### **Noel Jones**

Mother Moon, the Mother of Peace, your love, your faith, your leadership and sacrifice have inspired the faith community and leaders of all faiths to come together as family. The way we can bring joy to God, our Heavenly Parent, is by joining together with the Mother of Peace, to bring the world together as one family. Mother Moon, with a mother's heart, you are inspiring us to give joy to our Heavenly Parent by making faithful Blessed families and coming together, too, as faith leaders to embrace all people.

### Samuel Radebe

Dear True Mother, the Mother of Peace, congratulations for hosting this Peace Festival, to bring joy to our Heavenly Parent. The Creator, Umfihlakalo, is the God of all people, the Heavenly Parent of humanity. In African spirituality, Umfihlakalo is the sustainer of life. Life without him has no meaning. We all need to work to build a world of interdependence, mutual prosperity and universal values, where we all value, respect and love one another as children of the same parent, our creator, Umfihlakalo. This is the only way to experience true joy and happiness.

Hello Mother Moon! I want to congratulate you and all the dignitaries as you gather for the Peace Festival in Korea and all throughout the world. As you have taken on and believe God will bring about the reunification of North Korea and South Korea, and you've gathered and called for unity in the church, among all believers in and followers of Jesus Christ, I ask that God will give you great wisdom, that he will lead you, he will strengthen you and he will continue to hold up your arms, for isn't it pleasant for all brethren to dwell together in unity. May God bless you today and always.

#### **Nuru Mohammed**

The holy Prophet Mohammed taught us that people are God's family, and serving people is like serving God. This simply means that service to humanity is service to almighty God. We need each other. We cannot do without one another, because when we serve and reach out to one another, that will definitely be a source of blessings and a source of happiness in our lives.

Bandu Pokurale Respectable Mother of Peace, you have overcome all suffering and prejudice. You have traveled the world and revealed that sacred humans can be divine channels for God Almighty. You have invested everything for the peaceful reunification of your homeland. Dear Mother Moon, you are a champion of peace. You are the mother of the universe and the mother of peace. Shiva and Parvati are seen as an ideal couple In our Hindu tradition. You and Father Moon have manifested that ideal in your lives and teachings.

### Jesus Manuel Mejia Quirozo

In this moment, I want to express my love and greetings to True Mother. How can we bring joy to God and gratitude to our Heavenly Father? I believe sincerely that the following points are keys: 1. Praise God with honesty and sincerity as children do. 2. Pardon people with love. 3. Without holding any grudge, appreciate one another as we have been taught by Dr. Moon, our True Parents and our Heavenly Parent. Mother Moon is seeking to bring about peace among humanity and the entire world. Amen!

### Waku Higashi

May Buddha's grace and benevolence be with Dr. Hak Ja Han Moon for all eternity. She is seeking to bring about peace among humanity and the entire world. She is moving our hearts and teaching us who Heaven Parent is. She is practicing it in her daily life. When we receive the light from True Parents and expand it, this light can become a great light for the whole world. I hope you can keep this light in your hearts, and we can all gather and follow in the footsteps of the Mother of Peace, Dr. Hak Ja Han Moon.

#### **Chidanand Saraswati**

In our tradition, we say "the world is one family." This simply changes how we think, and therefore, how we live. As the divine father and the divine mother, God loves all children and wants them to be healthy and happy. So, to me, the best way to make God happy is to become truly one global family, a family that cares for one another, serves one another, protects one another and loves Mother Earth and all species.

## Mohammad Abou Zeid

I was always engaged with the activities of UPF. All these activities were about building peace. We are doing our best to achieve peace. All this work was under the guidance of True Mother Moon. She is a true role model for peace for the whole globe, for the whole world. I wish that everyone can take True Mother Moon's example and try their best to follow in her footsteps in promoting peace and trying to make this world better.

**Dobong** As a person leading the grand flow of the new millennial era from the twenty-first century, Dr. Hak Ja Han Moon is indeed the True Parent of humanity. As the Mother of Peace, she is seeking to bring about peace among humanity and the entire world. May Buddha's grace and benevolence be with her for all eternity.
