Make Peace with God

Oct 23, 2022 – PA

Alrighty folks! (*Standing ovation*) No, no, please, please! Come on, folks! Please, please! We were here just one week ago. (*We missed you*) Praise the Lord! God is good! All right folks, let's get to our Word. Today we are in 1 Kings chapter 22.

Next year's Rod of Iron Freedom Festival

A shout out to all the Rod of Iron Freedom Festival volunteers. Let's give it up for all our volunteers, folks! (*Applause*) Amazing! We could not have done it without you. From last week we already started planning for next year; we had our first committee meeting and we were planning. This year we had a lot of problems with the website and getting stuff up; basically, it was running just like a month out. That was a big weak point, so we'll be having a full-time webmaster that will be updating throughout the year.

The whole format is going to be a little bit different. We will not have all the secondary speakers and seminar tents. We bring these folks over and sometimes they're very lightly attended; let's put it that way. So instead of focusing on the seminar tents, we're going to focus everything in the big tent and per day we'll have what's called a "headliner". Somebody like a Gorka will be the headliner for Saturday and somebody like a Dana Loesch will be a Sunday headliner. We have to still obviously make those contracts with those folks; they'll be the main headliner of those days. I like Robert's suggestion to do a Q & A with those folks too. When the big stars come in, we have a nice Q & A; after their speech people can line up and ask questions and we can have some interaction with those stars and those patriotic leaders. So, we're going to be changing the format up a little bit.

Saturday was well attended and a lot of folks came out, but we really missed our Japanese and Korean folks. Let's give it up for them! (*Applause*) Oh Lord! I tell you; the vendors missed them too. (*Laughter*)

The vendors were saying, *"Where are all your people?"* Oh man! They got caught with the covid jab, the death jab.

By the way now they're trying to push it on ALL kids nationwide. Whoa! They're trying to make that part of the mandatory vaccine list, so the death jab is coming. Thank God, Florida I believe has said *"no"*, Tennessee has said *"no."* Praise God for the TFA (Tennessee Firearms Association) and those guys holding it down there. And then I believe Arizona is coming out to say, *"no."*

There are a few states that have come out, but really, we're entering the age of the governors. It's going to have to even go beyond the local level at this point of emergency, because the country is dying so quickly and World War III and thermal nuclear war is coming so quickly; we don't have a lot of time. So, on the state level the governors, like a DeSantis, have to really step up and basically say *"no"* to all the federal illegal mandates. The Left is trying to pass all sorts of crazy stuff using the governorship etc. The real Republicans, not the fake RINOs, the real Republican governors have to come out, hit back and say, *"No! I'm not allowing that in my state. You're not going to get child mutilation without parental consent in my state."* They got to just shut it down. This is the kind of age we're in folks; it's very intense.

With the Freedom Festival, the first day was very well attended, but the second day was lighter. So, we'll be changing that up and we'll be putting up the schedule way in advance; once we get those contracts with the headliners then we'll be putting it up and we'll be marketing that basically throughout the year. So that when people plan their yearly vacation or whatever, they will remember, *"Oh but wait a minute! October, Dana Loesch's coming to town or Gorka's coming to town; the Freedom Festival is happening."*

On Sunday what we'll probably do is move the main schedule back until after lunch. Before that will be revival, will be Sunday service, will be Gospel singing; all this kind of stuff in the morning, and then we'll have the headliners and the main speakers coming in for the afternoon period.

There's going to be a little bit of changes and we're looking forward to a lot better participation with the local community beyond Wayne and Pike Counties, and of course with the New York area. A lot of New Yorkers came this time but of course, we need to bring more New Yorkers, and more folks from Scranton and over there Luzerne County, etc. And we'll have that marketing going on for about a year instead of one or two months out. This made it hard; a lot of people didn't even know about the festival. There are things that we improve every year. All the folks on the committee were so energized this year.

We were having to make the big decision: whether we were going to move the festival down to Tennessee or we would stay in PA. Because potentially we have a very commie governor coming in next year; potentially, if Mastriano does not win. A really strong commie, radical leftist, radical, radical; he made his whole career on gun confiscation and gun control. So, this guy's rabid bloodthirsty for gun control. Massive Soros funding, massive Bloomberg funding; he's raised sixty million dollars already, compared to Mastriano's less than five million. So, this guy is really

positioning himself to take Pennsylvania, and make it blue; make it like New York and New Jersey. Even though in New York in the governor's race, it looks like the Republican may win or he's leading and pushing up ahead.

People are trying to fight back but again we have a cheating apparatus. They did not get rid of 77, so there's already a cheating apparatus here. But it's a fight of the spirit, and whether or not we win this or that local, the spiritual conditions make a big deal because that represents the collective will of all humanity in alignment with God. It is a very important thing in this whole election cycle.

Before the Freedom Festival we will be making those good adjustments, and next year even though Shapiro gets in, we are hoping to do a big Festival then and of course have it much better organized. So, I thank all the volunteers and all the planning committee; they did a great job and we'll be updating you with our actual webmaster on the website very soon.

1st Kings Chapter 22: 41- 50

Jehoshaphat's Reign.

All right, let's get to it! 1st Kings chapter 22 and let's jump down to verse 41. This is Jehoshaphat's reign, the fourth king of Judah during the Divided Kingdom period.

⁴¹ And Jehoshaphat the son of Asa began to reign over Judah in the fourth year of Ahab king of Israel.

Now Ahab is in the north; he is a BAD King, a bad one; that's a really bad one. He's doing the Baal worship, Asherah worship, the female worship, so he has the prostitution temples. The Bible refers to the practice of MALE prostitution; so, not only are the people selling their daughters to this type of prostitution, but they're selling the BOYS, which means that's the next stage of temple prostitution. First, it's selling the girls, but then you have the radical homosexual rabid destruction of the next generation of males, because the males are the next generation of warriors, and the way to destroy them is by defiling them.

In all these Satanic cultures, in the end, the Satanists are not in these pedophile rings to destroy the women. They're there to destroy the boys because they know if they kill those boys early, they'll never be able to fight; that civilization will not be able to fight them. So, it always ends up actually in a homosexual thing. That's what happened to Rome, Greece, with the Carthaginians; it happened all throughout Babylon et cetera et cetera et cetera.

So, this is the phase where ISRAEL - can you believe it? - ISRAEL has fallen; they are selling their boys to male prostitution as mentioned in Chapter 22 of 1st Kings. Jehoshaphat is the guy in the South and he gets rid of this practice; it specifically says, "*male prostitutes*." Can you believe it, folks? That's where it's gone to. That's the kind of backdrop we're facing here in this chapter.

⁴² Jehoshaphat was thirty and five years old when he began to reign; and he reigned twenty and five years in Jerusalem. And his mother's name was Azubah the daughter of Shilhi.

