

Pastor HJ Sean Moon

Fear No Evil

June 5, 2022 - Back in PA

Thank you! Thank you King Kyle! Wow! Folks, please be seated; please! Praise God Almighty! What country are we in right now? Praise God! Amen! Amen! Great to see you! Praise God! Great to see everybody!

Oh my goodness! It's been such a crazy time! There's a beautiful video documentary that the Korean church made of our tour in Korea, so I'd like to show that now. Lets' watch that together, and I'll kind of explain the different scenes; what's going on during the tour.

https://www.youtube.com/watch?v=U1flkVxzO6M&ab_channel=God%27sTeachingsforHisEpicKingdomonEarth

We're going to be heading back to Asia; we're heading to Japan in about two weeks from now. This is a big one; Japan is big. We have over two thousand folks that have come back to Father's authority.

Video on the Korean Tour

-So this is when we first arrived in Korea after ten years! Ten years in the wilderness! Ten years after the fall of the Han mother. We knew we could not go along with that, we could not go along with the trajectory she was going and her betrayal.

-This is now Komundo Island. This is the place where True Father would do amazing *cheonseong*; all the time he would be on that ocean and those rocks. The very first place we went after the quarantine was Komundo Island. Then we started visiting some of the local churches in that area, and the different foundations that people had built around there.

-This is Yeosu; still the Southern region of South Korea near the ocean and these are folks coming to the altar. Oh my goodness! The Holy Spirit fell so HOT on that place! In Yeosu it was unbelievable; there was so much power of the Holy Spirit pouring out, so much fire! So many people came back to God; so many people came to repentance! It was just such an incredible thing!

-After that we went to *Pomnetgol* which is the prayer rock there in Pusan. That's tracing back Father's footsteps. The prophecies that he spoke over the whole harbor there saying that the world would come to Korea. This was when Korea was at the stage of Nigeria folks; after the war it was at the stage of poverty of Nigeria. Father was prophesying that and it became one of the most prosperous nations of the world.

-In South Korea there are eight provinces. I lived there ten years but I didn't even know that because we were stuck in Seoul city, in the big church there, and we were also up in Cheongpyeong, in Gapyeong area. So I didn't even know there were eight kinds of states. They're not really states, not as we have here because each state has its own constitution and they don't have that, so they are kind of like provinces.

We went and visited each one of those eight provinces; we spoke in five but visited eight and any of the holy sites that Father determined there, and any of the places where our True Mother witnessed such as the place you just saw. That was a tree where she witnessed day in and day out for 400 plus days, doing *cheonseong* there. Yes! True Mother Kang! That's where she did all the *cheonseong* and street witnessing.

-This is the central region of South Korea as we were moving up through and of course waving the Tong-il mark flag the symbol of Christ's Kingdom spreading over the whole world and the tremendous victory that God had given us after seven years of them suing me, suing me to try to stop us from using the Kingdom mark, but God provided that victory. (*Applause*)

- These are different holy sites along the way. We went there just to give prayer and of course we were there with the local folks; at each site the local folks would gather with us. We'd pray at the holy site and then we'd move on to the next tour area.

Now Japan is a lot bigger. South Korea is tiny; it's the size of New Jersey, so it's real tiny. Japan is WAY bigger so we're going to be literally in transit constantly between each of the regions. It's a much bigger ground to cover and in Japan a lot more folks have come back to True Father's authority so I think it's going to be quite intense in the next few weeks.

- That's one of the places on the tour with my boys Shin Joon and Shin Deuk really helping Daddy out the whole time. They were sweating; their whole bodies were saturated in sweat after the prayers and the Holy Spirit. You saw the lady right there on fire; she was literally on fire with the Holy Spirit. Miracles were happening. There was healing; there was all sorts of restoration of faith. But the greatest miracle of course is coming to repentance, is the change of heart (*Applause*) and that's the biggest miracle and that's really what God celebrates and what God loves as we saw last week. God celebrates

that; He enjoys that and loves that. The Holy Host and the angelic world rejoice when one comes to repentance, when one comes and wants to receive salvation. That's so important!

- What they have on the screen here is the Seoul City final event. This one was big! I mean they had rented a room almost double the size of the other halls. When Reverend Lee began his report on the Three Kingship Providence etc they had only about half of the room filled up, so he was worried; he was very, very, worried. But by the time we got up there, it was completely packed. As I mentioned last week, an unknown martial arts group just showed up. The Holy Spirit touched them. We don't know these people. Reverend Lee was wondering, *"Who are these people? Who are all these new people that came to this event?"*

Wherever the danger was Father went

Now here the bullet crown is controversial, folks; it's very controversial in America where we can actually have bullets. You understand, in Korea it's like New Jersey plus, plus, plus and in Japan it's even worse. At least in Korea all the men go to the military therefore all the men have touched guns; all the men have shot guns. But in Japan it is worse because the men are not forced to go the military, and so most of them have never touched a firearm in their life. So, this bullet crown -which is probably the cheapest crown that we have - boy, it has a very, very interesting symbology and a lot of bad people get triggered by this. VICE is after me again; they're contacting us again. They want to do something so we'll see what they want to do. I don't want to do any shows or anything like that but if they wanted to do an interview we're always open to that. We'll see what they want.

But God bless the people in South Korea! In the middle of the tour we had a workshop. They rented a huge hall like a campground, a humongous hall and there were five, six or seven hundred people there. It was packed and Reverend Lee said that there were so many people he had not seen and had not known before.

God gave us an incredible victory of preserving the Tong-il mark, the Kingdom of God flag and then He called us back there, and we just went obediently. Look, I had no plans for going back to Korea right now.

My goodness! World War III is popping out. Now NATO is more involved in the war, sending billions of dollars over there; so it's escalating. This is not really the greatest time to be flying around, if you know what I mean, folks. China is ready to pounce, to really start moving; we see some aggression coming out of China. So it's not the best time to be running around especially on planes in that general area. So I had no idea that we were going to go to Korea. My passport was three years expired; that also is a proof that I had no idea, no intention of traveling overseas whatsoever.

Three years had passed, so we had to run back and forth to Arkansas; ten hours-drive back and forth just to get that thing done; get legal invitations of sick family members with doctors-stamped letters from Korea, bringing them to the passport office, etc. because all COVID everything is emergency and you have to have special permission - all this kind of ridiculousness. But anyway, ten hours back and forth like a lunatic trying to get this done, and God allowed it.

So boom! That gate opened as soon as we won the court case. My mother kept on suing me, suing me, suing me; trying to destroy anything we were doing, but as soon as we won that court case, boom! The same week, America lifted the mass mandate (*Applause*); the mass mandate lifted from the planes so immediately that week we could start traveling with no mask.

The mask is a big part of the Satanists' symbology; it's a sign of their power. You know you muzzle a dog, you muzzle the teeth of a lion, you muzzle the teeth of a tiger; you declaw a cat, etc. You totally strip that being of its ability to defend itself, and of course in this case to even speak, to have an identity. Your face being your primary identity, how we discern one another, we look at each other and we say, "Hi! Hey!" to one another; we bond by looking at each other's face because God has given us that unique face. So that symbology is very big to cover that, to muzzle that, to be ordered to take away your identity and become a faceless person. Of course we are not flying because we don't like to get molested by the TSA nor do we like to wear the crazy mask muzzle diaper on the face.

But Father, boom! As soon as we won that case, boom! He opened it up and then we were able to fly without the face diaper. So we went to South Korea and we were on quarantine but it was not as heavily enforced as before; there are a lot of changes and hopefully in Japan as well. As soon as the Korean tour lifted we heard that in Japan they're going to start getting rid of the quarantine periods, and the mass mandates are starting to drop.

So it just seems that God is just opening the way for us to go back and
 *bring people back;
 *bring people back under Father's authority,
 *bring people back to Jesus Christ,
 *bring people back to the Bible, and
 *bring people back to salvation. It's such a critical thing!

We thank you for all your prayers. (*Applause*) We're heading out again in about two weeks. It's going to be a crazy ride, and we probably may have to go back quite frequently out of Cheongpyeong, TN etc; just so that we can continue to pray and build those churches up as the Holy Spirit is moving, and as people are beginning to be saved again and those churches are coming back online again and they're starting to be revived by the Spirit. (*Applause*) So we will have to stand with them during this critical time.

