

CROWN OF GLORY

Pastor Hyung Jin Nim Sean Moon
Sanctuary Church Sunday Sermon
Cheong Pyeong, Tennessee
14th Year of Cheon-gi, 6th Month, 20th Day
(Solar August 06, 2023)

Training and Lifestyle

Thank you for your prayers, Queen Yeonah Nim had an accident this past week when she was making the acrylic tongil marks. The Queen slit her hand while cutting a box. She was bleeding out pretty bad. I always keep a system on me, even in my short pants, which was the system I had on at the time. The system is my self defense tools and trauma kit with a hemostatic agent. We were in the hospital at two in the morning. She's fine now, but this is the reason why the men in your home, as Kings and Priests, should always keep a system on.

Remember if you lose two liters of blood, then you will die and cannot be resuscitated. If you lose 1 liter of blood you can be saved. If you lose two liters of blood, you are done. Two liters is like two, one liter water bottles. You always want to have your system on your person. I am

wearing my long pants kit now. I always have hemostats, which are trauma bandages in my system. They are a lightweight package with a hemostatic agent that stops bleeding immediately. Hemostatic agents are used in combat for gunshot wounds, traumatic injuries and arterial bleeds. The Queen wisely put pressure on her cut, and she tried to stop the bleeding using paper towels with pressure but the blood just kept pouring out. She came and got me, and even though I only had my short pants kit on, all I had to do was reach into the right pocket and pull out the hemostatic agent to pack her wound. Immediately the bleeding stopped, not because I have magical powers but because I am a responsible King for the house by always carrying around my system.

That's why it's important, some people don't understand, oh, I carry my gun when I go out, no that's not how you should think. Your home is the place you should protect. Amen. That means when you are at home, you shouldn't just be in sweats, if you have sweats on you should have a system in your in your sweatpants which is what I do when it is colder. I wear sweatpants with cargo pockets. I can put critical items in cargo pockets. Right? I don't want to be wearing these bushcraft pants at home, so you put on your sweats but you have your system in a pocket, ready to be deployed. I've been using a system for 7 to 10 years, I can't remember exactly.

I have used that hemostatic agent three times already, one was a motorcycle accident involving my son-in-law, that's why his motorcycle's nickname is stitches. My son-in-law took a big spill while I was training him, he took the corner too fast and ended up getting a lot of stitches. Just like Joe who almost chopped off his hand with a chop saw, his motorcycle's nickname is chop saw. He likes that nickname better than speedy Joe. He's getting a little older he's in his 50's so when the youngins come on their super bikes, Hayabusa, they want to race you. Uh, we're older we don't want to race you kids on a sport bikes which, by the way, is a very easy way to die. Young people need to remember that. But the point is my son-in-law also got an injury on his head, he was bleeding out through his head. That had to be stopped immediately. I used a hemostatic agent and boom, it stopped.

Also one of our sisters here, was walking up the waterfall, she was pulling and cutting weeds, and then she slipped, remember that? She hit her head on a stone or something. So again that the system came into play. In the last couple of years I've use this hemostatic system which is a trauma bandage to stop minor injuries but in the Queens case a little more major bleeding. I don't have to scramble and I don't have to go running around, I don't go crazy and confused, I don't have to rummage around, because I know where it is. Boom, it's right there in the right cargo pocket. That kind of systematization and preparation is critical, right?

We are charged to provide and protect and to be the Priest for the home, Amen, as Kings. You have to protect our Queens and the people in the Kingdom. You can't do everything but you can assemble and carry around something that weighs little to nothing, probably one ounce or less than one ounce trauma bandage. But it literally it's packed with a hemostatic agent that will stop the bleeding immediately. If there is a deep arterial bleed, use a z-fold hemostatic bandage so the z-fold keeps packing and packing until the bleeding stops. This is very important, we gave these

to the security team. That's why training is so important because if you don't do the training these things are just theory and they're not applied in your life. This is important when we are training with very dangerous things like rod of iron training on the range. Our instructors carry a trauma kit. While on the range you dealing with dangerous weapons of deadly force. If there is user error you could have a catastrophic injury and so you have to be prepared for that. This kind of training helps you developed a totally different mindset and lifestyle, Amen. That's why training is so important because if you don't do the training these things are just theory and they're not applied in your life.

