

# Victory Celebration for the 3rd Anniversary of the Universal Seonghwa of Sun Myung Moon, True Parent of Heaven, Earth and Humankind

## True Parents' Prayer "Become Proud Children who Fulfill Their Responsibility Until the Last Day of Their Lives"

The Victory Celebration for the Universal Seonghwa 3rd Anniversary was held on the 18th day of the 7th month by the heavenly calendar (August 31) in the Chapel on the 2nd floor of Cheon Jeong Gung Palace, with True Parents. The Ceremony was attended by 500 people, including members of the True Family, Special Emissaries, Regional Presidents, other church leaders from around the world, and senior staff from providential organizations.

### Appreciation for the devotion and hard work for the Universal Seonghwa 3rd Anniversary

True Mother's message at the celebration was one of encouragement, "Thank you very much for all the sincere devotion and hard work all of you have done in preparing the Universal Seonghwa 3rd Anniversary. As I said yesterday, as blessed families you must all fulfill your responsibility while you are living on this earth to become filial sons and daughters and loyal citizens who remember True Father. All of you promised to True Father yesterday that you would do this."

She asked, "Today, since we are having a victory celebration, shall I sing a song?" and all of the leaders gathered from around the world enthusiastically shouted, "Yes, Mother!" True Mother smiled at them and said, "If we are going to make one united world, we need to use a united language, so what you have to say is not 'Yes, Mother!' but 'Ye, Omonim!'" stressing again the importance of studying Korean, and her comment was answered with warm applause.

She shared further about the bright future of the Unification movement, "During these past few years, my heart has been rather heavy, but today I feel that weight has been lifted, and my heart is light and happy. As you heard in the reports, I have seen the passion of more than 3,500 youths and students, our future leaders. In particular, meeting the 200 young people who attended the Top Gun Workshop gave me great hope. They will be the central leadership to guide the worldwide providence in the future.

In closing, True Mother offered a prayer for those gathered, "The dream of our Heavenly Parent, and the dream of True

Parents is that the 7 billion people of this earth can become one family attending True Parents. This is the mission that all of you who have received the Blessing and you leaders must certainly fulfill. It is my hope and request that before the last day of your lives, all of you must become the kind of proud children who can say 'I have completed everything.'"

After she had finished her speech, True Mother called the people who had given reports to come forward, and she sang "Saranghae Abonim" with seven of them.

Regarding the scriptures, she shared, "I congratulate you that today, with the completion of Chambumo Gyeong, the three Cheon Il Guk scriptures have now been completed in three languages. This is indeed a day for thanksgiving. I would like to thank all the members of the committee, the professors, and everybody else who worked on Chambumo Gyeong, of course, and indeed, on the compilation of all three scriptures. Congratulations."

She continued, "The beginning and end of Heaven are one and the same. The goal of our Heavenly Parent is the same as the goal of True Parents. Because of this, True Parents' words are also the same from the beginning up until now. It may be that things were expressed a bit differently at different times to suit the time that they were spoken, but the central points are exactly the same. This is because the goals of Our Heavenly Parent and True Parents are the same. There are many scriptural works, but the Three Cheon Il Guk Scriptures contain the essence of True Parents' entire providential history. The are an extract. They are like a perfect jewel to which nothing needs to be added or subtracted."

In conclusion, True Mother emphasized the importance of the scriptures, "You must understand that for the three years following the Universal Seonghwa, this work has continued in order to convey the love of our Heavenly Parent and True Parents, and their desire to embrace each one of you and all of humanity. That is why nothing can be added or taken from these scriptures. They are our core. Nobody can change that. They are perfect." (Cont'd on page 3)

Joan of Arc saved her country, but your mission is to save the entire world and fulfill Heavenly Parent's and True Parents' dream and desire."

In particular in South America, in order to prepare young people who can make the foundation for restoring the nations, saying they should focus on activities for young people and CARP activities.

Because Nicaragua is the last holdout for communization (in Central and South America), True Father worked to support that country even while he was going his ordeal at Danbury. Nicaragua was indebted to True Parents for this, and as a show of gratitude, Managua National University, located in the capital city, offered an honorary doctorate. The providence in Nicaragua must bear fruit."

