

Kingdom of Miraculous Power

We just heard about this movie. In Dixon City, it's out, okay; and, it's called "The Case of Christ." This is based on a true story. I've heard it is done so well. I saw the trailer. It is fantastic. It shows about the former editor of the Chicago Tribune, who was an atheist, a very intelligent, intellectual atheist, who said, "I'm going to disprove Christianity. It going to be so easy, because all my atheist friends, all we do is mock it, and say how stupid Christians are for believing this mystical mystery religion. This is going to be so easy." So, he's like the editor of the Chicago Tribune. He's educated at the Ivy leagues, all this kind of stuff. "This is going to be so dang easy;" So, he gets into it, and he starts studying about. What is "The Case for Christ," okay, and he uses his investigative journalist skills to investigate the historicity of Jesus' claim, etc, and, you know, I'm not going to ruin it for everybody, but based on the story of Lee Strobel, who is, of course, one of the biggest evangelists now, today, okay. So, it's done really well. It's done by the same producer, right, that did "God's Not Dead." Remember how good that was, "God's Not Dead?" So, maybe what we'll do, remember when we organized to see "Hillary's America?" We went together. Maybe, we'll choose a day, and, whoever wants to come, we'll meet at that movie theater, and see that movie. How does that sound? So, okay, that's very cool. Pure Flix. I think they're the ones who did, "God's Not Dead."

And here we go. This happened in Chung Pyung. Now, you saw last week, you saw the demonstration with about thirteen people. If you watched The Korean King's Report on Wednesday, you would have heard Tim talking with the one our leaders there in Korea, and he gave a full report about the demonstration that's happening now in Chung Pyung. Now, we know this is micro-macro, and this last week there was thirteen people. They did another one this week. Fifty plus people showed up to demonstrate in front of Chung Pyung. Here, they are with the with the big banner. "King of Kings, Father Sun Myung Moon, True Father, Sun Myung Moon, Second King, Moon Hyung Jin, and Third King, Moon Shin Joon." There it is, a big banner that says it, and in front of Chung Pyung. This was actually held during the Minister's Convocation of the Family Fraud; so, while they were in there pandering, trying to keep their fraudulent positions, here are our members outside. Sanctuary brothers and sisters out there. There was Rev. Kim. He was also here. He was here for three months, I believe; and, we have folks from Japan. Everybody knows Mr. Sawada. Mr. Sawada, he's like a real patriot out there. He's in from of the Japanese headquarters, like every week. Sometimes, he's out there alone with this big like Japanese war flag. Is that him? No, that's not him; but, they came out with this big Samurai banner. That was actually used in the Samurai times, right, when they went into war; and, Mr. Sawada and the whole team of Japanese brothers and sisters, too. There they are. Over fifty plus people on the streets, and on the mountain of Chung Pyung, demonstrating against the Han Mother and the heresies. There they are. Do we have the audio file of that? Do you have the audio file?

The Han Mother speaks, and is translated by Rev. Hyung Jin Moon.

"So, for over two thousand years, the only begotten daughter of heaven is finally found. So, uniquely, for the for the first time in six thousand years in 1943, I am the only begotten daughter born in 1943. You can't deny it in six thousand years. My parents gave birth do me; but, I knew of God, the Father. My grandmother and my mother admitted that about me. Almost all humanity, the only ones who knew of God, the Father was me. Notice, did you notice somebody's missing from that picture? Did you notice, right? If you heard in Korea, you heard it; but, of course, Father is totally omitted. Totally omitted. Now, that's because she's saying she knows God the Father, because, she believes she's God the Mother, and she told me that, of course. You know, we talked about this; and, I told her, "Mother, if you say this, you going to get all the curses of the Bible that are promised heaped upon you;" and now, everytime she speaks, of course, it's more and more blatant, more and more obvious, more and more impossible to hide. More and more impossible for the Family Fraud to hide, and so, now they are being proven as the known liars and frauds that they are. It's sad, but it's true; and what a crisis it would have been if we went along with it. If we, the appointed Cain and Abel went along with it, if Father's heir and successors went along, my gosh, what a disaster that would have been.

So, that is on the front in Korea right now. What is it? Seven demonstrations. Seven demonstrations at Chung Pyung are planned now in the next two months, or something like that. Already, there planning seven more demonstrations; and, of course, they are organizing this. The people on the ground, the sister from Yeosu was an actual boat Captain under Father. Was her name Yukea-San; and, she was on the boat with Father all the time? She was one of the Captains; and so, she's seen Father up close, and she was so disgusted how he was totally eradicated and erased, and she is a True Bride of Christ, so she stood and said, "I got to do something, and started this movement." She's now going directly to Chung Pyung and demonstrating.

What's interesting is because, they've been doing all the Freedom Rallies. They've been going and leading. You see the Million Man March they did Seoul, and the Five Million Man March; and, the organizers of those marches keep bringing us to the front? Remember that? I showed you those pictures. They've been fighting like the Leftist Party for the last two months when they went to Korea. Like what has the Conservative Party been doing? They're like nuts. What the heck they've been doing? They're like smoking crack. What are they doing?

The Sanctuary Church is doing the work of the Conservative Party out there in Korea trying to get some direction for this nation that is plummeting, spiraling into this death cycle of not only Communism, but now this potential major crisis in East Asia. So, that's happening in the East.

Very, very interesting. People are now starting to rise up, starting to stand up; and, just because, they're fighting in the same spirit of Satan on the macrocosmic level, they're fighting against the Communists. They're fighting against the Leftists. They're fighting against all these propagandists. Immediately, they are emboldened to go battle at the microcosm; and, it's like easy. They're out there marching against, like thousands of Communists; and so, they go to Chung Pyung and set up rallies. The Spirit of fear is out of them, now. They're just brave now. It's like, they've got no fear in terms of, "What's you all going to do to me? We've been fighting Commies the last two months, right;" so, they are filled with the Spirit of God, filled with the Holy Ghost.

Remember last week's Scripture? It was how about the Kingdom of God is of righteousness, peace and joy and the Holy Ghost. That's the Kingdom of God. Not only at the macro level with the nation state are being, like being a righteous nation, because it is a free place. It has maximum freedom, but also responsibility that comes with freedom; so, there is no federal state, which can the welfare, which can destroy or implode the communities, where they can bring them under their enslavement. All those things are illegal in the Kingdom; so, it is a place of freedom, just like the Garden of Eden. God gave freedom to humanity; but, it has responsibility, too. You have to be a moral person. You have to act with righteousness. You have to serve other people. You have to take care of your neighbor. You have to be willing to serve other people, and that's how you get rewarded in a place of freedom and responsibility.

If you betray that trust, if you betray that thing, then your reputation goes down, and your potential for success goes down. It's directly tied to our individual morality; so, righteousness, peace, we know when people are allowed to be free, and allowed to be sovereign, because we established Christ as co-heirs with Christ, and all the citizens have the right of Kingship. They have the rights of only the satanic kings had, which is what? Sovereignty, territory, and the means to defend that territory; and, that's why in the Cheon Il Guk Constitution, the Kingdom of God's Constitution, it is very clearly embolden that not only property rights, etc, but the right to bear arms is essential in the Kingdom of God. Essential. A King is not a King, if you can't defend your territory. You may have territory, but if you cannot defend it, you're no King. You'll be able to defend your territory from evil, and evil doers.

