An ABUNDANCE of Joy

Oct 02, 2022 - PA

Thank you, King Kyle. God bless you. God bless you all! (*Applause*) Please, no, no! Come on you all! We got the Tennessee crew. Hey, let's give it up for the Tennessee crew over here! (*Applause and shouts*) Our missionaries are doing great there. Praise God! All right, today we are in 2 Corinthians chapter 8.

Escalation

Now, we are in such an incredible time folks, one week away from the Rod of Iron Freedom Festival and globally we see major escalation. The Nord Stream pipeline was detonated. That's definitely underwater demolition; that's definitely some type of Special Operations group, whether it be Ukraine or the CIA but that's underwater demolition. They blew that up, which of course is a major escalation in World War III. People think world wars pop up like that, because we're so used to movies; we're used to the time frame of a movie which is an hour and a half. So, we want all the stuff to happen in about an hour and a half, "*Come on, hurry up! I don't have time. Let's go!*" It doesn't happen that way.

World wars don't just pop up. It takes escalation and escalation and escalation and economic collapsing and things like that. Let's put it that way: it ramps up until there's a tipping point such as Archduke Ferdinand getting assassinated; that's a tipping point. So, there is always escalation build up, build up, build up, build up. It's like watching an accident happening in slow motion. You see that the wall is here and the car is coming; it just went quickly and we could adjust quickly. The wall's over here, you're seeing it and you say, "*Oh, don't do that! Don't!*" And of course, it happens. Boom!

It is escalation, so we're in an incredible time; micro and macro massive escalation. Now with the war in Ukraine Putin declared he will use nuclear weapons against the West etc.; he's saying, "*We will*

annex Ukraine, take part of it and say that it's part of the Russian Federation, as it has always been." That's what they're going to claim. And now we see major detonations in the major pipeline going to Europe. So, we've got to pray for our brothers and sisters and all the folks in Europe; they are going to have a cold winter.

Two types of energy

Maybe you've kept up with what the farmers are saying in different parts of the States; some farmers are saying that by next year we're going to have massive increase in the price of meat. Some Oklahoma farmers were saying they believe the price of one pound of beef is going to be 50 bucks. One pound of beef 50 bucks! Ah! 50 bucks for a pound! Dang! Whoa! 50 bucks for a pound of beef! You see what's happening?

You have to understand, we're talking about energy warfare and how the Satanic cartel at the top use all the different types of warfare. They use law fare, they use media fare, they also use warfare by cutting off energy supply. There are two types of energy: obviously one type of energy is like gas, oil, how we power all our electric equipment, the grid, all that kind of thing.

But there's also another type of energy which is what? Energy for human beings; that means calories. So, they don't only want to control the pipelines since that is the energy towards vehicles and machines, but they also want to control the calories. That's another form of energy; that's energy that we have to consume to function as people. Are you with me folks?

Every communist dictator has tried to control what? The food supply, because that's the type of energy that human beings have to use in order to function. If you can deplete that energy, make them weak, get them in low reserves, always have the gas tank on empty, then a lot of people are going to be begging. A lot of people are going to be what? Wanting those handouts from the government. Now people will sell out because they've stricken them with great poverty; the government has now been able to choke them and squeeze tighter and tighter like the anaconda and get what they want. They use it as leverage.

So, you have to understand, there are those two types of energy. That's why having your gas supplies and understanding the differences in the shelf life of gasoline and all those kinds of things for your vehicle is good, but paying attention also as you prepare for your body and for the people in the community. That type of energy warfare is happening folks. They are waging war on energy; for example, on the gas pushing for electric vehicles.

Government-funded operations

By the way, when electric vehicles explode in a car accident, you can't shut them off. Did you see what happened in Massachusetts with the electric Tesla vehicle that was on fire for two hours? Lithium is explosive. They show it on the web: they've put regular batteries, unskinned them with the metal sheeting, they have thrown the lithium battery into water and the thing starts bubbling, and boom! It

explodes in water! In water! So, you imagine you get into a car accident and it's raining! Oh Lord! You're going to have a massive, massive kaboom.

And of course, Elon Musk is now releasing the new government Terminator AI robots. Did you see that? Oh Lord! Skynet, crazy stuff we saw in the Terminator; Skynet, freaking robots running around. Oh, my Lord! These people are actually trying to make that kind of stuff! That's how crazy it is! They think that's all just a big joke. Those movies *Harbingers* are warnings.

<https://www.cnbc.com/2022/09/30/elon-musk-shows-off-humanoid-robot-prototype-at-tesla-ai-day.html>

There it is; Elon Musk and his massively government-funded operations including Tesla, and of course they try to KILL everybody's usage of cars and gas. *"SUVs and pickup trucks they're bad; SUVs and pickup trucks are destroying the earth and they're creating CLIMATE change."* Have you heard this? But they can blow up a pipeline which is spewing methane gas! You're talking about cow farts? Folks, this gas pipeline is SPEWING out methane right now!

Who creates the most global pollution? It's the centralized governments. They are the biggest polluters on the planet because they also operate the nuclear facilities which are horribly run. They have no incentive to run them well and they can't be sued. So, they are terribly handled; they're leaking all the time and they're polluting. The biggest polluters on the planet are governments. But of course, YOU will be fine if you cut down a tree in your backyard; the FBI will come after YOU and the 87,000 IRS agents are for all of you bigots and Hitlers and Stalins and whatever they call you.

Big Pharma doctors

So, it's a serious time; it's so crazy. We have to laugh at it sometimes because it doesn't seem true; it's as if we were in Twilight Zone. This is the first time in world history when a country's doctor is declaring that men can become pregnant; FIRST time in history! Men can become pregnant! We see this stuff all the time with these trans actors on Capitol Hill, folks. There's a young leftist doctor, an Indian guy with big earrings and he's up there arguing with a senator who asks, *"Can a biological male have a baby? Can he get pregnant?"* And the doctor answers, *"Yes, Senator."* It's a doctor, folks; it's a doctor!

We have worshipped the medical establishment. Because of such a huge dependency on pharmacological drugs, people in America and in the West have for decades worshiped the doctors as if they were saints; as if they were the new priesthood. *"They can be trusted."* *"I meet with him every week and he's given me this prescription, these pills and drugs."* *"They have no selfish motives whatsoever; they're like saints; they're like angels!"* This is the kind of lies that people in the West and especially in America have begun to believe. And of course, China is producing 90% of the pharmacological drugs! But that's not the only thing; it's the dependence on this medical establishment which has to get government license. Remember in the Kingdom of God Constitution you don't need government licensing.

Now for the first time in modern history young people at least have seen the reality of what happened with the covid scam; they saw for the first time in their lifetime what happened with a scam like this. All the “medical professionals”, all the “doctors,” all the most educated of society, all the best healers of society came out and were pushing the poison. They were pushing the poison jab on EVERYBODY; they didn't even care. Why? Because the government is using the leverage of their medical licensing, *“If you don't push it, your license will be revoked.”*

See, the young people don't understand why in the Kingdom Constitution government licensing for those kinds of careers is illegal. Why? Because the people who are good healers will have a good reputation, good rumor mill and people will go to them because they're good healers, and their business will flourish depending on how well they treat those people and how honest they are. Not whether or not they're beholden to a government that has massive funding by Pfizer and the Big Pharma companies. Are you with me folks? We saw what happened with our own eyes.

The folks who've been around have seen this probably in other countries, but our young people they've never EVER witnessed something like this, never; especially if they've never been out of the rich countries and into poor ones. If they've never seen poor countries they've not been exposed to that type of unbelievable corruption. Remember the Nazis and all their medical experimentation on Jews? By whom? The medical professionals, the most EDUCATED class; that's what they were claiming to be. They were measuring the Jews' noses compared to Aryan noses. I'm serious folks they were doing this kind of thing. The Chinese doctor, the “medical establishment” Chinese doctor who gets the government license, what is he doing? He's harvesting ORGANS from PEOPLE, folks!

The American ABORTION doctors what are they doing? They're “doctors,” they've been educated; they learned about all these surgeries and they're slaughtering BABIES! We have a disconnect. We think that the abortion doctors they're not part of the medical establishment so we can trust the Big Pharma drugs medical doctors. After covid, people woke up big time. They realized, *“Wow! I can't be dependent on this kind of Big Pharma lifeline,”* especially when China's controlling it and they are our adversary; they are our enemy. They are our enemy! Can you imagine? It's like your sworn enemy handing you the meds that are supposed to sustain your life! How is that going to work out for you? It doesn't sound so good.

It's like Joker. Batman is there and he needs meds and Joker hands him his meds, *“Batman, here you go! Here you go, Batman!”* Would that ever make any sense? It is so stupid that you can't put it in a Batman episode. It would be so ridiculously stupid that nobody would believe it if it was a cartoon. But that's literally what's happening in America! We have 90% of the pharmacological coming from our ADVERSARY, sworn adversary, the Chicom Communist nation.

Chinese police stations in the West

By the way Fox News is reporting that China is now establishing unofficial police stations in Europe and the U.S! Unofficial police stations! The Chinese government officials are establishing police

stations in Europe and in the US. How is this even real, folks? Those are our sworn adversaries! They are antithesis to freedom and responsibility.