You know it is becoming more and more dangerous in the world today, but as Father did all the time, wherever the danger was Father was going. So in that sense Korea and Japan are very important. In Japan the prime minister is now talking with NATO; Japan wants to join NATO which is of course just more of an expansion of the leftist Communist arm. We have to go pray with Korea and also pray with Japan so Japan does not join these types of international Communist regimes and they stay sovereign, and they stay in support of the US and not of these international Communist regimes. That they stay loyal to the roots and the connections that they've had with the Allies Forces, with America, and not allow NATO to suck everybody into a giant world war in which we're heading right now.

So the point is folks, we knew after the Han mother fell that there would be a worldwide judgment; we knew that. It's very obvious: if you're going to fall from that cosmic-level, there will be cosmic-level consequences and cosmic responsibility. That's what this scripture in Amos is about.

The Prophet Amos

Let's go to Amos chapter 4. And just some general knowledge about or information about the book of Amos: This is when Israel is divided; this prophet Amos is living right on the border of Northern and Southern Israel and his writings, his poems, his prophecies are all about the divided kingdoms.

The North now is under King Jeroboam who he is worshiping -surprise, surprise! – Moloch! He is worshiping Baal; he's worshipping Asherah and all these false deities. No surprise that these super elites at their different gatherings are doing mock rituals to Moloch with the owl and all these kinds of things. No surprise either that the Han mother is putting up all these owl deities on the different places that were our holy sites, including the big property retreat center in South Korea in the Cheongpyeong area with the palace there. All these owl statues going up! There's no surprise, no surprise. Why? Because she's tapping into that demonic spirit! Of course that spirit is against Christ, against the Bible; it's angry against Christianity, it's angry against True Father, and angry against God.

Let's go to Amos chapter 5 today because it is quite a powerful, powerful chapter. Amos is calling Israel back to repentance. Let's read together!

Amos 5: 1-4

A Lament & Call to Repentance

1 Hear ye this word which I take up against you, even a lamentation, O house of Israel.

2 The virgin of Israel is fallen; she shall no more rise: she is forsaken upon her land; there is none to raise her up.

3 For thus saith the Lord GOD; The city that went out by a thousand shall leave an hundred, and that which went forth by an hundred shall leave ten, to the house of Israel.

They are losing their people. To whom? We will see as the chapter goes on.

4 For thus saith the LORD unto the house of Israel, Seek ye me, and ye shall live:

In the midst of all this craziness, in the midst of all the betrayal, in the midst of all this wickedness and calamity, and you know now in America the summer of love is starting to heat up again with all the craziness! Look folks! The world that we knew is starting to crumble. People have been traumatized the last three years, being abused with all their constitutional rights thrown under the bus, muzzled. You're talking about censorship, you're talking about unbelievable type of oppression that people have endured the last three years across the world; but also in the United States.

Churches have been ordered to shut down in California and Commie areas like New Jersey, and pastors have been complying! These are of course signs of a degrading society where the state has now become God and the state orders mandates. The Bible says, *“Do not forsake the assembly of the people.”* (Hebrews 10:25) God's people assembling and worshiping God is such a critical part of God's Kingdom on earth; such a critical piece. And if an outside person comes in and can shut it down; if they can stop the worship of God, they're exerting a tremendous power over people's lives and people's hearts.

Because in the end our relationship with God, it's about the heart; it's about *“my heart is God's.”* My heart is not the state's; it's not some politicians', not some bureaucrats'; it's not some committee members'. They don't have my heart. My heart is God's, and I express it with other people whose heart is also with God; I want to be around them.

The Bible talks about praise, thanksgiving and entering into God's presence; that the praises of the people of God are as a sweet aroma, a sweet fragrance unto God; that God delights in this. When He sees people who love Him gathering together and singing songs of joy, worshipping, spending time and fellowshiping together, God rejoices in that. That is a critical part of the Kingdom of God; not only is it a critical part of the theological or the philosophical genre of the Kingdom of God, but also of the sociological.

Holding society together through Christianity

Even psychologists like Jordan Peterson tell how important this tradition of going to church has been for the American people; I'm talking about sociologically. He's agnostic but he's positive towards Christianity because he sees the benefit that it has for society to hold together and to allow pursuing goodness and strength through tragedy. That through tragedy there is redemption, there is restoration; there is RESURRECTION! There is the Holy Spirit power *“For we walk by faith, not by sight.”* (2 Cor. 5:7) There's great power in that, and that people would gather together on a weekly basis to take an hour, two hours, three hours, in our church, sometimes seven, eight, nine, ten hours to study the Word of God, to study ethics, to study what the Bible calls *“righteousness.”*

We hear this word *“righteousness”* a lot in the Scripture and righteousness in Hebrew has the connotation of having to do with justice; so when we study God's Word it's the study of justice as well. These are very important things to hold society together, and even sociologically speaking you need to have justice in order to hold it together.

Number one you've got to have pillars that you agree upon as people. You got to have core values that you agree upon like for example that pursuing justice is good, or that there's a difference between good and evil, and that innocent people should not be killed or slaughtered. You have to agree upon these principles as a society to hold it together, otherwise it falls apart. This is what the Left is doing now in America; stripping away all the core pillars of society, our commonly-held values that come from a Judeo-Christian framework. Whether people in the modern age believe in Jesus or not they are

in a Judeo-Christian framework. An idea to pursue brotherly love, an idea to *"love thy neighbor"* as one of the core principles of society, this is literally the Commandments condensed by Jesus: *"Love the LORD your God with all your heart, with all your soul, with all your strength, and with all your mind, and your neighbor as yourself."* (Luke 10:27) This is one of the core tenets of the Christian worldview.

What is it doing? It's elevating us OUT of the mammalian animalistic physical urges of survival and reproduction and just doing what we need to do to gain more power or more resources for survival and reproduction; which animals do. Animals will do anything; they don't have ethics. They will do anything; they will eat their own children if they have to, to increase their survivability, increase their rate of reproduction and increase the survival of the fittest. They will do anything.

This weekly study of ethics, weekly study of justice, and the weekly study of being accountable to a cosmic Creator, this is a critical part of holding together a fabric that intertwines many different peoples, many different colors, races and ethnicity etc. How do you hold that all together? If we lose the common strands of common morality and common ethics society unravels; it starts to unwind.

You start having all these different groups with RADICALLY different views which cannot coexist. You can't have views for example that marriage is precious together with the culture of total adultery and the state funding adultery under the Welfare State funding children born out of wedlock, funding women sleeping with multiple men who kick their husband out of the home and then get the welfare check. Because that's the way you get your welfare check; you have to get rid of your husband- same system now in Korea by the way.

These are things which break down society. You can't say, *"Children are valuable and you need to protect children,"* but then have the pedophiles always get off free. The top elites like Ghislaine Maxwell in Epstein Island, proven sex traffickers of little girls and boys to the superclass, they get off completely scot-free, and the media won't cover anything they do.

The Bilderberg Group Meeting in DC

The World Economic Forum was meeting this week in Switzerland and now in DC from June 2-5, the Bilderberg group is meeting in a hotel; it looks like they're meeting in the Mandarin Hotel right now as we speak. The Bilderberg group of course is the group of the top elites of the world. There are kings, there are prime ministers, there are military generals there; every single big massive mega corporation like Google, Facebook are all there. Pfizer is there, GlaxoSmithKline is there, Goldman Sachs is there. All of them are there! These are the most powerful people on the planet, who by the way have wrecked most of our lives in the last three years.

You go to Korea and you see all these companies out of business. We went through places like *Insadong* just to check it out, and see how it changed over ten years. Man! It has collapsed! A place like *Itaewon* which relied on tourism has completely collapsed! So many businesses have *"for rent"* signs everywhere. People have been totally ravaged in the last three years; their business have been

destroyed, their dreams have been eviscerated, and mostly due to these people. THESE PEOPLE are gathering! HUNDREDS of them! The top elite of the world, as I said generals, prime ministers, monarchs, and not one media is reporting it; CNN is not interested in this.

Why is CNN not interested in the gathering of this Superclass, while this Superclass is the one that was making international decisions for everybody regardless of what country you were from; which many times resulted in GRAVE human rights abuses? People being beaten up on the beaches in New Zealand and Australia; in the UK pregnant moms being arrested because they made a Facebook post! I mean UNBELIEVABLE level of human rights' violation, and THESE people have been pushing it towards that centralized control.

