workshop, and we were able to reach this goal in the 2 days workshop. Those who missed any part of it received the video to complete all the content.

Both guests and members expressed their gratitude and appreciation for the program and content proposed to them, and some have already expressed their desire to continue their preparation and receive the blessing.

Below you can find some of the comments:

“Very deep and interesting explanation about Adam and Eve and a clear summary of history until today!”

“Thank you. The lessons today by Sergio, Dario and Franz have been

lifeblood for our growth, to help us create a God centered family.”

We would like to thank all those who helped with this workshop, especially the Pastors of our communities, and the spiritual parents who invited their guests and made this workshop possible! A big thanks also to the teachers Lorna and Giuseppe Russo, Sergio Coscia and Franz Kerschbaummayr who invested their time and hard work for the well prepared and valid content.

A big thank you also to our young second gen especially Robin Chionna and Truelove Godonou for their technical support and for the musical entertainment offered by Robin. A beautiful testimony of the matching and blessing was shared by Dario Biava, who was blessed in 2018 and is now parent with his wife Manuela from Albania of two beautiful twin girls. Dario and his wife are members of the committee responsible for the Bergamo community.

The main purpose of this workshop was to work closely together as

communities and Pastors with the BFD to create a clear vision and program for both singles and couple towards receiving the Cosmic blessing.

Reflections from some brothers and sisters:

“We’d like to complement you for the 2 day sessions. You’ve have done a great job, with very deep and clear explanations about the meaning of the blessing. Thank you!”

“It was very interesting to hear about the role of women in history.”

“Hello Patrizia, Franz, Giuseppe and Lorna,

Thank you! We were waiting so long for this type of workshop. From the beginning of the pandemic, we were following many wonderful seminars online but all in English language. If our contacts spoke English, it was ok but what about the others? Poor Italy I thought to myself. Thank heavens and you for this great initiative, you’re a wonderful team!

“I liked Lorna’s lesson, her accent and background. All the lessons were well prepared. The explanation of the Blessing was clear and well done. It’s not easy to summarize DP in short lessons so my compliments go to Giuseppe and Sergio. The lesson Franz gave was very useful to

conclude. I like listening to his lessons with his accent and calm tone of voice. Now Italy has become international!

I’m very grateful for the great teamwork you’ve done and for this workshop. Thanks for your efforts and hard work for Heavenly Parents. Let’s work together to bring one third of Italy to God by 2027.

God bless all of you for your deep heart.”

With great hope we look forward to the second level Blessing preparation and we’d like to thank you all!!