<https://www.foxnews.com/world/china-opened-overseas-police-stations-us-canada-monitor-chinese-citizens>

"China has opened overseas POLICE stations in the U.S and Canada." Oh my gosh! This is so crazy, it just can't be true, so I had to actually look into it and it's true. Dang it! It's true. When you think the Left has depleted their reserve of craziness; when you think they've exhausted the creativity of craziness. NO! They always got to one-up themselves and now they got the Chicoms setting up POLICE stations in America. Oh my gosh! Are you kidding me?

I'm sure of course they're only trying to help Chinese citizens get back to China! I'm sure! Of course, that's what they claim, *"We're just trying to help Chinese citizens get back to China."* And of course, we can believe a government that organ-harvests some people, kills people for having a different religion. Free speech? No, it doesn't exist. Disarmament of all the people. You know we can trust a government like that when they say, *"Oh, we're trying to help Chinese citizens get back home. We're not using it as a base of Intel or a base of operations in the U.S! We're not creating paramilitary forces with law enforcement powers!"* They are being given law enforcement powers in the West! Are you kidding me? And of course, *"we're not going to be a base of operation for the U.N."* No, of course not! China was the head of the U.N Security Council. You remember that, right? That's why Father called the U.N, *"Satanic UN, and Cain UN."*

This can't be real folks! It's just so crazy, it cannot be real. Every week we hear about this stuff and it blows your mind. It's like, *"Oh, my God! How is this happening?"* How can a country now for the first time in history be claiming that men can have babies and we're building our adversary POLICE stations? We might as well build them some Chinese military bases here! Hey, how's that? Why don't we just do that? Because what do you think these police stations are going to be? I mean give me a break! It's so crazy; it's unreal! Do you understand how crazy that is, folks? You think China is allowing the U.S to set up U.S police stations in China? Oh, golly! You're got to be kidding me! It's painful to see what kind of situation we are in.

The threat of nuclear warfare

That's why the micro-macro is moving so fast. The Rod of Iron Freedom Festival is right around the corner with of course with Sebastian Gorka, Ambassador Keys, pastors from the local area et cetera; people who are worried about the body of Christ, people who have a heart of generosity and pray about the gift of America. If America dies, folks, the destiny of the world is tied to it. And of course, because of the fall of the Han mother, we know there's going to be a worldwide judgment. We were already preaching about that almost ten years ago, and everybody was mocking us and calling us crazy. What were they calling me? I was *"the naked prince in the wilderness"* or something like that.

But look at what has happened after ten years. There IS a worldwide judgment, there IS constant escalation, there IS the phase of actual warfare now breaking out; there IS Russia now taking over

“European” nations. There IS mobilization of European and American troops 300,000 plus towards Russia; there IS the movement of nuclear capable missiles, right now as we speak folks. Right now! You understand, Putin is putting out in the mass media, *“this is not a bluff, we can use nuclear power.”* <https://www.newsweek.com/vladimir-putin-threatens-nuclear-strikes-over-ukraine-this-not-bluff-1744758>

When he's saying that, it means that the whole system in Russia is ready to go. The silos are ready, the hatches are open or whatever they have there and they're ready; they're ready to go.

And of course, their plan towards nuclear warfare it's different than the one in the US. They're not of the same philosophy, *“Oh, we're going to destroy everybody”* and *“everybody's going to die.”* ‘Mutually assured destruction’ is what America's doctrine is, right? Well, that's because America's doctrine is based on the Judeo-Christian worldview where human beings are valuable. We don't just want to eradicate human beings because they're the apex of creation, they're made in God's image etc. Humans are inherently valuable thus we should not just eradicate them willy-nilly; that would be a bad thing.

But tyrants don't have that doctrine, folks; they don't care if people die. Why? Because they care about power; they don't care about human life. You see throughout history that tyrants will sacrifice MILLIONS of their people; in fact, they'll genocide them themselves. They'll go KILL them; they'll send squads to kill them. In Germany and Russia, China, North Korea etc., they'll go KILL the citizens that are acting up uppity. They don't care, except for power. So, they have a totally different doctrine.

Totalitarianism has a different doctrine; that is the doctrine of facing nuclear war with the notion that *“we can win this and we have to plan to win”*. That's why while America has denuclearized in the last twenty years and all our equipment is getting older, Russia and China are going against all the different treaties that they signed, and all this kind of promises and pacts that they agreed on, *“Oh, we won't do it.”* But they've been building up nuclear arsenals, and of course we saw that on display last year with the testing of the Samrat ‘Satan’ missiles that Russia is now shooting. Those are intercontinental ballistic missiles that will get to any city in America within about fifteen minutes. Massive nuclear payload!

So, the nuclear warfront is not like they're going to shoot one missile over here and blow up a little section here and then America's going to shoot one back and then blow some Chinese CCP guys up and then they're going to shoot us again. That's not how it works, folks. Both China and Russia believe they'll be victorious, and they've been planning for this; by the way according to insider sources, their end goal was 2020. Their strategy is decapitation. So, they are not:” *Shoot one missile here; let us respond. Oh my gosh! We got hit! Shoot and blow them up and take out 300,000 of their people.”* That's not how it works folks.

Some experts say that when they decide, 80% of their arsenal goes out in one second. ALL of it to explode every major military base, every major base that holds our nuclear triad, mostly up near Montana in that era; explode everything. They can. That way America is not able to respond; Europe

is not able to respond. It's not like they're going to be just hitting America; they'll be smashing Europe, all of Europe too, and other major military bases. They'll smash them all with nuclear missiles.

The whole point is to decapitate the enemy so they have no way to respond. Then you hold the cities hostage and say, *"You see what we did with all your bases? Now we're going to start hitting cities unless you totally surrender."* That's when they're going to start targeting L.A. or New York City and start blowing up those places, because then they're showing, *"We mean business. We still got a huge arsenal left. You're not going to surrender? Here go some of your cities; a couple of millions dead right now."* Boom! That's how nuclear warfare unfolds. It's a massive destruction, decapitation and then attack using the cities as hostages to make those nations capitulate to the new boss in town. Who? Russia and China. They're the ones that want to rule the earth folks, and they're both ruling with what? Total totalitarianism. Putin speaks in a Christian way but he's definitely acting totalitarian; he's not allowing freedom in his country.

America, the Bald Eagle, is drunk

Yes, he has some points of course. He's saying the West is trying to poison the young people with the gay and transgender agenda; which is true. I mean that's true; we've become a post-Christian society. Our society is producing CRAZINESS now. We're the first society in human history where the doctors, the elite educated people are claiming that males can give birth to babies. Pregnant? Biological males? You'll ask, *"Well, what's the problem with that?"* It shows that we are NUTS! You understand? What do you think those other countries think about us?

Matt Walsh went to talk to the Maasai tribe in Africa and asked, *"Can a man become a woman and a woman a man because you identify as such?"* They said, *"What? What? You're crazy! You're crazy!"*

<https://www.youtube.com/watch?v=6yAnHFj4IK0>

Matt Walsh is out of Nashville, Tennessee, and they're doing great work. Please go follow him; he's a tremendous patriot and he's doing amazing work. He's an expert on the whole transgender ideology battle and is fighting it.

The point is: every other culture in this world knows this is crazy. *"What are you talking about? How are you people even arguing about this? How are your congressmen and your president pushing forth these ideas which any sane seven-year-old, eight-year-old knows to be false?"* Which is the reason why when they bring children to Drag Queen Story Hour the kids are usually terrified. These "moms" are crazy; they are abusing these kids forcing them to come to these things, and then the kids are like, *"Oh, there's a man in costume women clothing."* They're actually kind of scared.

What do you imagine Russia and China think when they see this? They are laughing, folks. They say, *"Oh, America, the Bald Eagle drank too much Kool-Aid; the Bald Eagle is drunk; the Bald Eagle is naked with no clothes on. Chinese Panda ready to go! Russian Bear ready to go!"* Oh, Lord! Are you kidding me, folks? We are in a heap of trouble. Our adversaries see that our top "leaders" are pushing this kind of stuff; they know this country has gone UTTERLY insane. There's no more social fabric that holds people

together; people are openly anti-American. In fact, it's trendy and cool if you're a young person to be openly anti-American; you're cool and friendly, you're popular, you're progressive.

There are movements in America that are trying to raise up young people like Turning Point USA, etc., but you can see how much power the educational system has over children, and seriously they've made it to a point where for the Christian family it's so difficult to even stay out of those public schools. They can, but it requires certain skills; you got to be able to homeschool the children, etc. Usually, they got the parents now working two jobs because they're taxing them out the wazoo; tax rates are going up, up, up. Double income forces the kids to go to school, and they capture them. Indoctrination every single day, every day, every day! Exposure, exposure, exposure, indoctrination, exposure, indoctrination every day! They're exposing them to lunacy; thus, lunacy starts looking normal. The children start psychologically ACCLAMATING to the craziness, and they believe that to be social JUSTICE, and fighting for equality against HATE.

You hear this one "*we're fighting hate,*" even though we hate the Christians that obey the Word of God and see those sins as things that God hates. So, the very persons that claims "*they fight hate,*" are hateful towards their adversaries. They're all for women unless she is the prime minister of Italy who's a woman, the first woman prime minister of Italy. All the feminists should be CELEBRATING her; they should be happy that the new prime minister of Italy is a woman. She's like a Trump patriot; that's basically what she is. (*Applause*) All the feminists and all the progressives should be so happy; they should be so proud of Italy. They should be saying, "*#Italy. #IStandWithHer.*" Right? There should be all those hashtags.

