

UPF Estonia's webinar: Korea - Country of Morning Calm - Personal Experiences

Avo Martinson
February 20, 2021

On the 20th of February 2021, Universal Peace Federation/Estonia had their first webinar under the banner "Korea-Country of Morning Calm. Personal experiences". The purpose of this webinar was to introduce to the audience the life experiences from North and South Korea. The first speaker was Mr. Reigo Tõnsberg, who owns a football team in Estonia and is the main organizer of the biggest summer football tournament in the Baltics, called Pärnu Summer cup. Reigo shared his experiences of meeting wonderful people in North-Korea, his visit to mass-games, and finding the way to contact local football coaches to share about the latest football project "One Korea" which was held already three times in Estonia.

The second speaker was Ms. Liisa Orav, who is a student in Seoul National University. Her major is Korean linguistics. Her topic in the webinar was "Korea Is Much More Than Just Seoul", where she shared her visit with her mother to Jeju island, Daejon, Gongju, and Nagan folk village.

There were many questions from audiences to both speakers.

In the end, UPF Estonia Secretary General Mr. Avo Martinson shared in his interesting presentation how the civilizations had developed and how all civilizations will bear now fruit on the Korean peninsula. He explained the role of the Korean peninsula and that it serves as an encapsulation of the world. As if there will be peace on the Korean peninsula, there will be peace in the rest of the world.

The next webinar was announced to take place on the 13th of March.

What could have been better than to see and hear Little Angels singing "Arirang" in the end of the webinar?

Reflection from Ljudmilla Priimägi: "Thank you very much for an amazing webinar on the topic of Korea. Interesting texts and informative illustrations. I pushed the "Like« button and subscribed. Look forward for the next webinar on the 13th of March."
