

WFWP Russia - Growing as a Human: Inspiring the Next Generation

Olga Vakulinsky
June 1, 2026

On June 1, 2026, WFWP Russia was invited by our partner, Marya Levina, President of the organization Women as Treasure of the Nation, to participate in their forum, Growing as a Human. WFWP representatives were asked to give presentations on moral education for both children and parents.

In addition to our experienced WFWP lecturers, two young WFWP student volunteers, Marya Shurshilina and Alina Melega, were invited to speak on the dignity and value of young women. It was truly inspiring to see these young speakers address the audience with such confidence, sincerity, and passion for true family and moral values.

The program was highly interactive, providing opportunities for both parents and children to share their thoughts, ask questions, and engage in meaningful discussion. The forum created a positive atmosphere for learning, reflection, and dialogue on the importance of character development and family values.
