

## Father Moon gave us the mission to work with Saeilo USA selling precision lathes

November 21, 2018

In 1986 I was called to go to Korea on an IOWC team. It was an emergency to make a spiritual condition for North Korea to not invade S. Korea. After that victory, Father Moon gave us the mission to work with Saeilo U.S.A. we had to sell precision lathe machines in America from Korea.

After my heart opened in Korea I could not relate to these cold machines. So Father appointed me as the sole representative of Korean Auto parts to break into the American industry. So I represented Tong-Il industry in Korea to the Big 3 Chrysler, Ford, and GM. ARE YOU KIDDING ME?

A woman in a man's world, who knows Nothing of Auto Parts, and I have to bring the auto industry to the U.S.?

So I went to a military base outside of Detroit and asked to sell jewelry gold by the inch. I had a table and that funded my apartment and food etc. So I also had to sustain myself in this new mission.

I had already started my family with my husband and he was in the fishing industry while I went pregnant to Detroit area by myself to pioneer the Korean auto industry.

I had a big book of auto parts to read and try to understand, but my pregnant brain had a hard time with it LOL! It was winter and snow up to my pregnant belly. I jogged each day before I became too big. Each day I had to sleep a couple of hours due to sick during pregnancy.

I decided I would do a 40 day condition of walking around the big 3 Chrysler, Ford And GM to mobilize Spirit World. And after the 40th day I would talk to each one of the CEOs! I had the faith and used the formula in Jericho walls falling down after 40 days circling the city. Simple plan and God had to work!!!!

So after the 40th Day, I walked in with a red very pregnant ugly dress. ( they had no professional pregnancy attire back then!)

I walked in to Chrysler and asked to speak with the CEO. I believed spirit world would open the door to the person I would work with. The CEO was not available right then. I left my card and went into G.M. and asked for the CEO

Again not available. So I told Sp. World Ford is the last one! I walked in feeling very pregnant and asked for the CEO of Ford. A very Tall, Slim older man came out and I LOOKED UP AT HIM AND SAID: I KNOW I AM A PREGNANT WOMAN IN A MANS WORLD, BUT KOREA HAS FAITH IN ME TO BRING YOU AUTO PARTS FROM Korea. He smiled at me and put his arm around me and said come into my office! He accepted to work with Tong-il the next time they couldn't get something from Yamaha.

So one day when I had to sleep I had a dream that one of the sales reps who I dealt with at Ford was in Imminent DANGER of his life!!! I woke up and called Ford. I asked for the man in my dream. I told the man his life was in danger Right Now!

The man said that is interesting because he is in a board meeting and he just told us he has leukemia cancer.

Soon after that, Ford needed a 1988 crank shaft for a Mustang that Yamaha wouldn't give them. I sent the blue prints to Korea and we landed the first ever deal between U.S. and Korea!!!!

Do you know how wealthy I would be on that comission??? Of course it was given to the church.