But where is all that? It doesn't exist because it's only a certain type of women: the women that SUBMIT to their orthodoxy, to their religion, their cult; that SUBMIT to their liberal World Order progressivism, LGBTQ sex cult. Only if you SUBMIT to that and never complain and always do what you're told, THEN you will be celebrated by the feminists. Are you with me folks?

By the way they can't even define what a biological woman is anymore! The feminists are here trying to fight for women's equality, okay; but what is a woman? "*It's anybody who identifies as a woman.*" (*Laughing*) Well, you just literally destroyed all women; you're now fighting for men who want to dress up in costume mockery of women. Where have you gone? Gone nuts! This world has gone plumb loco, folks; it's gone nuts, it's gone crazy!

So, in the midst of all this insanity, our enemies are looking at us and laughing. The Chinese Dragon is laughing; the Russian Bear is laughing, "*have a party with vodka.*" They're happy, they're laughing; this is a joke. They're busy now conquering countries and getting ready to kill and destroy in a nuclear war and what is America doing? What is the Bald Eagle team doing? The Bald Eagle team cannot figure out whether or not the Bald Eagle is going to wear women's lingerie. You know what I'm saying? This is crazy! Is he going to wear red, white and blue shorts, or is he going to put on lingerie? Which one? Which one is it? We're going plumb loco; we're going nuts here!

And our Special Forces Operatives, they're forced to wear high heels for inclusion training?? Our Special Forces guys have to be UTTERLY HUMILIATED! These are the alpha males of alpha males, folks. They are the killers of killers, and for inclusivity, equality and diversity training they are forced to wear red high heels and walk around. Oh my gosh! This is utter humiliation! You're taking away the last thing that man has. He's got ability, but you take away his pride? He's got nothing. What is he doing? Oh my gosh! We're not making this up folks, this is actually happening. The Navy, the Air Force, the Army have all released their diversity inclusion and equality video presentations that they give to all the cadets. Oh my gosh! Are you kidding me? We're in a lot of trouble, folks!

What do you think the Chinese Dragon does when it looks at this? *"Whoo! Whoo! Go, go, go, go!"* That's what they're going to say? And the Russians what are they going to say? They're going to be happy; they're going to be saying something like, *"vodka, vodka!"* This is crazy! For a man who is going into war killing people, to humiliate him like that! The organizing committee, the leaders humiliating these killers and these war fighters by making them prance around in red high heels, while all their other Army brothers and sisters they're all laughing inside, but they can't laugh because if they get caught laughing, they're going to get punished!

Can you imagine this? This is what you do to an ENEMY that you're trying to humiliate and demoralize. They're doing this to OUR military folks! It's crazy! No wonder why they can't reach their quotas this year; nobody wants to join. What kind of alpha male wants to go in there? An alpha male wants to go in and become Rambo, and not freaking RuPaul!

So, what do you think our foreign adversaries think when they see us? We are an utter JOKE, folks! We are a laughing stock! And that's bad, that's really bad, because if America is a laughing stock and Europe of course is a laughing stock to these people as well, all you got left is China and Russia. That's it; that's all you have left. There are no other big leaders left, and the small countries will follow the big superpowers. So, what do you have left? You have totalitarian Russia, you have China and Xi Jinping and the Red Dragon of communism, political satanism; that's all you got. The world is headed in a BAD place in the era of judgment.

But even though the world's going crazy folks, it means of course that God's Kingdom is coming. Where does it come? God's Kingdom starts on the local folks. I know that's kind of cliché, and we hear it so much because it's true. It starts with the changes of the hearts and minds of men and women, and the good thing about the American worldview and the Judeo-Christian worldview is that we can actually define man and woman. *(Laughing)* We're not confused about the most BASICS of reality.

Remember that movie where that little four-year-old kid just randomly in the middle of kindergarten class shouts to the teacher, *"Miss Abbott, boys have a penis; girls have a vagina?"* You remember *Kindergarten Cop*, where the little kid does that randomly? Even that little child, he's stating a true claim which is actually backed up by fact. He's smarter than all the PhDs, all the doctors; he's smarter than the President of the United States RIGHT now folks! And Russia and China know that.

2 Corinthians chapter 8.

Macedonia is an example of giving.

- 1 Moreover, brethren, we do you to wit of the grace of God bestowed on the churches of Macedonia;*
- 2 How that in a great trial of affliction the abundance of their joy and their deep poverty abounded unto the riches of their liberality.*
- 3 For to their power, I bear record, yea, and beyond their power they were willing of themselves;*
- 4 Praying us with much intreaty that we would receive the gift, and take upon us the fellowship of the ministering to the saints.*
- 5 And this they did, not as we hoped, but first gave their own selves to the Lord, and unto us by the will of God.*
- 6 Insomuch that we desired Titus, that as he had begun, so he would also finish in you the same grace also.*
- 7 Therefore, as ye abound in every thing, in faith, and utterance, and knowledge, and in all diligence, and in your love to us, see that ye abound in this grace also.*
- 8 I speak not by commandment, but by occasion of the forwardness of others, and to prove the sincerity of your love.*
- 9 For ye know the grace of our Lord Jesus Christ, that, though he was rich, yet for your sakes he became poor, that ye through his poverty might be rich.*
- 10 And herein I give my advice: for this is expedient for you, who have begun before, not only to do, but also to be forward a year ago.*
- 11 Now therefore perform the doing of it; that as there was a readiness to will, so there may be a performance also out of that which ye have.*
- 12 For if there be first a willing mind, it is accepted according to that a man hath, and not according to that he hath not. ¹³ For I mean not that other men be eased, and ye burdened:*
- 14 But by an equality, that now at this time your abundance may be a supply for their want, that their abundance also may be a supply for your want: that there may be equality:*
- 15 As it is written, He that had gathered much had nothing over; and he that had gathered little had no lack.*
- 16 But thanks be to God, which put the same earnest care into the heart of Titus for you.*
- 17 For indeed he accepted the exhortation; but being more forward, of his own accord he went unto you.*
- 18 And we have sent with him the brother, whose praise is in the gospel throughout all the churches;*
- 19 And not that only, but who was also chosen of the churches to travel with us with this grace, which is administered by us to the glory of the same Lord, and declaration of your ready mind:*
- 20 Avoiding this, that no man should blame us in this abundance which is administered by us:*
- 21 Providing for honest things, not only in the sight of the Lord, but also in the sight of men.*
- 22 And we have sent with them our brother, whom we have oftentimes proved diligent in many things, but now much more diligent, upon the great confidence which I have in you.*
- 23 Whether any do enquire of Titus, he is my partner and fellow helper concerning you: or our brethren be enquired of, they are the messengers of the churches, and the glory of Christ.*
- 24 Wherefore shew ye to them, and before the churches, the proof of your love, and of our boasting on your behalf.*

This is an interesting scripture; it is about the Macedonian church where they're dealing with three major issues:

² How that in a great trial of affliction the abundance of their joy and their deep poverty abounded unto the riches of their liberality.

1-Number one they're dealing with *"a great trial of affliction."* That's the Greek word for tribulation, so there may be tremendous political persecution. Remember at the time of Paul and the establishment of the churches all throughout the Mediterranean, believing in Christianity is illegal; you will be persecuted and you can be killed. In fact, Paul was brought all the way up to Caesar and eventually killed for the Gospel, right? You'll be killed if you are preaching the Gospel. Macedonia is in modern day Greece and he's going all around to Philippi and different churches there doing church planting and of course there's always a threat. Macedonia stands out, so, they're going through a *"great trial of affliction."*

2-But look at that! They're going through affliction but yet they have joy: *"the abundance of their joy"*. Amen! You see that? They're going through a great trial of affliction but yet they have what? Abundance of joy! That's probably the greatest power against the Devil when he's trying to tear you down, bring you down, make you try to destroy yourself, make you give up, tap out, et cetera. You all know what I'm talking about, right? He's giving that affliction hoping you tap, and not struggle out of there and not keep up the fight. But in that fight, look at that: *"the abundance of their joy"*, they have an abundance of joy. Why? Because they can reflect on the suffering and the price that Christ had to pay to redeem them of their sin, to bring them before the throne of God for salvation.

3- *"and their deep poverty abounded unto the riches of their liberality."*

The Macedonian church is also dealing with poverty. This whole church in Macedonia they're very, very poor but they're giving to the Lord, they're giving to the ministry

The world getting poorer

This sounds like what's happening to America now, and to the world really. The world's getting poorer and poorer. Folks, if you're talking about fifty dollars a pound for beef that means it's a hundred dollars for two pounds of beef which you could buy for maybe six to eight bucks right now. Are you with me folks? Your hundred bucks became six bucks because of the war in Ukraine, the destruction of supply chain, the meat supply lines. Cow feed is too expensive, not profitable anymore for farmers and they have to sell half their stock etc. Then you don't have a supply of beef anymore and those prices start astronomically increasing. Your hundred bucks just became six bucks.

