Okay then, please take a seat. I feel good to see such young and innocent people like you. As the translating is being done 1 or 2 minutes later, your response is not prompt! (Mother laughing) I am happy to receive the reports of the 40-day workshop and to witness your sincere and brilliant performances. There was an ideal from heaven that I needed to follow after responding to heaven's call. The ideal was the one which Heaven had awaited since the creation of heaven and earth. However as Adam and Eve had fell and failed in fulfilling their responsibility, Heaven had to undergo the enormous paths of agony.

But God is omniscient and omnipotent, that's why He could not leave any "Failure" in the history of providence before heaven. Therefore Heaven had suffered in order to conclude this Providence, thus inevitably enduring with lots of pain. This so called, 6000 years of restoration of indemnity that the Bible says and what we have already learned.

The restoration of indemnity was so much difficult to be established that it took four thousand years in order to set up a proper standard of an individual, family and a nation which Heaven can relate with... Can you imagine those four thousand years!

Then after the four thousand years, what happened to the Messiah? Human beings again committed unforgivable sin to heaven causing big pain and agony. Jesus who had come two thousand years ago passed away leaving a message that he would come again. So what would he do after he comes back? He said that he would hold a feast for the little lambs. In other words, the two thousand years of Christian history after Jesus is to seek for the only begotten daughter. Do you understand? -- Yes

At my age of 16, I had to make up my mind after receiving Heaven's calling. Who else can end this tedious and sorrowful history of restoration of indemnity except me? Therefore, I strongly made a resolution that I will succeed without fail at that time. It was the time when the Holy Blessing was taking place as you already had learned through some lectures, haven't you? -- Yes.

And I believe that you might have heard of the "7-year formula course of True Mother" during the Divine Principle lectures, didn't you? -- Yes.

The 7- year course was the way of True Mother that she herself had to establish a victorious foundation after restoring the 6 thousand years of history of indemnity that Eve had lost in the old days. If Mother

were not able to make this happen, the declaration of God's Day would have not been possible. Do you understand? -- Yes. The victory of Mother was the victory of God". No one else could replace the history of True Mother. This is why I, myself have been taking a lead in the providential works that I had to do.

When you are reminded of 'Foundation Day', you think of the number '13'. Why the day of God's not January 1 but January 13? Why is that so? Because the number '13' is very important. The Bible says that "A morning comes after a night..." about God's creation. All history of providence of Heaven is to set up numbers. Heaven's history of providence is to face the day "13" which is beyond the creation of 12-day. Then what is the day "13"? The number of 13 is regarded as a number of "Rest" which is beyond the number 12, which is the number of creation.

This is why this number 13 is so much important and the history of providence of True Parents is to set up the lost number of '13'. Do you understand? -- Yes.

Therefore, I, myself with my own body gave birth to 14 children who have the same blood lineage, which is more than 13. Especially in the Old Testament era, there are many things related to numbers. As True Mother, I could accomplish the restoration of indemnity and unify everything through myself. I made it into one. This should also be regarded as a great work of True Mother. Do you understand? -- Yes.

So, when I had completed the 7-year course and God's Day was declared, I was 24 years old which is the same age as you after the Holy Blessing.

Now, I have listened to testimonies from two representatives of you who made strong resolution. And I do hope that each one of you will say "I will succeed without fail!" as a child before our True Parents. -- AJU (applause). In this way, you are all blessed, chosen and are happy people. As much as we owned everything, we must share it to others. This is the way you can receive more blessings. In other words, you yourselves need to raise up and give birth to many people.

Furthermore, it means you should be able to accomplish the mission as a Heavenly Tribal Messiah of more than 430 couples and as well as to take the lead in the mission of restoration of a nation no matter what kind of responsibility you may be given. AJU! (Applause).

Please keep in your mind that it is such a blessed time for you to experience lots of miracles in which you reach out and move forward with a strong resolution centering on True Parents. -- Yes. (Applause)

I have been fighting alone to accomplish my own responsibilities even though I was only with True Father. But you have many brothers and sisters here. They are 120. They are your friendly army force. So please keep in your mind that if you become one and go forward with the same goal there is nothing to be afraid of, nothing impossible and guarantee there is no failure. (Applause)

You might have had lots of questions, but I believe I already gave you all the answers. -- Yes.

The four-position foundation centering on True Parents has already been accomplished. This is why Brothers Hyo Jin and Heung Jin among True Children are the ones who had fulfilled their responsibilities as filial sons and as loyal retainers before True Parents and humanity and every one of you.

They are your elder brothers. You live your daily lives all the times as if they are staying with you, then you are to own both your physical body and spiritual power to the source and moving forward. That's why you must accomplish one world centering on Heavenly Parent by attending True Parents in your daily lives.

That one world is heaven on earth. The heaven on earth is the completion of Cheon Il Guk. I hope that you could become proud of being a great Asian Top Gun and succeed without fail with all your courage so that you can advance the Day of the completion of Cheon Il Guk! (applause, cheers)

These are some gifts that I prepared for you as I feel sad to part from you, so take a good look. (applause) This time, Dr. Yong will hand this over to 115 trainees. Please distribute now. And I will be giving the gifts to the lecturers personally.