# "Serve the Unique and Eternal True Parents and Complete Your Responsibility and Mission as Filial Sons and Daughters"

## International President Moon Sun-jin's Welcoming Message at the 2015 Cheon Il Guk Leaders Special Assembly

The 2015 Cheon Il Guk Leaders Special Assembly was held as part of the 3rd Anniversary of the Universal Seonghwa of Sun Myung Moon, the True Parent of Heaven, Earth and Humankind from the 20th - 22nd days of the 7th month by the heavenly calendar (September 2-4) at the Cheongpyeong Heaven and Earth Training Center with a total of 550 leaders from 120 nations, including FFWPU International President Moon Sun-jin, International Vice President Park In-Seop and WFWP International President Moon Yeon-ah in attendance. Here is a summary of the first day's opening ceremony and the opening address by International President Moon Sun-jin.

### True Parents' deep heart and providential leadership

As we begin this Cheon Il Guk leaders special assembly, I would like to start by offering my deep appreciation and eternal love to our beloved True Parents. Both of

our True Parents are guiding us toward the path to victory, moving our hearts and minds. As we mark the 3rd Anniversary of True Father's Universal Seonghwa, and we reflect on True Father's life and accomplishments, it also makes us think about True Mother's unconditional love, care, devotion, understanding and her deep relationship with True Father. True Parents are absolutely one. They are our unique and eternal True Parents!

During the three years since True Father's ascension, as True Mother faced new difficulties and challenges, she has carried the incredibly heavy burden of our Heavenly Parent's providence. She has overcome all of her physical and emotional pain in order to rescue the work of the movement from grief and confusion.

True Mother did not reveal any of her sorrow and she has maintained her absolute faith that everyone will complete their 5 percent portion of responsibility and return to True Parent's bosom. With her unshakable resolve True Mother has continued

to move forward without hesitation toward a brighter future for all of our Heavenly Parent's children. Through Vision 2020 True Mother has given ongoing courage and strength to all the blessed central families and those in the younger generations around the world.

Today also True Mother is giving unlimited love and hope to the 7 billion people of the world. I hope that we can all console True Parents, become one so that we can heal their painful hearts and become filled with love and joy and march forward toward the ideal of one family under our Heavenly Parent.

In order to do this, we must unite and serve True Mother, we must inherit and expand True Father's legacy of peace, blessing and love and we must continue Unification movement activities and determine to bring victory. There are the three responsibilities we must fulfill to become True Parents' filial sons and daughters.

### First, we must serve and become one with True Mother

Cheon Il Guk leaders! I ask you to study with prayer the many threads that connect True Mother's life course and True Father's life course. You will realize more deeply how closely True Mother is connected with True Father. If True Mother's absolute place of unity is denied, True Father's absolute value will suffer damage at the same time. If we deny either one among our two parents we are denying our own life. If we are to become true sons and daughters we must first know our true roots.

If you say there is no True Father or True Mother, then what are we? Nobody among us could receive the Blessing. As all of us, following the words and teaching of True Parents, learn the way to become true filial children, we must serve True Mother who is here on the earth and become one with her.

Since none of us are perfect, we must all go through a growth process. There may be growing pains as we struggle through the learning ground of love. From time to time as we do our best to move forward we may encounter difficulties or differences of opinion. This is part of the natural process. We must take care that our differences of opinion do not lead to division or collapse.

When we have a difference of opinion, following True Parents' guidance, we should practice true love and maintain a humble attitude. It is more important to work for the public goal than your individual goal. If you follow this guideline, you can find a way to set up policies to solve differences of opinion between an individual and the group and also variances of opinion throughout the Unification movement. Even in a difficult or complicated circumstance, if you can find oneness, you can find a way to love the people in any situation.

The true love that True Parents have taught cannot appear in a place of division or conflict and the value of the family and true love cannot appear in a place of damage. Conflict and division block God's providence. We must establish oneness with True Mother and pursue the Heavenly Parent, True Parents, true love, peace and forgiveness, and overcome division to pursue oneness. (cont'd on page 6)

## Secondly, we must inherit and expand True Father's legacy of peace, blessing and love

The second thing I want to emphasize is that we must inherit and expand True Father's legacy of peace, blessing and love. In order to bring light to the world with the fireworks of blessing and love, True Parents invested all of their passion, energy and blood, sweat and tears. We must take those holy fireworks that our True Parents have given us and witness and practice living for others to make those fireworks shine more brightly and more broadly.

The stories of how you came to join the church are very precious. One thing we can learn from them is the importance of one-to-one witnessing and devotional church life. At the same time, it is also possible to make a deep connection to today's younger generations through social networking (SNS).

In order to connect others to True Parents and our worldwide activities you need to be able to follow today's trends, along with tradition methods like witnessing, promotion, and building a community. You need to be able to share True Parents' words through SNS. In this way, you can widen the foundation of the Unification movement and connect many people to True Parents and our community.

