What did Jesus say to the thief on his right when he was on the cross? He said. "Today you will be with me in paradise."

Why did he say "paradise" and not "heaven"? Jesus came to earth to form the True Parents.

Mary, a central figure, did not fulfill her responsibility. Zachariah's family, the Jewish people and the Israelites did not fulfill their responsibility.

Therefore, Jesus said, "I will come again." He said he would come to hold the marriage supper of the Lamb.

God's ultimate creation was a man and a woman. They were to grow and finally receive the blessing from God.

They should have become the True Parents of mankind, yet fallen humankind was the result of not doing so.

Therefore, your maturity is most important. You must have a lifestyle aligned only with me, with the True Parents!

Just as a sunflower always aligns itself toward the sun, you must unconditionally unite with True Mother. Until you are ready to receive the blessing, you must maintain your purity.

You must not have greed like that of Adam or Eve. The result of that was the Fall.

Heaven is a place that only blessed families can enter. Jesus used the word "paradise" rather than "heaven" because he had no family of his own.

People today are lucky to be able to meet True Parents. You must receive the blessing through True Parents.

Only when you do that can you take the path to be in True Parents' lineage, which has nothing to do with the Fall. Please bear this in mind.

You did very well the other day. good work. When I call, you will respond unconditionally, won't you? Thank you.

Who did Jesus leave the keys to the kingdom of heaven with when he died on the cross? It was Peter! Life on earth is important. You are very lucky! You are people filled with joy.

You have received the blessing through True Parents. You have been reborn through the True Parents. What more could humankind wish for?

Then, every day that you are alive on earth, you must live your life offering joy and glory, with a heart of hyo jeong, to heaven.

In light of that, you who have received the blessing have responsibilities.

Those around you, your family, tribe, race, nation - all 7.4 billion people of the world must know the True Parents.

They must reborn through True Parents. I am saying they must receive the blessing.

Why did Jesus give the keys to the kingdom of heaven to Peter? God's principle of creation was the perfection of man and woman, the perfection of husband and wife. When the husband and wife become one during their earthly lives they realize the kingdom of heaven on earth.

After you have lived your life, the blessed families can live an eternal life in the eternal world! How blessed are you to be in that position?

The most important thing is that you are the embodiment of True Parents! You were blessed through the True Parents. It will take some time until all 7.4 billion people of the world return to God's embrace.

The blessings will continue in accordance with the principles of the providence. However, do you know how great of a blessing it is to be able to say

"I received the blessing under True Parents' direct dominion"?

Then you must fulfill your responsibilities, no matter what, you must fulfill your responsibilities while True Parents are still alive.

You must go out as filial sons or filial daughters and loyal subjects. Your descendants will proudly praise you forever and you will be respected, congratulated throughout all eternity.

Will you go down that path, or will you stop? [We will go.] Work hard! [Yes!]

The beginning of Christianity was in Europe, but Christians definitely did not understand God's providence.

That is how Christians are today: They say "God help me. Let my son, those in my family, do well in school, help me be better ..."

In this way, they pray only self-centered prayers. That comes from not understanding Heaven's Providence.

Without anyone understanding the essence of why Jesus came.

Christians have held on, waiting with the faith that he would soon come because Jesus said he would return.

After two thousand years have passed, that communism came out of the Christian cultural sphere is shocking.

Christianity's course includes many mistakes. Manmade systems and rules restricted Christians, which is why religious revolution took place.

A new religious movement came, changing from era in which only high members of clergy could read the Bible

to the which King James had the Bible retranslated into English and the general population could read the Bible.

Therefore when we look specifically at Africa, Christianity spread through Europe and then to Africa and the rest of the world.

Similar to what the Bible says, "The first, Europe, shall be last and the last, Africa, shall be first. "Did you know this is that time?"

I have toured Africa many times, and in the beginning, it was very difficult. However, I love all of you.

True Parent's and Heavenly Parent's dream is one human family. Due to the fall of human beings, however, humankind could not approach God. Why?

Because indemnity remained. I said this the other day: Only through the perfected True Parents can you approach God and that means through the blessing.

Change of lineage! That is why blessed families are so precious.

Jesus could enter only Paradise because he was unable to form his own family. Heaven is a place families enter.

For two thousand years, there were many members of the clergy and many people of good faith, but their Lineage was unchanged.

That is why no one has gone to heaven. Only through the True Parents can you receive a new lineage,

one unconnected to Satan.

The condition for that is the blessing.

Therefore, we, in FFWPU, go beyond religion, race, and borders, and we stress the importance of the blessing because we must forge a path forward as God's children.

Through Christian culture began in Europe, Christians were unable to put true love into practice, live for the sake of others, because they did not know the entire providence.