And, it's not that you're out there trying to pick a fight. It's when the evil knows when good is powerful that they're kept in their place. Just like this on statistics, when citizens are able to be armed, then the murder and drug related crime rates, homicide rates plummet, because everybody knows that everybody's armed in that community. You're not going to do stupid things; so, righteousness, peace and joy is in the Holy Ghost.

Now, today, we're going to do something a little different. We're going to go into what's happening in the world. We have so many issues. We talk about that in The King's Report. We talk about that in Sunday service many times. We have this very large situation with President Trump sending fifty-nine Tomahawk missiles, and blowing up certain air bases in Syria, okay; so, there is a serious... There are serious escalation issues. There's different perspectives and angles along this, okay. On the one perspective, this is unconstitutional. The act of war is supposed to go through the Legislative branch and through Congress, okay. This is not put into the Executive hands. The founding fathers of America did not give it to the power, because they knew once the executives have power, they are likely to use that power for war. The founding fathers knew that; so, they gave it to the Legislative branch; so, it has to go through Congress, and there has to be a debate about it.

There has to be a national debate, and of course, Rand Paul, the Senator from Kentucky, a real patriot, a real God centered person, a real sovereignty individual, a true Kingdom Gospel individual, of course is saying, this is unconstitutional. We should have had this for debate. This decision is too fast. Within twenty-four, they claimed in was a chemical attack. In twenty-four hours they said, it was Assad. Absolutely, this was Assad, even though it hasn't been proven. We have evidence of the rebels, who are ISIS, even though he has used chemical weapons on people, and said it was Assad; so, we don't know who did it, but we're trusting the Intelligence communities that lied to us about WMDs, that lied to us about 9/11, that lied to us about every other war.

About Libya, Benghazi, everything; and, most of our intelligence is coming to us from Turkey. They did a forensic test and analysis on this chemical use this Sarin gas on the people, the tragic victims of the

Syrian attacks; and, the Turkish government, who is run by Erdogan, who is now an open supporter of the Muslim brotherhood and ISIS and a radical Jihadist. You understand that folks, okay. They're the ones that we're trusting for the data, that, this was a chemical attack done by Assad, okay. Well, there's serious things that we can have a problem with that, okay; so, twenty-four hours is very fast to decide, who did the military strike.

Now, on the larger picture, there are also other people in the Liberty Movement that say, "Hey, wait a minute. There's lots of information and a larger picture here, and that is the Administration would have reason that they were meeting with the Russian elders telling them that their going to attack Syria; get your Russian troops out. We don't want any Russian casualties;" and, so for example Breitbart is starting to break that down. InfoWars with Alex Jones, huge patriots is starting to break that down; and, they're taking is, that, there's a larger picture with China meeting with Trump in Mar-a-lago in Florida. He has to send a stronger message, "Hey, don't try to start a nuclear war out in East Asia. I am capable of enacting war out in East Asia. I am capable of enacting war against you. Don't blow up South Korea. Take care of North Korea. Stop trying to eat up the China seas, the East Asian seas, which they are doing. They're claiming eighty percent of the seas in East Asia now."

I mean, they're nuts. They're total tyrannical dictatorial demons. We know they are the red horsemen. They're Chinese Communists Maoists murderers that oppress 1.6 billion poor Asian people; and, they are putting them in their place supported by the Rockefellers, and these big banking cartel families, praised by them. Lauded by them in 1979, Rockefeller wrote an article praising the Maoist Regime, that murdered over a hundred million people. That shows you what kind of demons these people are.

So, the larger scale picture is that Trump is trying to send a message to China saying, "Hey, hey, hey, don't screw with me. I got big boy pants on. I'm not just a business man. I'm ready to fight you, if you threaten East Asia." So, there's also that perspective as well. So, we have to see what's going down. What's happening. Of course, Trump has bombed the Syrian air bases. Unfortunately, they're like a mile away from a very small Christian community that's constantly under attack by radical Jihad, that's now potentially at risk. That city of Christians is now at risk.

And of course, you have to understand, as Trump is attacking Assad, Russians are helping Assad get rid of ISIS; so, by us bombing Assad, we again, are helping ISIS. This is, of course, what the military was against, the patriots in the military in 2012, they were against this saying, "Hey, we don't want to be the Air Force for ISIS. Stop telling us, Obama, to go in and telling us to go and bomb Assad's regime." He's fighting ISIS. We don't want to cover for ISIS, you see.

There's a big rebellion with General Flynn, and a big part of the military saying, "We don't want to be the Air Force for ISIS. Assad is bad, yes, he's bad, Russia's bad, yes, their bad, but ISIS is worse; so, we don't want to go in and let ISIS take over." So, again, we have to see what's happening in Syria. We told you, it's going to get worse before it gets better; and, we know the demonic power blocs. We know the political Satanists are frothing at the mouth for World War III; because, now they're being exposed, and they're being seen for the demons and the Satan worshippers and the pedophiles, and the Luciferians that they are, especially at the top.

Okay, so it is a very intense scenario that we're in geopolitically on a macrocosm that is brewing and stewing, and that has repercussions to the whole world, folks. If Syria blows up, and we're in war with Russia, they suck us in a war with Russia, and Russia comes out strong, saying, "Hey, hey!" Trump is coming out yesterday, saying, "Hey, I'll hit Assad again." Russian's saying, "Hey, don't do that. We're trying to get rid of ISIS." Now, we get in a conflict there, that Middle East conflict, then, it becomes more chaotic. History has shown that when we trying to do regime change, it does not work. It backfires on us. That vacuum is filled by the radical Jihadi Muslim Brotherhood, or ISIS, or Saudi backed Wahabi groups that it's over, and that only destabilizes more, it oppresses the people even more, and it doesn't allow them to choose their own democracy, or their own future; and, it of course, makes them more radical Jihadis that want to kill us, kill Americans, okay.

So, there's many, many, many, many layers to this scenario that's coming; so, we need to be praying for our President, for Trump. We were one of the first to get out there in the open and support Trump from the beginning. As you know, the Washington Times, the Family Fraud were total pathetic idiots. What a shame, what a shame. Father started the Washington Times to stand up for sovereignty, for freedom, for the Kingdom. People think they endorsed Trump in the end. They didn't even endorse him. They said, whoever the nation chooses are the ones who is going to be President. They didn't actually come out and endorse him. if you read the actual quote and endorsement. Pathetic!

Of course, now Trump goes and attacking Syria, who's applauding him? That's a problem. Who's applauding him now? Hillary Clinton is saying, "Great job!" Hillary, the demon, Clinton, the witch. John Podesta, pedophile, you know to Marina Abramovic, spirit cooking, blood ritual, sperm ritual participating Satanists. Their camp is praising him for attacking Syria. Guess who else is praising Trump? John McCain. Senator McCain. Surprise, surprise. Yes, he loves every war, every war. Yeah, more wars,

more wars. More death to Americans. These war mongers. He's pathetic. These continual war mongers are the ones that are lauding Trump in this situation, in this scenario; however, we know that Trump has done amazing things in terms of the Kingdom, in the spirit of the Kingdom of the move towards God's Kingdom and sovereignty.

He has great things. He's raised the stock market by three trillion dollars. He got rid of TPP. He has closed down the borders. He's reduced the border crossings by forty percent. I'm sorry, illegal border crossings, okay. He has delivered on so many fronts. He has delivered on so many unfair trade deals. He's starting to turn on so much energy. He's helped the coal workers, you know, the pipe line, all those kinds of things. He's starting to do things which he promised he would do.