But no media wants to cover this, no media, *"Oh! They are in this very innocuous harmless meeting. They're just there to hang out with one another in the Mandarin Hotel; have lunch and talk about Matcha Lattes and Cappuccinos. They're not there doing ANY business,"* even though on their opening statement on their web page <https://www.bilderbergmeetings.org/>, they say, *"we're going to be talking about Ukraine."* Whenever they have met and forecasted something, it has happened: they forecasted the crash of 2008 and it happened. They forecasted that the EU would make one currency, and it happened. Every time they forecast an event, it happens in that way.

But yet the media don't want to cover; the media don't want to ask any questions. Nobody is curious to see what the most powerful people that clearly can make world-level decisions are talking about in secret, clandestinely meeting together! People didn't believe that you could have a world-level government; people did not believe that. We all believed we were in different countries. Amen! Remember that? But then Covid hit, it proved everybody wrong; taught everybody that, *"No! We are not in different countries."* These people don't want all these different countries; they want to be able to rule every single country from that centralized body. All of them, all of them, want more and more centralized power; which of course is political Satanism and that's on the spectrum towards the kingdom of hell, not heaven.

So these kinds of wicked people who have ravaged the world in the last three years are now meeting in DC. The head of the CIA is there and the media is not interested. The heads of many of these investigative bureaus are there but yet nobody wants to cover this; nobody wants to report to the normal citizens. So the normal citizens think nothing is going on while all these major heads of major organizations and the major departments of the federal bureaucracy are there, meeting with these internationalists, meeting with all these mega corporations. Every single one of them by the way was for the lockdowns; they were for destroying your business, they were for increasing the level of mass mandate and increasing the level of totalitarianism in your country. Every single one was supportive of that, and they're all there gathered together!

A great commentator reported people on the Left stating, *"Well, there's nothing going on in those meetings; no, there's no real effective change happening in the meeting."* Sure! And he gave the example:

"If the heads of the soccer organizations of the world gathered secretly in a hotel with the top one hundred players and the top one hundred managers, that might affect the game of soccer internationally, wouldn't it?"
 In the same way, when all the tops of these nations - who literally by executive order have ordered mass mandates, lockdowns and in some countries forced vaccinations - when they gather together, you don't think that has some effect on world events?

These people are crazy, they're absolutely crazy. They're either crazy or they're liars; probably both since they know that the normal people are not thinking at all about politics. The normal person is not a pathological predator so they can't believe that the superclass would be such people.

But this is what people don't understand. People don't understand that with that type of money, with the trillions of dollars of the Rothschilds, or with the billions and billions of dollars depending on the size of the country that you're operating out of, you literally can get away with anything. You can buy off judges; you can buy off police station chiefs. If one of your children gets in trouble you can buy that person off; you can hire the top lawyers and get them off your back. You understand what I'm saying folks?

You wield so much leverage and power when you have that kind of money. That's why they of course want people to become worshipers of power and worshipers of money, and think that you're joining a social club and that you're going to get a crumb of that power.

Satanism

The point is: you have to sell your soul to do that. You have to sell your soul to the Devil because the whole cult of Satanism is about power; in the end it's about the cult of power. It's the cult of control, it's the cult of exacerbating, increasing the animal instinct of man.

Not the spirit!

Not the spirit to get stronger with God.

Not the spirit to help rule us with our mind over our body.

Not for us to pursue discipline and moral fortitude and ethics and values in our lives so we can dominate our body!

No, it's the opposite! Satanism is the other way. Satanism is just like Lucifer did in the beginning as we learned in the Principle. Weaponizing sex is the key especially for the young people who are dumbed down in schools. You can attract them with the flashy things, with sex and bikini girls and let them play round with all these loose relationships that seem fun. You attract them and bring them into the culture of immorality, and slowly, slowly, slowly, you bring them up the echelon. The ones with the higher IQs you can start promoting and then of course that's what the university is for. They're trying to weed out the ones that are smarter, bring them up to the top and of course bring them into their organizations.

But before you go into those organizations you have to go to their little parties and you have to get into their little sex orgies, where they shoot you on the cameras and they got you forever doing all these nefarious wicked and licentious acts. And of course the higher and higher levels you're going up,

the more the age of your victim is starting to drop, so you have to be engaged in pedophilia and in all these wicked Satanist rituals, and they have all that in film to blackmail you forever.

People used to think this was conspiracy theory. I mean the Bible has talked about this for the last two thousand plus years, talking about Satanists and their evil ways in which they worship Moloch etc. Luciferian rituals have been around for two thousand plus years; they're ancient. It's the ancient form of religion since the Garden of Eden, so it's thousands and thousands and thousands of years old; it's not new.

Destroying innocence, destroying children, destroying the potentiality that children have, preying on the weak, preying on the innocent; these kinds of principles are part and parcel of Luciferianism, part and parcel of Satanism. Preying on them to gain power; inviting people in, recruiting people in, blackmailing them and then making them part of the criminal organization.

Even in Washington DC people had talked about this. The Washington Times in the 80s exposed a Republican pedophile ring, a sex trafficking ring. The Washington Times exposed that. That was our publication that Father found. But of course not only Republicans but the Left is DEEP in on it with the Clintons and Ghislaine Maxwell, Epstein Island; you name it, we all know they're involved. But Republicans were in on it too.

Congressman Madison Cawthorn

Just recently a North Carolina congressman, a young man and war vet combat, had two legs blown off; good-looking guy, super Second Amendment fellow: Madison Cawthorn. Unbelievable! What a great representative North Carolina has! What an incredible young man! He's unbelievable; such a fighter, such a warrior for God!

He was on John Levell Show. John Levell is the "Warrior Poet Society," a former army ranger. He runs this big YouTube channel, and he has his own TV network, all about strengthening the body of Christ. He's a very strong Christian so he's into apologetics as well, and he trains people; he's a professional gun trainer. John Levell "Warrior Poet Society," you definitely got to check him out.

<https://www.youtube.com/channel/UC9ZKDGCCc5R67fVvLFSv-OLA>

Congressman Madison Cawthorn was on his show on March 24th. He told him, "When I got to Washington these people were inviting me to sex orgies." He said that on the show! He said that on the show! He stated that those people and the Republicans too, were inviting him to sex parties!

https://www.youtube.com/watch?v=xEEpnrZgoJU&t=50s&ab_channel=WarriorPoetSociety

So, he totally exposed that on the show, and he came under so much HATE in DC. All these establishment Neo-Cons like Lindsey Graham and others and of course everybody on the Left CONDEMNED him. "HOW DARE he is saying that about DC? HOW DARE he?"

He was sharing his honest experience, folks; he clearly is on the side of the American people. He hates DC; he hates it. He wanted to go in there basically as a combat vet, to stand up against the wickedness, the stolen election and all those kinds of things. This is a congressman; it's not just a normal person talking about this on YouTube. NO! This man is IN DC! He's IN the belly of the Beast; he's in there and with his own testimony says that he was invited to sex orgies, to sex parties. This is not somebody just making stuff up.

Of course we know all the happening on the Epstein Island; we know the pictures with Hillary, Marina Abramović, Ghislaine Maxwell and the convicted pedophiles, friends of Bill Gates, who run the show. Melinda Gates came out saying she divorced Bill Gates because of his close relationship with Epstein, and the MEDIA doesn't want to cover that, folks! You understand? Epstein was the biggest sex TRAFFICKER in the Western hemisphere; he was like the kingpin sex trafficker. He was selling children to the superclass and he got caught five times. He was in prison five times for pedophilia and sex trafficking.

This MAN had an extraordinary close relationship with BILL GATES, who by the way is the number one funder of what? The WHO, World Health Organization! He's the number one funder; the second one is Germany, the third is United States, so Bill Gates out funds the United States and Germany in terms of funding the WHO.

Then it's no big surprise that he's trying to make the WHO the superpower behind the scene. If another pandemic comes around everybody must obey the WHO, everybody must obey the mass mandates; everybody must obey whatever they are ordered to obey. National sovereignty doesn't matter because it's an international crisis and it's an international pandemic. Are you kidding me folks?