I am saying that Christianity began in love but Christians were unaware of what the nature of that love was. So in the end, the development of the Atlantic Civilization Did not lead to living for the sake of the occupied nations, but instead took away the culture of those nations.

Many cultural artifacts from all over the world are on display at the "British" Museum. That is not true love. Yet the Pacific Civilization, which began centered on True Parents, Will go out to the world with true love. True love!

People have been unfilial toward Heaven for the past six thousand years. From God, hurt and in pain, we have been asking for things. No one among humankind said he or she would work to realize God's dream.

Yet it is only through True Parents, that true families learn. Blessed families have overcome all hardships and are now fully striving to fulfill Heavenly Parent's and True Parent's dream.

We must realize the substantial kingdom of heaven on earth. God is the Creator. He is the owner. All the divided nations in the world believe the world is theirs, but all things must be returned to Heaven.

They must be returned to Heaven and be redistributed through True Parents.

With that heart, I hope you will be able to take responsibility for Africa. That is why Africa is blessed.

Now, in the springtime of the Cheon Il Guk providence, we must consider how we can substantially and specifically realize the settlement of Cheon Il Guk.

I see that we are at the point when we must strengthen our resolve and change the way we do things.

Especially our region in Europe - from where Christianity spread - is sleeping. I have repeatedly said that they did not know God and Jesus' true essence.

A framework created by people is inadequate to contain all people's hearts. That many problems that should not have occurred did happen within the Christian culture is true.

When we look at national histories in Europe, we see wars including the hundred-year-war and wars involving Islamic groups caused countless casualties.

How can we create the kingdom of heaven on earth without first solving these endless wars and endless conflicts, when people do not know about the kingdom of heaven on earth or about God?

We must know God. The dream of God, our Creator, was to become the True Parents of Humankind. The omniscient and omnipotent God hoped to become the True Parent through the first ancestors, humankind's ancestors, once perfected, who could have had dominion over the substantial world. That was our Heavenly Parent's dream. According to the Principle of Creation, God must be the same from beginning to the end.

For this reason, God had to begin the providence to somehow educate people and have them pay indemnity and raise them again. Humanity was unaware of Heaven's situation.

How difficult must have been, that it took the long period of four thousand years to send Jesus Christ, God's only son!

For thousand years...

This was an unbelievable circumstance. Yet what happened?

Jesus could not fulfill the will and had no choice but to go the way of the cross. Think about this. How must God have felt? We know through the Bible that the world became dark in a matter of hours. Heaven was shocked, Jesus said, "I have much more to say to you, more than you can now bear."

Think about those circumstances, that heart. The True Parents have blessed you. Blessing! It is the most hopeful word throughout history. It is only through this blessing that you can stand in God's presence.

As Jesus was dying on the cross, he told the thief on the right "You will be with me in paradise." - He said "paradise." People today think that "paradise" is the same as "heaven" but it is not.

There must be a kingdom. The kingdom of heaven on earth and kingdom of heaven in heaven, this is the kingdom!

God is the absolute owner...

Therefore, we must realize Cheon Il Guk.

Just like a sunflower, which always aligns with the direction of the sun no matter where the sun is, you must be the same. You must deny yourselves. You have come together to live that kind of life. Europe worries me the most. We must save Europe. We must properly educate Europeans, save them, and reveal the truth to them.

Many countries have changed their perception of us through IAPP.

They have realized that without working with UPF, their nations cannot survive or develop further. That kind of growth must also occur in European nations. My conclusion is that we must strengthen this aspect in Asia and South America also; through UPF, we must create a more active movement, able to achieve national restoration. It must change. It must be changed through True Parents' sons and daughters.

While I am still on earth, we must give them the joyful opportunity to return to God's embrace under True Parents' guidance. Heaven's providence will absolutely be completed and be victorious. I say this repeatedly, but substance is important. Jesus too on the course of dying on the cross gave Peter the keys to heaven. That signifies that the earth is important.

Remember these words "Whatever you bind on earth will be bound in heaven, and whatever you loose on earth will be loosed in heaven".

Your life on earth is important. How happy you must be that you can live your earthly lives with True Parents! You are in historic position that your descendants can boast of.

Therefore, you must throw away selfish thoughts and greed. You do not know how seriously I have thought about this. I have to take all of you with me. Our destination is fixed.

We need your effort in order to expedite this. We need your devotion. There are righteous people, people Heaven has prepared. The three leaders I met from Africa are like that. You must find people like them.

How hard Heaven must have worked to raise them to live this way! Your responsibility is to connect these people to True Parents.

Thus, you cannot just sit there and think. You must move. You must find them as you busily move around. Depending on your actions, the kingdom of heaven on earth, the settlement of Cheon Il Guk, can be realized soon.

Heaven has waited for six thousand years. It has been six thousand years according to the Bible; however, it has been even longer. You understand, don't you?
