Peaceful Families Organization (PEAFASSO) at the Adagom 1 and 3 refugee settlement in Nigeria

"Resolve that you will not become a defeated or a foolish person and collapse on the way. Determine that you will work your way up through it all and contribute something to this task, so that you leave a legacy of something for God and your descendants that has become brighter and worthier through you."

by True Parents

On the 23rd of January 2021, some members of the Peaceful Families Organization gathered at the World Peace Home, in the Adagom 3 Refugee settlement for Southern Cameroon refugees in Nigeria. They came for a working session to facilitate the completion of this heavenly center and to have a meeting to plan for other activities.

They gathered for a prayer session before work start. I instructed them to pray to our Heavenly Parents and True Parents that they are investing their hearts, time efforts and resources as blessed couples to sanctify this land and sow the foundation our True Parents have bequeathed to us, for Nigeria, Africa and all humanity to benefit and advance the providence of Cheon Il Guk. I insisted that, they should plead to our Heavenly parents and True Parents to accept this as a foundation for all our descendants to become those who will feed the world and realize Cheon Il Guk. Couples present held hands and we all prayed sincerely. We continued a Hoon Dok Hae session, reading from Chambumo Gyeong, before the family meeting.

The women worked down the farm yard planned for an agro complex. They worked to clean the portions

while the men worked at the World Peace Home main hall to fill and level the floor. In two hours of intensive work, the environment changed significantly.

It was very exciting to hear their resolutions which include:

- 1) To take responsibility in raising more blessed persons in advancing Cheon Il Guk.
- 2) To live in absolute sexual purity and fight ardently against sexual immorality through all means.
- 3) To attend all meetings and educational programs
- 4) To involve all their children and relatives to become Cheon Il Guk activists.

Though the turn out was not impressive but there was a greater heart of belonging and concern. We also realized some other couples and persons were not informed of the day. It wasn't possible either to expect all especially with the lots of settlement involvements.

After the meeting, we had group pictures and left for lunch.

We give all praises and honor and gratitude to our Heavenly Parents, our True Parents and all of you out there.

Ajjjuuu!!!!.