Remember, we heard all those stories about the ruble at the collapse of the Soviet Union; how the ruble crashed and how people were throwing it to feed fires, using it as timber basically? This is the beginning of what's happening; you see the dollar is crashing. What you could usually buy with 6 bucks you would have to spend 100. That means 100 bucks don't mean anything; 100 bucks is nothing. A \$100 bill used to be a lot, right? All these rappers, they're rapping \$100 bills; a \$100 bill used to be a

lot. But now if that kind of inflation hits, it becomes 6 bucks. You're paying \$100 for two pounds of meat.

In Tennessee right next to Cheong Pyeong there's a diner; they make a one-pound burger. That burger would be \$50 just for the meat, let alone cheese and one piece of lettuce and the one small pickle that they have on there; but the freaking meat is huge. It's Tennessee! You understand what I'm saying, okay? A \$50 burger! If you got a double burger; you'd pay \$100! Oh, my Lord! Are you kidding me? Now we're used to that in Korea because we're paying 10,000 won for a burger; 10,000 won! But Americans are going to have to start getting used to those higher numbers now; it's not like when \$100 could buy you a lot. Oh, my God! That's unbelievable!

So, in this situation what is America going to do? Let's say America is the Macedonian church. Satan is ravaging you; you're becoming poor; you're going to be hitting abject poverty pretty soon. The Third World is already hitting abject poverty; as the First World collapses into Third World, the Third World becomes just totally hellish. Starvation numbered in the millions during the covid epidemic, especially in the Third World. Millions died. The UN didn't report it; nobody cared about all the poor Africans or people from different countries where they had massive famines because they disrupted the entire world supply chain, the world trade and world economies; they disrupted them all.

But you have a situation now where all the rich countries are getting poor. What are you going to do when people have to pay \$100 bucks for two pounds of beef? They fight at what? Black Friday! People are fighting for LCD TV screens. Can you imagine in America if you see fights breaking out in a supermarket over beef, a pound of ground beef! And it's not even nice; it's just regular ground beef. It's not like rib eye or filet mignon or T-bone or whatever. Imagine you're trying to get ribs at the local shop, *"Here's your check: 380 dollars for your rack of ribs."* Oh, my goodness! Are you kidding me?

What would happen to America? It would FUNDAMENTALLY change. We've been so spoiled with such cheap produce; obviously heavy laden with hormones and GMOs etc., but nonetheless quite cheap produce. Imagine if that skyrockets and you're paying hundreds of dollars for the smallest bit of beef! How are you going to feed a family of five? We've got four boys and all of them eat a pound of beef in one sitting. It's a hundred dollars a meal for one person just to have tacos at home! It would fundamentally DEVASTATE America!

And isn't it interesting that we have the energy crisis with the gas supply with Russia and all that kind of thing, and now Saudi Arabia and different Middle Eastern countries are saying that they're going to trade in yuan and be off the dollar etc., and kill the petrodollar.

Dangerous with self-restraint

Well, on the other side of the energy system, calories are now under tremendous threat, and isn't it funny how Bill Gates is positioned PERFECTLY for this. He and a lot of the pharma companies are already investing in alternative food products. Have you heard of the meatless hamburgers? All soy.

By the way if males eat a lot of soy, you get the male breasts; if you eat a lot of soy, you get a lot of estrogen which of course causes cancer in men. If you have high levels of estrogen, guess what? You're also going to become weaker as a male, less aggressive; but it's very important for males to be dangerous, very, very important.

Jordan Peterson is always racked by the liberals about this; men have to be dangerous. Why? Because it's the only alternative to weak. It's the only alternative! One must be dangerous but be capable of control; that's the whole purpose. Jordan Peterson is using the example of martial arts. The whole purpose of a martial artist is to become dangerous but to control it. And that is a virtue. It's a virtue if you're dangerous and you control it; that's a virtue. You are showing tremendous self-restraint.

But it's not a virtue if you're not dangerous, if you're weak. You're not dangerous so it's not a virtue, you're not restraining anything; you're just weak and helpless. It's not a virtue being helpless and it's not a virtue being weak. You understand how that works folks? The Lefties they try to pretend to be weak, and that being helpless is a virtue, and of course it just happens to be the virtues that communist governments always want from their people, isn't it? They don't want their people to be dangerous and yet have self-restraint. That means what? To have a conscience, that means to have mind and body control. That means what? To have an appreciation for the value of human beings, of justice as well; a sense of jurisprudence, a sense of fairness and not just snuffing people's lives out willy-nilly, for no reason as the governments of the world do. No! Being dangerous but good, dangerous but controlled. Amen!

This is of course the Rod of Iron Kingdom. The Rod of Iron Kingdom is based on those principles; it's about a whole civilization of people that are dangerous, that have the power of judgment that the Lord has. When Christ returns, he brings the power of judgment back to what? Back to the earth, and the power of that judgment as Father delineated is against political Satanism. He has judged evil on the earth and the hands that feed the tool of Satan which is socialism, communism and political Satanism. THAT is the apparatus of Satan, that IS the machine; that is the beast on which Satan rides and rules and dominates the entire earth.

The Rod of Iron Kingdom is completely opposite. The Rod of Iron Kingdom is where on the local, the person is called into co-heirship with Christ; is called to being a king and a priest; is called to take responsibility over his person, his family, his effects and his neighbors. He is called to be magnanimous; he's called to be generous; he's called to be what? Just! He's called to be what? Slow to anger; meek means slow to anger; somebody who is not easily provoked.

In the Beatitudes you read, "*Blessed are the meek, for they shall inherit the earth.*" Those who are slow to be provoked to anger shall inherit the earth. That makes a lot more sense than the "meek", because usually you take the meek and it seems like the weak. But weak is not a virtue, helpless is not a virtue. "*Those who are slow to anger will inherit the earth.*" Ah, that makes more sense! That makes a lot of sense. That's the meaning of meek; it means slow to be provoked. That's the way any magnanimous king or

queen must be. They must have the power of danger but they also must be controlled; they must be restraint with it.

Our Founding Fathers in America talked about a "government of the people." The people must have self-restraint; they must have what they called "self-governance." If one is not able to govern oneself the nation cannot be governed. You just have a bunch of hoodlums and crazy people running around, burning things, blowing things up, setting cities on fire as Antifa and BLM did.

The judgment - for what?

You see, why Trump had to invoke the Insurrection Act, folks? Because there was an actual insurrection going on; they were BURNING down cities. By the way, this actually happened a couple of years ago. They were burning down America and the cities and getting off the hook. What was Trump supposed to do? He was supposed to fulfill his responsibility and push for the Insurrection Act because it was an insurrection. That's why Mike Lindell, "the pillow guy" is so hunted by the FBI; because he was telling Trump directly, "*Do it! Do it!*" But Trump got cold feet; maybe it's because he got the double jab. He keeps pushing that double jab. Boy! Oh, my gosh! God's blessing is going to leave him.

He already let the most radical communists take over all the branches of government. He thought, "*Okay, I'm just going to get back in the next cycle.*" Well, you see how fast the world is degenerating into World War III in one or two years? You understand how fast this can degrade? Now, entire giant pipelines are being demolished, clearly by Special Ops teams. They're not saying that it's CIA Ukraine assets, etc. But who is escalating this quickly to get it rolling fast, get more conflict and more bombs being thrown and lobbed up? Obviously, the people in power. They want that; at least it's profitable for them. So, they want it because then what? You can't have midterms and you certainly can't have a 2024 Trump return, "*I'll be back!*" You certainly can't have a 2024 Trump return to the White House, "*the triumphant savior Trump will come and save everybody!*" No! He won't, folks!

Remember, we were telling this to people at the end of the election? Remember all those QAnon people were saying, "*Oh, he's going to come back and he's going to use the military and he's going to throw Biden out?*" We were saying, "*No, no, no, no, no! He's not coming. This is not Hollywood; this is actual warfare.*" Remember these people? They were saying, "*He's going to be at this rally and he's going to order all of them!*" And it was already way past after they had taken the White House. You remember this? "*It's going to happen in November, it's going to happen in December, it's going to happen in March!*" And people believed this because they're good-hearted and they want to have hope. But this is warfare, we're in the midst of war, and just because people have wishful thinking it doesn't mean the war goes that way. In fact, it usually goes the opposite. So, we're living in an unbelievable time and we're seeing this right in front of our eyes.

In 2 Corinthians chapter 8, Paul is talking about the Macedonian church saying, "*Hey look, they're pushing the Gospel.*" Why? Because the Gospel of the Kingdom of God is the only thing that can start

changing people's hearts, folks. The purpose of the tribulation, of the judgment is for what? For the quickening; it's for the preparation of the hearts of people. Why? Because they're seeing all the systems of the world collapse and fail them; even things that they thought were so solid and permanent like the U.S, like their meds, like their food and beef prices. Now people are starting to realize, *"Whoa! These things are not under our control; we can't take them for granted. They may not be there next month; they may not be there tomorrow."*

We may go to Walmart tomorrow and,

-"Whoa! What's all this massive price increase?"

-"Well, it's because of this and that. You know we can't get that."

It's the first time in decades that we were seeing empty shells in America. You remember that, a couple of years ago during the covid craziness? Now people have become used to it; it's become normalized and they're doing it slowly. They had the empty shelves and then they replenished them and they had the empty shells and they replenished them. What are they training you to do?

