

PEAFASSO Two-Day Workshop: The Role of Couples in Building World Peace

Cosmas Obi Okuk

January 16, 2021

Peaceful Families Organization (PEAFASSO) at the Adagom 1 and 3 refugee settlement in Nigeria

"Imagine a group of people who declare, "I am the stepping-stone of God's eternal and unchanging truth. Even though I am hungry, in ragged clothes and uneducated, other than me, there is no one who can hold Your hand with a sincere heart and devotion. Other than me, there is no one who can adjust Your clothes. Other than me, there is no one who can fix Your shoes. Other than me, it cannot be done." On the day such a group of people comes together, they can conquer Satan's world without a fight. We ourselves are the important factor."
By True Parents

The PEACEFUL FAMILIES ORGANIZATION, has started 2021 with a great determination to fulfill her motto for 2021. After offering the 2020 report of activities to our Heavenly Parent and our True Parents in a queer and remote refugee environment named WORLD PEACE HOME, we kicked start this 2021 with a two days workshop under the theme: THE ROLE OF COUPLES IN BUILDING WORLD PEACE from the 12th to the 13th of January 2021.

Today the 16th January 2021, some of the Blessed couples and ardent supporters of this True Parent' vision gathered at the WORLD PEACE HOME yard to work. This farm yard is aimed at setting up an agricultural complex to make a base upon which our Heavenly Parent and True Parents blessing can grip and flourish on earth forever and ever to contribute in feeding the world. This first phase is intended to carry on intensive cultivation to improve on our refugee nutrition. We intend to have a poultry, a fish pond and vegetable sections. I told them that we have to push on. We are blessed persons and we are

wealth. By the time we put words into action, we shall find those Heavenly parents have prepared to work through us.

Those who attended have to trek about 6 kilometers to and from to come and work. We held a Hoon Dok Hae session sharing True Parents words to encourage and improve on their motivations to become flag bearers in inheriting and expanding our Heavenly Parents and True Parents foundations. The families of Adagom 1 had already resolved that each Saturday, they will come and work and carry on education then go home. The Adagom 3 families are soon to surely join their sister Adagom 1's resolution. In this manner, even when as hungry they are heavenly fortune will follow them.

This exercise was wonderful in that, when looking at their ages, and considering their refugee stress from hunger and desperation, the way they worked was very passionate and loving. We did the cleaning of the farm yard, transporting firewood to the World Peace Home for kitchen usages. Prayers were held by Blessed couples to permit the overflow of our Heavenly parent and true Parents' s blessings.

The next Saturday we will gather for such a general working session. We are determined to make more actions than words. We are determined to prove to the world our blessings. We are determined to manifest our true parents foundations where ever we shall be. We are determined to make ourselves True Parents where ever we are. Welcome 2021.

We express our love and gratitude to our Heavenly Parents and true parents and all of you out there.
Aju!!!