⁴³ And he walked in all the ways of Asa his father; he turned not aside from it, doing that which was right in the eyes of the LORD: nevertheless the high places were not taken away; for the people offered and burnt incense yet in the high places.

You can see that his father Asa was an honorable King; he showed his son the right way. You go back and look at Asa's father and his mom, they were terrible; they were worshiping Baal, etc. His mom went out and created graven images to Asherah which is the temple prostitution goddess. She made graven images to Asherah. And what did Asa do? Asa did what a good king should do. Once his father died, he banished his mother from being the queen. (*Applause*) And guess what he did? He went and burned the big statue that she had made. Does this sound familiar here? He had to burn the statue; she made a graven image. Lord, have mercy! Why does this ring a bell? It's very sad, but anyway. She's out there in the woods and she got into the whole Asherah worship and the temple prostitution.

Female goddess & temple prostitution

This is the thing: the female goddesses would lure the women, the queens into the worship of them with the promise of, *"Well you're worshiping yourself; basically, by worshiping the feminine goddess you're worshiping all of womanhood."* The problem with that - and this is why God is the Father- the problem with that is that in every culture that embraces the feminine goddess and starts worshiping her, that feminine goddess must compete with male gods. And that feminine goddess power is from where? It's from the sexual power. When you look at these ancient deities of the feminine, they're always very buxom; they're very sexually ripe, very young etc. It's always this kind of imagery. So, what's happening? The feminine goddess has got to sell sex to attract customers. Are you with me folks?

You see how that works? It never changes. As soon as a culture starts worshiping the feminine deity, that feminine deity will start trying to differentiate from the male deities, and the way to do that and attract people's attention is what? The clothes come off; the buxom bodies, the youthful fertility usually becomes a fertility cult, a fertility goddess etc. This is what it is, because obviously we know it's the eggs; the eggs are the future of civilization.

Any society that embraces the feminine goddess and starts worshiping fertility, starts worshiping this type of open sexuality. The feminine goddess must give something that the male gods cannot give and that is of course the temple prostitutes. That's something that the male gods cannot give because the males are attracted to females; they're not attracted to men. I mean normally, 99.9% of males are attracted to females. Amen! Of course, there are studies on those men who are attracting to men and usually they've had some form of sexual abuse in their life; so, we're really talking about a small percentage and of course they're damaged spiritually and emotionally.

Then, you understand that worship of the goddess and temple prostitution are always, always connected. You can't get around it, because what makes the female goddess attractive compared to male gods is her beauty. Aphrodite, Diana; all these myths etc. are always talking about how they are perpetual virgins. Remember this? Diana is supposed to be a perpetual virgin? In the Greco-Roman world, she's the goddess of the hunters. The hunter's out there trying to get a buck; he's hiding, he's in the woods for a long time and he's visited by the goddess of the hunters, Diana -or Artemis, another name for her. She basically has sex with him in his fantasyland while he's hunting, and yet she's a perpetual virgin.

She's a perpetual harlot and a slut, but she's also a virgin! You see how that does not work? That is called "blue hair, in your mom's basement. I can be a boy if I want, a girl if I want. I can choose my gender." That kind of craziness; total delusion! You cannot be a harlot and a virgin; they are diametrically opposed. That's like saying you are a married bachelor! You are either married or you are a bachelor. Amen! You can't be both at the same time. You can't be a circle and a square at the same time, you're either a circle or a square; there's no such thing as a square circle. You understand how these are logical contradictions?

Same thing: you cannot be a harlot AND a virgin. The act of being a harlot is one that destroys your virginity; it destroys your sexual purity. That is what a harlot is; so, you can't be a harlot AND a virgin. But yet these female deities in the ancient and modern world etc., have claimed that the female goddess would always be FRESH when she appeared to you. It's like the refresh button on the computer; you just pull the screen down and it refreshes. Come on! We're not that stupid okay! Golly! Still, the Israelite people did fall for these cults.

Sex-trafficking of children

The point is: the fertility cults always, always, end up hypersexualizing the female body and sexuality in general; hypersexualizing! So, you have young kids seeing these naked images of Asherah, of Ishtar in the ancient world and they're being hypersexualized at a young age. Are you with me, folks? Then they see all these young girls being sold into the temple; they're "entering the priesthood," but that priesthood is basically state-run prostitution. That's what it is. The Babylonian state run the actual prostitution ring and they made money off of it; it was state run.

So, always when the population starts worshiping the female goddess, it's when you start having the hypersexualization of the children, which then leads of course to the normalization of pedophilia, which then of course leads to selling your children to these temples. You think that's unimaginable? In Thailand that happened all the time. In India in the cult of Yellamma, it's happening TODAY! Girls are being sold to that "religious tradition" as they call it, but it's a sex cult. They're selling their young girls to be "priestesses." That's happening TODAY folks, TODAY! That's not two thousand or four thousand years ago; that's TODAY. It's happening now.

We kind of take for granted what kind of culture Jesus brought; what kind of culture the Old Testament and the Judeo-Christian worldview created. We kind of take it for granted, "*That's insane.*"

We know we would never see that." NO! Those different gods bring this to those nations. That's why when a nation falls away from God and starts adopting these different deities with their moral and cultural framework, their social values begin to start CHANGING; they start metastasizing into something which is wicked and always leads to perverseness.

We saw the same thing in America. They introduced feminism in the 60s, *"Men are evil, women are oppressed; marriage is oppression. Flee from marriage, have sex with everything that moves, every man! Be free, have sex; destroy your life All the men do it so you do it too."* Remember this? And rationalizing this type of licentiousness to women.

But there's a reason why. In the study of sexuality and sociology we see that you, women have the key towards sexual access because you have the eggs and the eggs have to be fertilized; they're the next generation so you have to protect those eggs. You can't just be giving them away to everybody because then you get all sorts of bad gene sets that then multiply. It works sociologically too. Women have been the protectors of sexual access and that's why for example historically 60% of males have not been able to reproduce; their gene set has died off.

Then the eggs become divinized into the fertility cult. The promise is that if you worship the feminine goddess, you will be validated; the women as a whole will be lifted up. But it does the OPPOSITE! It does the opposite! It hypersexualizes the woman, it hypersexualizes fertility, it then normalizes it to the vast population and then the sex goddess is now having to differentiate against male gods. So, what can she offer? She can offer the power of sex and temple prostitution to the patrons. There's a big competition: who's going to worship the male gods? Who's going to worship the female gods? There is a big competition.

And that leads to of course temple prostitution. What is that? In the modern day what would you call that? We would call that sex trafficking. So, all these ancient cultures, they have the "priestesses" guild? No! This is state-run SEX TRAFFICKING! That's what it IS! And of course, those cultures that legitimize it and say, *"that's okay,"* what happens to them? They normalize pedophilia. They defile their children; they defile the next generation of young people. The young kids can't grow up normally, playing outside, catching fish, climbing trees. NO! They're SOLD! Do you understand? They're commoditized. That civilization will die. It will die because there's no future; no future. It will die. That's why God warns us against it.