2023 Rod of Iron Festival (ROIFF)

By the way, we will be doing three King Bullhead songs at the Rod of Iron Festival. On special request from Kook Jin Nim and the committee begging and begging so I said, come on guys you are driving me nuts. I don't like musical performance on stage even though I speak on stage. I don't like performing songs on stage. It's been 25 years since I last did that. I stopped doing those musical performances when I was younger.

When you do performances especially when it deals with writing music, you can get really big in your head. Do you know what I mean? When you're young and you hear the audience hoot and holler at you, you can get addicted to people cheering for you. That becomes very dangerous, it's a form of vanity, getting addicted like an idol. That's why people want fame and they want to be worshipped on stage. All those girls in bikinis and all these people cheering them on, becomes vanity. I can sing, not professionally, but I can sing better than the average person, but I never liked performing on stage. I've seen some of my brothers fall into the trap. God gave me the blessing of being the younger one. I saw a couple of my older brothers fall into the trap of getting addicted to the stage, addicted to girls cheering for them and that leads to big problems.

From a young age even though I have the skill to dance or sing, I purposely did not do those things. I purposefully did not develop these skills because I had seen the bad effects, if it goes wrong. Even when Father was forcing me to sing, I told Father, I really don't want to do that. But If Father makes me do that I have no problem, I have to do it.

At the Freedom Festival we will be performing the rap songs. These songs are also part of the evangelism, ***Victory Over Communism [VOC]*** and attacking political satanism work. These rap songs are easy to share. When we have political friends or we have network that we're building on, some of the first videos we will send them even before sermons or whatever are the rap music videos. We can ask our contacts to check out this rap video, saying, hey this is fun, this is cool or whatever and this opens up the bridge a little more heartistically.

The rap music videos are part of the witnessing outreach, it's sharing the message when it comes to VOC. At the Freedom Festival it's an important venue and there are a lot of people who will be coming to hear obviously speeches and important speakers etc. but also **Dave Bray (2023 Day 1)** is coming back. He is a wonderful patriot veteran and a patriot rock and roll artist. He was a

marine medic and a very good, very good man, Godly man, loves Jesus, loves Christ and he loves the Freedom Festival. He says it's his favorite festival of the year. He comes back almost every year and he's actually doing Sunday for us for free or pro bono. Saturday obviously since he brings his band, we're paying for it just like we did for any other person. On Sunday, he just wants to be there to support us. He will be the MC on Sunday and maybe he'll perform a few songs. He is a very good marine and patriot.

We will be performing three songs at ROIFF on Saturday before dusk at about 5 PM before the fireworks begin. We have patriotic songs that people have not heard. We're going to do **Eggplant Emoji** which is a funny rap song about trans men that say they are women, they have the eggplant emoji. The other song is **Woodchippa** special request by the General Inspector, Kook Jin Nim.

Vets for Child Rescue is coming to and we're trying to convince them to get a wood chipper. People can donate and then you just get a pedo thing made out of wood thing and you threw it in the wood chipper. This is a fun activity. Then we have a song 'This is America' this is a new song that we have not put out yet. It is more of a rock 'n' roll style/ rap song. We will be rocking and rapping and rolling for the Lord not for vanity and self worship. Amen! We are going to give praise to God we going to put out the message and defeat the commies and the sexual luciferian demons, the pedos that's the crux of their network. Power is the crux of the pedophile network, that's why they are trafficking children.

That is a critical element so we are going to be practicing. We have an eight week timeframe with eight times we can practice. After lunch we are going to clear out the sanctuary, and we have to practice. We are going to practice, hoot, holler and run around like lunatics in here. Maybe our Japanese team will have to help us because we are also going to do jumping off the stage with young people. This is not for everybody.

In the last song ***This is America*** is going to be filmed. We are going to be filming the b-roll so everyone is going to be in the music video. After Sunday service we are going to practice a mosh pit safely. When people jump off we don't want them flopping onto the ground and breaking their backs. All the boys must practice catching people and crowd surfing them and then putting them down safely.

There is going to be a lot of energy, we are purposely turning on the energy. This is not just for our remnant but for the people who may interact with us for the first time. We're putting our energy into these songs as an outreach tool to allow people to understand what Father's culture stands up for, Amen, very key principles.

The boys will practice crowd surfing safely. Not just anybody can just run up on stage jump. We are going to have security guards. It will be done in a safe manner. This is an update on **King Bullethead** raps.