So, does he have wisdom, in a larger perspective? Only time will tell; but, we will be praying for him. There's a big split in the White House right now. Apparently, from the inside sources with Kushner and liberal New Yorker in-laws, and his children. They're good; but, some of them are more liberal than others; and, the news is that Ivanka and Jared are more elite liberals. They've been basically Democrats their whole life. They've been able to vote, and they're conflicting with Steve Bannon, who's a real sovereignty based thinker, not only academic, but a real sort of a brain scientist.

So, there are all these things that are going on in the House of Power, in the White House; so, there are so many things that influence the world situation that we're in. So, we pray for the President. That he has discernment, that he's acting in wise council. He's praying. He's getting on his knees and repenting of his sins, and begging the Lord Jesus Christ to guide him to his Kingdom of righteousness. We pray that Trump is every day is doing that. Of course, we've been saying from the beginning Trump should bring a culture of Scripture back, tweeting Bible quotes, not only tweeting his opinions. He should be tweeting Bible quotes. That would really make the liberal lunatics angry. Boy, that would make them real angry. Quote some Bible quotes. "Yeshua, ahh! Jesus, how dare you say Jesus. Racist white supremacist. You said, Jesus," even though Jesus is a Middle Eastern Jew. I mean, there so ridiculously stupid.

So, all that is happening. We want today go into our next Scripture about the Kingdom; because, Jesus said, he came to preach the Kingdom, the Gospel, the Gileon, is the Kingdom of God. We're taught it's the Cross, it's Resurrection. Jesus, himself, said, his Gospel is the gospel of the Kingdom of God. If you actually read your Bible, if you actually read where Jesus describes the Gospel, it is the Gospel of the Kingdom of God. He doesn't say it's the Cross. He doesn't say, it's the Resurrection. He says, it's the Kingdom; so, we are, of course, going through the Good Book, and all the Kingdom Scriptures, we are now Romans, and into I Corinthians

1 Corinthians 4:17-21 (KJV)

17 For this cause have I sent unto you Timotheus, who is my beloved son, and faithful in the Lord, who shall bring you into remembrance of my ways which be in Christ, as I teach every where in every church.

18 Now some are puffed up, as though I would not come to you.

19 But I will come to you shortly, if the Lord will, and will know, not the speech of them which are puffed up, but the power.

20 For the kingdom of God is not in word, but in power.

21 What will ye? shall I come unto you with a rod, or in love, and in the spirit of meekness?

And there it is. The Kingdom of God is not in Word, but in power. So, let's do something a little different. Let's go into this word, "power." Before we go into the actual word for power that Paul is using here, let's look at the Bible Project, which is amazing. If you can help these folks out in Seattle. What an amazing group of young people. They're making this incredible animation. Amazing animation, Let's check out this most recent one they made on the Holy Spirit, which ties in directly what we are talking about. Let's play this video from the Bible Project.

(This is an animation about the Holy Spirit. The word for spirit in Hebrew is called, Ruach, or breath, or wind. Just like wind and breath are invisible, God's spirit is invisible to the naked eye. Just as breath keeps us alive, so God's Spirit maintains all of life. The Spirit or Ruach in the Bible is first given to Joseph to interpret dreams. It goes on to explain about others, like the Prophets. Ruach empowers people. It was God's energizing Spirit that helps the Apostles see Jesus. So, the Spirit is still hovering in dark places to give life to people about Jesus, et al. The Spirit of God breathes on them, so they can become the part of this new creation, and share the good news, and learn how to live by the energy and influence of God's Spirit. The Spirit is pointing people to Jesus, etc.)

That is the Bible Project. These are the wonderful folks out there in Seattle, who are making these animations. Wasn't that amazing, the quality of that animation? Amazing, I mean, incredible. We've donated to their program. They're just a small group out there; and, this is like their ministry. This individual is actually a doctor. He's a PhD in Bible Theology, etc. and, he has a whole group of young people that are these animators, and they make some incredible content, as you can see. Really stimulating, and really professionally done, okay.

So, interestingly there is, they're talking about the Holy Spirit as the Ruach, of course. The Ruach of God, and the wind, and the invisible force, the energy, the vitality, when the presence of God descends. Now, it's interesting, because last week's Scripture we saw, that, the Kingdom of God, righteousness, peace and Joy in the Holy Ghost. It's interesting, that, when people, not only receive the Holy Ghost in terms of physical healing, and a turnaround in life, etc. One of the gifts when you receive the Holy Ghost is discernment, and when discernment in good and evil, but discernment when you can see through Satan's lies, and actually see the Kingdom. There is a tremendous joy that comes out just from seeing the Kingdom. Tremendous joy, there is a joy unspeakable, the Bible says, right, welling up from the inside that comes up when we are slain by the spirit and just collapse on the ground; but, it comes with the joy of discernment, when we're able to understand, and when we first come in contact with the Cheon Il Guk Constitution. Maybe we don't understand it; but, when we wrestle with it and pray, we study Scripture and we see, Wow! This is a Kingdom that is completely opposite from the Kingdoms of Satan. It is a Kingdom when manifested will create true righteousness and morality; but, we still will be able to have free will, so there will be righteousness and morality. It will be a Kingdom that will produce tremendous prosperity, which is of course a great antidote against war; but, of course, with prosperity comes irresponsibility and hedonism, which is why, of course, the Kingdom of God the responsibility aspect is so essential for intergenerational transfer of God's blessings, right.

We see it in the breakdown of any civilization. The first generation, let's call it by the first generation will work hard and pioneer. They'll go out West and have nothing on their backs; but, you know, a canvas tarp and just go out there and pioneer; and, they will go out and they will pioneer. They're tough as nails; and, they'll go out there and make that wooden hut. They'll forge those nails that hold that hut together, and they'll make a farm, and put all that hard work in; and, then, they'll create some level of prosperity; but, the children who live under that in any civilization, which accumulates wealth, and cities, etc. we see by the next generation, there's less. They're more spoiled than the first generation; and, by the third generation it's Communist. By the third generation, the general mentality of that society has become Socialist, within three generations, literally. That's how fast they'll collapse.

That's why, in the Kingdom of God, the Constitution does not allow for the Amendment process. You can't just vote Socialism in. You can't vote Communism in; because, the Satanic pattern is to use the great investment of that pioneering generation, that produces that wealth, and just using the goodness of their parents heart, they just want to give their kids better things; but, eventually that spoils them, because they don't teach them individual responsibility, and then, the second and third generation collapse into hedonism and degradation.

And then of course, they start voting, and lobbying, and pushing for what? Socialism, Communism in all its forms, whether it be central banking, or it be centralized education, whether it be centralized welfare, whether it be centralized EPA, this or that bureau, this or that department. Endless, endless, endless centralization. Endless archangelic power to steal resources from other people and give it to them. To engage in legal theft. That is what the federal government does, to engage in "legal theft," which in God's eyes it's the same.

So, we have to understand that in the kingdom, when we are given the Holy Spirit, it's not that all of us are going to be slain in the spirit, and speaking in tongues, those kinds of things. Those are some gifts of the spirit, like speaking in tongues, like discerning tongues, it's also discernment, discernment. Discernment between good and evil. Discernment of God's Will, His Kingdom, His Gospel; and, when we can have discernment of that, we are filled with righteousness, not self-righteousness. We want to walk in the righteousness of God. We have peace in our heart that even the enemies before us. We're not fighting flesh and blood, but we're principalities and powers that rules over the darkness of the earth, and the wickedness in high places. We're fighting against the Spiritual Realm.