King Jehoshaphat's grandma gets really into the goddess empowerment, *"Let's worship the goddess."* So, she goes into making these graven images to Asherah and bringing this culture in. Her son Asa is the one who pulls her down from the queen's position and he goes and burns those statues. Jehoshaphat is from that line. He would be like the Third King so-to-speak; he is like the grandchild. Not exact parallel obviously, but in that case, he is two generations down from this harlot.

And then in the Word you saw right there in verse 43

⁴³ And he walked in all the ways of Asa his father

See, he had a good mentor. You may not recognize it but you are mentoring somebody. This is why the young people especially those who are having kids now, they're investing in their future kingship, they're investing in their future marriage and they're investing in their future children. NOW! At a young age, not when they're like 40 or 50 and their body is breaking down.

I'm now in my forties and my shoulder popped out. I was just doing a little power lifting with my younger boys and now my shoulder's popping out. If I relax it, it just pops; it pops out. It just keeps popping out. So, I got to get some acupuncture tomorrow; I'll get some deep tissue big needle acupuncture tomorrow. I got to run down to Dr Lee. Once you hit 40, boy, you start feeling every little thing. My torn knee ligaments and all that? Oh, I train a little bit with my younger boys and that knee's on fire sometimes. All the younger people are like, *"Oh, we want to train with you; we want to train with you!"* I say, *"I only got one body young people, okay. I can't be wrestling all y'all; y'all are twenty years younger than me."* (Laughing) But the point is; if you start feeling that; your body starts going. The next generation HAS to be raised up; they have to be given the mantle. They have to be given the torch; it's critical.

The Rod of Iron culture

That's why Kook Jin Nim is making it possible for Mike and the friends at NRA to be bringing the young people. A rifle club just got past in the Delaware Valley. (Applause) Praise God! And Kook J-hyung invited them ALL, all the kids, and he's donating all the rifles too. He's invited them all, *"Use the range. Go ahead; train on the range, go shoot!"* Mike was so happy yesterday.

Why? They're the next generation; they're the people who are going to stand up for the Second Amendment. They're the people that are going to stand up for the Constitution. Getting into the shooting sports is very important because it is the FASTEST force multiplier for a population.

I mean, you can do martial arts, you can do knife fighting, etc. That stuff is still good on an individual basis; it's a great base. But on the NATIONAL level the Second Amendment is so powerful because everybody and their grandma can shoot an AR-15 really good. So, if you roll out that tyranny you got to worry about Grandma too. You can't just worry about the young people, the young bucks trying to get you. No! Grandpa can get you from his second-floor bedroom window. And this gives that nation a lot of power and a lot of sociological power to say *"no"* to tyranny.

That's why they're always trying to scare the population, *"What are you going to do? We have F-15s, we have nuclear bombs."* Well, the AR is going to be better than empty hands! Let's put it that way. What are you going to try to do? Box an F-15? You're going to try to box somebody who comes rolling in with an F-15? Come on! Come on! It's not happening. And we see even in Ukraine the forces there are fighting the Russians, and many times they only have rifles.

What does the Rod of Iron culture do? It creates a culture where everybody has the base level of defense for their family and their local neighborhood, and that creates a culture where it is okay to

have knowledge and sharing of stronger stuff too. It creates a societal culture which is different, and it allows for them, if it has to be done, to rapidly be mobilized to fight a bad force. People, especially the Left, pooh-pooh the cultural aspect of firearms, but the cultural aspect is really the strongest point.

We see even in Genesis 3 in the Fall, that Satan started to change that culture, *"No, no, no! You can eat of that fruit. Don't worry! God doesn't want you to eat that because your eyes will be opened and you'll be as Gods."* He tells that to Adam and Eve. He's trying to change the culture of being, *"No, no, God told me not to do it. I want to be obedient because I love Him."* He wants to change that culture.

And we know that the culture can change the values very quickly. That's why the Left aims at what? CULTURE! They try to take ALL the apparatus of the culture: Hollywood, media, music; all these things, because these things are cultural powers. They want to make licentiousness and sexual depravity cool in order to gain votes for themselves. They want to normalize that; they want to make it cool. They want to put up those bikini girls and the stars basically naked running around singing songs. They want to do that to lure kids in, so they give them their hearts, give them their votes; give them their power. Amen! That's what they do.

That cultural aspect is very important. That's why at the Rod of Iron Freedom Festival, especially when our folks from Japan and Korea come, they really bring a different cultural dimension. They were all walking around in their kimonos and then they got their little Airsoft ARs or whatever. But they bring that cultural dimension too. We are all people from different ethnicities and backgrounds but we're celebrating God's given freedom. There's this cultural aspect. I mean there's music and good food and stuff like that.

Next year by the way, we will be having a whole section that's designated for kids; we'll have a kids-playing area (*Applause*) Praise God! One of the sisters already has made contacts with her friends and they will be bringing bouncy playgrounds and all that, so the kids can have fun with different bouncy playgrounds and different activities. We'll be planning that out a year in advance and it will be totally different.

Transgenderism, a religion

But the point is: that battle for the cultural value is very important and that's why the Left is always attacking the cultural norms, *"What do you mean marriage is only between a man and a woman?"* See, that's a cultural norm; a marriage between a man and a woman is a Judeo-Christian cultural norm. *"What do you mean? WE have rights too! You have to let US be married too: man-man, woman-woman."*

(*Pastor Sean digressing about his bullet crown*) They're inert bullets by the way and not like The Young Turks said. I can't just lean over and press a button and shoot. (*Laughter*) They said, *"Oh, when he bows to the crowd, he may shoot his machine gun."* Okay Young Turks! By the way, they named themselves after the Armenian Genocide, the bad people that killed all those Armenian Christians; they named themselves after that. But I'm digressing

The point is: they're after the cultural aspects, what that culture identifies as, like *"this is the way it is."* Now, they're not only attacking the culture, they're actually attacking science. For example, in biology, saying that you can change your gender based on a whim; that gender is fluid and there is a spectrum of genders. Of course, they cite articles from National Geographic.

