

## The Importance of Prayer for True Mother and Korea At This Time

The current Unification Church's situation in Korea is extremely serious with its gravest institutional crisis in history! They are threatening to dissolve our church! Something like in Japan where our church there is not only dissolved but its legal status is taken away.

The president of our church mobilized 600 members to pray in front of the Gapyeong-gun at Chung Pyung while the police were inside raiding it. In America, president Rev. Dunkley had a prayer call on zoom which was attended by 1000 members. When Israel crucified Jesus, the Temple was destroyed, and the Jews had to pay a tremendous amount of indemnity. True Mother is extremely concerned about Korea. What is happening to True Mother is a form of crucifixion. Prayer for True Mother and for Korea at this time is extremely important. Do not take this lightly!

The name Jeong is Wonju, a nickname given to her by True Parents. That is why she is also called Jeong Wonju. Recently on Friday Aug 8, 2025 - she was summoned by the Korean prosecutor to appear at 10 am local time in Korea. True Mother can also be summoned as the ongoing investigation is inching closer to the apex of the Unification hierarchy of power.

Many wondering where are all the True Children during this critical time? As an analogy, one may compare them to Jesus' disciples. Will they run and hide or stay and protect their Mother!

Even if we have a good team of lawyers defending us, the issue here can be complicating as it can lead to opening too big a can of worms like more newly found allegations of casino gambling, Mrs. Hyo Nam Kim (as 'Dae Mo Nim') manipulation of Chung Pyung fund, criminal breach of trust, money-laundering, large stash of cash found in secret hidden room and etc. The church may get off the hook let say for most allegations but the opening can of worms can lead to more newly found allegations! Including the current allegations, it only takes one or two cases with concrete evidences, enough to put some top Unification leaders into jail. Do not take this lightly as the ongoing investigations into the alleged Unification scandal is an extremely serious predicament for our movement. Moreover, our church's delicate situation in Korea can be further complicated by invisible whistle-blowers and manipulators from H1 [Hyun Jin "Preston" Moon] and H2 [Hyung Jin "Sean" Moon] groups including anti-Unification Church factions.

Hence at this juncture, it is extremely important to offer sincere condition of devotion and prayer for our movement especially the health, safety, inner strength and protection of our True Mother including heavenly unity among our members worldwide from top to bottom!
