About: Transmission of Directions of True Mother for Chile

Dear blessed families and members of Chile

There is currently much confusion in Chile. True Mother said that disunity and conflict are the work of Satan and God does not dwell in that place.

In this current period of providential transition there is a vacuum and chaos (disorder, confusion)

The most important thing is to know exactly what the center is and unite to it.

Say whatever you want, the center are the True Parents.

Some say to be centered in True Parents, but in fact ignore the international headquarters and continental headquarters, who execute the words and instructions of the True Parents

Within the Principles, that's a big mistake.

The continental leader is appointed directly by the True Parents.

And the appointment occurs in the name of True Parents.

Then, following the appointment of True Parents, World Headquarters officially announces it in a statement.

However, last February 15 a group of families blessed Chile, claiming to work for their country's providence, ignored the guidelines of the continental leader personally appointed by True Parents, forcing an election and choosing a representative.

Although an official statement canceling the election was issued, this was ignored.

On February 26, I personally informed True Mother at the Cheon Jeong Gung in detail about the situation in Chile.

Mother was very concerned about Chile and said that those who do not serve the True Parents, but instead follow true children, cannot be called blessed families [*Note: The original translator decided not to use capitalization for word "true children"*].

I emphasize that what True Parents bless is the position, which if not preserved, you abandon it, and said that members of Chile who follow the true son that promotes [activities] prohibited by True Parents, should repent soon.

Moreover, as it is written in the Bible, whoever blasphemes against the Holy Spirit will not be forgiven, [she] warned that whoever disobeys True Mother, who is the substantial Holy Spirit, their paths will be closed.

She said that Hyun Jin Moon and his activities have nothing to do with the providence because they are not authorized by Father nor True Mother, and all members must repent and return as soon as possible (to Parents).

And she especially ordered me to go there and share this with you in detail.

And even if they are true children they bear partial responsibility, which has no value if it is not recognized (by Parents) and that they must be held accountable in the spiritual world.

Saying that if we act according to our way of thinking without being centered on True Parents, Satan or

some evil spirit will meddle in between, she stressed that at this time we must center absolutely on True Mother.

True Mother also commented that as she warned Rev. Kwak to quickly repent 3 times, when he didn't repent he would have rebelled against Providence, to wake up, she also warns that the blessed families in Chile wake up and repent, and that the way for a faster return of Hyun Jin Moon to Mother is by not helping him.

And said that whatever you establish by disobeying True Mother is established by Satan, which may be somewhat attractive externally but it can't be eternal, and she expressed regret saying it was unfortunate what happened.

Dear blessed families and members of Chile!

Only True Parents are the center of salvation.

If you rebel against True Parents, who will save you?

Neither the children nor anyone else can.

She also said very seriously that if you persist without repenting, the time will come when you are erased from the registry of blessed families, and said that I go there by express order and to share this with you.

Beloved blessed families and members of Chile!

Although you have sinned by disobeying the guidelines of the continental headquarters representing True Parents and by following Hyun Jin Moon, I hope you all respond, all blessed families and members, to the directions given by True Mother and repent and follow her.

Soon I'll see you personally and I wish that we all open our hearts and share together moments of conversation.

Yours Truly

Dong Mo Shin