About the Elders, Serve God Willingly

1 Peter 5

- 1 The elders which are among you I exhort, who am also an elder, and a witness of the sufferings of Christ, and also a partaker of the glory that shall be revealed:**
- 2 Feed the flock of God which is among you, taking the oversight thereof, not by constraint, but willingly; not for filthy lucre, but of a ready mind;**
- 3 Neither as being lords over God's heritage, but being examples to the flock.**
- 4 And when the chief Shepherd shall appear, ye shall receive a crown of glory that fadeth not away.**
- 5 Likewise, ye younger, submit yourselves unto the elder. Yea, all of you be subject one to another, and be clothed with humility: for God resisteth the proud, and giveth grace to the humble.**
- 6 Humble yourselves therefore under the mighty hand of God, that he may exalt you in due time:**
- 7 Casting all your care upon him; for he careth for you.**
- 8 Be sober, be vigilant; because your adversary the devil, as a roaring lion, walketh about, seeking whom he may devour:**
- 9 Whom resist stedfast in the faith, knowing that the same afflictions are accomplished in your brethren that are in the world.**
- 10 But the God of all grace, who hath called us unto his eternal glory by Christ Jesus, after that ye have suffered a while, make you perfect, stablish, strengthen, settle you.**
- 11 To him be glory and dominion for ever and ever. Amen.**
- 12 By Silvanus, a faithful brother unto you, as I suppose, I have written briefly, exhorting, and testifying that this is the true grace of God wherein ye stand.**
- 13 The church that is at Babylon, elected together with you, saluteth you; and so doth Marcus my son.**
- 14 Greet ye one another with a kiss of charity. Peace be with you all that are in Christ Jesus. Amen.**

1 Peter 5:1-2

- 1 The elders which are among you I exhort, who am also an elder, and a witness of the sufferings of Christ, and also a partaker of the glory that shall be revealed:**
- 2 Feed the flock of God which is among you, taking the oversight thereof, not by constraint, but willingly; not for filthy lucre, but of a ready mind;”**

Practice and Training of the Elders

What does this mean? God is exhorting the elders, in the church to have a heart for not only the community but the next generation. He is saying, having ***oversight take not by constraint, do not by constraint, but willingly; not for filthy lucre, but of a ready mind;*** A willing mind, Neither as being lords over God's heritage, but being examples to the flock. This is the training of the elders. The elders have to be the best example they can be. Does that mean they are perfect? No.

Does that mean they never sin? No. The young people have a tendency to say, "The elders are supposed to be good examples but they have this and this and this issue." No, you also have this and this and that issue. Is that true? Nobody is perfect everybody is training and everybody is trying to get better, under God. That being said when there is evil, when there is sin, it has to be held for account. There can be forgiveness but things have to be held to account. There has to be punishment as well. That is justice. An important part of God's goodness is there is justice in the Kingdom.

He calls us to be shepherd's that is to tend the flock to care for the flock sacrifice . We have a sacrifice to be able to risk our life, We have studied *Matthew Chapter 10* we have studied the scriptures on free will. And we studied the scripture where Christ is talking in the red letters about the shepherd. And that he will face the wolves and he will fight them. That is the nature of the shepherd which is to protect the flock. There has to be that accountability amongst the elders as well. And also, the elders are training.

The elders are in training to become better examples but this doesn't mean they are perfect or that anyone in the church is perfect. We are practicing and training. This doesn't give you salvation or make you perfect but it makes you more and more better. And then of course likewise younger people submit yourself under the elder. Understanding that the elder is not perfect but also understand that you're not perfect, younger people. God is saying submit yourselves to the elders that are those good examples. They don't have to be perfect. They don't have to be flawless, walk on the water like Jesus or never make a mistake. You can still learn from people even though they're not perfect or the best at a certain field. As long as they are better than us at the field you can learn from them. I wasn't in a black belt when I was first got married to the Queen in terms of leading a wife, I wasn't a black belt but I was probably a purple belt.

I got along fine with my sisters, I did not have wars with my sisters. I know how to get along with girls fine, women fine. That's why Father said, if I did not have faith in Father, I'd be a playboy. Because I understand women's psychology. I may not be a black belt in terms of leading a woman, but I am better than most boys that are 17 years old. That doesn't mean I can't teach my wife even though I am purple belt, I'm better than a white belt. Amen. You don't have to be black belt to instruct. Most of our instructors are blue belts and purple belts. Blue and purple belts, they put in two years, at least four or five years worth of training. The boys that are purple belts put in probably five, six, seven years of training. Even though I'm not there leading every class with whatever stuff happens, I blew out my knee, I blew out my rotator cuff, I blew out my lower back this stuff happens more when you are forty doesn't it?