They're training you, *"Oh no, trust us. Trust the government. Once it's empty, we can always replenish it."*

But that's not true. One day it'll be empty and you'll say,

"Hey! When's the shipment coming out? I'm trying to pick up some milk or cheese or whatever."

"Oh, yeah, they say it's coming in next Tuesday."

Then next Tuesday you're coming,

-"Hey, where's the cheese?"

-"Oh, you know there's another delay in the shipment, etc. It's going to come in on Monday."

And it doesn't come in.

That's how it happens, folks. They've acclimated us to make us trust the system: it's gone but they'll replenish; it's gone but it's not that big a problem, *"don't worry, it's going to come back."* But one day it doesn't come back. One day you're like, *"Oh, I've been waiting two or three weeks but you know the butcher says it's going to be in next week, so I think I'll have hope and I'll believe in him."* And then it's another and then it's another.

You understand how the entire world civilization has been transformed over a span of maybe four, five years? They've done MASSIVE worldwide transformation, psychological operation on the entire world. Most people in the world now have acclimated to this new type of reality that has been created. Most people in the world now go to the supermarket and when they see empty shelves they don't worry; it's not a sign for them to prepare or to have storable food in their homes or to have a good shelter for them. It's just, *"Oh no, that happened last year during the covid. You know how the supply goes; it'll be in next week."* They've been taught to trust and not prepare. Are you with me folks? MASSIVE transformation the world over! Not just in a small country; I'm talking about the entire world folk. Massive worldwide transformation!

But when it comes to thermonuclear war and these lobbing nuclear missiles and all this kind of stuff, I mean, don't expect ShopRite and Walmart to be full; don't expect you'll be able to drive in and just pick up your groceries. It's going to be a totally different reality. You saw what happened when hurricane Ian hit down there in Florida; it ravaged and people were putting signs out on their door

saying, "Loot here, die here!" Yeah! Because the studies show that when people can't eat, they will turn to cannibalism within two weeks; within two weeks people would eat human flesh. That means within two weeks they're willing to kill for food; within two weeks of hunger, they're willing to eat you for it. Are you with me, folks? That's how fast society degrades; very, very quickly.

Greater receptivity of the heart

Of course, the point of all this tribulation is Satan tries to destroy the world and take the world for himself; the Harlot of Babylon on a microcosmos, leading that charge greatly. But then the judgment, what does it do? It wakes people up; it wakes up their heart. It makes them realize, "Whoa! The establishments that we have believed in and trusted they cannot be trusted anymore! Whoa! These systems like Big Pharma, Big Agra, they can't be trusted. Why is the Department of Agriculture buying AR-15s and fully automatic weapons? Why is the IRS hiring 87,000 new people with the job description saying that they should be ready and willing to shoot and kill? What is going on here? Why are they buying five million rounds of ammo? What are they going to do with that ammo? I thought they were accountants. What are the accountants doing with all those guns and ammo and a job description saying, 'Be ready to shoot and kill?' I thought you were supposed to be an accountant. What's going on with America?"

But in that craziness people wake up; you see they wake up. And this is what Paul's doing in the collapse of the Roman Empire as he is now planting churches and preaching the Gospel. Remember the Gospel that Jesus Christ declared, it's the gospel of what? The Kingdom of God. His Gospel is talking about the Kingdom of God.

The Kingdom of God is the antithesis to what the citizens of the world from the fall on have been encountering, which is what? Totalitarianism, authoritarianism, in the modern day called socialism, communism, political Satanism; that's what they've been under. The Kingdom of God is antithesis; it's radically different and that's why it gives people hope. The more tyranny they're under, the more hope they can feel in the Kingdom. The governments of this world are always using leverage and squeezing and suffocation and submission. Why? Because they're trying to control the hearts and minds of men and women; they're trying to make people compliant, "Comply to what we command you to do! Comply with what we have ordered you to do! Comply with the vaccine! Comply with the mask! Comply and shut down your business! Comply and shut down your church! Comply and don't sing hymns!" Do you remember this, folks? The whole purpose of that is to have you submit, is to have you give your heart and mind to Satan.

But it's interesting because under that tyranny, under that type of poverty and tyranny, the more difficult the situation of the nation, the greater the trial of affliction as we saw in verse 2, *"How that in a great trial of affliction the abundance of their joy and their deep poverty abounded unto the riches of their liberality."* The greater the trials of affliction, guess what? At the same time the greater the RECEPTIVITY of the heart to find hope and what? An abundance of joy in the Kingdom of God. Are you with me folks?

The point is: how do you change the nation? You change that from the local. We all know that; we all believe that; we all heard that millions of times. Mastriano says it all the time; people say it all the time, "you got to fight from the local; you got to fight the politics from the local. It's about changing the hearts

and minds of the local.” Then of course, how do you instill within people the supernatural power to fight evil? It can't be just getting together and fighting politics, right? We have to go to the fundamental power that's just physical, that's just human power, that's just the power of the people. But the power of people that are not led by God is no power at all. Amen! So, the power of people comes from their understanding and their love for the Creator, love for His beauty, love for His nature, love for His character, love for the things that He values like freedom and responsibility and justice; love for these things.

The substantiation of that is the Kingdom Constitution that Father released through the Three Kingship. The Kingdom Constitution shows the ultimate goal of the Christian Kingdom; it shows the final answer, the total handcuffing of centralized power.

And in a world that is now fading into the darkness, a world that is fading into the abyss, a world that has lost its way; that has forgotten who they are, that can't determine what a man or woman is, now saying that men can get pregnant- you understand how crazy this world has become; nuts - in a world that is fading into lunacy, where lunacy is becoming normalcy, how the souls and the spirits of those people desperately want God to bring some order out of this chaos!

Accountability to God

When reading the Scripture that got me praying. We are the chosen people, we are the microcosm, we have the Kingdom Constitution, we have the Rod of Iron Kingdom, we can give hope to people when we go meet new friends. Our teams are starting to develop this now; training them in the Word of God, getting back to God, but also at the same time home defense, “Stop the Bleed” training; all these kinds of things that help what? People take responsibility for themselves, for their families, take responsibility not just in a philosophical agnosticism. No! Taking responsibility, being accountable to the Creator God, the Father of all creation, *“I want to put you there to protect your family. I want to put you there to protect your wife. I want to put you there to protect your husband. I want to put you there to protect your parents.”* Amen!

And to start empowering those families. Not only are we going to pray for them; not only are we going to bring gifts for them etc., *“Welcome to Sanctuary Church!”* No! But also, to help train them in firearm safety.

David invites people of the community to do basics of pistol and classes like that.

CJ Thompson, a Green Beret is coming. He should be charging way more than he's charging and Jerry is of course sponsoring him, just footing the bill for everybody. So, these folks are trying to give things that they have, because in the end it takes the hearts and minds of people, and not only Christians that accept Jesus Christ and are saved, because NOW you're His hands and feet.

It's not like the Founding Fathers who fought the British, they said, *"I'm saved by Jesus Christ; Lord, take me now! Rapture me now! The British are coming! Rapture! Rapture! Come on baby, rapture me now! Come on, I'm ready to go; rapture me now!"* Can you imagine if the Founding Fathers had that kind of spirit? We would never have been able to throw off the tyranny of the British; we would just have been part of the empire.

It's all about that accountability to God. Does God desire the world to fade into the abyss of totalitarianism and agnosticism and atheism and despair and nihilism and death? Or is God letting this time of tribulation come because of central figures etc.; but allowing this time for what? A quickening and then during that quickening, what is the body of Christ doing, what is the microcosm doing with their hands and feet? Are we going after people's hearts and minds? Are we going after people to save their souls? Get them saved; that's number one. Accept Jesus Christ as your Lord and Savior, get spiritually saved, accept True Father as his Second Coming, Divine Principle.

Understand the sexual nature of the Fall which leads to ALL the types of power that the Satanists have. Oh, you see that? The Satanists use fallen sex to hold onto their blackmailing organizations. We talked about that. Pedophilia, human trafficking, it's all about the Fall; it's chapter 3 of Genesis. Satan is the first pedophile, sex groomer, using that power to control humanity. That's why you see it in all the Satanist global organizations.

Understanding that responsibility then, what does that mean? The responsibility to be a powerful husband and wife in the home. All the tax system and all the forcing people to work for double incomes and all that, what is that meant to do? That's meant to separate you from your children. It's meant to stress you out, so when you come home you can't be investing in the relationship; you'll be tearing it apart. When you come home, you're so exhausted you don't have time to invest in your children; you will send them quickly to go be educated on the yellow brainwashing school buses, *"I'm so dang tired! Just get on a dang yellow bus!"* But it's going to kill them, it's going to make them into enemies of God, it's going to make them hate Him; at least the probability is there. *"But I'm just so tired, I'm just so dang tired!"* That's how people become, and then it's just a roll of the dice now; the whole purpose is to split the family.

God's Kingdom in the home

Once people become ready to become a blessed family, well they have to start training, getting ready for blessed marriage. What does that mean to be a king and a queen? What does it mean to be a priest and an evangelist? What does it mean to start building the Kingdom within my marriage? Oh, oh! You're all hearing this now! What does it mean to establish the Kingdom in marriage? What does it mean to establish the Kingdom in the family environment where you're now ruling justly in your home? Not emotionally, not having temper tantrums, not being able to control yourself acting like a crazy king or a crazy queen. No! Ruling with justice in the home like a good judge.