Have you read the National Geographic study on gender fluidity? All right basically it's looking throughout culture into different RELIGIOUS beliefs; which is proving the point that transgenderism is not biology, it's a RELIGION. They're using the example of mythological religion that has human combinations like a mermaid, half woman-half fish, or half woman-half beast; one is half woman- half man, this kind of stuff. THIS is what they're using as their EVIDENCE that throughout time and throughout history people have ALWAYS believed they could be gender fluid, and that the categories of male and female are ARBITRARY and they're RANDOM and they have no basis in reality.
(Laughing)

They literally use the examples of mythological religions to say gender fluidity is scientific but it makes OUR point! It makes OUR point! *"NO! You're not being scientific; you are creating a religion!"* It's based on occultic belief. You physically cannot become a man if you're a woman; you physically can never become a woman if you are a man. You CANNOT! Every cell in your body, every chromosome, every DNA strand is shouting, shouting, shouting, *"Man! Man! Man! Man!"* if you're a man, and is shouting, *"Woman! Woman! Woman! Woman!"* if you're a woman. Did you know you had a cheerleading squad like that? You got a whole thirty-seven-trillion cheerleading squad. All these men feeling oppressed by feminism, *"Hey, you got your whole cheerleading squad in yourselves! They're going 'Man! Man! Man! Man!'"* (Laughing)

So, they're trying to use the actual example of religious mythological chimeras as historical EVIDENCE for trans fluidity. Oh my Gosh! That's what they do. They'll just put up the title National Geographic trans fluidity throughout time; they'll just put up the title and people will not look at that article which explains these are MYTHOLOGICAL beliefs. NO society EVER has actually believed literally that you can become a female if you're a male; that a biological man can become pregnant. NOT ONE! NEVER! Not one! There's not ONE example in history until now. The Harvardians got to always be first, don't they? They always got to be first, but then the Chinese beat them. (Laughing) Oh, Lord have mercy! Give me a break, folks!

The point is: that's why taking on different gods brings different moral values. That's why God HATES these anti-gods in Scripture and that's why the whole Scripture is so important to read and to study because it shows this moral value; like God hates these anti-gods because they bring in different cultures, and those cultures always lead to the slippery slope that we've been talking about. We've been talking about the slippery slope, *"Hey! No, no, we just want equality in marriage."* Remember this? THAT was where they started. It's now so slippery, you got them with blacked out half a beard coming off here, a face made up like costume Drag Queen makeup; you got them wearing blue hair with horns coming out saying, *"I want to be recognized as a female now!"* It went from, *"We want human rights to get married,"* to these crazy chimeras running around DEMANDING that YOU conform to

their subjective interior view of themselves; which is very fluid because they believe they're a dragonfly, a dragon cat, and all those kinds of things. Delaware Valley apparently is accommodating a child who believes that she is a cat. Oh, my gosh! Oh, I'm serious; this is right here.

You understand what I'm saying folks? We're at the end of the civilization as we know it. These are the signs of a dying civilization, when you can't even do the basics of one plus one equals two; two plus two equals four. You are so whacked out, drugged out, bummed out, drunk out, sexed out; everything. You're so whacked out you can't even say one plus one equals two; male is male, female is female. You cannot do that. That's a sign of a dying civilization unfortunately, folks.

So, it's bad news, bad news for America. But of course, God is not dead. Amen! God has conquered the grave and He's conquered death (*Applause*) So He's not dead, and there is always hope, and the hope is returning to Him and burning down those idols as King Asa had to do.

Let's keep going here.

⁴³ And he walked in all the ways of Asa his father; he turned not aside from it, doing that which was right in the eyes of the LORD: So, he did not worship Baal, he did not worship Asherah. But look what happened:

...nevertheless the high places were not taken away;

Oh, no, no, no, no, no, no, no, no! What are *the high places*? Those are the altars upon which they are burning what? What are they usually burning in the ancient world and probably with the Satanists in the modern world? What are they after? They're after the kids, they're after children; that's why they're doing the childhood sacrifices; they're burning the babies to Baal. Baal is the abortion baby; he's the big cow and they have the big furnace within. The priests are beating the drums so you can't hear the screams of the children that they're throwing in. All the women that are being licentious because of temple prostitution, they're being impregnated and having babies and the society wants to get rid of these children.

What are they doing? Baal then conveniently fills that void, doesn't he? All these unwanted children, Baal is the one that will take care of them. How is he going to take care of them? They're going to throw them into the fire; they're going to throw them into the fire on the altar of Baal. That's why the Bible warns that *"the people of God must not pass their children through the fires of Baal."* (Leviticus 18:21) That is a reference to killing your children when it has become societally okay, as it HAS become in America. Even though Roe v Wade has been overturned now this is a big battle; it was normalized almost fifty years ago, and America has been killing children that long. You wonder like, *"How can that became normal? That's so crazy! How can that became normal in the ancient world?"*

Well, it happened here with all our riches, all our technology, all our black boxes and smartphones and TV and videos and all that; it happened the same way here. Now, people are trying to fight back and that's good; at least there are lines being drawn in the sand. These are mutually exclusive civilizations. You can't play an intermediary third person middle ground; that doesn't work. In Buddhism they talk about the Madhyamaka way, the middle ground but sometimes you CAN'T have

a middle ground! You can't be for raping kids and protecting kids; there's no middle ground. You understand? You see how that works? You can't be for marriage and for adultery it doesn't have a middle ground; it's EITHER one or the OTHER.

That's what all these people were trying to do in our case, *"Well, can't you find a middle ground between Father and Mother? Can't you just blend them?"* Well, did Father blend them? NO! He did not blend them; of course not! But that's the argument; that's what these people have been trying to say to us from the beginning because they didn't care about either. All they cared about was power and money. So, for them it was like, *"Hey! Just keep it going! Let the money roll and just keep it going. You're going to have control over tens of billions of dollars; just keep it rolling."* This was their proposition.

So, as I said ten years ago, it's like, *"Okay, betray your father and actually betray your mom and then once she passes then betray her again."* So, what are you saying to me? Are you saying this so I can just continue to pay your salary? *(Laughing)* I don't think so, buddy! I may be bald and look dumb but I'm not that dumb, okay. I may have no hair but I'm not an imbecile. I may be a Korean hillbilly but I ain't that stupid; many times, the hillbillies are smart, mostly very smart.

43 --- nevertheless the high places were not taken away; for the people offered and burnt incense yet in the high places.

Oh, Lord! See, this is what happens; this is always the temptation. *"Well, you know, it's quite popular; people are still burning on the altars of Baal. You know, they're still worshipping Baal,"* kind of thing. But God commanded them to burn down those altars, and that's a hard decision. If you do that, you may have political unrest. Obviously, you're going to be hated by a large portion of the population that is invested in this practice; such as the abortion doctors and their families that make millions off of the killings of the babies, and all the media and the George Soros that are funding this stuff. You know all that stuff behind was there in the ancient Jerusalem as well; the same dynamics took place.

HE personally does not worship Asherah and Baal which is good, and God said that it did please Him, but he doesn't get rid of all the altars of the baby-killing Baal or the sex-trafficking Asherah. If you put it in those terms, NOW it makes sense why you have to get rid of them, doesn't it? It's not just, *"Oh, the nice Baal, the god of fertility or the god of rain, and Asherah the goddess of fertility. That sounds really nice!"* It sounds really innocuous, real harmless. No! Baal is the god of baby killing and Asherah is the goddess of sex prostitution of CHILDREN; that's what they are. That's why God hates them. Are you with me folks?

So, God is forgiving Jehoshaphat, but in the end, what happens with him? He tries to do the middle ground thing. What does he do? Let's keep reading. What does he do? Let's see.