Worldwide judgment

We've been talking about this stuff for the last seven years. People were saying that we were loony, we were crazy and we were conspiracy theorists! No! But we knew that after the fall of the Han mother there was going to be a worldwide judgment. It's going to come; it's inevitable. If Father is Returning Christ and by free will the Han mother does a betrayal on that level, something big is going to happen. We knew it, we knew it.

Remember, five years ago we started talking about this and talking to people in South Korea and Japan,

"Get ready!

Start moving out of the cities; go to more rural areas, and

Start preparing! Get your house in order; get in order with God!

Start deciphering who is your friend and who is not!

Start getting ready!

Start preparing food!

Start preparing shelter!

Start getting trained!

Start building a community!"

Remember we were talking about this? People thought we were nuts because it just seemed like the world was going on as was: shopping malls were running great, restaurants running great, the economy was booming. *"Nothing's different! We're going to have sixty or one hundred more years of prosperity. We're going to have all peace, no war."* This was the mentality five, six years ago. People who had faith heeded that call to action and they moved to the countryside.

Then for two years – you're talking about two years of long suffering - for two years their children mocked them, for two years their family members called them lunatics; for two years, every single day! Maybe they didn't want me to meet their parents, or whatever, *"What are you doing? What are you so paranoid about? Buffalo Wild Wings is still open, honey! Give me a break! Karabaz is still open; there's no big deal!"*

Then two years into it, boom! The corona hits, and this is not national, this is not just one little country; this is an international worldwide biological weapon unleashed on the people by China. China released it and China gets PRAISED by the WHO; this week in Geneva during the World Economic Forum meetings China was being PRAISED again! Folks, do you understand? China was being PRAISED again, PRAISED for their incredible lockdowns; you know, their unbelievable human rights violation, such as welding people shut into their apartments. Just such modern, totally modern type of thinking! You know lefties love modern stuff, *"That's totally modern!"*

So the Chinese were being PRAISED! And what about their plan of turning Shanghai into a prison? You understand? That's 28.4 million people, folks! Seoul City which is a humongous city, bigger than Manhattan in terms of population, has 10 million people; Shanghai is like THREE TIMES the size of Seoul! We were running around in Seoul saying, *"Hey! This is a BIG city!"* I forgot how big Seoul was. I was looking around saying, *"Man! This is a BIG city!"* But Shanghai is THREE TIMES BIGGER than Seoul! You see all these hundreds of thousands of people walking around in Seoul, but imagine that in Shanghai they locked everybody in the whole city! 28.4 MILLION PEOPLE are locked down, folks, and in Beijing as well!

So China was being praised all week in Geneva by the top elites of the world, *"Oh, you did such a wonderful job!"* Just like since 1973 David Rockefeller has been praising Mao and saying how amazingly fast the Chinese can respond and how quickly they can get things to change. Justin Trudeau loves China; he was sitting in front of a women's conference PRAISING China. He was telling them, *"in democracy sometimes it takes time to get things done, but we really look up to China because sometimes they can get things done so quickly."* Oh yeah, he said that a couple of years ago!

And that's the SAME man that came out now and banned handguns, folks! These are the people that want gun control, that want to ban your rifle, *"No, we're not going to touch your pistols; you can have your pistols, you can have your 9-mm or whatever. We're just going to ban your rifles because they're weapons of war, so we're going to ban them."* Just like Canada did, just like Australia did! But of course *"oh, surprise, surprise!"* These pathological liars lied again and now they're banning handguns in CANADA, folks. Now TOTAL freeze on handgun, TOTAL freeze on self-protective equipment! Now women, the most

vulnerable class towards predation especially rape, they have no means of defending themselves against larger opponents, larger demonic people. So gun control always leads to more and more oppression, more and more slavery. People don't understand that.

AwakenWithJP

There's a great video by Awaken With JP: <https://www.youtube.com/user/AwakenWithJP>
He's so funny. The guy was a leftist; he was a new age kind of lefty guy and he woke up just by researching. At least he was an honest lefty so he was actually trying to research statistics and different topics and now he's a conservative. The guy does unbelievable satire. Unreal! He comes from a leftist culture, so in the way he speaks he literally nails it 'to a T'. This man grew up around feminists and all these crazy lefties; he's got it down pat in terms of sarcastically destroying and dismantling the lunacy of the Left, the total irrationality of the Left.

In one of the scenes he's talking to himself and he tells himself,

- "No, no! You know guns are dangerous and guns kill people. So we have to get rid of them because people are not safe; you could have accidents. So you know we should trust the media; we should trust the politicians as they are directing us very clearly to give up our guns. We should trust them; we should totally comply."

Then he tells himself,

- "Wait! But they would never do anything bad. You know in Germany they confiscated the guns then they massacred a great amount of people. You know in China they confiscated the guns and massacred about 50-60 million people - some people even say one hundred millions."

Then he says,

- "No, no! But that's only two examples, okay." And then he goes on to Uganda, he goes on a Turkey, goes into the Venezuela and he's like,

- "Oh, my goodness! Whoa! That's pretty bad!"

Anyway, it's such an entertaining, such an incredibly sarcastic but beautiful video, TOTALLY exposing the lunacy on the Left.

And he says,

- "No, no! But that could never happen in THIS country! Those countries, they were clearly doing gun control; they weren't saying that it was for safety and to stop children from dying and reducing accidents. They CLEARLY weren't saying that in those countries. They were doing gun control saying, 'The Jews are bad' or 'the Armenians are bad' or 'these types of Russians are bad.' Clearly they were doing it like that."

No, no, no! Actually the history books show they were doing the same messaging as America is doing now. That this is for safety, this is to reduce accidents, this is to reduce negligence; this is to stop people having assault weapons! Same type of rhetoric, same messaging; exactly the same!

- "No, no! But that could never happen here!"

And he goes on,

"Okay, but yes it might happen here!"

- "No, no! It can never like happen HERE!" And

"No, no! But maybe you know look at this example it could happen."

-"No, no, but it can't happen HERE!"

"Oh, since you put it that way I totally agree it can never happen here!"

He totally gets it on the head in terms of how these people think. They just repeat the same irrational unconscious things that they've been programmed to say through CNN, through MSNBC, and of course through the government schools which they spend a lot of time in - 10 hours per day especially if you've got sports -with government programming from five years old all the way to eighteen.

And of course it's an atheistic secularized type of education. You don't learn anything about ethics; you don't learn about justice. The only type of justice you learn about is communism and "equity." All these words are framed towards supporting the centralization of power. Why? Because you're in a centralized government SCHOOL! Of course if you're in a Coca-Cola school nobody's going to criticize Coca-Cola, so if you're in a government school nobody's going to be criticizing the centralized nature of government and how it has been the greatest DEATH sentence to humanity. In the 20th century over 220 million people have been slaughtered by their own governments; democide is the word for the actual sociological framework.

The Uvalde school shooting

But the point is: I think King David may have posted that- 637 people have been killed by mass shootings and that's bad, that's tragic, but of course 98.4% of them were on what? Gun-free zones! These criminals, these lunatics, these psychopaths target places which are not hard; they target soft places where people are ruling that region with their emotions and not facts or not the reality of fighting predators. So these soft areas get targeted 98.4% of the time 98.4%! Not 80%, not 73%, not 62%, not 51%, not 47%, not 32%, not 21%, not 15 or 14%! NO! 98.4% of all the mass shootings are on gun free zones!

See, that should teach you something! That should teach you something about the sociology and the psychopathy of a lunatic who's trying to kill as many people as possible; he's going to MOST LIKELY 98.4% of the time, choose a place where people are disarmed. That's not rocket science. But to some people who are so heavily brainwashed by government institutions it is like pulling crooked teeth out or pulling splinters out of nails - whatever the case may be. They just cannot understand that. 98.4%! 98.4%! 98.4%! 98.4% of the time they're choosing the gun-free zones; the place where nobody can have guns!

You saw what happened to Uvalde. What happened there? The police stood down and the mom, the MOM ran in! There's now the clip of the mom. She finally opened up and talked with CBS, and that's now online. She said she ran in there. No cops were in there. She ran in. She didn't care if she got shot; she had to save her babies. The cops were told to stand down, and that police chief is under BIG scrutiny right now, big trouble.