It's all connected, because the stronger the social units and the Kingdom units of the families and marriages are... and at the same time they're Rod of Iron kings and queens! Whoa! That's a strong system right there; it's the foundation of society. And if those families get turned onto the Kingdom, understand the Kingdom culture, understand their responsibility within the Kingdom of God; not

only making mental acquiescence to being saved spiritually, but taking a stand and being responsible for the world that God has given us, being the hands and feet of God. Critical! That's why, in this time of trial and tribulation, the worst the trials of affliction become, the worst the poverty becomes, the softer the hearts of people become.

The Fellowship of the Saints

The accoutrement of the Rod of Iron, the weapon, doesn't do it all. That is an accoutrement in the hands of a just people that is serving and following God. It's like the samurai sword in the hand of somebody who's an honorable person; it can create peace and stability. But commies have weapons too, right; commies have weapons, governments have weapons. They rule unjustly, obviously; they disarm their population, obviously.

But building that sense of responsibility, that community! The modern Christian megachurch has become what? You're going to a megachurch, Catholic Church same way; a big hierarchical church. They're passing around the basket, *"make a donation, make a donation."* That money is going to this or that.

But Paul is talking about what? Look in verse 4

⁴ Praying us with much intreaty that we would receive the gift, and take upon us the fellowship of the ministering to the saints.

So, the Macedonian church is helping the spreading of the Gospel but there's a FELLOWSHIP within the church of the early body of Christ. It's not like a megachurch where you go and you don't know the people around you; you don't have any fellowship. There are like eight thousand people there; you just say, *"Hey!" "Hey!"* and go your separate way. There's no fellowship, there's no community of the saints. It's not like, *"Oh that family is hard hit because they just had a baby; they're a young family and that young man just got laid off. So, let's go help them!"* You understand? There's no consciousness of that because it's such a large gathering. But here Paul is talking about contributing to help the fellowship of the saints, helping strengthen the brotherhood.

That doesn't mean just giving welfare, right? No, it means helping, training people up. Are you with me folks? There are predatory people that say, *"Oh! I'm a victim, victim, victim! Give me, give me!"* right There are these kinds of predator people obviously and they can't be enabled. The more money you throw at them, the worse their situation; they get back on the drugs, the meth. You know how it is.

But the point is stepping up the fellowship and help that brother become stronger. Let's say one of our brothers noticed that one of the brothers in the community is weak in terms of his training, his preparation; that put a calling on his heart,

"I'm going to go visit that man's family.

I'm going to go give him a safety class

I'm going to go give him a training class

I'm going to shoot with him; I'll bring some of my ammo and shoot with him

I'm going to get him to understand what this Rod of Iron is about. It's not only a weapon; it's understanding the responsibility that I have to defend civilization, defend the Covenant relationship that it has with God."

As we know, in the gun community there are a lot of people that are still lost inside. They don't have God, they don't have a reason why they collect all those guns; they're just accoutrements, they're just objects. The Bible tells us, *"The love for money is the root of all evil."* (1 Timothy 6: 10) So, just amassing material things, that's not a Rod of Iron king! That's not a Rod of Iron priest! Amen! We're not amassing stuff just for the sake of amassing stuff, or because it's your hobby and you like it. No! There's a sense of responsibility that's given us through the covenantal relationship, the beginning of the nation, the identity of the country and of the Kingdom that is tied in a covenantal relationship; a promise before God consecrated on a sacred altar. You understand? There's a meaning behind. Are you with me, folks?

So, when they see that other brother, *"Oh, he's lacking, he's not training, he's not doing this and that,"* some of our brothers who are very good in the Rod of Iron training will just call him and say, *"Hey! Brother, I want you to come over and shoot with me. I'll give you a couple of pointers."* You understand that they're donating their time, their money, their ammo for you, but that's brotherly love. That is *"the great grace of God,"* as it is called in this chapter. When people do that for one another in the church in a brotherly community, they're showing brotherhood, *"Thank you for doing this. You don't have to do this; you don't have to invest in me. But you see me as important, you see me as part of God's Kingdom, you see me as lacking. You have something that can strengthen me and you're willing out of the charity and the love of your own heart to invest that so that the body becomes stronger."* That's a good thing folks! These megachurches nowadays they don't have any of that; you don't even know the person three seats over.

The fellowship of saints, this is very important; the strengthening of one another! That culture of, *"I want you to succeed. You're a king in the Kingdom of God. I need you to succeed. You're part of this whole Kingdom; you're part of the Peace Police-Peace Militia and I'm invested in making you succeed. I'm invested in you having the best possible relationship with your wife and vice versa. I'm invested in you having the best possible relationship with your children, and vice versa with their parents. I CAN'T do it for YOU, but we can pray for you, we can support you, we can educate you, we can help, we can get you the training and get all those kinds of things."* In the end that person has to walk their five percent. Amen! And is not always perfect like everybody.

Love & Respect

But you know what? Between spouses, forgiveness is easy when they know both are trying. How many know that? If you know your husband, your wife is trying to become a higher-level priest, higher-level king, higher-level queen, higher-level evangelist, when they make mistakes, you have compassion; you can forgive quickly, right. If you don't feel they are trying to become better, then it's harder to forgive. But again, it's not about, *"Oh, you change first, I'll change then."* No! Flip it, flip it! You can't control them; you can control here (showing the heart); change this first.

The queens can't be like, *"Oh, I'll be respectful once my king is loving, okay."* But you can't control that, so you'll be waiting around a long time, and maybe during that time of waiting it's not going to stay stable. It may actually start degrading, probably going 80%, 90% downhill; not flat. It's going to go

downhill if you let this problem keep growing, if you let it escalate without any resolution; if you don't de-escalate. So, it's not about, *"Oh, no, no, no, no! My king has to be loving first, then I'll be respectful."* No, I'm sorry that's not how it works.

The Commandment of Ephesians 5 is *"Love your wife unconditionally, respect your husband unconditionally."* Whoa! That's hard! That's hard! It's not always easy to be loving to your queen because sometimes she aggravates you; she gets on your nerves and makes you want to pull out your hair, etc.; vice versa too. Sometimes your king gets on your nerves and you just want to UNLEASH the tongue upon him. The power of life and death is in the tongue. Amen! So, maybe God is saying, *"Hey! Hold that tongue baby girl; hold that tongue! Don't scar him! Don't do something you're going to regret. Why don't you think about it a little bit? Come to Me; pray with Me."* And after that prayer, after you spent a little time with the Father, now you're not as angry, *"Now, I'm going to write down what I'm going to talk to my king about. I want to write it down. I'm not going to cry; I'm not going to use emotional leverage. I'm going to write it down and be clear, and if I promise twenty minutes, I'm going to finish in fifteen."* Whoo! See, if you keep that pattern up, now he's going to actually say, *"Wow! I can trust this person."*

So, it's not about waiting for the other person to do it; it's about changing what I can control now. You can't control your spouse. You can try to guilt shame them all you want, but they're going to become more and more angry. Because we're sinners too, right? Amen! We're all sinners saved by grace; everybody's got something to work on.

The assets of the Kingdom

But all these things are connected. Once we understand, *"Oh, the Rod of Iron Kingdom is not only about having the accoutrements of arms, but also behaving as a magnanimous king as Christ would, behaving as a good priest as Christ would, behaving as a good queen as his bride would, behaving as a good evangelist as his bride would."* Amen! It's not only about having these arms. These arms are a critically important symbol of any kingdom because it's the promise that if somebody tries to break that Covenant which was consecrated on a sacred altar before God, then we will fight them with everything we have, to the death. It's that pledge; it's that promise. Are you with me folks?

At the same time, part of that promise is as well what? Central blessed family. Part of that promise is also Peace Police - Peace Militia. It's a decentralized force; there's no federal military or federal police. That means everybody at the local has to chip in, has to participate. The most vulnerable target is women; that's what the predator class looks to hunt. It's women. That will never change no matter what, and even though the Left can't define a woman, it will never change; a woman will always be targeted by the predators. So, in terms of demographics they're the MOST essential demographic for training to become good protectors. SO critical!

So, maybe in the fellowship of the body of Christ you see, *"Oh man! That family is lacking,"* and God calls you to help that family, to get their queen trained up, their daughter trained up with the whole family together. Don't be doing stupid stuff like, *"Oh, God is calling me to have a private meeting with that person's wife."* No, no, no, no, no! You're going to jump into adultery then. Don't be dumb bum! No, no. Don't be crazy!

We have a rule that none of the church staff can be in the same room or in a car alone with the opposite sex. You have to keep that clear. *"Oh, you know, just my brother, my sister."* Yeah, that's how that happens and this happens. Are you with me, folks? You have to be clear on that. You got to protect your queen by protecting your temple. Amen! You got to protect your king by protecting your temple. Amen! Whoo! Hallelujah! Because that's the root of the Kingdom.

The point is: in this time of crisis, when trials and affliction become greater, so too does the heart become softer, less hardened, searching for God, searching for meaning, identity. This is the time where it is critical in order to save the nation to start getting people saved; accepting the culture of Judeo-Christian values, accepting Jesus Christ's spiritual salvation, accepting True Father has the Returning Lord. Look at the Cheon Il Guk Constitution: Why the covenantal relationship must be protected with the right to bear arms. What does that mean? What is that responsibility? What does it mean then to become a husband a wife and a king and a priest and a queen and evangelist? What does that mean?