44 And Jehoshaphat made peace with the king of Israel.

Now, isn't peace good? *Give Peace a chance.* What's that song? *(Some people sing)* I never heard that song; it's a little before my time. I'm a grandpa but I'm only 43; I'm a young grandpa.

The point is: I thought peace was good. Jehoshaphat made PEACE with the king of Israel, but we just saw that the king of Israel, he's a bad guy; he is a BAD one. The northern King is bad, very bad. He is promulgating Baal's high places; he is pushing Asherah worship. And then he is now saying, *"Hey, I have an enemy that I want to fight, so Jehoshaphat, let's join forces and let's fight him together as Jews. We're the same people ethnically so let's join forces and fight my enemy."* You understand? He's luring him in. And in the Scripture a couple of chapters before, it shows that he's saying, *"You know what? I'm going to dress like a normal soldier but I want you to have the glory, King Jehoshaphat. So, when we go to war you dress up as the king. When we go to war you dress up as the king, I'll dress up as a normal infantryman and I'll be right by your side by the way; you dress up as the king and we'll go to war with my enemy."* Does that sound like a good idea? Wait a minute! What could go wrong with that?

It's like mandating covid death jabs to children through the Department of Education vaccine mandate. That doesn't sound like a good idea especially with this untested mRNA gene therapy, gene manipulator which is now creating massive incidents of myocarditis and heart swelling and the new syndrome SDS; the sudden death syndrome that young people have all of a sudden after the forced mandates. The young bum bums believing the brainwashing of their teachers, believing the state, selling their hearts and souls to the state, believing the "science," now they got SDS which is sudden death syndrome. Even when their parents told them, *"Hey, don't take it honey,"* they ran and took it because they wanted to prove that Mom and Dad were old-timers and unscientific science DENIERS!

Oh Lord, have mercy! Now they pay with their lives. Now, their hearts are swelling, now they're on multiple different medications to deal with that, and some of them are dead. It's interesting how that works: when you put your faith in the STATE how that tends to come back to bite you somewhere else. Oh, my goodness! Give me a break! It's a terrible, terrible, terrible situation.

Saved by God

So, Jehoshaphat makes peace with this king of Israel and then what happens? They are now fighting the war. Jehoshaphat was so into it for the PEACE; he got so high on peace that he listened to what the northern King was saying and he wore the king's clothing into battle. And guess what all the enemies did? They said, *"Hey, that's the king,"* and they all came charging to kill Jehoshaphat. Isn't that incredible folks? They all came to kill Jehoshaphat. He was so intoxicated with peace; instead of standing up for righteousness, he desired political CORRECTNESS! He wanted FANS; he wanted followers on Instagram, Facebook and Twitter. He wanted fandom. He didn't want to pursue God's righteousness and be unpopular so he pursued that peace, got high and drunk on that peace, went to war dressed up as the northern King told him to do, and of course he was targeted; all the enemies came trying to kill him.

But guess what? God's hand came down and saved him. The northern king brought four hundred prophets who affirmed, *"Yes, this battle is good. Yes, we all prophesy; this is a good battle to go to."* And Prophet Micaiah came out. He was the only true prophet in that area and he said, *"No, you're going to die; you're going to die in this battle if you go."* But he didn't listen to him. He went and he dressed up as the king and all these people came up to try to kill him. But in that moment guess what? The Bible

says that the enemies came to kill him but then they recognized that he was not the king of the Northern Kingdom, so they turned from him and they went and found the northern King Ahab and they killed him. "*Pierced him with the arrow*" is what it says. (2 Chronicles 18-20)

So, in the end God saved him; God showed His mercy upon him even though he fell for fandom and popularity and didn't do what was right. He did what was right in terms of not worshiping Baal, but he did not push it through; he did not get rid of the temple altars, etc. He did not purge it away from the land, and then of course he sought fandom and popularity with peace instead of being righteous in God's eyes. Many times, being righteous in God's eyes means that you're going to be hated and mocked, and large swaths of people are going to want you destroyed; that's usually what it means.

End child mutilation

Some of our folks went to support the "End Child Mutilation" rally organized by Matt Walsh in Nashville Tennessee. 3,000 people came out for it.

<https://tennesseestar.com/2022/10/03/matt-walsh-announces-rally-to-end-child-mutilation-at-the-tennessee-state-capitol/>

All the lefties came out too; purple hair, rainbow-colors hair, holding big signs saying "*misinformation, misinformation,*" shouting, "*You're fascist, fascist; you're Nazis! Trans people have rights too!*"

Nobody's saying that trans people don't have rights. But you just can't change laws of nature or reality. That's what we're saying. You can believe what you want but you have to admit that your belief is a religion; it has NOTHING to do with science. Because science shows that you CANNOT change your gender; there is no gender fluidity. And for the people who are born with the defect of attached gametes or whatever the case may be, that's like a .0001percent, and those have been seen and categorized until recently as abnormalities. So, you can't use that as the justification. This is an abnormality which has been categorized as such throughout all of history. You can't use it as the justification for, "*Look, look, look!*" It's .0001percent. So, it's just unreal.

So, big rally in Nashville and all these young people! Notice all these young people! Would you ever believe that young people would become so easily brainwashed and foolish, as to believe in such an ideology that they can choose to be male or female, like they can change it based on feelings? Have you EVER believed that would be possible in your lifetime? Well, neither has anyone in world history because it never existed; never existed when you believed a male could become pregnant and have a baby. Come on! Unreal folks; unbelievable. But it is the landscape we are dealing with now; we're literally dealing with a science that's going crazy, and no one may disagree; no one may say, "*No, wait a minute! That's not scientific; it's not science.*"

Matt Walsh for example in his movie *What is a woman*,

https://www.imdb.com/title/tt20256528/?ref_=vp_close

he's simply ASKING questions. That's all he's doing; he's not even giving an opinion. He's just saying, "*What do you mean by woman? What is a woman?*" That is the question he is posing to these professors

these “scientists” of trans ideology; these doctors that are financially profiting off of the genital mutilation of children. Doctors are making hundreds of thousands of dollars off of the pharmaceuticals that they're putting in. The ones that do chemical castration on children are being fed TO children for puberty blockers. Just UNREAL stuff! So, all he's doing is asking the question: *“What is a woman? Can you please explain?”* He's not belligerent, he's not angry; he's not intimidating them in any fashion, form or function. He's simply asking questions which they get deeply offended by and IRRATIONALLY upset about; which shows they don't have a reason other than *“I'm MAKING MONEY off of mutilating children. Don't you know that the doctors are making money?”*

The CDC

But look how much people have woken up. Three years ago, the American public had so much faith in the CDC; in fact, it was a trusted organization three years ago. Even five years back, most conservatives believed that we had a functioning justice system. I mean, think about it: most people believed we had a functioning medical system, and we had a functioning justice system. It wasn't perfect; nobody said it was perfect but it functioned. It generally functioned and was generally fair. Right folks, normal people believed that five years ago?

