The congressman, Dr. Martinez, was given an opportunity to address the audience, and he praised the job that our movement is doing for the sake of true family. Dr. Pichardo expressed the need that we have of building true families. He encouraged the audience to do something for the happiness of their love ones. He said that we as husbands and wives have a portion of responsibility that must be done.

He added that we can make the difference by educating properly our love ones. He encouraged the audience to keep doing whatever it takes to provide a good education to their children. By doing so, we are contributing to the well-being of every member of our family.