And starting to invest in those assets of the Kingdom, which is your spouse, which is your children which is your family and then in the neighborhood, other families becoming stronger too; those become the assets of the Kingdom. Amen! They become what? Central blessed families that are protecting God's Kingdom from evil, from corruption, from wickedness, from licentiousness. Why? Because they have strong sexual morals and they have a strong beautiful powerful absolute sexual romance life in their MARRIAGE so both in the couple are happy and satisfied in their marriage. Those families are powerful spiritual pillars for the Kingdom.

How to destroy the pillars of the Kingdom

How do you destroy that through communism? Well, you start making them licentious, you start making porn available on everything, you start telling the kids that they should be lesbian and gay and that there are all sorts of marriages, all sorts of lifestyles. Then, all that sexual morality starts being disrupted; those pillars start crumbling.

Now you're telling them,

"You can be attracted to anything: beasts, animals, children." Oh, you see, that always leads to pedoism; see folks, always sexual licentiousness always, always, always, leads to pedoism! Always! That's a slippery slope.

Remember?

"Oh, we just want to be married like everybody else." THAT led to now professors coming out saying, *"No, it's not wrong to have a relationship with an eight-year-old."* Do you understand? It went from, *"Oh, we want marriage and constitutional protection of our union,"* to NOW pushing pedoism as a legitimate identity and sexuality and,

"Don't hate them because they didn't choose it." How many times have you heard that one? Uh-huh!

Taking away all human responsibility.

"Oh, they didn't CHOOSE it." Okay, all right! They didn't CHOOSE to lure that child in and then rape them! They didn't CHOOSE to lure that person in after a club party and then go have sex with them! No, they didn't choose! No, they're VICTIMS!

You understand how this works, folks? Taking away all human responsibility

And once you've normalized the PRINCIPLE of taking away all human responsibility, EVERYTHING collapses. That's why it's tied to sexual mores; that's why the fall of mankind is tied to sexual mores. What are your sexual values as a civilization? Are you going to preserve it within marriage and the covenant with God or are you going to allow it to rampantly go in other directions? What's your choice?

"Oh, it's not a big deal! Oh, they're just having fun. Oh, they're kids; they're just..." Okay! Look at what has happened to America in the last sixty years. You now have a country that is UNRECOGNIZABLE from the one you grew up in. It's GONE! The Judeo-Christian sexual mores and values such as: you're young and you're on a date and the father's there waiting outdoor," *Uh-uh, you'd better be back by eight. Do you understand?"* He's got a shotgun in his hand, *"You'd better be back by eight."* Do you understand? That day is gone. It's a totally different world now; it's a crazy landscape. You don't know what the heck's going to walk out that door.

Be joyous

That's the power of the Principle. True Father revealed that the power of the sexual values of the civilization will determine whether it goes to God or whether it goes to Satan - LITERALLY- and that will determine whether it becomes an evil society or a good one. It sounds so simple but it's so crazily true. Because in the end the union of husband and wife is *"the two will become one flesh."* It is one of intimacy which Father called absolute sex romance in marriage, where it should flourish and be abundant and be strong and be joyous.

² How that in a great trial of affliction the abundance of their joy

As the Bible says, even in the great trials of affliction of the world still you're having abundance of joy. Why? Because you have strong assets, you have strong relationships, you've got a great relationship with your wife, got great relationships with your kids, with your brothers and sisters that you've invested in and helped. You're a rich man; you're rich.

That scripture said, *"Christ was rich but he became poor so that you too even though in poverty you will be rich."* So even though they're trying to strangulate the entire world, if people can be spiritually rich in the Kingdom, then all that strangulation of the big globalist systems and leaders and the World Economic Forum, and the U.N have no power because people have joy; they don't live in fear. They have an abundance of joy even amidst the trials of affliction. If America starts getting back to a relationship with Christ, they will start feeling joy again, not only being an American but being a believer in Christ. You have a relationship that extends beyond the grave; you have something with the Creator of the universe. You have some incredible joy in living for Him. You're rich; you're rich in grace. Are you with me, folks?

So, what does that mean? You have POWER, you're happy, you're joyous. All the crashing of the world doesn't bring you down AND you prepare at the same time AND you are in a civilization that is armed as well. That's a TERRIBLE force to be contending with for the WEF and the U.N; that's the last thing they want.

Rooting for one another

Remember, the gospels are the Gospels of the Kingdom of God in which we have to invest in the fellowship of the saints; that means in one another. You got to invest in the queen, you got to invest in the king; you got to invest in the children because they're the next kings and queens. You got to invest in your brother over there because he also is a king in his tribe. Are you with me folks? That is critical. That's part of the Kingdom culture. We root for one another.

That's how we tell the young people: when you go on your date with your queen or your king you're investing in that relationship and creating memories, put that up online so everybody can encourage you. And it can stimulate other people that have been kind of lazy on that like, *"Oh, shoot! We got to do our spousal day training. Let's go for a shooting date and get some ribs at Red Robin on the way baby!"* (Laughing) And then we celebrate one another. When King Robbie and Queen Masato-san they have their new tea set, celebrate, *"Oh, beautiful!"* We're celebrating one another. It strengthens that family of Peace Police-Peace Militia. It strengthens the Kingdom! You understand how that's all connected? You can't just be *"work, work, work"*, and then let the most critical assets of the Kingdom fade away. You got to balance these things. Amen!

We've got to build those assets because in the end, if there's a nuclear war these are going to be your key assets, folks, and they're going to be key assets for the whole community, the body of Christ; it's those critical relationships that we've poured into and we've invested in. That's why shooting together, fellowship, having barbecue together, fishing together, these are all critical activities in the Kingdom. It just seems like a hobby but Father told us that in the Kingdom of God we're going to be actualizing a hobby lifestyle; he actually called it *"the hobby industry."* It's critical in the Kingdom of God.

It seems like barbecuing is a hobby, it seems like shooting is a hobby, it seems like fishing is a hobby. No, but that's fellowshiping. When you don't have centralized law enforcement and military you have to get people to hang out together and FELLOWSHIP and love one another, because you're going to be in a bunker together if the freaking Russians or Chinese come. You have to encourage people to be hanging out and supporting and rooting for one another. You HAVE to, because when the evil comes what are you going to do with disassociated disparate isolated people who don't care for anybody else except for themselves? What will you do? How will you face an enemy, a predator, a roaring lion ready to kill, steal and destroy? That's how the Bible talks about Satan, right? You're going to be alone. That lone wolf mentality DOES NOT WORK! Now the preppers are starting to realize, *"Oh! I've just been a lone wolf. I'll do it all by myself."* NO! You WON'T! You won't last long at all; we all know that.

So, just like the Macedonian church they're talking about,

²How that in a great trial of affliction the abundance of their joy and their deep poverty abounded unto the riches of their liberality.

Having that liberality even in poverty, to be liberal. In this context they're donating to the mission, they're joining the church. In the Kingdom mentality we're talking about investing in the saints, helping the brother, getting your brother trained. You feel that one brother is not trained enough, "Hey, brother, come on over! Let's have some BBQ and do some shooting. Hey! Come on, we'll go fellowship! Hey, come on, we'll go fishing together!" These kinds of things really, really matter, folks.

How do you think local stuff gets done? It gets done by FELLOWSHIPPING. What do you think all these people that are trying to save the country, "we've got to take back this country," what do you think they're all begging people to do? Of course, vote for them; but on top of that? Fellowship! Get with like-minded people; this is important, very, very important. It's easy to live detached, isolated; we all have the big black box and small black box in our hands and everybody's disassociated. Everybody's on dates but they're looking at their hands, "What are you DOING? Your wife is sitting right in front of you. Why do you have your stupid headphones on?" Or "Your husband is right in front of you. GET OFF the dang fashion app!" Are you with me, folks?

But you know when that happens that's bad. That's a sign of a disassociated relationship, that's a sign of a disassociated culture; distanced, isolated all in their own little realms, all in their own fantasylands. What will you do with that kind of people? You certainly won't be able to group them together and fight an organized predatory force.

That's why in Cheon Seong Gyeong, in that whole end section -you are talking about hundreds of pages - Father was talking about the hobby industry and how critical it is to bring families together doing hobbies together that are involved in the Peace Police-Peace Militia training. Like fishing and hunting and agriculture and farming; these things are incredibly important activities, not only to be training but also to be sharing and to be transferring knowledge about. Why? Because in the Kingdom there's no centralized police, no centralized law enforcement; everybody's got to help, participate.

"I am my brother's keeper," that's what Cain should have said. "I AM my brother's keeper."

-*"What am I? My brother's keeper?"* No!

He should have said, "Lord, You're right. I am my brother's keeper. I've got to protect him. I'll be thankful for his blessing. I am my brother's keeper. I see my brother is not prepared then I want to go pray with him, I want to talk with him, I want to hang out with him and slowly encourage him. I want to show him what I'm doing so he gets inspired. I want to show him this new gun I bought so maybe I can start training him in that and making him more self-reliant." You see what I'm saying? "I want to show him my food storage so maybe he gets inspired to go buy an extra can of beans every time he goes to the grocery store." Whatever the case may be.