The world is changing quickly. While we maintain a connection to our tradition and core identity, we need to assess life in today's world. In particular, as religious people, we need to be more creative and innovative to find ways to catch the attention of today's youth, the majority of whom are not interested in religion. True Parents are the source of life that has made it possible to continue Unification activities, and True Parents' words and Hoondokhae are precious traditions for our families. If we can create a true love culture centering on

True Parents' tradition, we can give courage and hope to everybody around us. If we go forward by inheriting and expanding True Father's legacy of peace, blessing and love, we will shine together with True Parents' light.

Third, we must bring results by continuously expanding Unification activities. Thirdly, by continuously expanding Unification activities, we need to bring fruits of victory. True Parents have established many providential organizations in order to let many people know about Heaven's providence in a short time. True Parents' activities certainly do not remain exclusively within the wall of religion. They have established works in every field of endeavor in order to achieve the vision of "One Family of Humankind Under our Heavenly Parent." In order to completely achieve this goal, we must continuously expand Unification activities and harvest the fruits of victory. In particular, we must find professional staff in each field so we can operate our non-profit organizations with appropriate management structures and policies, financing, human resources management, promotion and planning.

One of True Mother's great accomplishments is setting the basic structure for Cheon Il Guk through the completion of the Cheon Il Guk constitution and scriptures, along with the creation of the Cheon Il Guk Supreme Council. In addition to this, work is also underway in other areas to prepare for the settlement of Cheon Il Guk. All of these are evidence of True Mother's wise leadership.

Brothers and sisters! I ask all of you to devote yourselves to fulfilling your responsibilities and missions. And beyond that, please make effort to develop the Unification community into one family centered on True Parents. Our goal is to expand continuous Unification activities on the foundation that True

Parents have prepared, to bring the fruits of victory and to return glory and joy to our True Parents.

## Remember our core strengths

True Parents have invested their passion throughout their whole lives in order to accomplish the Will of Heaven. How could they do that? It was because True Parents have lived their lives perfectly with absolute faith, absolute love and absolute obedience to our Heavenly Parent. True Parents are people who have become absolutely and eternally one with our Heavenly Parent.

True Father taught us words of truth during his life on the earth for the sake of the liberation of God and the salvation of humankind, and invested everything in order to accomplish the work of Heaven. This passion of True Parents originated in true love. Without true love, our lives would be dark and hopeless. This means that the most precious thing we need to inherit from True Parents is True Love.

True love is the essence of true life. We who have inherited true love must complete the mission of giving new life. Also, with a sense of vocation we must realize Vision 2020 and the substantial Cheon Il Guk. To be able to attend True Parents and be here together in our worldwide family community is a great blessing. Let us do our best so that our True Father in heaven and our True Mother on the earth will be proud of us.

I want to express my appreciation for your love and devotion and sincere efforts toward our Heavenly Parent and True Parents. I pray for the eternal blessings of our Heavenly Parent and True Parents on your families. 🙏

Prior to Sun-jin nim's address, chairman Seuk Jun-ho offered the report prayer, in which he prayed, "As the substantial selves of God, our True Parents achieved final unity and bequeathed to us the guidelines of life as a Cheon Il Guk citizen through the promulgation of the Cheon Il Guk Consitution and the compilation of the three scripture volumes. Please guide us so that we are able to fulfill our mission and role

as heavenly tribal messiahs as we follow this great path of completing the substantial Cheon Il Guk."

Vice-President Ahn Jun-seok conveyed his heart of gratitude and respect for True Mother as he welcomed all the participating leaders in his welcoming address, saying, "At a time when we must guide all people that do not know about True Parents, to the position of true children and establish the substantial Cheon Il Guk as soon as possible, True Mother called all Cheon Il Guk leaders at this special assembly and provided them with the opportunity to strengthen their determination and make fresh starts."

## Deeper Understanding of True Parents' Stature, Providential Awareness, and Sharing of Vision

Special lectures, including True Parents' Stature and Value, the Meaning of the Third Universal Seonghwa Memorial and the Providential Dispensation after Foundation Day, Vision 2020 Strategy for the Substantiation of Cheon Il Guk, and other lectures, were given at the special assembly.

In his lecture, he revealed, "The True Parents of Heaven, Earth and Humankind are the only begotten son and daughter of Heavenly Parent, whom He created as the unfallen Adam and Eve. They are the Returning Messiah, the Savior and the True Parents whom He sent after Jesus Christ. Also, the True Parents of Heaven, Earth and Humankind are the first ancestors of humanity that are in complete oneness with Heavenly Parent." He also said, "All fallen people including those in the spiritual and physical worlds must become True Parents' of Heaven, Earth and Humankind's children through the Blessing Marriage. All people in the spiritual and physical worlds are brothers and sisters under Heavenly Parent. As Cheon Il Guk citizens, let us become one with the True Parents of Heaven, Earth and Humankind and work on gradually developing Cheon Il Guk."