So, even though we are fighting, we have peace. Just like the armor of God. The shield of faith, and the belt of truth, and the helmet of salvation, and the sword of the word, and your feet shod in the preparation of the gospel of peace. Even in the midst of battle, you are at peace.

The Chief here is a Green beret. He has seen real battle, right; but, there is a true mission there. A true purpose, even though you're in the midst of battle, you can have peace. You probably have experienced that. Right, Chief. So, coming into contact with God's Kingdom, coming into contact with God's Kingdom is something like a shock to many Christians; because, so many of the state run churches, or state run Christianity, whether it comes from state run Rome, or state run, you know, Christianity. Centralized state run church, we are not able to see our direct relationship with God, and what He attends

for us, what He Wills for us, and what He has given to us. We have to get the approval of the Catholic Church. We have to get the approval of the Pope. We have to get the approval of this or that. God cannot come dwell within me, and give me direction with the Word of God, so I can pursue stand for His Kingdom.

And so, that is why the Lord of the Second Advent returns on the foundation of decentralized Christianity, which is really true Christianity. That's the religion that Jesus created. It was only centralized as a state religion for three to four hundred years later with Emperor Constantine. That became a state religion. I mean, a state run church. State protect this, state sanctioned, etc. But, of course, that is not the Christianity of Christ.

When Christ was ministering the Gospel, demons would flee. Demons would flee. Isn't that interesting? Demons would flee. The Disciples were able to cast out demons, folks. See, we just don't see the Spiritual Realm. We can fight on the political level, and all that kind of thing; and, we can stand up against the liberal lunatics and their ridiculous corporate run propaganda machines; and, that's important. That's important to do; and, of course, the state-run churches, and churches in general are not able to speak about these things; because, they're under the threat of the IRS, constantly. But, standing up against those powers is not only standing up against physical powers. We're standing up against a spiritual power that's behind them; and, there's a whole demonic realm. You have to understand twenty-five percent of Jesus' ministry was fighting devils. Twenty-five percent. About twenty-five percent. It was about chasing out demons.

You look at Father's ministry, it's like fifty percent chasing out demons, okay. Chasing out demons is a serious business of the Church. The problem is, we're not able, we're not allowed, because of the archangelic federal powers. They put it in all the restrictions and regulations. If you ever challenge their monopoly of power, they will destroy you. They put the fear in you. Threaten you. Take away your non-profit status, whatever. All those kinds of things.

So, it silences the church, it silences the body of Christ, and you're not allowed talk politics. You're not allowed to talk about any politics, no! Boy, when we brought out 9/11, we got slammed and cursed everywhere. We're probably the only church in the whole area that talked about 9/11, and bring Dr. Gates here; and, even the Commissioner of Pike County came, and saw the whole presentation; because, we have discernment. Father has very clear discernment. Who has the powers behind these forces? The Principle shows that very clearly.

So, we are fighting literally, the demonic realm; and that's why the casting of spirits. When somebody wakes up, even politically, and is able to see past their propaganda of the mainstream media and/or Marxist professors in the universities, the public schools, etc. All these brainwashing camps. When they're able to break through and see what's happening in reality. They're being duped, and they're being controlled in the mind, in the spirit, in the soul, that they're giving over to the apparatus of Satan, giving over to the archangelic realm, giving over to the servants who are supposed to serve you, not giving over to the masters trying to rule over you, right. I mean, that's what George Washington said. "Government is not eloquence. It is not reason. It is force." "A dangerous servant, and a fearful master."

It's always human beings who are loathed and lured into this promise, "Oh, if you just centralize power." Those loving politicians, that loving state, that loving government, that love of federal powers will take care of you. Will provide for you, etc. taking away your individual free will. Taking away your individual responsibility. Taking away all things that God gave you. Taking away your sovereignty. Taking away your territory. Taking away your ability to defend those things. Taking it all away for the promise that you are placing in some other politicians, who are guided and lead by the spirit of evil and power and lust to give over your soul to them. Trust them with your soul. No, no, no. No, you're not supposed to trust them with your soul. We're supposed to keep those archangels inline, you see. That's the difference between a sovereign and a slave.

So, this was the big battle in the world. America, of course, being the center of that massive battle. So, Paul talks about the Kingdom of God, not of the Word, but of power, power. And, in this realm, he's talking about the word "dunamis." Dunamis is the word for power. The word dunamis means might, power, marvelous works. Marvelous works. Physical power, force, might, ability, efficacy, energy meaning, powerful deeds, deeds showing physical power, marvelous works. Look at that. The Kingdom citizens. Deeds showing physical power, marvelous works. Look at that.

The kingdom citizens, that why must not be fearful of the use of force. It's when bad people and demons have the power of force, is when good people are oppressed. There's evil in the world not because of evil. There's always going to be some remnant of evil because of free will. Some idiots are going to choose evil sometimes. It's just how it is. You got to live with that; but, there's evil in the world not because of evil, but because good people stand idly by. That's why there's evil, because good gets so emasculated.

Wow! It's interesting. I was looking at the next Scripture of the Kingdom I was going to look into next week, and Paul says, of course, idolaters cannot enter the Kingdom because of effeminate. Isn't that interesting. The effeminate will not be able to enter the Kingdom. Now, that doesn't mean you have to be a caveman and drag your wife around by the hair. That's not what it means, okay. It means some man takes on your responsibility as a man, as a protector, as a sheepdog; and, that's what's so powerful about peace police, peace militia, too. It's that even the girls, even the girls, who train peace police, peace militia. They become totally different species. They become so different, like the Queen.

She too. She's gone through a tremendous transformation, like she's now ready to challenge the Rocky Mountains, the dangerous, treacherous snow peak mountains. Ten thousand feet elevation. I'm gonna die if I don't do this. There it is. There's the Rockies. We had a scouting mission there this week. We were able to go there and I have good news. We're not going to be able to pass out. I don't think we're gonna be able to pass out. We went to the highest elevation, ten thousand, one hundred, fifty-one feet. Just to scout it out before we hit it in June; and we went up to ten thousand, one hundred and fifty-one feet, the highest city in the United States. Leadville, Colorado; and, we had our full load on packs, fifty plus pounds with water, everything; and, we were hiking around there, and it didn't feel bad. If you climatize properly we can make it; so, any of you Ninjas that are coming with us on the Colorado Trek – Thirty-five miles through the Rockies, it's not going to be easy. Don't get me wrong. Don't be diluted. It's not going to be easy; but, it's going to be doable given the fact that your training, okay. Keep your body strong.

Yesterday, we did 8.1 miles trekking up those hills with full loads on, and my legs feel good today. God is good. I feel good today. So, power, physical power, force. You know what's amazing. We were trekking yesterday, eight point one miles, and then we hit that real big hill behind the Cheon Il Guk. The real big mountain, we went on. We bushwhacked all the way up to the top. Training our lung to really pump hard. These training masks, we have them set at six thousand feet elevation. There supposed to simulate six thousand feet I went to ten thousand feet last week. The mask is way harder than ten thousand feet. Way harder. Way harder; so, anyways, it is good training though. Yesterday, we had no masks on, and we just trying to get used to the weight of the fifty pounds and hitting the miles. Crushing those miles, and the fifth mile, remember that? We were going downhill, and we started singing those Gospel songs.

