*There was a man who had two sons. He went to the first and said, 'Son, go and work today in the vineyard.' 'I will not,' he answered, but later he changed his mind and went. 'Then the father went to the other son and said the same thing. He answered, 'I will, sir,' but he did not go. 'Which of the two did what his father wanted?'*

*"The first," they answered.*

*Jesus said to them, "Truly I tell you, the tax collectors and the prostitutes are entering the kingdom of God ahead of you. For John came to you to show you the way of righteousness, and you did not believe him, but the tax collectors and the prostitutes did. And even after you saw this, you did not repent and believe him. Matthew*

21:28-32

*If the kingdom that Jesus desired was only that of the heart, it would be eternally impossible to realize the substantial Kingdom beyond that. It would also be eternally impossible to realize the kingdom transcending the family through the society to the nation. CSG 674*

Greetings!

Before I share some thoughts on "Executive vs. Providential Decisions," let's take a look at Hyung Jin Nim's insightful sermon on "The Kingdom Nature," which was preceded by a report by Rev. Inoue, the pastor of the Unification Sanctuary in Kumamoto, Japan on the Sanctuary response to two major earthquakes that took place there on April 14 - 16.

More than 80,000 homes were damaged. 5,000 homes were completely flattened. 1,400 tremors so far this year. Bridges were left much higher than the roads that lead to them. Many roads are impassible. 49 died. 1,300 were injured. Many lives were saved because local men took initiative to put out fires.

The Kumamoto Sanctuary moved out of their old church building after the Declaration of the new CIG Constitution last October. Father appeared to Rev. Inoue, asking, "how do you like the new church?" On April 15, the former church had the house next door fall onto it and crushing it, but the new church was not affected.

After the two earthquakes, many in the congregation moved in to live together. They felt that "Father is living with us."

Hyung Jin Nim teaches that "God's judgment is love." Hang onto Christ. In the midst of the tremors Rev. Inoue asked Father what to do and received the words, "Do HDK." They started reading Father's words. Fear left them, as they were filled with words of faith.

Afterwards, they needed to find 5 new homes for those whose homes were destroyed, using financial support from around the world to purchase new homes.

The liberation of 37,000 Christians who were martyred nearly 400 years ago took place a few days before at the Unification Sanctuary Ancestor Liberation event on April 10. The epicenter was Newfoundland. The new constitution is shaking Japan and the world! ([DONATE to Kumamoto Relief](#), designate for Kumamoto Relief)

In his sermon on "The Kingdom Nature," Hyung Jin Nim explained that the study of government originally was to understand how it can become corrupt, how centralization of power corrupts and the importance of understanding how evil works.

The federal government is now forcing the transgender agenda on all school districts in the country, saying that children in elementary school should be allowed to choose their gender, with gender-confused boys allowed to take showers alongside girls in the girls locker room.

Sexualization of the culture has led to a society that is more and more confused. It is impossible to change x or y genes in every cell in your body. A report by the American College of Pediatricians states that the move to indoctrinate children with [the idea that they can pick their gender amounts to child abuse](#) and points out that:

- As many as 98 percent of gender confused boys and 88 percent of gender confused girls accept their biological sex after puberty without any counseling.
- Those who use cross-sex hormones or undergo sex surgeries even in the most LGBTQ affirming countries still have suicide rates 20 times higher than the general public.

