I now announce the motto that we must uphold until 2020. 'Let us become true owners of Cheon Il Guk who practice true love in resemblance to our Creator, the Heavenly Parent!' We shouldn't forget Heavenly Parent in our daily life. During our earthly life, we should preserve the Earth well which Heavenly Parent, the Creator made. What we need to focus on is witnessing. We need to preserve well this beautiful world of creation in which our Heavenly Parent invested utmost effort, by expanding the reach of our foundation.

Those who have no sense of ownership for all things will fade away. We need to have true ownership! As we restore this nation and the world, let us not forget this for even a day, an hour or even a minute until 2020. Let us think and think again, receiving heaven's wisdom, and then go forward changing the nation and the world mobilizing all the methods, all our ability and everything that we are capable of as humans. Without having changed them, there will be no future for us. We have to change them. We need to become true filial sons and daughters and patriots who can offer results every month that will give our Heavenly Parent, the Creator, cause to trust us and be happy.

In this year 2014, we must solve problems one by one. As you see in the motto, 'Let us become true owners of Cheon Il Guk who practice true love in resemblance to our Creator, the Heavenly Parent!' we are not talking about 'we may become,' but we are talking about 'Let us become.' Instead of hoping to

accomplish someday, we must be victorious immediately, and we must do it right away. The first anniversary of the Foundation Day is just around the corner, so you all should make a strong determination to begin your action.

We must repay heaven with our results. The methods that we have been using so far must change. We need productivity. That is the only way for us to survive. Please tap into your ability and creativity. You must discover ways to accomplish, instead of expecting someone to do it for you. Do you understand? I ask you to be reborn and become people of Cheon Il Guk.

Don't become the people who just come and go; become the people who practice ownership and a sense of responsibility. These are words of blessing promising a new start for the New Year.
