Youth Service: *24th October*

On October 27, we held a Youth Service. This time, we invited a first-generation member who joined the church during its early years to share the story of how they first came to the church and their journey of faith throughout the years.

We welcomed Uncle Doug, who shared his personal testimony with us. He spoke about how he first joined the church and how, even after experiencing kidnapping and confinement, he never gave up his love for the church or his faith.

Through his sincere testimony, the second-generation members had a meaningful opportunity to reflect on the faith and dedication of the first-generation members and consider how they can continue to build and strengthen their own faith.

We look forward to hearing more stories from our church members in the future and continuing to share our precious legacy of faith across generations.