What was I singing? What was I singing? Down deep in my soul. How did that go? You give me joy down deep in my soul. Down deep in my soul. Down deep... We're singing this all the way down, and we were hiking, right; and, we're filled with this power just by start singing these songs of spiritual power. There not songs like "My boyfriend left me, and blah, blah, blah; and, I'm cheating on this girl, she's stabbing me in the back." What the... This is the kind of junk the young kids are listening to. This is the kind of stuff there putting in their brain and their spirit, which is why they're so weak. Well, normal young kids. "Normal young kids." But people in the Spirit, we listen to real power. Real praise; because, the act of praise, and giving glory to something other than yourselves in a row, consecutive. Next week, we'll hit ten miles. Friday and Saturday. Back to back. Ten miles with fifty pound packs. Power, physical power and force, might, ability, when we receive the Holy Spirit.

Look, the Holy Spirit's not going to ascend upon you in some incredible, miraculous... Like, there's light, and there's Hollywood. Hollywood's like, bzzz. Pshhh. That's not how the Holy Ghost hits you. Sometimes, it's in quietude, in the present of God.

Now, God is around us all the time; however, were just unaware of His presence, acknowledging His presence; and, one thing about praise is that acknowledging His God. God, thank you for this. God, you are good. God, you are good. You give joy down deep in my soul. Down deep in my soul. Down deep in my soul. You're giving Him praise. You're acknowledge Him. You're acknowledging His presence. You're acknowledging that He's there. That He's feeling you with vitality, and when you do that, you're starting to reciprocate with Him. Somebody can be sitting right there with you, but you're not engaging with them, they're not going to give you any type of social energy. Power and praise helps one to connect to that. To tap into that; and, allows us to receive energy. The Ruach. The invisible force.

You're talking about wanting to do some Star Wars Force. That's weak stuff. That's weak. Star Wars Force is weak. This is real power that comes from the Creator Himself, who made you in His image. It's a personal, personal connection, not some invisible, impersonal force, which you tap into with your special cheap power. Physical power, force, efficacy, energy meaning. Look at this here.

Ability to perform with the power, the power to achieve by applying the Lord's inherent abilities. Wow! Did you hear that? Power to achieve by applying the Lord's inherent energy. Abilities. God has inherent abilities, when we come in contact with God, when we interact with Him in a proper way; because, He's the subject partner. We're interacting with Him in a proper way. We're giving joy to Him. God, His inherent abilities can transfer to us, so they can be used. Not that we want to use God for those powers; but, we want to... that is a byproduct of loving God. Not that our motive is to just gain power through trying to manipulate God. That's not real love, right. It's based on joy, trying to bring Him joy.

Power through God's ability is needed in every scene of life to really grow in sanctification and prepare for Heaven. Glorification. Dynamis and dunamis becomes the English word, dynamite power, right. Boom! Dynamite. Explosive power is a very important term used one hundred twenty times in the New Testament. So, Paul was talking about this powerful force. What is the Kingdom of God is about? It's not a word he said, but a power. It's not some kind of power lust or some kind of governmental power. It is a power that's coming from out Creator, from a relationship with the Creator.

Do you understand where the Bill of Rights and the human rights come from? It doesn't come from some kind of social body. It comes from God. Human rights come from God. That's above every institution, every government, every system on earth. Human rights come from God. Those things come from having a personal relationship with Him. We can understand the value. God gives life to those who even are hateful of Him. He still allows our hearts to beat to allow Him to pierce through that hardened heart, and it turns toward Him; because, when they turn towards Him, they'll see their true identity. Their true connection to something greater than the Universe. The Creator. The Progenitor. The starting point of it all.

We've got to connect with Him. We got to change that relationship, where we get to love Him. We get to bring joy to Him that He gives us His in that give and receive action, we receive His power, not so we glorify ourselves, not so we can boast about ourselves, or not that we become self-righteous. So, we can do His Will on earth. Build His Kingdom. Be the hands and feet of God in the earth. God wants to set people free. He needs to connect Him with other people, who are set free. God wants to show the body of Christ in His Kingdom. He needs connect them with people in the Kingdom.

There is great power with the relationship with the Holy Spirit. We're so mesmerized by Hollywood, we're so mesmerized with even some Christian shows on Christian TV that dramatize these things; and, of course, sometimes it is very dramatic. Sometimes, it's very miraculous. Sometimes, there are vision that are encapsulated when the Holy Spirit descends, but not all the time. The Holy Spirit is not required to give you a miraculous light everytime He comes and wants to transform you. We have become visual slaves to what's Satan; but, what we have been trained to see, it can only appear like this. No, Holy Spirit appear to us, even when we are in our darkest hour. It can appear to us in a decision we have to make about this or that business, or whatever. The Holy Spirit can appear to us, and discernment, when we can start breaking through Satan's lies, and seeing the truth, not only in miraculous light vision to inspire Gospel of the Kingdom.

He said, go to the corners of the world, and preach the Gospel. The Gospel of the Kingdom is His light. He will rule that with His light. God's light will be the light over the Kingdom. He said, the Sun, Moon and stars will fade, but Christ light will be the light of the Kingdom. What do you think the law of God is? It is a powerful light the presence of God. The protection of His children, of His Kingdom.

So, if we understand the depth of dunamis, we go deep into dunamis. There's so many layers of dunamis. That's so amazing. I'm just showing you here the different layers of dunamis. Universality, inherent power, power residing in the thing by virtue of its nature of which a person or thing exerts and puts forth beyond our power, indued with power, powerfully, contextually, evidently, through the power which exerts upon their souls by performing miracles.

The miracles of God are not only the miraculous healings that we saw, but what about the miracles when people had a hardened heart that were transformed by an encounter with Christ? What about those who didn't believe and suddenly believed. Now, we like to focus on the healings. They're powerful. They're visual representations of God's love upon those people, but what about those people living in wickedness? Slaves of Satan. Totally, imprisoned to Hell. On their way one hundred percent to their final destination with God, but suddenly turned. That is a miracle, too, folks. Everytime, and it happens every week, a Family Fraud person can see through the heresy. They can see. Wow!

The Han Mother has become a heretic. We don't give credit to the miraculous power of the Holy Ghost. We think, now you understand. Okay. Now, you understand even though you been cursing us the last three years. We don't say thank you Father for the Holy Spirit, for that Spirit just awoken that person, has pierced through their hardened heart, and allowed them to see the truth. The Movement of God is so powerful. It's all around us all the time. Every week, people are waking up. Every week, people are returning to Father's authority. That is a celebration of Heaven, every single one; because, that person was on their way to Hell and separated from God, and choosing to be deceived, and now is saved, and now can be with God. That is a massive change. That doesn't come about by just our efforts. It comes about by the power of the Holy Spirit. The dunamis power. The Kingdom power that flows. Sin exercises its power upon the soul through the law, through the abuse of the law. Wow! Very interesting.

The abuse of the law, of course, sin and abusing God's law. Guess what. It wounds our soul as well. I heard one pastor talking about this. This is a very deep point. Not only do we commit a sin against God, and an offense against God, we also wound, we wound, we are wound by that offense.

So, some people say, "Oh, I repented in Christ. I'm saved. I'm born-again. How come I'm not being healed? I got through that cancer. How come I got this or that diabetes? How come, I got this or that, right? How come I'm still being cursed. I'm still under the curse of Satan, even though repented of my sin, and I accepted Christ in my life? Well, we have been removed from that sin, but that sin has created a wound; and, that's why we need to ask God to heal me God. Touch me God. Make me whole. I know, I've been saved, I've been saved, but now make me whole. I want a relationship with you. I've been wounded. Those wounds are still there, but I want those scars to be gone."

