Peaceful Families Organization (PEAFASSO) at the Adagom 1 and 3 refugee settlement in Nigeria

SOME FOUND JOY AND REASONS TO PRAISE GOD IN A VERY SPECIAL WAY TODAY.

This 5th day of January 2022 witnessed a powerful exposition of the divine principles in a one day workshop under the theme: GOD-CENTERED METHODOLOGY FOR LASTING PEACE AND SUSTAINABLE DEVELOPMENT at the LA KRISTOS HOTEL, OGOJA, CROSS RIVER STATE, REP. OF NIGERIA. This workshop organized by the EJAGHAM CLERGY ASSOCIATION FOR PEACE AND DEVELOPMENT (ECAPD) and the HEAVEN AND EARTH LEADERSHIP SEMINARY (HEALS).

There were 15 participants among them were a Catechist from the Catholic church, 6 male pastors and one female Pastor, 2 female civil servants from the local government office, one of the pastors brought his wife, and 2 single ladies and 2 single youths, and myself.

The lecture was centred on the fundamentals that God is the origin of peace and development, God being our Heavenly Parent and we are God's children through lineage. The lecture deepened the necessity of being connected to God by lineage to be able to possess the potentials of peace and development, and to establish a culture of peace and development in a family. Participants were drilled to understand that a

God-centered culture entails a universal, interdependent, and mutually prosperous way of life rooted on absolute sexual morality. Altruism was included as a way of living for the world through a family, tribe, nation, world. Emphasis were doubled to explain the course of lasting peace and sustainable development as an eternal course from life on earth to life beyond. Everything was done to lecture all of these an original design God had in mind before creating humans.

We took The life of Rev. Sun MYUNG Moon and Dr Hak Ja Han as a case study. I virtually taught this couple's life of God, their engagement to parent humanity, their achievements and their present efforts in making them world one family under God. We watched interesting videos on the engagement of Africa Union, South East Asian nations, and world clergy bodies to this vision.

The atmosphere was loaded with heavenly inspiration in a manner that an exciting view of the Rev. MOON'S couple surfaced in applause.

Participants asked questions and demanded for more materials about the Rev. Moon's family and life. It was very exciting. The participants demanded more materials for the lecture, some testified about the power and necessity of this knowledge and way forward to fulfill this great vision.

It was truly a great and wonderful day for heaven and us...