The media too. The media could be trusted; people actually watched CNN five years ago. People actually watched CNN! They believed that it was media. In the short span of three to five years all that trust has been broken; everything from the media obviously, but even now to the medical establishment. What happened to the age when the medical doctor was there for you? He was looking out, pledging the Hippocratic Oath to do no harm. He was there to serve the person and suggest things so you could make the best decisions. That was recent, folks.

But in the last two or three years it has unraveled. People now see the CDC as a dangerous propagandist unscientific organization; it's pushing things clearly for profit to its major stakeholders like Pfizer, etc. About the medical establishment: we posted on Instagram a panel of CDC doctors or whatever on a zoom call that were all saying, *“Yes! I have no problem with it, “i.e., adding the covid-19 death jab into the vaccine schedule of children throughout the country.*

<https://www.americanpartisan.org/2022/10/cdc-panel-unanimously-votes-to-add-covid-19-mrna-shots-to-the-recommended-childhood-vaccine-schedule/>

Every single CDC doctor on that panel! Dr Wong? Yes! Dr Bell? Yes! Doctor X? Yes! It just goes on and on. These are “doctors” and the public has put their faith and many times their lives into their hands. Now you see the very same people saying, *“No, no, no! Put it on the schedule. We're going to make billions more for Pfizer.”* There's no profit motive in this! Pfizer is going to make billions; just like the \$81 billion they made in the last year.

<https://childrenshealthdefense.org/defender/pfizer-revenue-81-billion-covid-vaccines-cola/>

Pfizer creates pharmaceutical drugs; they make medicine so they definitely don't have a profit motive at all! *“They don't want to make any money; they just want to help heal people. They make medicine! What's wrong with you? Are you a conspiracy theorist? Don't you know that companies that make medicine, they are perfect flawless people that have absolutely no desire for money. They don't have any desire for mansions or Lamborghinis; none of those matters. Only your health and that of your children matter.”* To the tune of 81

billion dollars forced upon the populations of this world; by the way forced. In many of the countries people being beaten up, women being smashed on the pavement by police, and all this kind of craziness. We saw this in Australia and throughout Europe. Oh, my goodness! You saw it folks.

So, now look at the state of the public's trust towards them. Remember the Lefty loonies, the ones that were such lascivious slaves, salivating slaves to the state, that were salivating and spraying spittle everywhere, and were accusing, *"You're going to kill Grandma, you evil and selfish person! You only care about yourself and your rights?"* You remember? You remember all this craziness? They were so self-righteous; they were so ADAMANT that they were following the science and they were a hundred percent right. But they were a hundred percent wrong, and of course they'll never apologize; they're too proud for that because they worship themselves.

The point is: all that trauma they forced on all these normal people, all that visceral hatred they poured out on everybody calling everybody unscientific when THEY were the unscientific ones; forcing the mandates, being for coercion; forcing people to mask up or get out; forcing people to shut down their businesses and only shop at Walmart; forcing the killing of small businesses across the globe; forcing the de-industrialization of their countries! Oh my gosh! Are you kidding? You understand?

"They did it with such pure and good intention; they're such good people." In their eyes they're so good. *"How can you not recognize how good of a person I am? I'm just trying to save you from your own conspiracy castle?"*

Okay, all right! Now, what castle are you living on? You're now on castle SDS, Sudden Death Syndrome castle, baby! You're now on SDS castle! What are you going to do now? You got the four jabs and the four boosters and you want to get to more schedules and you got covid multiple times and you are not immune. Your immune system is shot. You now have Spike protein replicating in your body forever and you're on SDS castle.

Whereas other people said, *"Wait a minute! I want to look at the science but the science is not there. They're forcing this through, way too quickly."* And Trump like an idiot keeps on PUSHING it! This is the end of Trump folks, if he keeps on pushing it like a total idiot; if he keeps on pushing that he's saving the world with the vaccine! Oh Lord! It's the end of Trump if he keeps doing this; it's the end. The point is: *"Vaccine, vaccine, vaccine,"* and now you've got all these people dying across the world. You see what I'm saying folks? Big trouble, big trouble!

All this incredible PAIN that the world had to go through! Of course, we knew this was coming. When we saw the fall of the Han mother, we knew that would have worldwide implications. We predicted it seven years in advance and most of our community was preparing long before any of this craziness hit.

Where is the list?

But of course, now we're in the stage of escalation, so it's not only the medical malpractice that has escalated, but it's the military-industrial complex which is pushing for a thermonuclear war with Russia. Don't you think it's a little dangerous if EVERYBODY in Washington DC, except for Rand Paul and Margery Taylor Green, wants to have thermonuclear war with Russia? People of the United States, do you think that's a good idea to go to thermonuclear war with Russia? (No!) Obviously, we know why. They want to cover up their tracks, their crimes against humanity, the pedophile rings and the Epstein Island, etc.; all this is getting out. Where's the list?

All those media outlets came to the RIFF: the TBS Tokyo Broadcasting, one of the biggest in Japan; Kyōdō Tsūshinsha, that's the AP (Associated Press) of Japan; France TV; London Times, etc. But in all the interviews that we did during the festival, I made it a point to ask, *"Where is the list of Epstein Island?"* (Applause) They never put that in! But we have it recorded; we can put it up. It's just got to be a mandatory question; anytime media wants to interview Pastor Sean, you're going to get at least one question back. I got to make a compilation of all different media, sitting with Vice or whatever. We were talking about something and they were asking,
"Well Pastor Sean, what does the Freedom Festival mean? What is the Rod of Iron?"
"How come of all the people that went to rape children on Epstein Island not one of them is in jail?" (Applause)
 That's the question. Every single media outlet that came, they got that question: *"Where's the list? Where's the list"* That's coming out obviously. It's coming out; people are aware of it.

"King Bau," a Jocko Willink MMA fighter and rapper, a young man, very athletic MMA fighter, he's calling out Jimmy Kimmel on this beautiful 40-day *"Give me Jimmy Kimmel challenge"* because he's apparently on the list. <https://www.mmanews.com/2022/08/joel-bauman-kimmel/> He's calling him out saying, *"Jimmy Kimmel, where's the list?"* and he made a little rap song that says, *"Where's the list? Where's the list? Where's the list mother f...?"* He made a nice little rap song just to play for Jimmy Kimmel. He's got millions of views and he was also on Infowars. He's just an MMA athlete, he's just a martial artist but he's using that platform to say, *"Where's the list? All of you are pedos if you don't show the list."* God bless him! He's a good awakened young man and he's using that platform for good.

