Comment from the TV presenter - Your organization is doing good things.

I can say only thank you from humanity for your work.

As well I was invited to youth radio Moldova to explain more details about the next event of IAYSP Europe on UN Day of Happiness - Rise to Happiness.

YSP Moldova Director, Cornelia Garanovschi and her team, continue the "Our Helping Hand" project, one of the winners of the Peace Designer Europe project competition. This time they helped two poor families with children with disabilities from their village. The house of one family burned down recently. After visiting and giving some clothes they started collecting money to support that family

Today UPF Moldova had another invitation by the media. It was the same channel Tezaur TV where Andrei Esanu spoke yesterday about YSP event.

Diana Esanu was invited to share about the UPF Georgia event on March 7 where she spoke about balancing the family and career. For about 15 min. Diana answered the detailed questions of the presenter about who the speakers were, what they said, where the recording can be watched etc. and testified warmly about True Mother's very public lifestyle.