Thank you for your prayers by the way. I did my first push-ups on the ground today. These were my first push-ups in about a year. I'm still it's not perfect but that's big for me. For about a year I couldn't do a dang push-up because the blown out rotator cuff and I don't want to get surgery and have even more problems. I've been doing rehab. Today is the first day, I've been doing push-ups on chairs like leaning on inclines. Today I did it on the ground without full motion but I give myself some credit. And I thank the Lord for healing me.

Blue belts and purple belts can teach white belts, beginners. That's very standard in, you know, martial arts or whatever the case may be. As long as a person is better than you at the thing. He doesn't have to be a master. A master takes about 10 years, 10,000 hours plus. But a person doesn't have to be a master carpenter to teach you how to drive a nail in with a hammer. You can still learn from somebody who's less qualified. The scripture here in the Bible is telling the young people right submit to your elders and understand that they don't have to be perfect to teach you something. They just have to be better than you at it. You can always learn from someone that is less qualified. In the scripture here, the Bible is telling young people submit to your elders and understand that they don't have to be perfect to teach you. They just have to be better than you at it. Elderly people if they act in a mature and responsible manner will most likely be better than you at certain things and not only with skills but also in wisdom. This scripture is talking about wisdom. It doesn't mean elders are perfect because everybody is training, Amen.

1 Peter 5:6-7

6 Humble yourselves therefore under the mighty hand of God, that he may exalt you in due time:

7 Casting all your care upon him; for he careth for you. Be sober, be vigilant;

Here he is talking about the shepherd in these verses. Now let jump to ***Proverbs 4***.

The Crown of Glory is connected to Wisdom

Proverbs 4:5-9

5 Get wisdom, get understanding: forget it not; neither decline from the words of my mouth.

6 Forsake her not, and she shall preserve thee: love her, and she shall keep thee.

7 Wisdom is the principal thing; therefore get wisdom: and with all thy getting get understanding.

8 Exalt her, and she shall promote thee: she shall bring thee to honour, when thou dost embrace her.

9 She shall give to thine head an ornament of grace: a crown of glory shall she deliver to thee.

He is saying the shepherd gives you the Crown of Glory. The Bible is saying the crown of Glory is connected to wisdom Now remember, when the Bible is talking about lady wisdom, and says she was the ancient formation of creation, it is not representing, a young naked girl. Do you understand? Young naked girls is how the pagan cultures represent goddesses because they are sexualizing obviously, and they are talking about fertility. All the pagan cultures when you see how they ___ goddesses or whatever the case may be, it's always naked young girl.

But we know something about youth. You are not wise, so it's not a good idea to worship this young girl. The only quality this young girl has is, is her naked fertile body. This is what the pagans focus on.

The Bible when talking about lady wisdom, an ancient woman or figure that works along side of God. Is it a young lady? No, it's an old lady. When we think about old lady we think about snow white and the gremlin witch that old thing. No, there are beautiful old women, Amen. Look at our True Mother Hyun Shil Kang, she is a beautiful old woman. She's beautiful, you understand? She is 5 foot tall or less, but she is the most beautiful woman in the world, in the universe and in history. Because of her faith, her love, her grace that she received from Father and she returned that with her loyalty, that love, that is power. Amen.

She has mad hotness, mad power, mad beauty even though she looks like a grandma. She is hotter than all the young chicks in the world, we're not playing no games. She is the beauty of the woman. Now she is a wise woman, are you with me folks? In the Biblical world view, even the Bible project sometimes depicts the lady wisdom as this younger woman, stuff like that. They always want to go pagan you know, they always want to get that naked girl to run around. No, the whole point of lady wisdom is she tells girls don't get naked, that's one of the key points of lady wisdom, don't be sexually licentious. Don't get naked. Don't wear your stupid bikini and post it on Instagram, for the whole damn internet to see. You have to understand your body is for your husband; his body is for you. You are for one another. You're not supposed to share your body with every man and tempt all these men, then you are making others to fall into sin. You are being a temptress and that's why even when we are training the girls have a uniform they have to wear. They just come in with leg showing your booty off, they have to come in with shorts. Same thing we do swimming training, the girls can't be wearing stuff that is exposing their sexual organs.