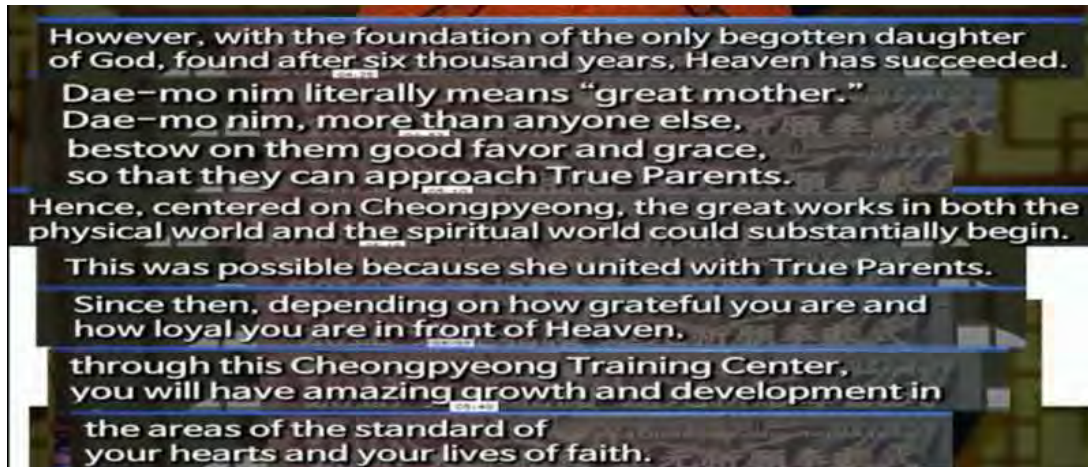

- Conditioning children into a lifetime of chemical and surgical impersonation of the opposite sex amounts to child abuse.

Elites are now pushing the acceptance of pedophilia. A recent article in SALON magazine glorifies a pedophile. Former president Bill Clinton has reportedly made 20 visits to a Caribbean island owned by billionaire sex offender, Jeffrey Epstein. Sex cult practices becoming normalized by being re-labeled as "Minor attraction syndrome." When a society cannot distinguish between good and evil it undermines the proper structure of the family.

We need to stand up against the use of public schools to indoctrinate and confuse elementary and middle school age children just as Hyung Jin Nim stood up by saying that, "we could not stay in the palace without desecrating Father." The perfection of Mother should have been staying in the object position, where she and all of us could receive the love of the Sun/Son who is the true subject.

Instead she claims that the "sinless Only Begotten Daughter" is the fulfillment of Christian and Korean history. Even Mrs. Eu confirmed that Mother was not united with Father regarding the successor.

In Mother's recent speech at Cheongpyeong, she proclaimed that "after 6,000 years, with the victorious foundation of the Only Begotten Daughter of God, Heaven has succeeded. Daemonim literally means 'great mother.' Daemonim more than anyone else bestows on them good favor and grace, so they can approach True Parents. Hence, centered on Cheongpyeong, the great works in in both the physical world and the spiritual world could substantially begin."

The mother of Mother "more than anyone" bestows on them good favor and grace? Increasingly, Father is less and less mentioned. Salvation comes from going to Cheongpyeong?

A lawyer for the FFWPU in Japan was appalled by the totalitarianism of the FFWPU constitution. She started weeping tears of gratitude when she heard "Breaking the Silence" and the new CIG Constitution.

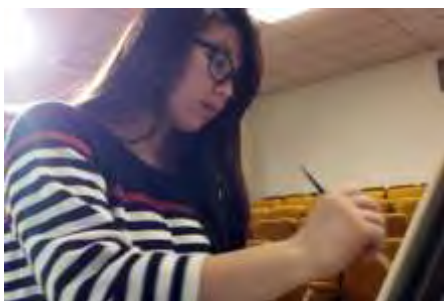

Father has many descendants, including from different mothers, but only one successor. Father chose ONE to be the Kingship line.

When you leave the monotheistic framework, you open the door to polytheism. No longer are we beloved objects of the one God, since now there are many "gods" that relate to each other.

The map of the world will change in the tribulation time. Satan will fight hard. Things will get worse, especially for believers in Christ, but it will not last forever. As members of the Isaac generation, we should be willing to stand on the altar.

When you start martial arts and face real fighting, it can be very humbling, but at least you know where you really are. It is liberating when we face reality. One can start developing from there.

*Mary Ann Larea painting during Praise Worship*

Hyung Jin Nim urged Mother 3 years ago not to go down the road of changing Father's words. She said,

"everything will go well. Think happy thoughts." But happy thoughts don't make it real. Better to face reality and then make effort to become better.