Those guys had open body armor; they had all their kit, they had all their rifles, they had ballistic helmets, and a guy with an AR scared the bejesus out of many of them even though some of the brave

ones wanted to go in but they were told to stand down. What kind of unbelievable lunacy is this? The mom that ran in herself said that she was being detained; they detained her one time, then they let her off and she ran in. She ran in to save her babies!

https://www.youtube.com/watch?v=_q7olC1LteE&ab_channel=CBSNews

"Mom who ran into school during Uvalde, Texas shooting discusses moments inside"

And she did! That's her with the two babies. Let's give it up for the mom! (Applause) That's a REAL heroine right there; she's a HERO!

SHAME on that department standing around while 19 got massacred! 19 kids just got totally massacred! They stood no chance because in the government school all the teachers are disarmed; they're just sitting ducks waiting and cowering in the corner trying to close the door etc. But guess what? Bullets go right through doors, so if you're holding that door and you stand right behind it, the bullets go right through. The only way to stop a bad guy is to stop him with the tool that will stop him completely, i.e. immobilize him.

And even as the mom said, he may have gotten two or three kids, but he wouldn't have massacred the whole class if the cops just went IN. This school in Uvalde already had mass-shooter training, and in their own documentation on the website it shows very clearly that in their training they were taught, *"You have to go in. If there's an active shooter you can't wait; every second you wait another kid will be KILLED! You HAVE to fight the person."*

So the law enforcement had been trained to do that, all the school teachers had been trained to do that; they already had that run around in THAT school but they didn't act. They were told to stand down and of course there was a massive death toll.

Post-Christian America

But not only that! There is now heavy politicization; heavy! All the Left is coming out now, *"We have to ban the guns; now we have to do as brave Justin Trudeau did, and ban handguns. We too have to ban handguns!"* Of course these people don't care about dead kids, folks! They love having dead kids so they can politicize, they can disarm the public and get their TOTAL control of power. Why? Because they're nothing more than tyrants, folks; nothing more than tyrants in the spirit of Satan! They're of their father the Devil. Their father is Satan, and their father is leading them to push forward into this type of totalitarian America. That's what we're seeing now happen, folks.

And when you have had this type of overreach for the last three years, you have people now accustomed to this level of government inclusion. You have people who have been brainwashed the last three years and they're now desensitized to the stripping away of rights, to censorship and things like that. And it's just normal; every one of us falls prey to this. At the same time the standard of living is now collapsing. Gas prices are rising, food prices are rising and of course it's going to get worse. Gas prices are forecasted to be ten dollars a gallon in Washington State very soon, already turning the gas price into double digits; they're already doing that right now, folks. In America you may be seeing double-digit gas prices for a gallon.

In different parts of Korea for example, you pay about eight to nine dollars a gallon, so it's worse than California. In California I believe it's what? Six to seven dollars in some place; in Korea it's about eight to nine dollars per gallon and I bet in Japan it's worse. When I go there I'm going to check the gas prices because it's probably going to be up in the double digits; I wouldn't be surprised.

Folks, the normal standard of living that we've been accustomed to in the last sixty years, is starting to unravel; people are still in their jobs, they're still making money but the standard of living is higher so they now have increased costs for everything. Now people have to make cuts on groceries; they have to make cuts on eating meat for example and eating a steak becomes more and more like a luxury. When you used to be able to eat a steak every night, it becomes a luxury now and you have to cut back to maybe once or twice a week.

These small changes start adding up, and in that kind of pressure where people are feeling more and more depressed, more and more despaired, more and more disheartened towards the future, and where the cost of living is also going up EXACERBATING that feeling, EXACERBATING that, people start getting crazy; they start breaking. People start going mad, people start BLAMING the WORLD and BLAMING this and that, like the school shooter who started blaming innocent people and wanted to kill innocent people just because he hated life. Of course he had no father; he came from a broken home, was on video games all day long and in government schools and he was on psychotropic drugs.

It's a terrible cocktail of terrible situations, all stemming from what? From the moral breakdown of the family, the moral breakdown of Christian society which is now plaguing America! We live in a POST-CHRISTIAN society, folks. They say now only a little more than 30% of pastors hold a biblical worldview, meaning that 70% of the pastors in America WILL not stand up against abortion; they will not stand up against licentiousness and LGBTQ AIA PP + 678910. They won't stand against it; they won't stand against ANYTHING that will make them lose members! To them the church has become a business; this business has become another occupation. It's no longer a calling; it's no longer a spiritual warfare against the enemy and fighting his cultural battle. It's no longer a spiritual battle against the enemy, a culture war against the enemy; it's no longer that. 70% of the pastors in America are now not biblical.

So it is a problem, folks. As we lose that biblical framework, as we lose the difference between right and wrong, society begins to collapse; people fall into despair, people lose hope. Why? Because

- they're no longer connecting to God,
- they're no longer practicing brotherly love,
- they're no longer practicing "loving thy neighbor";
- they're no longer serving their community.

Now the "social justice warrior" is online spewing vitriol against the enemies of the government; being told that they're fighting for social justice, being told that they're fighting for "equity", being told they're fighting for "climate change" or whatever the new stupid phrase word is. BRAINWASHED young people weaponized to just attack anybody who goes against the media

narrative, against the government line, trying to pretend like they're the brave person standing for the poor and the oppressed!

No you IDIOTS!

You're standing up for the superclass, the BILLIONAIRES!

You're standing up for the super ELITE!

You're standing up for the RICHEST people on the PLANET!

You're standing up literally for the one percent which you HATE!

You want to occupy Wall Street, but you're literally standing up for the one percent and their values, for total centralized government and the eradication of all freedoms for normal people. So of course, this is a trend in political Satanism, this is going towards evil, wickedness; it's going towards destruction, folks.

A warning

So, when we went to Korea and also when we go to Japan, we're not just going there because God is providing the movement of the Holy Spirit and there's a great harvest of people coming back to God etc, but also why? Also to give a warning; to give a warning! When we were in Korea we also gave the warning: we're not going to be able to bypass this World War III. The world judgment IS coming; we're not going to bypass it by any matter of positive thinking. It's beyond our pay grade in that sense okay. It's coming; calamity is coming! But there are things we can do to minimize that calamity.

You're not going to get rid of it completely; these people are hell-bent on realizing the world government which they've already accomplished in the last three years with massive compliance by all citizenry of all nations. Totally pathetic! Probably about 33% of Americans were non-compliant. Thank GOD for those! Let's give it up for the 33% of Americans! (*Applause*) YOU LITERALLY were part of SAVING the WORLD! YOU LITERALLY were part of not being foolish unscientific zombie listening to CNN and MSNBC, and to a white lab coat doctor giving you false information. This is now coming out with the insurance policies skyrocketing due to a 600-700% increase in heart diseases such as myocarditis which is heart swelling and can lead to heart attack.

We TOLD you! We TOLD you! We warned you. We warned so many people but they brainlessly just followed. Many of them even though well-intentioned PARTICIPATED in the increase of totalitarian power worldwide just by following along.

The 33% that did not comply, *"I'm not going to get the vax! No! It's not proven; it didn't go through the rigorous studies yet. I'm not going to get it!"* The 33% of PEOPLE that actually had a BRAIN and THOUGHT, and actually tried to do research before just listening BLINDLY as if they were in a CULT, they are the ones being accused of belonging to a cult!

LOOK at these PEOPLE! They BLINDLY followed with FAITH their white lab coat doctor! BLINDLY followed them, because they know their doctor would never, never lie to them; their doctor loves them as much as their mommy and as much of their daddy! They would never lie to them even

though they're paid hundreds of thousands of dollars of incentives to make people take the vax! They would NEVER be swayed by money! *"My doctor would never be swayed by money, never; he's a saint. He's holy; he's holier than the pope!"*

So ridiculous! Complete cult- level blind faith in the medical establishment!

These doctors and others have been lying about anthrax, lying about all sorts of things throughout the years, and yet these people took the vax, and now have massive increase in heart disease, heart failure, and death resulting from the spike proteins. The top level SCIENTIST, the INVENTOR of the mRNA vaccine, Dr Robert Malone was coming out being censored on every platform TELLING the PEOPLE, *"Don't TAKE this! Don't take this! I invented it; DON'T take it!"* You won't listen to the man who CREATED the dang thing, who's saying, *"Don't take it! The studies were not rigorous enough; just don't take it! Especially don't take the third one. If you take the third one you're never going to be able to eliminate the spike proteins from your body; you're going to continue to replicate the spike proteins!"*

These are the TOP virologists in the WORLD! And yet people did not listen; they blindly followed the news anchors, the talking heads on TV that told them, *"Get the vax. You'll save lives; you'll save grandma. Get the vax and you can go to Christmas. You want to save Christmas and save Thanksgiving!"* Oh my Gosh! These people, they're in a mental asylum; they're in a cult. CULT! Of course they call me a cult leader; they call everybody here a cult. Are you KIDDING me folks?

