

Some UC Blessed Brothers and Sisters are Supporting Far Right Politics

Angus McDonald

June 18, 2018

I really did not want to be posting this here as It is an issue that should not exist. It seems though that some UC leaders and Blessed brothers and sisters are supporting Far right politics.

Having worked in a multi-cultural city, London, for a few years I saw it's glory and challenges. My opinion is, and I believe It is principled, that there is no turning back on multi culturalism. It is the Global Village, It cannot be ripped apart and It is not desirable to do so.

Our role should be to breathe life into It. To unite people as centered on God as we can muster. Let us be Unificationists. The alternative is religious war in our cities on ever increasing scale.

You won't force your society apart peacefully. What is It that can be gained from supporting those who talk the language of division and hate whoever they may be? The far right wish to tear up red tape, laws on human rights and political correctness, even laws that make It illegal to persecute someone for their faith.

Laws that actually help and protect us, our movement, Please think this through. Let us be a Power that Unites. I am more than happy to present my opinion to a Court of CIG If required.

Let's have the debate honestly and openly so we can direct our opinion towards our faith and principle. As I Said, Sad to have to be posting this.