The Blood of Jesus. Remember that song? The blood of Jesus washes us white as snow. Remember that song? Washes us white as snow. The wounds have to be dealt with, too. Many times, those wounds are dealt with on a deeper spiritual level. Deep spiritual level. Many times, those wounds are not just a matter of just repentance. It's a matter of going deep, deep, deep, deep in our relationship with God. Ask Him to penetrate deeply in those wounds. Heal those wounds real deep. They go powerfully deep, and remove them to wash them with the blood. Wash them in the blood. Wash them in the blood. Sin does not only separate us from God. It's wounds, which then impact us continuously over our lives, even though we're saved. Isn't that interesting? Even though we're saved, we are still impacted by those wounds. That's why we start complaining, "God, I'm not in your blessing. Why am I not experiencing your presences? Why am I not experiencing your blessing? We've been forgiven our sins. We've been cleansed by the blood, but again, those wounds can fester, can continue on. They create a doorway for Satan and his demons to attack us. That's why it's so important, even when we're in warfare, we have to have the feet shod with the gospel of peace. That we are in peace. We are not in war with flesh and blood. Does that make sense?

We're not trying to destroy human beings, who are made in the image of God. We're trying to wake them up, so that the spirit of Satan is removed from them. We're fighting something behind them. Sometimes, it seems like we're fighting them, it seems like we're fighting them. We're fighting the demon that's sitting right behind them going, "Ahhh!" right behind them in the back. I mean, we're fighting that fool behind them going, "Ahhh!" in their back. That's the fool we're fighting. And that's why it doesn't only come to intellectual arguments. It's like this: It comes also with exerting God's Authority, His power, you see.

Jesus says, "Come out!" when he says to the demon. "Come out of there!" "Get out!" He commanded them to get out. So many times we are trying to deal with this or that issue, this or that purpose, and, we're trying to deal with this argument, this or that rationale. We're dealing with a demon. Sometimes, we're counseling a demon. We're talking to a demon. Sometimes, even in church, we're trying to counsel people, even you Pastor is trying to counsel people. You're counseling a demon; not that, that person is a demon, but they're possessed by a demon. Sometimes, you got to say, "Get out demon!" Sometimes, you got to just call it out. You're not doing it to that person. You're trying to get that demon out.

So, sometimes, we need to understand that realm. This fight that we're fighting is not only against flesh and blood. The Satanists, the globalists, the centralist, the ones that want to collude and centralize this power, at the very top, they are very spiritual, very spiritual. They are in the occult. They are in the Luciferian ritual. They are into child sacrifice. They are into killings. They're in those rituals that give power and joy to Satan. Now, second tier, third tier, fourth tier, the lower levels, maybe not. They're just colluding with the evil at the top; but, in the end, we are fighting the evil at the way top, the way top, even we're at the bottom of the pyramid, we're fighting the evil at the way top. You got to keep that in mind; because, sometimes, they're so many dang blocs on the bottom of this pyramid. How come they're so many blocs on this bottom here? How come I got to fight all these. I got to climb this one, climb this one, climb this one. I'm never going to get there. I'm never going to get this one. You keep fighting this one way up there. That's it. You keep shooting right there. That's what you keep shooting at. Don't keep worrying these blocs right here. You got to keep shooting at the devil. Oh, you get that? That's the Holy Ghost. Boom!

We got to get praises from the Holy Ghost. These are not things just to make you feel good, folks. These are not things just to make you feel good. When we study the Word, we go deep. This is not to make you feel good. It's about to give us discernment. Wow! When we have the breakthroughs. Oh! The Holy Ghost is giving us piercing and penetrating. It's just waking us up. Does that make sense?

Giving Him praise. Credit. It's essential. It's essential; because, see, goodness can only succeed, if it has the moral high ground. If it stays good, folks. When good takes over the Kingdoms of evil, it must lead with the moral high ground. It must lead with goodness and righteousness; and, we only do that, when it's not about ourselves; because, that always leads with narcissism, evil, satanic worship, occult, etc. And so, fighting the battle, whether it's on the microcosm and politics, whether it's against social media, whether it's against the internet, whatever it is, that's macro. Then we have micro.

Even with the micro, with the Family Fraud and all this heresy, we're still fighting the same beast, the same spiritual entity behind them. We are fighting that thing, and we cannot while we are fighting him, we cannot become it. We have to remain as children of God. We have to remain as the Bride of Christ, as the sons of God. We have to remain in our position. We can't fight it, and overtake it, and become it.

So, the Spirit of God, giving Glory, giving praise, giving credit. I mean, let's give Him credit. I'm not going to take the credit. God, that's all you. That keeps us true. That keeps us righteous. That keeps us honest. That keeps us moral. That keeps us from praising ourselves and worshipping ourselves, which is the first Commandment, which leads to all the other sins. So praise, we're not just seeing it as we sing songs. No. It's about giving credit to God as being good. No matter what happens, we're giving credit to God. We aren't taking an ounce from it. That doesn't make you weak. That makes you strong.

See, the Lucifer's want to tell you that makes you weak; because, you're supposed to believe in yourself. You're supposed to love yourself and worship yourself. That's going to make you strong. No, it's not. It's going to make you a vampire. You're going to be a predator. You're going to be preying on others to give yourself power. That is not more power. That is where evil is. Real power is when you can give the glory away; because, then true goodness... It's the nature of God, and people in that Spirit World will connect with you. Then, God will help you build a Kingdom of people, who don't take credit for these things themselves. They're willing to give it away to God. They're willing to give it away to their teammates. They're willing to thank other people that help them along the way; and not say, "I did it all. Blah, blah, blah, blah."

The Spirit of God is powerful. It exerts upon the souls by performing miracles. The power, of which the Resurrection of Christ has for instructing, reforming, elevating, tranquilizing the soul. Woo, man! Look at that? The power which the Resurrection of Christ has for instructing, reforming, elevating, tranquilizing the soul. Lord, give me some instructing. Lord, give me some reforming. Lord, give me some elevating. Lord, give me some tranquilizing. Woo! Lord, that's some power right there. I want to be shaped by God. I want Him to be involved in the shaping. I don't want to take control of that. I want him to shape me, instruct me, reform me, elevate me, tranquilized the soul. Woo! Oh, Lord have mercy. You know, that's dunamis power right there. Dunamis power.

Use of the power of angels. Now, this is interesting. In the power of the devil and evil spirits. This is not saying that dunamis is not in the devil, but if you look at these Scriptures, it's about like stomping on the devil with the power of dunamis, if you look at those Scriptures. It's about fighting Satan with the dunamis power. Universally of the power of God, especially in doxology of praise. The Kingly power of God. Whoa! Paul said, it's not about Words, it's about power. Dunamis power. Kingship power. Kingdom power.