We say, *"Hey! Everybody has to decide. But it's probably good to listen to the INVENTOR of the thing; it's probably a good idea just to listen to his opinion."* I'm not going to say, *"Do this! Do that!"* But I want to show people his OPINION; the INVENTOR of the thing, maybe he has a important opinion that's being banned on every platform. Maybe it's important to listen to the inventor of the dang thing and to see if it's really for you or not, and for your children or grandma or grandpa.

It was just unbelievable folks, and you understand the level of self-righteousness of these people. When you didn't want to get the vax, they would say, *"What? What is wrong with you, Robert? What is wrong with you, Richard? Don't you care about people? You're going to get people KILLED!"* Do you understand? These people, they were evil. They had become totally possessed by the Devil; they were demon-possessed. They acted just INSANE! SHAMING you, and everything that they accuse us of, and everything that they accuse every cult of, THEY DID!

But of course they had the backing of the big state, of all media, so they felt RIGHTEOUS in doing it; they felt RIGHTEOUS! They were doing the right thing. They were doing a public service announcement denouncing you for using your intellect, thinking out by yourself, trying to search out relevant information coming from the inventor of the dang thing; you know listening to different opinions and different experts on the subject telling us, *"Those things should not be done."* How dare you not trust MSNBC, CBS, CNN? How dare you not trust them? How dare you not trust climate change? *"There was an increase of hurricanes in the United States compared to last year, so get vaccinated! Save people from the hurricanes; get vaccinated! We're going to fight the hurricanes; one hurricane at a time we're going to fight!"* Ah! These people, they're so CRAZY!

The point is folks: an unbelievable amount of trauma, unbelievable amount of stress, unbelievable amount of psychological microtrauma has been inflicted on the population in the last three years. We don't know it but we're not at the same level we were at three years ago. We're actually now more desensitized towards tyranny; it's become normalized. So with that process, with the desensitization of that type of "mass formation hypnosis" as a psychologist talks about, people are less and less able to spot tyranny and how it comes rolling down.

That's why it's so important to be vigilant; that 33% that was non-compliant in America, literally held back the wave of international communism. You understand? That little group of people on the planet saying, "NO! NO," wearing a tinfoil hat, the truckers and all these people that the Left just demonizes and calls domestic terrorists; they LITERALLY held back the wave of totalitarians in a way never seen on the planet.

But now, because of the three years of worldwide lockdown, how unbelievably ready people are to do it again! When I was in Korea, it was shocking. Everywhere people were still wearing masks; it's still a cultural thing. But we would talk to them and say, "Please take off your mask; take it off. It's not scientifically proven. You have a 99.7% chance of surviving this disease. You say that you don't want to give it to your children, but your children have a 99.9% chance of surviving it! You understand? With a common cold or bronchitis you have higher rates of death. So it's better for you to just breathe. We're the only ones in this little hamburger shop, so just take off your mask for us. Okay? Please!" And they would do it. They would respond, "Wow! Oh, okay! I guess I can take my mask off; okay!" as if they were doing something very naughty! "I took off my mask." THIS is NOT a JIHADI camp! You understand? You're NOT supposed to be WEARING a HIJAB!

So people would do that, and you could see they would feel so happy, "I did something today." (Laughing) But as soon as the next customer arrived, "whew" the mask came on! Oh Lord! It was just so painful to see but you can observe how the normal population has been completely brainwashed. They're ready; they're primed and ready to go again, folks. Monkeypox hysteria! Of course they're trying to whip it up in America.

Of course I told them in Korea, "Once you get your first case in Korea, trust you me the KBS, NBC; all these people, all this news media in Korea and Japan, they're going to be whipping this up into a frenzy again. You all get ready for new lockdown! Shanghai we're on your tail now! Shanghai we're coming to catch you!" They're begging for it; begging for the lockdowns. This is very sad, folks; very sad!

And these are people that should be living in "free countries"; these are supposedly free countries. Europe was supposed to be a free country. Europe was supposed to be avant-garde and artsy, "Oh, Europe's so artsy! I need to go to France, the artsy capital of the world, and oh, they're so artsy!" No! They're slaves. There's COMPLIANT little slaves; anything their political elite class tells them to do, they will do like DOGS! They're COMPLIANT little SLAVES! There's nothing artsy about France. The only thing that's artsy about them is? I guess: nothing! (Laughing) You know once you lose God you're going to replace it with the state. Once you have the state in power and once you're worshipping the

state, if anybody goes against the state, everybody CONDEMNNS them as being a heretic, *"You went against the state narrative! You went against the vax! You went against Covid lockdown! You are a HERETIC!"* Okay, okay, all right! You all know where that's going to, right? You know where that's going to! Death camps are on the way!

Strike that Devil!

This now is escalating in America, and of course the midterms are coming up and they don't want to skip the midterms, but God is moving in a mighty way. Roe v. Wade is on the table. My goodness!

STRIKE that DOWN with the SPIRIT of GOD! (*Applause*) Hallelujah! GOD, STRIKE that EVIL death bill DOWN! Give that power back to the states; let the states decide. Let the state decide! Preserve life, make it a crime to murder children; that should be a crime, it should be crime.

-"The child is not your body."

"Well, the child is INSIDE me!"

-"Does that mean then when you're having sex with a man because he's inside of you then he's now part of your body?"

"Well, the child is connected to me."

-"What about when you cut the umbilical cord? Now is the child not dependent on you for sustenance?"

It's still dependent on you for sustenance. If you leave a child after you cut the umbilical cord, it will die. And of course don't discount the biology that shows clearly that this is a unique chromosomal set, a unique DNA set, a complete unique human being, and that given the proper opportunities for natural gestation it will become a unique human being with human RIGHTS!

But of course the Left doesn't believe in human rights. They only believe in governmental POWER and determining that whoever is against that will be called white supremacist domestic terrorist Trump supporters or whatever label they want to put on you; to ostracize you, label you, demonize you and then of course kill you. If you look at history, it's always a death cult; always, always a death cult! Always! *"Just get rid of them; they're so evil. They don't support climate change; they don't support adjusting their lifestyles to save the planet and the killer whales! How dare they drive pickup trucks with big exhaust pipes, and Harley Davidsons with big mufflers! Terrible people! KILL them! KILL them! I don't care how you do it, but just don't do it in front of me. Just GET RID of them somehow!"*

This is how the lefties are! They have no compassion for human life; none! Why? Because they give themselves over to Satan! They're secularists, they're atheists; they don't believe in God, they don't believe in the value of human life.

To them human beings are tools.

To them survival and reproduction is the greatest thing.

To them they're mammals.

To them they're an animal species.

To them behaving in an animalistic way, and getting ON TOP in whatever manner that may be IS the WAY.

And of course government is the most convenient way to do so because you can pretend that you're doing something good and have the government do the dirty work for you. Dirty work, like arresting people, force killing people, assassinating your opponents all those kinds of things; dirty work that they're too cowardly to do, but of course they want the apparatus to do it. Bloodthirsty; bloodthirsty ideology; bloodthirsty people!

So if you UNDERSTAND that tyrants are of this nature, giving themselves over to Satan and giving themselves over to evil, then you have to understand that they hold no bounds; they have no boundaries. As you saw with the worldwide judgment that's beginning, they have no boundaries.

"Okay, we're going to take Ukraine!" Putin just drives in with tanks and starts taking Ukraine.

"Okay, NATO is going to start jumping in with Finland. We're going to start arming Finland, we're going to start arming Ukraine; we're going to start sending Americans over." I'M going to pay for weapons to be sent to Ukraine. So we're ARMING the WORLD, but we want to disarm American citizens! That makes a lot of sense; great idea! They'll take our money and send it to Ukraine so they can fight Russia, and now Sweden is jumping as the fourth NATO-candidate nation and we're sending more ammunition there.

