Then we went to a Muslim community that was renting from a Christian church. The Christians were very good people and have passed on our details to the Muslim group to be in contact tomorrow. Even though they may not come to the event we are making connections. There are so many people out there that are open to learning more." -Candace Robertson

FFWPU Interfaith Event:

29th March

Candace Robertson is on fire! She organised an interfaith event "One family under God". Many members came out to support the initiative to bring together people of faith in unity. With the wars currently raging around the world, and fear of escalation, people of faith ought to gather and unite centered on peace. Bishop Nelson Pervaz shared about the concepts and symbols of Peace. Anita Davine shared her experience with war, displacement and the role of religious community. Venerable Bodhicatta took us through a peaceful Buddhist hymn. Randal Apps shared about Middle East Peace Initiative. Rev Daniel Meadows shared about the Blessing and True Parents Vision of Peace. Finally Chris Bruce proclaimed Holy Mother Han and her dedication to bring Peace on Earth in Her lifetime. Thank you everyone for your support and we hope to see this continue as a way to unite all brothers and sisters of faith in our community.