The point is: that whole apparatus is collapsing, so, what's the biggest next thing? It's collapsing. They're losing trust in their medical establishment, their military industrial complex. They're losing trust in their institutions of power and education. In SCIENCE! Because how can all these scientists be going along with the trans ideology? It's a RELIGION! It has nothing to do with science. How can all these "scientists" be going against the basis of biology on which their sciences are built? How does that work? It doesn't; it doesn't rationally work because they're fallen sinful people. They're not perfect just because they study science; they are FALLEN SINFUL PEOPLE. That's the reality. And since they're FALLEN SINFUL PEOPLE, even though they wear a white coat, when they're given billions of dollars, they will do ANYTHING! The majority of them will dance like a monkey all day long.

There are some brave ones like Dr McCullough, and Dr Malone who has six patents on the mRNA vaccine; some brave ones. But they're the minority and they were censored, deplatformed; they were attacked and their careers have been destroyed. But the vast majority of the scientific medical community, you saw with your own eyes, they went along with it. They went along with it egregiously, and with the climate chasers. *"The best way to fight climate change is to get your vaccine."* (Laughter) If you want to save people from the hurricanes, King Kyle, you've got to hurry up and get your vaccine. Stop being a science DENIER and hurry up and help the hurricane people with the vaccine!

At this point this is INSULTING! You understand? At this point this is beyond insulting the population's level of intelligence. They think the population is so dumb that the "president," the usurpatious president, can get up there and say, *"We got to help the hurricane. Get vaxxed! Come on man! Come on man! Get vaxxed! Blah, blah, blah, blah!"* This is BEYOND insulting! BEYOND insulting!

How does getting the covid jab that causes SDS have ANYTHING to do with hurricane Irene? How will you stop the force of nature which is bringing rain? How will you stop that with your covid death jab? Ah!!! I guess you'll die! You'll die and stop greenhouse emitting through your breathing, because you're a useless breather now; you're not only a useless eater, you're a useless breather. So, now I get it! The Queen unlocked the mystery; now I get it. You are emitting greenhouse gases. Oh, okay, that makes sense now. Okay! You are emitting greenhouse gases, so if you die you save the planet! Okay I got it! Now, it actually makes sense. Oh, my Lord, have mercy!

2 Kings 22: 44- 50

⁴⁴ And Jehoshaphat made peace with the king of Israel.

⁴⁵ Now the rest of the acts of, and his might that he shewed, and how he warred, are they not written in the book of the chronicles Jehoshaphat of the kings of Judah?

⁴⁶ And the remnant of the sodomites, which remained in the days of his father Asa, he took out of the land.

⁴⁷ There was then no king in Edom: a deputy was king.

⁴⁸ Jehoshaphat made ships of Tharshish to go to Ophir for gold: but they went not; for the ships were broken at Eziongeber.

⁴⁹ Then said Ahaziah the son of Ahab unto Jehoshaphat, Let my servants go with thy servants in the ships. But Jehoshaphat would not.

⁵⁰ And Jehoshaphat slept with his fathers, and was buried with his fathers in the city of David his father: and Jehoram his son reigned in his stead.

So, this is the story of a king that had a good father and learned good values. In the beginning part of his reign, he tried to do some politically-correct stuff; he made those mistakes and almost got himself killed in the wars making those peace treaties. But by the hand of God, he was saved and he was

eventually able to be buried in the place of his fathers. Okay, so God did save somebody who was slipping and sliding.

The point is: Is America over? Well, we are a dying civilization. We're in the process of dying right now but it doesn't mean we're dead; that's the difference. Everybody's dying once you pass 40. I guess once you're born; after you're born, you're dying. But America is now dying in terms of becoming a post-Christian country. And we know that. We can see it in our cultural norms or the norms that sustain our society. Even just a simple respect for the founding documents or the Red, White and Blue, the flag; something as simple as that used to bond us together. You could be of any color, and if you came to America, the Red, White and Blue, that was something you didn't touch. The vets go out and they're fighting for it; that's our nation's flag.

Now, you have the Pledge of Allegiance in the classrooms and kids won't get up. That's in Texas, folks; in rural TEXAS! Children will not stand up; there are like two kids out of forty that will get up, and the two kids that get up are clearly Republicans. They're well-dressed, they have cowboy hats on. Everybody, else even in Texas, is sitting down. Because they've been indoctrinated to see that flag as a flag of conquest, a flag of killing the natives; even when the natives were cannibals. Actually, the game lacrosse comes from killing your enemy and playing with their heads; they're dead and they've been decapitated. That's where the game lacrosse comes from. You understand? So, they weren't exactly Pocahontas, smoking and doing powwows and just playing guitar all day. No, they were eating people. A lot of native tribes, they were eating people, ruthlessly killing people, scalping people and of course playing with their dead heads; creating a sport out of it.

Any nation that has been created will have to have been victorious over other people. In America it's being taught to the young that the Star-Spangled Banner is a fascist, a racist white-supremacist anthem.

(Pastor Sean Sings) *"O say can you see, by the dawn's early light,"* white supremacist! Do you hear all the whiteness in there: it's all about whiteness.

"What so proudly we hail'd at the twilight's last gleaming," See, they say "gleam" which means "shiny white." Ah! I see! That's what it means!

"No, I heard it; I heard gleam, that's your subliminal way of showing white supremacy and fascism through the song." So, you understand what I'm saying folks? What planet are you living on? What will it be in ten, fifteen, twenty years down the road? What kind of country will you be in?

Hutus & Tutsis

Tucker Carlson was talking about the time when the Hutus and the Tutsis were killing each other, and how before the genocide, for six, seven, eight months, the Hutus radio had been playing how the Tutsis were too privileged; they were too rich, they were taking all the money from the Hutus. The Hutus radio was playing that propaganda on the national level, and within six, seven, eight months a big genocide was breaking out. People were running up to the Tutsis; hundreds of thousands of

women being raped, moms being torn out of their home, being decapitated, killed. For what? This propaganda, this rhetoric; the rhetoric was whipping people up.

On MSNBC, you see news anchors coming out OPENLY proclaiming, *"white people are bad," "white people..."* etc., literally saying "white people." Tucker Carlson had a whole piece on that; he's showing the evidence that these news anchors are talking PURELY about race. They're race OBSESSED! Everything around the world is "white people, white people, white people," and this is the messaging they're promoting to the next generation of young people who have blue hair, and they're males that wear dresses and high heels and shout and scream at you, and have temper tantrums if you want to have a gun or if you want to wave a flag. You're the fascist! They're against fascism but they can use fascism against you and state power against you. And they're still against fascism because they're getting rid of YOU whom they determined to be fascist; even though you're the one who's actually anti-fascist.

Folks, this is the kind of craziness we are dealing with. What will happen ten, twenty years down the road, if America survives? How crazed out will those people be? It only took eight months of Hutus radio to start genociding the Tutsis; six to eight months of concentrated radio propaganda to the Hutus on the Hutus radio and it resulted in genociding the Tutsis.