It's only escalating, as we told you; it's not going to de-escalate. It's going to escalate exactly as we told you; it's going to get worse. The war is going to get bigger; it's going to SUCK more and more people in, more and more countries in. It's not going away; it's coming. Like World War I, like World War II; it's coming. But as these nations are getting sucked in and as Japan is now on the table to be sucked into this as well, China that has been remarkably silent, remarkably still, is now starting to make some movements. When we were in Asia they started flying some warplanes right over Biden, right over his head. When he was in Tokyo they flew right over his head; when he was in Korea they flew right over South Korea. So they're now starting to make some very aggressive moves.

President Trump & God's blessing

When did you have that in the past? If Donald Trump was visiting South Korea or Japan, when did China send warplanes to fly right over him and threaten him? Which means what? *"We can drop bombs in, and we can kill you."* That's what it means, right? There's no reason why you would fly a warplane; you don't do it for fun. You don't fly a twenty-million dollar plane over Japan, another country, for fun; just to test it out. That's not the purpose. The purpose of having missiles on that plane is to say, *"We can drop this on you at any time."* That's the purpose! The purpose is a threat, *"We can KILL you if we want; if we push this button you will DIE!"* This is the threat. Especially when the world commander-in-chief, the American president is there in that country! When did that ever happen if Donald J Trump was in there?

Now, we got to pray for President Trump because he keeps pushing this vax as if he's on it with Pfizer; he keeps pushing this vax, and he keeps trying to give praise to the pharmaceutical companies. He

even brings them up on stage in the MAGA rallies. If he does that God's blessing is going to be removed from him. We have to pray for him, and find anybody that can contact him; he has to get feedback. This is not the way; you're supporting the vax companies that made \$80 billion during this crisis and covered for China and all the lockdowns. They supported all these draconian totalitarian measures. They supported having this RAM down the FDA in high-speed pathway to legality. They supported all this without proper testing, and about any of the side effects and the deaths that occur from these things, *"No, no,"* of course they're not legally liable. They're scot-free; nobody can sue them! Unbelievable, folks! This is a criminal enterprise.

If President Trump keeps supporting that, it is going to be his downfall; this will be his downfall because most patriots who voted for him in 2016 are awake. They were the ones who literally had to fight these lunatics to STOP this worldwide tyranny. Meanwhile he was playing golf! He should have never left the White House! He's been playing golf and if he's going out there now supporting the vax, the shot and protecting these medical establishments -which clearly were not medical or for people's health - he's going to lose God's blessing. He's going to start falling and God will have to choose another representative. That could lead to even more crisis and more terrible situations in the world, because it weakens the ability to win, especially with all the cheating that the Left is going to do in the midterms, and of course in 2024 if we get there, a lot of cheating is going to be involved.

By the way, shout out to Arizona: the former mayor and Democrat operative pleaded guilty for ballot harvesting and cheating in the election cycle in 2020! Oh my Gosh! But weren't you a "conspiracy theorist" if you said this was a stolen election? Weren't you condemned for being a Nazi and an extremist? Didn't people SO RIGHTEOUSLY say how EVIL you were when you said this election was stolen because you had proof, you had the videos? We saw the black box. We saw the signs! We have EYES! We've SEEN it; we saw the dang thing with our eyes!

But it's like, *"No, you didn't see anything."* It's like a robber who comes into your house and says, *"No, I'm here to clean. I'm clear to clean your house. I'm not here to rob you; trust me. I'll clean your house. I'm just here to clean; I'm just going to clean the rugs, get a little dirt out of the rugs. When I leave it's going to be as clean as...."*

-"Okay. Oh, thank you sir. I'll go back to bed then; okay. Thank you."

THIS was AMERICA! Are you kidding me folks?

Now these people are actually starting to get prosecuted. Thank God!

But of course after the two, three, four years of them calling you conspiracy theorist, calling you a domestic terrorist, calling you a Nazi, they'll NEVER apologize. They never will say, *"Sorry for ruining your lives, destroying your social media, destroying your NAME online; I'm sorry for that!"* No, no! They won't apologize. They're just going to go, *"Well? So?"* and move on to the next trendy cafe and have their little Macchiato caramel or whatever it is.

That's all they care about just like literally like base instinct animals; they don't give a swine's booty about you or your family or anything else for that matter, other than power and pleasure, *"As long as I can have my caramel Macchiato, I don't care, okay! The world can freaking go to hell and I don't care. So what,*

we give it over to the WHO? We're still going to have Starbucks, okay!" It's unbelievable but those kinds of things are happening.

No false hope

God IS moving amidst the craziness. But again, no false hope! We're not going to get around it; it's going to come. So our community should be prepared; we should be the most prepared; we should be the most trained and help other people be trained. Thank God for all the folks that are helping people get trained; King David, thank you so much for opening up the community and helping people get trained at the range etc. (*Applause*)

This is the same for Tennessee, the same for South Korea, Japan; whatever you can do, reach out to those preppers, reach out to the people that are like-minded, reach out to other people who are on the Abel side, who know and sense in their spirit, *"Something is wrong; something is coming. There's a storm that's coming, and maybe I should prepare or maybe I should find like-minded people; maybe this is the time."* In the midst of all the chaos and the confusion and the judgment period, also the flip side of that is that there are great opportunities. God will open up doors. God will send people to the altars of repentance. People who we thought never would EVER repent will get hit with the Holy Ghost. They will get touched by God. Due to the surrounding COLLAPSE of the civilization and the world that they knew, for the first time in their life God will break through their arrogance, break through their TOTAL confidence in how they'll have TOTAL control over the future.

All that is shattered:

They have no control over the future.

They have no control over the Stock Exchange.

They have no control over their businesses.

They have no control over these governments.

They have no control over the elites gathering in DC or in Switzerland! No control!

They're now going to realize that you don't have as much control as the lefties have told you, that *"if you just believe in yourself and watch Netflix and watch Hollywood movies and love Ellen Degeneres, you will be so powerful!"* NO! You ain't got NO POWER! You got NO real power AT ALL! And the future is now shattered; it's destroyed, and there's calamity coming your way. And if you don't start thinking rationally and treating people more respectfully and nicely, especially people who are prepared, nobody will help you. That's kind of how the world works.

You who have no accomplishment are going around slandering people for not buying the government narrative; you are VICIOUSLY acting like a good leftist, a good brainwashed soldier of social JUSTICE. But all of a sudden you will realize things could get bad and no! The little beast that you tried to protect, the government institutions you tried to protect and defend against ANYBODY who went against them, boy they're not coming to help you! No, no! You thought you'd get brownie points by doing that; you thought you'd get A pluses and little plus marks with little hearts added to your grade. But no, no! That's not how the world works; it doesn't work like that.

And when things start breaking down and you need help and you've been wicked and evil and you've been supporting killing children, destroying marriage, disarming innocent people, and getting rid of the Constitution; if you've been supporting that evil and you've been evil, don't expect people to want to help you. It's going to take time.

If you come to repentance God can forgive you, but people have a memory; people are not stupid. So it's going to take time for you to build back those relationships, build back that trust, and the only way you can do it is with humility. You're not going to come in and tell prepared people what to do, because they'll give you the big boot. (*Laughing*) Prepared people like big boots; they won't deal with that type of childish shenanigans.

But there are a lot of people waking up on mass to the fact that this totalitarianism maybe is not good and maybe we're down the wrong path; maybe there's a path we should not be going down. But God is opening up opportunity. God is opening up CHANCES for people to get saved, to have a change of heart, to come with repentance, come with humility for the first time in their life, and start acknowledging, *"Hey! I need to learn. I'm really sorry I was in the government cult; I didn't know what I was doing. I was just following the narrative; as media directed me to do I was doing, and now I realize that's not true."*

So many people like that are waking up; so many people! On Prager University's roster there are former leftists, like the black girl, she was a former leftist. There are so many people that are waking up because civilization is collapsing around them. It's not like we're celebrating the calamity. THEY are the ones who MADE it! So, obviously we're not celebrating; it's sad, but in the tragedy of that calamity, people do have opportunity to wake up, and that's a joyful thing. That is a thing to be grateful to God for. Amen! (*Applause*) THAT is something we can look forward to no matter how bad it gets, folks!

