Photo date and location unknown

Often people offered me food and drinks while I was fundraising.

Some in Spanish speaking areas where I was invited to come in sit down and eat.

Maybe the one Chinese woman who not only fed our whole Team of 4 but also opened her house for us to take shower and rest.

She was a very beautiful person because she did all this going against the people of her church who thought we were not to be spoken to and much less heard.

I still remember her kindness.