**Even though Mother promised no more legal actions, Mother IS taking legal actions against her own son who is Father's heir.**

Marxism is the opiate of the intellectuals, who often are attracted to central planning and government control by an "enlightened elite" in their own image, but they don't get rid of the monopolies, they become the monopoly, regulating everything. Venezuela is an example of centralized control which promised utopia, but has destroyed people's freedoms and livelihoods. The Tao Te Ching, which is 4,000 years old, taught that the king who rules least is the one that rules best. He does not interfere in peoples' lives.

*Praise Painting based on Psalm 65\_9*

The economy does best when there is more freedom, letting the markets, made of the choices of millions of free consumers, work. Another example is permaculture, which allows many things to grow, not just one crop. Let the ecosystem develop without excessive interference. **Hyung Jin Nim talks with Shin Joon, anointed by True Father as the 3rd King, about this. The king who does the least does best. In Cheon Il Guk, the citizens have the rights of kings in a kingdom of producers. If you develop your skills, you will prosper.**

### **Executive vs. Providential Decisions**

I recently received a question regarding Hyung Jin Nim's thoughts regarding male succession of the Messiah's lineage and Mother's authority with reference to the English monarchy.

Hyung Jin Nim's perspective is obviously not based on what the English monarchy does, although I do think that the impactful role of that monarchy during the last century, in which they encouraged and uplifted the British people through 2 world wars and the Cold War shows something about how a "monarch" can play a very important role even without having "executive" authority.

In the new Cheon Il Guk Constitution, the power of the King is limited. While he has a role in appointing members of the Supreme Court, he has no power to wage war or over spending or taxes.

Before Hyung Jin Nim was fired as the American FFWPU president, for teaching openly about Absolute Sex and the 6 Mary's, he was trying to work with Mother even though he was aware of her future plans, which he was privately entreating her not to proceed with.

Of course, Mother went far beyond "executive" decisions to making "providential" decisions:

- reversing explicit directions from Father regarding his anointed heir/successor,
- deeming the sacred scriptures that Father offered to heaven and distributed to hundreds of leaders at public ceremonies all over the world to be in need of major surgery, and
- creating new "sinless OBD" Cheongpyeong-centered theology.

It's apparent that she removed Hyung Jin Nim because she was more committed to these providential changes than to working with him to lead the Unification Movement into a new era.

[Man-ho Kim speaking at S. London Peace Embassy](#)

Did you know that FFWPU leaders assert that Mother "moves forward with greater strength" than True Father? In a speech given by Man-Ho Kim at the South London Peace Embassy one year ago, on May 17, 2015, he said, "True Mother is profoundly spiritual but she is also extremely logical and rational... And she moves forward with greater strength than True Father." (Starting at 41:30) Was his willingness to elevate Mother over Father a key reason Man-ho Kim was awarded an honorary doctorate from UTS last year?

With Mother overruling Father's providential declarations, feminist theologians at UTS are cheering the end of previous "sexist" ages of restoration. If it weren't for Hyung Jin Nim standing up to preserve and honor Father's words we would all be living in the Age of Reversal of (Father's) Dominion. Perhaps that is why the FFWPU is now so determined to stop the growing impact of his ministry by taking legal action against Sanctuary's use of the Tongil symbol and the term "Cheon Il Guk," both of which originated with Father. Isn't it absurd to think that Father's heir would not have the right to use those anytime he wishes?

Given previous attempts in history by religious authorities to enforce their will through governmental power it is doubtful that FFWPU's legal attack dogs will be successful, but hiring lawyers can be VERY expensive. Were brothers and sisters in the U.S., whose lives were transformed by Father's teachings, asked whether their precious donations should be used for lawsuits, rather than for Divine Principle education? Since the FFWPU sees them as "members" whose proper role is to receive directions, rather than citizens whose consent is required, the answer is obvious.

May God bless you and your families!
