Peaceful Families Organization (PEAFASSO) at the Adagom 1 and 3 refugee settlement in Nigeria

"The path of true love is the path of pioneering, of personally opening a way. Each of you must go the path that Mother and I have walked."

By True Parents

At the World Peace Home, a future multipurpose center for education, conferences, etc., situated by a hillside somewhere in a natural bush corner of the Adagom 3 Refugee Settlement for Southern Cameroon Refugees, gathered some blessed and single dire heart members of the Peaceful families Organization. Though in a Sunday when many persons have very busy schedules, these persons gathered to participate live in the UPF day of peace webinar.

In this new center undergoing construction, many things have to be put in place. The miracle we are experiencing is that, it is only at the center of the building that we can have internet network. We did our best to get connected and participated.

We just had our first internet gathering experience. It was not easy watching from a laptop screen. We have a good loud speaker. The very amazing thing is that some were copying notes. I had been training them to learn especially from our very experienced leaders during video watching or events like this. It wasn't a film watch but a learning class. They were very enthusiastic and I could see hope on their faces.

While they were listening and watching I was struggling to do translations when we have French

speakers. I was also a camera man and manager of internet operations.

It was really fantastic. While we are working to improve and meet up with all challenges to pursue our Cheon Il Guk vision, we find the future very bright.

We express our love gratitude to our Heavenly Parent, our True Parents and all of you.