I know you folks don't want to, you know, stand as Kings and Queens of Cheon Il Guk of your tribe lines. I know you don't. You're humble people. I am, too. You know, I didn't want to do it, too. Okay. Most of you don't want to worship yourselves. Now, there may be some freaks, but, we still love them. Most of you are good people. That's why you don't want to do that; but, it's not about you. That's why you don't want to do that. It's not about you. It's not about me. It's about God's Kingdom; and so, as we stand as the co-heirs of Christ and his Kingdom, and we stand as a King and Queen of our tribal line, with the King of Kings, we are standing in power. You know, it's interesting. People don't think, because we don't have a small ritual about it, you know, people have been asking about it from Japan and Korea, they're asking us about it. "Well, you know, we feel so terrible, because the True Cain, Kook Jin Nim, he doesn't even have a crown, and we don't feel good about wearing a crown before him. There's an order, and he must wear his crown before we will wear our crown. This is what we're getting from Japan and Korea. I said, I know. I'm already on that, baby. I'm on that. I said, I got that done. We have his crown, at the first level, he has his crown with the KAHR Arms at the top. Did I show you that? I gave it to him. We have to take a picture of that, and show it to everybody. Dagnabit. I've should have taken a picture of that. Ahhh!

It is essential that we make the statement that God's Kingdom are sovereign. Satan's line, Satan's Kingdom must see the Kingdom of God, and must realize these are sovereign people that are in righteousness, peace, and in the joy of the Holy Ghost. That we are not here for our worship. We're not here to glorify ourselves. We're not here to worship ourselves. We're here to give the praise to God; but, we're also here to do our responsibility. That is, to stand where God asks us to stand. Yes, we don't necessarily want to fight the devil. Yes, okay, we love the Scripture. Oh, the battle of Lourdes' is not mine, okay. Okay, you take it Jesus. You take it God, okay. I gonna watch from behind. When you get the glory, just give it to me. That's what the church has become.

Let me tell you something. Revelation 14, "When all the people come. When Jesus returns. and has taken over the Kingdom, boy, the 144, 000, they stand with him and fight. There not saying, Oh, give me the glory after you kill everybody, Jesus, then you give it to me." Okay, no they're not cowards like that. They're ready to stand up against the devil. They're ready to stand up against the principalities and powers.

Dunamis, use in the divine power considered as acting upon the minds of men. Look at that. Look at that. When we have a transformation of the mind, which really is what repentance means. Metanoia means a change of the mind. Change of the mind. A turning of the mind. That's what it means. Metanoia, that's what it means, repentance, it means metanoia. A change or turning of the mind.

Look at that. Use of the divine power considered as acting upon the minds of men. When somebody has a change of mind, too, towards God, even if it's something on the secular level, and that's their starting point, when they start realizing, whoa! This whole political Satanism is real. Whoa! CNN is lying to me. Whoa! Hillary Clinton is not, you know, Mother Teresa, or whatever.

When somebody has that breakthrough revelation, too, a small thing like that, which may seem very secular, but may be their starting point to have a connection to God. That's the power of Dunamis right there. That's the moment dunamis is being used by divine power, considered as acting upon the minds of men. That person's mind's being changed; and, so that is the dunamis power of God.

That's why we love Info Wars, we love Breitbart, we love James O'Keefe and these guys at Veritas. We met them last time when they were here. These people are true patriots. They may not be, or pretending to be a holy man like Pope, which is completely, completely on the New World Order. You know, global tax, you know, corporate run centralized power of political Satanism parading himself as a Prophet, parading himself as some holy Christian; when, he's leading the world straight to the Archangel, straight to centralized power, straight to world government. When you have hard working men and women of every race, creed or color that are standing up against Satan, against wickedness, evil; and, that's a starting point, that's the spirit of the age. They're in the Abel realm; but, God's power is there, divine power is there, when God's power, the minds of men transfer towards God. How come we don't give God credit for that?

How come for every person who joins the Liberty Movement, or joins the Freedom Movement, or Libertarian Movement, okay, they're not total of, you know, evangelical Christian, or they may not know Jesus, yet; but, look, look, they are walking towards him. They're on the right stepping path. There breaking free of the Communist, political Satanist propaganda wheel, the gerbil wheel, the gerbil wheel.

They're starting to navigate, and guess what? At the end of it, freedom and responsibility, the end of it, behind freedom and responsibility, everybody wants freedom. At least the Freedom Movement understands the value of freedom and responsibility, even if they're atheist like Stefan Molyneux. He's atheist; but, he really sees the value of responsibility, right, and why central government should not be involved in the welfare state, because they use it as a weaponized tool to oppress minorities, and take out groups they don't want to weaken.

I mean, Stefan Molyneux' an atheist, but he's able to see the value of responsibility, see the value of Christian culture, which at its core is freedom and responsibility. That's true Christian culture that comes from Christ. Freedom, but responsibility. We have to make the act of faith, we have to make the choice to follow Christ. We have to actively surrender to him. We have to choose to follow him; and, if we do or not, we are responsible for that choice.

So, when a mind is changed, there's a time for celebration. When a mind is changed, we should say, "Praise God. The Holy Ghost is descending upon them;" and sometimes we get down when were in the trenches and fighting. Wow! We start praising God for the victory He's putting all around us. Our soul can be uplifted. Our soul can be powerful. I mean, at this week, sometime, everybody's human. Everybody gets down, sometimes; especially, when your covering this stupid political Satanism all the dang time. It would drive you nuts. Like you're sleeping, and the demons are flying around. That kind of thing, you know, that kind of thing, you know what I mean. It's insane, sometimes; but, everytime that happens, and I'm not perfect either, but I try. Everytime that happens, I'm trying to see where's God giving glory? Where's God changing a mind? That is the power of the Holy Spirit. Let's give praise to God. Let's give some glory to God. That mind has been changed. That person's now waking up. Starting to think.

Dunamis is described to Christ in one sense, and now in another. The power to heal disease is proceeds from him. The Kingly power of the Messiah. Woo, man! Do you understand, folks, when you step into the Kingdom Gospel, and you put on the crown with your Queen. Do you understand what's happening? I mean, I don't know if you understand what's happening on the Spirit World Realm. You know your ancestry and lineage has been taken, been claimed; but, you're the goto guy. You are the goto couple. You don't realize you are the goto couple for your line. I mean, just forget it, you know. You are the person. I mean, they're all waiting there, because, you're the goto person.

See, I don't think we get it, sometimes. When we stand in with the King of Kings, proclaiming our sovereignty, proclaiming our place in the Kingdom, proclaiming against the powers of Satan. It doesn't mean we're perfect. It doesn't mean we're flawless. We're doing it, because God Commands us to stay in that position, to keep that line when we're fighting the devil; and, when we step in, and we stand as the Panzer, King of the Panzer line, or Hoshino line, or the Toffey line, it's not about you, or any one of them. It's not so we can be glorified. It's so the King of Kings gave all this incredible gift to us. Beauty, liberation, freedom and responsibility can be glorified.

His power. Look at that. His power. The power to heal disease. The kingly power of the Messiah is His. Wow! Whoa! Wow, oh man! Ministering to his power, metaphysical, that which belongs to him as in the

expression. The word uttered by his power, equivalent to his most powerful will and energy. Do you hear that? The word uttered by his power, the word uttered by his power, equivalent to his most powerful will and energy. Do you understand what's in those crowns? Yeah, okay, you may have bought them from Amazon or eBay for ten dollars, or what's that, twenty dollars or hundred dollars, or whatever you paid for them. That's irrelevant. When you drink the grape juice, the wine, you're drinking wine, but Jesus said, "You're taking this is remembrance of me, as my blood.

When you put on the crown, and take responsibility for that whole lineage that is waiting, because you're the goto couple. You're the one who's Blessed. It's not about you. We always want to derive self-importance all the time, but that's the temptation of the devil. It's not about me. It's not about you. It's about Kingdom being glorified. It's about taking back what Satan has stolen. It's about not be ashamed of being the owner. You see, we are in an archangelic culture where we were made to be slaves; so, they make us feel guilty for being an owner, because if you're greedy, you're selfish, you want to impress people. No, it's the culture that makes us feel like slaves, which is oppressing people.