That's why, those religions that fellowship are so important and this is what the churches in America have lost; we've lost this sense of caring about our brothers. I'm not just talking about throwing money on them. I'm talking about, "You're squared away in the Kingdom? Hey, let's train together, let's get better

for the Kingdom together." We've lost that sense in the whole Western church; the West has lost this sense. It's like, "I just come for the message. Give me the message. Encourage me. I'm out of here. Bye! I'm late for a meeting." But that fellowship of saints, this is what the Macedonian church was realizing. They're donating to help the fellowship of saints especially the ones in Jerusalem in this context, to try to help that ministry expand. It's not like only the pastors and evangelists are part of the ministry; EVERYBODY's part of the ministry of God's hands and feet, EVERYBODY who is a believer. Amen!

Every person we touch, we don't know what God is doing with their heart. Amen! So, maybe they need that barbecue. Maybe it's that combat vet and he's on his last string and he's right about to pull the trigger, but because he came to the *Barbecue and Bullets* for example, he felt loved; he felt thanked. Maybe he came to the Rod of Iron Freedom Festival and the Japanese and Korean groups were singing *God Bless America* with giant USA flags and he saw this, "Oh my God!" We got so many people saying, "I've never seen anything like that. It's so unbelievable. I was crying seeing other people in different countries thanking America." You don't know how much we get that.

Our brothers and sisters from Japan and Korea can't come this time; they're coming with a very tiny delegation because of the stupid forcing inoculation of the death jab. If you come in illegally, you don't get a death jab; if you come in legally, you get a death jab. This is crazy land! Crazy land! But anyway. So, our Japanese and Korean brothers and sisters can't come this time. But what are they doing? They're preparing a LIVE performance IN JAPAN for the Rod of Iron Freedom Festival. (Applause) They're going to be joining us live singing *God Bless America* or whatever song to ENCOURAGE America to be strong at this time. Even though they can't physically be here they want us to succeed. You see what I'm saying?

They are rooting for us folks! That's fellowship of the saints; they're rooting for us. They're sending a lot of money here to help us do what we got to do, so that's the same thing; they're rooting for us. And of course, they're coming out to encourage us with the big screens, and who knows there may be a couple of thousands and huge American flags. I don't know how they're going to do; we'll see, but they're going to be joining. We're going to try to actually zoom them in live and have a performance; that'll be beautiful.

So, this is the time for fellowship; fellowship is critical. Fellowship of the saints and also not only our saints; we can't just look inwards but to whoever God is connecting us to. Coronating new kings, ordinations of new priests, making people once again feel responsible, accountable to God about their marriage. God cares about that big time. Satan wants it to be wrecked so he can bring commies in. If your marriage and your family are tight, commies can't come in. It's much harder! They got to separate you, they got to isolate you, they got to make the husband fight the wife, they got to make the woman fight the man, they got to make them enemies in the same bed, and then they got to take your children. THEN they can make communism.

But they can't do that, folks, they can't establish it if they can't make you enemies in your own bed and you are lovers and husband and wife - oh beautiful, wonderful joy. Amen! - in the covenant of God,

and that's strong, and then at the same time you have a good relationship with your children; you've invested in the one-on-one, you've trained them one-on-one. The whole commie system is based on separating that. It's based on making you enemies in your own bed and then giving your children to the STATE. That's the whole system.

That's why God system is the opposite. That's why we're evangelizing and helping people not only find spiritual salvation but also physical salvation, and now coming into a beautiful Kingdom lifestyle. Join us for our Kingdom barbecue, join us for our Rod of Iron range day, join us for our Bible study, join us for our cooking day with the Japanese sisters, whatever it is. Join us, train, feel a sense of responsibility in your blessed marriage because that's what the commies are trying to separate. Feel a sense of responsibility for the parent-child relationship because that's what commies are trying to separate. Are you with me, folks?

No Rapture

Imagine if Christians not only were saying, *"I'm waiting for the clouds. Jesus is coming soon. Give me the rapture! Rapture me now Lord! A nuclear war with Vladimir Putin and China is coming to our front door; China is establishing police stations of the U.S, but rapture me now!"* The problem is they're going to have to see the tribulation unfold, and it's going to be painful. But through the rising of the afflictions God softens the heart; He allows people to realize, *"Whoa! I can't just take this path by myself. God maybe wants me to be His hands and feet during this period of tribulation. Maybe I need to be part of the Kingdom building. Maybe being co-heir with Christ doesn't mean I get to have a pina colada on the beach in the Kingdom of God, but that I actually have to stand next to Christ and do work and be an ambassador of his righteousness as the Bible says. I really wanted that pina colada on the beach and the feet pictures on Instagram with the pina colada like that, but no, no, that's a socialist view of the Kingdom of God."*

Where you have no responsibilities and you just have endless Chinese and Mediterranean buffets every day to your heart's consent. You eat all you want, pig out all you want, never gain any weight, lounge around in the sand and Jesus is doing it all. He's rounding up all the commies and tyrants and saving us. Oh, that's the most irresponsible HEDONISTIC view of the Kingdom that you've ever seen! It's totally unbiblical! If you see the biblical Kingdom, no, you're involved in it; you're actually part of His armies. You're actually sitting up on the thrones of judgment upon the nation of Israel and the Twelve Tribes. You're also commanded and called to rulership over the nations. *"Whoa! There's some work involved in there! I thought it was pina colada and socialism and free money from Jesus!"*

Ah! That's a problem; big problem. People need to be woken up from commie Jesus to reality Jesus; people need to be brought to His Kingdom. Amen! *(Applause)* Because they're in the false kingdom, which is the reason why they're inviting communism to come, *"Yes! Come, come, come; come quickly! Open the doors!"*

You talk to some of these folks; they have good hearts, but it's like, *"No, no, no, no, no! We don't have to do anything."* Transgenders are going to take over and we're going to lose the war... I heard this patriot, he said, *"Yeah, we're going to lose the war. We're going to lose the war against this evil but we're*

going to be RAPTURED into the clouds!" Oh boy! I tell you the Founding Fathers never believed that. Anyway, the whole talk on the Pre -Trib, that's a whole other thing. I don't want to get again into that today.

But the point is: that sense of responsibility, urgency and also investing into the critical assets of the Kingdom, this is very important folks. As the world becomes more afflicted, as craziness ensues, as it exacerbates and it gets worse, we have to have a greater abundance of joy because that joy is contagious. We don't have joy just because we're happy people. No! We're joyous because we are sound in the principles of the Kingdom of God. We're also sound in reality which means that we're also prepared, which means we can empower people because we're prepared people. Amen! Are you with me, folks? This is a great critical time. Of course, we've got to pray for the Rod of Iron Freedom Festival and all this stuff.

Please join me in prayer.

Pastor Sean's Prayer

Father, we thank You for this beautiful day today.

We thank You for understanding the church planning, the mission of Paul in the study today, where we comprehend the point of investing, like the Macedonian church, in the fellowship of the saints, the fellowship of evangelism, the fellowship of the softening of the hearts; that in trials of affliction there can be an abundance of JOY, that you can have supernatural power in Christ. That gives us the power to PRESS forth through these dark storm clouds that are rising.

Father, right now we pray for all the victims in the Florida area and all the brothers and sisters down there that are helping and supporting in any way they can. We pray for all the folks also at the macrocosm, at the world at large that are under warfare now, a total economic collapse, a freezing cold winter with no gas supply. Unbelievable hardship, trials and tribulation that the world and the modern age has not seen for the last sixty years. And we are now in the precipice of potential nuclear conflict.

Dear God, but even amidst all these crazy things that are happening

Let us have joy in abundance.

Let us always change our mindset around, and

Let that joy in abundance not just allow us to have or hold on to a feeling, but allow us to stimulate us into action. To help love our neighbor and to strengthen the fellowship of the saints, to strengthen the fellowship of those whom we meet and help build the Kingdom of God in the hearts and minds of men, in the hearts and minds of marriage, in the hearts and minds of families. And to be stronger as Kingdom people, as those who love Christ and who love people, as those who seek righteousness and not evil, as those who seek justice and not injustice.

Lord, let us be STRONG at this critical time in this critical hour. You are calling us to be strong, courageous, but also joyful and sometimes that's the hardest part.

Dear God, sometimes we fail not at being strong or courageous but at being JOYFUL.

Dear Lord, let us have that joy once again. Let us resurrect that joy both in our marriage as Central Blessed Family, but also with our children, with our parents; with those critical key relationships, covenantal relations that abound with YOU at this most critical time.

Dear God, we know that at this time when even the pipelines are being exploded and with the escalation of war, that we can fall into despair and isolation, we can fall into the trap of finding comfort in social media and these types of black boxes. But at the same time dear God, let us find CONSOLATION in those who love You, who pursue You, who are walking Your way, following You as *"a lamp unto our feet, and a light unto our path."* Let us find SOLACE in one another, root for one another. Let us CELEBRATE the small victories that each of our spouses as Central Blessed Families have.

Dear God, let those small victories be MASSIVE explosions against the kingdom of Satan and let that be part of our preparation and part of ... (Sound off)

We want to give You the praise, glory and honor with ALL the kingship lines gathered here with the Three Generation Kingship. We pray in your precious name. Amen! Amen! Aju!