Chairman Ryu Kyeong-seuk gave the lecture titled, "The Meaning of the Third Universal Seonghwa Memorial and the Providential Dispensation after Foundation Day." He conveyed his heart of gratitude and respect, saying, "True Father's third universal seonghwa memorial marks the end of the mourning period for Father. Humanity, in the position of True Parents' children, was to offer these mourning conditions; yet, True Mother offered them on behalf of all humanity, forgiving and loving all people."

He then gave a providential explanation of today's era, saying, "The Cheon Il Guk era is an era of justice and one attendance for one's parents. He said, "After we commemorated Foundation Day and entered this substantial era of Cheon Il Guk, our direction and destination as the Unification Community became clearer than ever. The holy candle that was handed down to all leaders encompassed several meanings including those of gratitude, repentance, mission, peace, heart, liberation of ancestors in the spiritual world and perfection of descendants in the physical world, and hope. Expansion of the Substantial Cheon Il Guk Foundation in Accordance to the Dispensation of the Providence

In the morning of the fourth day, Secretary-General Cho of FFWPUI HQs presented FFWPUI strategies prior to the resolution and launching ceremony. Mr. Cho first revealed how FFWPUI HQs including the Planning and Coordination Office, the Administrative Support Department, the Mission Support Department and Educational Support Department went through some restructuring, quoting True Parents of Heaven, Earth and Humankind's words on it. He then went on to say, "In order for us to have the stature of a world-level religion, we must register with the Korea Conference of Religions for Peace (KCRP), the Asian Conference of Religions for Peace (ACRP) and the World Conference of Religions for Peace (WCRP), and cooperate together strategically.

Mr. Cho also emphasized making True Father's Seonghwa into a brand and the importance of the mission project of New Media. Director Jin Heon Yong revealed, “Until now, we have adhered to a one-sided, cramming system of education, but at this time we are able to scientifically examine the disposition of the participants using various ‘tools’, based on which we can compile statistics of ourselves and learn what kind of people we are and what others are like and what values we uphold.” He next explained the advantage of the program, saying, “When you complete this program, you will know how to determine others’ dispositions and how you should approach them and speak with them. Thus, you will be better able to form good family relationships.”

In the next session titled “Journey to find my heart”, Director Young Sook Shin of “I We Family Consultation Center” taught a family education program using videos, Blessing satisfaction surveys, self-respect questionnaires, and activities journals. Director Shin said, “Seeing Blessed Families who should be living in happiness instead living in conflict, I felt so bad that I created this couples’ program.” She went on to emphasize, “You need to know about yourself and respect your spouse’s individual character and natural disposition, and make efforts to understand them.”

In addition, Professor Byeong Il Choi of Sun Moon University taught a

self-discovery program under the title, “Understanding myself and the family”, in which he gave a lecture on how to analyze one’s propensities and manage one’s family, and Rev. Rather than simply looking at a certain phenomenon, she thinks about its more essential aspect and connects it to Heaven.”

Lastly, she said to the participants, “When a member of your family is lacking in some way, you are bound to do everything you can to help, understand and support them and to minister to their wants. I hope that the family workers who have come here from around the world will return to their countries with such a heart, and dedicate themselves to look after the Blessed Families and Church members.”  <Article provided by Family Department>

He went on to explain the meaning of the pilgrimage, saying, "From now on, when we offer prayers we need to report how much we have accomplished in carrying on with the unfinished work left by True Father. We should set out on this holy grounds pilgrimage today with such a heart."

Director Seung Man Bang said at the opening ceremony held at Cheong Hae Training Center, "Cheong Hae Training Center and the Yeosu region are historic sites where True Parents have offered devotions in the form of Hoondokhwe for 23 hours and forty minutes and also through fishing, as they fought against the rough waves, for the overall completion of the Ocean Providence." Introducing the place as such, he added, "I hope that representative families from around the world can experience the deep love of True Parents for humanity at this place, and become true, filial sons and daughters in the age of substantial Cheon Il Guk."

The Korean Church Family Department in charge of the pilgrimage divided the nine major holy grounds across Korea into two pilgrimage courses, appropriate to the schedule of two nights and three days and the objectives of the pilgrimage, so that each pilgrimage team can visit six holy grounds. <Article provided by Family Department >