The power of Christ dunamis. The power of Christ invisibly present operative in Christian church formally assembled under or full of the power of the Holy Spirit. Dunamis power, folks. The Kingdom of God has power. We're not only fighting for an ideology of ideas, or a war of ideas.

There's a war, which power is involved in. There is an unseen war of the spirit. The Ruach, the wind. The spirit of Satan is filling those political Satanists, those Luciferians. Even though they may not formally worship Satan, they are helping his political will by making centralized states all over the world. They are creating the Kingdom of Hell on Earth, even though they actually worship Lucifer, because they're brainwashing the, you know, the public education camp in the schools, or in the universities. We're fighting against the spirit of Satan, but we can't do that with our flesh and blood, and our own power. Paul said, it's about the Kingdom of God, which is not about word, it's about power; so, yes, we have to command, yes, we have to chastise Satan and chase him away; but, we have to do that with the power that stems from Christ, from God, from our relationship with Him.

If we chastise Satan and all his power, he'll just say, "Shut up, you fool. You trying to scare me. You dummy. You little wimp, right." There's a... "Oh, sorry. Did I hurt your feelings, Satan? I'm sorry about that. Can I get you some coffee here, or something to eat?" You better be ready to whoop his booty. It's not so you can feel great about it. It's so you can be a hand and a fist who wants to get him. Why? Because Satan is the murderer, he's the killer, he's the adulterer, he's murdering his children. Do you understand? Every good father, if you your hand on the murderer of your children, you are going to make him feel fear. When we are fighting the force of evil, it's our own weakness, it's our own humanity that is telling us, it's our own brainwashing under the Archangels for centuries. He tells us we have no authority to chase him away. There so powerful demons. There so powerful. They can't even see those idiots. We can't even see them. How are we going to fight anything we can't see? There taking this. There taking that. I can't fight. How am I going to fight them?

No, you fight them by praising God. You fight them, by giving Him glory. You fight them by being righteous and moral. By honoring your promises, by being a good person. That's how you fight them; and, as you fight them in the spirit of God, awakening others, helping them to stand against Satan as well, taking them out of this lull the state-run churches has become.

It's illegal talking about fighting against Satan. It's illegal to fight against the apparatus of actual political Satanism in the world that wants to create the literal wishes of actual Satanism. We are fighting a great power, a great civilization that is behind these people. A huge ancient civilization of evil; and, we cannot feel fear when we see that, although our natural mindset wants to feel fear. Our natural mindset wants to say, Ah, it's too big, I can't fight it. No, we don't have to focus only on that.

We can see the power of God, which is greater than all that, that we are moving with. We can see with our coworkers in Christ, soldiers of God, who are also standing there fighting, risking their lives, their reputations. Risking people, mocking them, cursing them, crucifying them online, whatever to stand up for the truth; and, guess what? In all that, folks, we must not, because God is present. His dunamis power is present in every one of you, whenever you stand up against evil, and you're doing that. I know, almost all of you are doing that every day, even if your forwarding, you know, something that has, you know, when we brought the 9/11 people here to talk about 9/11, just to get that discussion in this community, or even in this whole Pennsylvania region, because, guess what? You can't even talk about it. Conspiracy, you're crazy. You can't even talk about it. You couldn't even talk about it.

Now, the atmosphere has changed so huge. You couldn't even talk about the pedophile networks. Now, we were talking about it with the Commissioner. When we had the dinner, when we were saying, "Did you hear about these Pedophile rings?" I mean, Trump is going after these guys. He's going after three thousand plus pedophiles now bring imprisoned in the United States. You couldn't even say anything about it. Oh, you're crazy. That doesn't exist. Blah, blah, blah.

No, now you can't say that. There is real Satanism in this world. Real, real, real. It's real, An axis will by political Satanism. An axis through the power of a centralized power. That's the vortex where Satan brings in predators to enact his will upon this earth. It's a literal vortex, you know, Washington, that's the city with white buildings. It is a vortex of satanic power; and, all the predators smell it, and they're magnetized towards it. That's why it's so dangerous. That's why the founding fathers were against that. Real Christians were against that under the full power of the Holy Ghost.

Something so small, and just sharing a video that would help wake you up, or give you some good points, sending that to somebody else. Why don't we give credit that God is helping us have power? It's easy. You just send it to somebody; but, why aren't we given credit, God you gave me the strength to send this to somebody, and I pray that that could wake up, wake them up in some way, or be a seed. We get this discontent that sometimes we send it to somebody, and oh, I got no response, or I got some backlash. So, God may have planted a seed.

The seed may have been planted. So, three years later, that person is now repenting before God. This is a spiritual battle, folks. We are not fighting against just politicians, and the Bilderberg Group, and the Davos Group, the Chinese Communists, and the Saudi Wahabi radical Islam, and the CIA and the black ops. We're not fighting the evil parts of that group. We're not only fighting those four horsemen. We're fighting the powers behind them.

Look at that. Dunamis under the full power of the Holy Spirit. Able to perform miracles. Moral power and excellence of soul. Wow! When we see another patriot standing up, so what. He's not from our denomination; but, he's standing and fighting against the Kingdom of political Satanism. He's not fighting against Satan himself. Maybe he doesn't know. Maybe he's an atheist. He fighting against the kingdom of political Satanism. Well, okay. Why don't we give him credit that God's dunamis power at least giving him some level of discernment, so he can fight at the level that he's at. See, that's a good thing.

See, can give him some thing. Praise God! Moral power and excellence of soul. It's a very ironic thing. Philosophically, you cannot get to freedom and responsibility. If you can't get to freedom, if you can't get to human rights through philosophy. You can't. It has to come from a meta source. It has to come from a transcendental source. Human rights have become something greater than you. If it comes from human beings, human beings can just change your rights. Then, they are not human rights. They're just agreements. All rights must come from God. They must come from our Creator, who has authority over all of Creation.

The power and influence that belongs to riches, primarily ability, wealth. Riches ministering to luxury. According to their means, and beyond their means. Power consisting in or resting upon, armies, forces or hosts. Look at that. There's not only a force and a power which works individual in amongst us; but, when we come together collectively, to stand up for God's Kingdom. There's a force and a power consisting or resting upon that Army, that Army of God; because, we have a force multiplier, because you have my force, with your power and your power and your power, now that we have multiplied exponentially.

The equivalent of force meaning force of power, working power, authority, etc. SOS come on up. The dunamis power of God in the Kingdom of God is not just about words, folks. It's about God's power. You are filled with the Holy Ghost, but you may not recognize it. You may not recognize it, or you may not be given credit for God giving you power. We need to be praying for our President. We need to be praying for every single one, all these patriots, we need to praying for all the Sanctuary brothers and sisters standing up worldwide, and of course, even the patriots of different nations that are standing up for their countries, too. They may not all be Christian; but, they are standing in the Abel Realm. They're on the Abel side or realm. They're not on the satanic side; and, that can be a platform for where they're at to come to where they should be in relationship with Christ. Amen. Let's all rise everybody as we sing praise songs, let's give glory to God number one, but let's pray for our President of the world. Thanks to brothers and sisters all around the world to be filled with the dunamis power. It's not about words, it's about power, dunamis power that comes in a relationship with God. Let's praise Him. Amen-Aju!