We don't know how many years this will go on; we don't know how long this will be drawn out, how fast it could be. There's a quickening at this time. How fast the world war could happen; thermonuclear war is on the table. On mainstream media in Russia, folks- I hope you know- on mainstream media in Russia they're making visual displays of Sarmat missiles hitting the East Coast and decimating the East Coast, and two more hitting the West Coast and decimating the West Coast. Yes! That'll get rid of all the lefties; I understand that! (*Laughing*) But it's going to ravage the country. Let's just put it that way: it's not going to be a nice time.

But they're putting those kinds of images on the main mass media like the CNN of Russia; putting it up there, prepping their country to get ready for thermal nuclear war. Will it happen? We don't know but it's on the table. Thermal nuclear war is on the table; Sarmat missiles are on the table. One Sarmat missile holding 15 warheads with each warhead 100 times the strength of Hiroshima. Let's just put that a little bit in context: each warhead is 100 times the strength of Hiroshima and 15 to 20 can be mounted to those Sarmat missiles so with one missile you have 15 nuclear blasts!

Terrible, terrible; terrible situation for the world! Not only if they want to attack America, NATO, Europe, UK, etc but it will be terrible for the world, folks; TERRIBLE for the world!

So all these things are on the table now as the grand negotiations before the world stage are taking place, and guess what? We're all part of the stage, folks; we're all part of the stage. God does His 95% but people have to do their 5% and we have to use our free will for good and to choose to stand on the right side even though it may cost us our lives and our countries. We're at a stage where we could be in thermal nuclear war, so literally it could cost our lives.

Our hope is in Him

But again in the end, living through everything is not the main goal that's not the goal of a real Christian, right? The goal of a real Christian is what? *"Seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you."* Seek first His desire: *"Thy kingdom come!"* Not *"my kingdom come; my will be done."* No! *"THY kingdom come! THY will be done in earth, as it is in heaven!"* (Mat 6:10) That's the desire of the Christian.

In that sense the Christian has a power that the normal person does not have. The normal person's power is limited only to survival and surviving the Apocalypse-like scenarios that are coming. The Christian has to also face those apocalyptic scenarios that are coming but at the same time we TRANSCEND those things. We're not BOUND to them nor are we CHAINED to the events of the future. We are pursuing God's KINGDOM! We are pursuing His RIGHTEOUSNESS; that means His JUSTICE. And because we are doing those transcendent things there is always ETERNAL HOPE. (Applause) Even in the midst of the DARKEST DESPAIR we still have hope and that hope is in Him and His Kingdom!

Let us all pray!

Pastor Sean's Prayer

Father God, we thank You for this beautiful day.
We thank for all the precious people that are gathered here today;
Your people, Your kings and queens, priests and evangelists, that are here today; that are here to love You, to worship You, to thank You.

With all the things that are going crazy with this world, God, we need to come back to our moral pillar, our moral compass; we need to come back to the most important fundamental core values of our civilization. The Left and political Satanists around the world are trying to dismantle, unravel those things, telling us that we have no core values and thus that they will create the core values, give them to us and we must follow those. They promise us a new utopian future which of course is hellish, dystopian and TOTALLY 1984 Orwellian.

We REBUKE that in Jesus' name! We REBUKE that TERRIBLE dystopian HELLISH vision, and we thank You for liberty. We thank You for FREEDOM! God, so many people mistake freedom as just the ability to do whatever they want. No! You've given us freedom to choose You or choose evil.

So, as we pursue YOU dear God,
 Let us be made into Your image!
 Let us be shaped as a potter shapes the vessel!
 Let us be transformed as the Holy Spirit dwells within us to become new creatures in Christ!
 Let us become more like YOU!
 Let us stand up for the weak, the innocent; the unborn!
 Let us stand up for male and female, for marriage and for family!

EVEN though it will cost us, even though we will have to burden crosses societally and be attacked and be labeled "intolerant" and be called "domestic terrorists" or "white supremacists" whatever the case may be,
 Let us rejoice in the bearing of those crosses because You already have held the cross for us! You paid the price! You already shed the blood!
 Let us not stand as Your children in fear, knowing that You have already secured the victory! You've walked the path of the Ten Thousand Crosses.
 Let's not FEAR burdening a cross, for You have made us to be separate from this world; not to be of it but to LEAD it; to change it to be able to spread Your Kingdom and Your goodness, Your righteousness, Your justice upon the earth.

Dear God, that's going to require tremendous courage and BRAVERY because it doesn't just mean repelling evil, it also means punishing evil, and that is a big difference. So many people in our country want to believe that just resisting evil is enough or just standing up against it is enough. But when good people of God have important positions like judges and Supreme Court Justices, things like that, judgment MUST be made proper and brave and courageous judgment must be MADE even at the cost and threat of their lives. We know that many Supreme Court Justices are right now being threatened with their lives. We pray Your hedge of protection upon them right now as they deliberate and finally quickly RELEASE the striking down of the terrible genocidal power that was given to the Federal Government to murder and slaughter children in the womb, and for profit organization like Planned Parenthood to make MONEY off of it.

Dear God, that institution of Moloch and Baal just as we saw in Amos chapter 5 today must be dismantled and DESTROYED. It's not enough for us to just be morally against it. We must help the brave judges in power; we must help the Supreme Court Justices. We must pray for them.
 We must
 STAND with them so that they realize that the majority of Americans
 STAND for morality,
 STAND for protecting innocent lives,

STAND for moms not murdering their children and choosing a different path, a different way and giving the chance of life to their child, and not snuffing it out by their own hands.

We pray that BRAVERY and COURAGE may not only be on those elected officials but also on the lay person, on the normal citizen. Because in the end those elected officials are actually the citizens servants and if the citizens who are the masters are not willing to enforce and stand up for the proper justice then HOW shall their public servants do so and be willing and be courageous to do so?

The CITIZENS are the key, dear God, so inspire within the CITIZENRY of the nations of this world

*a new FIRE,

*a new LOVE for humanity

*a new LOVE for righteousness

*a STANCE against evil, and when they have the ability, to give the consequence against evil that is proper and that is just.

Dear God, we pray for that courage and bravery upon this land of AMERICA, upon ALL the people in the body of Christ!

Let ALL the CHURCHES rise up at this critical hour, not only in our country but all across the world! CHRISTIANITY is the final body that can stand up against this punishing animalistic Satanist-driven demonic international Communist regime that is trying to enforce WORLDWIDE control.

Dear God, give us the strength and give us the POWER, the wisdom, the discernment to be able to navigate these times WISELY, wisely; to be *"peaceful as doves and be wise as a serpent"* at times, but also at times of great duress and great CONFLICT, that we will be WILLING and able to stand up for our nations, our community, for our families and for our CONSTITUTION if needs be against enemies foreign and domestic.

Build within Your people the DESIRE and the POWER to TRANSCEND the fear of death, for totalitarians and tyrants ONLY have the FEAR of DEATH to wave over their citizenry for compliance. When the citizenry TRANSCENDS that FEAR of death they are no longer controllable by that apparatus. They are now in the subject position and they are now in the position of CHANGING the course and TIDE of history forevermore.

Let Americans that are good-hearted, that are Abel type and that are prepared by You REALIZE that inheritance once again!

Let Europeans and Africans and Asians all across this world regardless of race and ethnicity- it doesn't matter we know they are people made in the image of God-

Let them RISE UP in their respective countries and stand against this international Communistic TERRIBLE political Satanist regime!

Let us TAKE BACK our countries!

TAKE BACK the power,

TAKE BACK the truth and

TAKE BACK justice!

So that goodness shall prevail upon these lands and across the earth. We know that we will not surpass or we will not just EVADE this upcoming calamity, World War III, world -level judgment, dear God, but we know that EVEN in the midst of it,

You can do a miraculous work!

You can save MILLIONS!

You can TURN those who were unrepentant into those who are repentant!

You can TURN those who are blind to make them see!

You can TURN those who are deaf and make them have ears once again!

You can TURN those who were following the pathway towards DEATH to give them everlasting life!

We pray and we praise and we THANK You this day, giving honor and ALL glory to You with all the kingship lines that are gathered here today with Your Three Generation Kingships. In Your precious name, we pray.

Amen! Amen! And Aju!

Let's all rise folks, and give God the glory! Praise God! (*Applause*)