That type of programming is openly happening now on the leftist channels. You can watch them sometimes; you have to watch some of the clips at least. They are openly talking about white people. *"White people are the threat; white people are the most dangerous threat; they're the most dangerous thing on the planet. The white people are causing the gas prices to go up, the white people are causing thermonuclear war. The white people are causing fascism and domestic terrorism to rise, and MAGA Republicans are all white."*

Keep pushing through

So, the rhetoric against the Tutsis is happening now on an escalated level especially when at the same time we have an international crisis with potential thermonuclear war. Isn't it convenient that it all starts blowing up when everybody's getting awake and everybody's getting angry enough to say, *"Hey! Wait a minute! These people are really BAD! We got to throw these guys out?"* Isn't it convenient that an international war starts breaking out? And now our Special Ops guys are getting ready for war with the Russians; direct action war with the Russians right now in Ukraine. They've been of course training the Ukrainians and fighting alongside them up till now too, so we've been in the war. And now in Russia, the leadership has given all the okays to use tactical thermonuclear MISSILES.

There's your beautiful Halloween present, your October surprise, your beautiful Christmas present; fire and brimstone and mushrooms for everybody. How's that? Mushroom for everybody. Wouldn't that be a great Christmas delight? I thought we were hunting the woods for chanterelle mushrooms or chicken-of-the-woods mushrooms; that kind of mushroom. I am not talking about a mushroom cloud! No, but that's what they're bringing conveniently while the world is waking up and realizing how demonic these people are in the end.

Folks, it's a critical time so we have to be praying, preparing and of course putting on that pressure. And no matter what happens, no matter what happens, in the end God is in charge, God is leading the way. It's going to come to a point where the governors are going to have to step up; they're going to have to step up and they're going to have to stand up against this federal craziness of people allied with the international communist groups around the world and now trying to decapitate America. The governors at the state level are now going to be absolutely critical.

Mastriano is behind in the polls. We pray that Mastriano gets in because Pennsylvania is a critical state. If he does, praise God Almighty; we'll be doing laps around the Sanctuary and all that kind of hoopla. But they still have the operations for cheating, Trump has not donated a cent, GOA is the only one doing his ads, and the league of governors has withdrawn their support from him; which is not good stuff for him by the way.

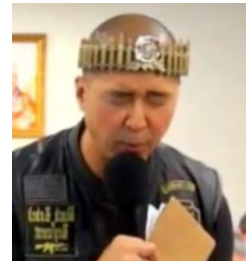

Nevertheless, if he doesn't win, America's not dead yet; America's not dead yet. God will move and God will organize states to start stepping up. Even if the Northeast Corridor falls to the commies, it's not going to just hang on here. There's always going to be a way but it's not going to be easy and it's not going to be untragic. It's going to be sad and filled with tears. Yes, either way, there is a judgment upon the world, and we have to get through it.

And the best way to get through it is to what? KEEP PUSHING THROUGH! Amen! (*Amen! Applause*)
Amen!

Folks, please join me in prayer.

Pastor Sean's Prayer

Father God, we thank You for this beautiful day. We thank You for all the people that are here standing up on this incredible spiritual battle that we are facing now; existential battle between good and evil, righteousness and unrighteousness, goodness and the forces of wickedness.

Dear God, we are at such a crossroad in this country. In a few weeks there needs to be a massive sweeping change; this is our hopes and our dreams and we are praying for that. But at the same time as realistic optimists, we must always remember that the opposite can be true and it can go south; it can get worse. We actually know that. Your Word always prepares us that it becomes worse before it becomes better.

So, let us have wisdom and discernment at this time because things that we desire may not happen; things that we desire and the path that we desire for the world may not necessarily happen. There are so many actors acting in free will; there are so many evil actors and hands and feet of Satan moving throughout this world. But in the end, there are also hands of feet of goodness, of Your work and Your Will.

We pray that each one of those around the world may be fighting at this critical time, may be standing up, and sounding the alarm so people can wake up at a time of tremendous crisis and despair, and realize that even though it becomes darker in the world the light will shine BRIGHTER; Your goodness, Your virtue and Your civilization upon which the Kingdom of God rests will only shine BRIGHTER as the world falls into deeper darkness. That does not mean we're praying for deeper darkness. But even if it goes that bad route, we are ready and we are committed to SHINE the light and to stand with You in this most animated contest of Liberty.

Dear God, all our ancestors, all the Founding Fathers in the spiritual realm, they are standing WITH us at this critical time, so we are not alone in this battle. All the angels and the Holy Hosts they're standing with us at this time. We are not alone even though they make us FEEL alone and feel isolated. No! There are so many millions and millions across the world AND across the spiritual realm that are STANDING with us at this critical kind, PRAYING for us at this critical time and ENGAGING the evil forces at this critical time. We must always remember that You are guiding and leading the path and the spiritual charge, and we stand strong with You NO MATTER how it turns out.

Dear God, we always pray for the BEST but we prepare for the worst, in the sense that we have the five percent responsibility to be good stewards, and that even if it goes that way, we will be more prepared than if we hadn't prepared at all.

Please, give us wisdom and discernment at this critical time.

Let us support GOOD leaders that can rise up through the ranks, and of course

Please stand with the strong governors; that each governor of the Judeo-Christian realm may stand up strong against this very anti-human, anti-science, anti-biblical, anti-God ideology that is spreading across and being sprouted and being funded through Washington and all the wicked international communist organizations of the world.

Let all the governors stand STRONG and protect all the men, women and CHILDREN of their states. Let them realize that they can't just pursue peace at this critical time; they have to draw a line in the sand and say, "*NO MORE! No more! Those crazy mandates will not be able to enter our state!*" Those BRAVE governors are rising up right now as we speak, in Florida and Tennessee, in Arizona and across this nation.

Let more governors rise up!

Let more people have safe haven to have their religion and their beliefs and their fundamental human rights and free speech and their parental rights, all protected! Put Your hedge of protection around them at this critical time, and

Let us see the incredible unfolding of this most epic time in history AS we participate to do Your Will in this incredible time.

Father, we are giving You the praise and glory today. We thank You for ALL the brothers and sisters that are here, each one of them fighting hard in this battle; each one of them Your hands and feet at

this critical time; each one of them becoming force multipliers, awakening others all around them. We know that all of them and all of the brothers and sisters across the world have gone through so much mockery and attack and scorn and have been belittled and been called crazy, but they have been vindicated.

You have shown that You are true and You have shown that even through the darkness and the stormy clouds, we WILL see the horizon, we WILL see the new sunrise and we WILL see the Kingdom of Heaven, the New Jerusalem descending from the clouds and establishing itself ON EARTH, for Thy Kingdom to be established and to flourish forevermore.

We give You the praise, glory and honor with ALL the kingship lines gathered here together with Your Three Generation, and in Your precious name we pray. AMEN! Amen! Aju! (Applause)
All right folks, let's all rise and give Him the glory! Praise God!