In the modern world that's what people are doing, right? It's crazy that these "Christians" are out and their wife is running around in a bikini. Hey, I am on the beach, praise God, Hallelujah. Your freaking wife is in a damn bikini running around half naked in front of other men who are lustfully thinking about her sexual organ in her body. You are certainly not helping your brothers who are in the faith. You see what I am saying? This is a ridiculous, this culture did not exist ever. It only exists in the modern world where everybody's infatuated with stripping down and getting naked.

Wisdom is Protecting what God has given you

In Christian culture this has always been frowned upon because that these terrible bad behaviors. This is stupid decision making. If you are used to getting naked in front of men, the next step having sex with men, is right the next step, do you understand? There's something about protecting yourself and that idea of being defensive such as self-defense, protecting yourself, protecting your assets, protecting what God gave you. This is also part about how we dress,

amen, and how we are projecting ourselves to the world. Oh, don't objectify me, while she is wearing a g-string on the freaking beach, do you understand how crazy this is?

There is no wisdom in that, the pagan cults always worship the naked young girl, that's what they sell. That's why in the end they run sex trafficking rings, that's why these pagan cultures always worship goddesses. They always end up having temple prostitution, right? What does their goddesses give the men, the people, the believers that the male goddesses can't give them? Well, they can give them girls, that's why the cult of Diana, Aphrodite, Asherah, Ishtar, Isis etc. all these ancient female goddess cults. The Hindus today, young Indian girls are sold into sex trafficking today. Now, like right now, because of the goddess cult. The goddess cult creates a niche in the marketplace. And they capitalize on the niche and it gives the people, something that the male gods can't give them. It gives them what's called sacred prostitutes which are supposed to be perpetual virgins. No, the whole meaning of virgins is that you don't have sexual activity by your own will. You are not participating in licentious behavior. That's the whole point of being a virgin, protecting yourself; protecting your sexuality for marriage. You can't be a perpetual virgin and having sex with umpteen number of men. That doesn't work, that's called a contradiction, that's a square circle, that's a married bachelor. It cannot happen, that is not possible.

So the ancient cultures that worship the female always start worshipping the naked body of the female because that's tied to fertility and her eggs. Which is the reason why the men are trying to chase after the girls they are trying to get their gene set to survive. You understand? Does everyone understand? That's just modern genetics, 40% of the males throughout history do not reproduce because the women are highly selective they have the door on sexual access. So they get to choose who they will give one of their eggs to. So the male genes basically 40% of them die off. They are never able to reproduce. In the ancient world because in the traditional values, they value tribes and smaller neighborhoods and things like that with more localized power rather centralized power in a nation state. The women of that culture, the man could marry potentially the girl that was let's say, the most beautiful in a small town. Now with the Internet, when you look at stats on dating app, it's like 1%. All the women on dating apps it's not even 40% anymore. They are literally on these dating apps, if you get one swipe left means some females are interested in you, you are ready 99%. That means 99% of the males on those apps and there's a variety of them, are not getting any swipes left. Why? Because all the girls are going after the 1% of males. They are handsome, they have six pack abs, and tatted up. They work for the government or they have this or that money. They are jet setting and traveling. They are not loyal, and they are playing around. But the girls will go for it because of that lifestyle. In the end they are like okay, if I've got to sleep with a boyfriend, I might as well sleep with one who give me money.

Literally, that's how it becomes. So you have all these men now, 99%, who women are not interested in. And now women are hyper focusing on this and worshipping this very small group of males throughout the population. And usually they're just very rich, very wealthy, and or if they don't have that, then they have very good looks. They are the objectifiers of men. They want

a handsome tan man with a six pack abs so all their girlfriends say, oh my gosh, girl, he's so hot, oh my God! They literally live for the likes and the praise of their girlfriends.

They literally don't want marriage, they want a wedding picture. That's how pathetic women have become, right, in the West. They don't actually prepare for marriage. That means you have to live with somebody, you have to be able to admit when you're wrong, you have to say sorry, you have to submit to your husband. You have to help protect your husband and children You have to do things adults to and husband obviously has responsibility as well. So you have none of that preparation, but they just want the wedding day. So it's like that It's like that viral video of the 38 year old or 37 years old or 30 something late 30s woman lawyer partner or something who you know ran the feminist course and just idolized career over relationships. So she did her career for 10 years plus whatever that was her idol that was her God. She succeeded to be a lawyer and a partner whatever. She went viral internet because you put up a video saying I will outsource to anybody who can introduce me to a man. And if we get married, I will pay you \$5,000. We don't have to stay married, but if we get married. You see, she's so brainwashed into career over relationships. She wants a wedding picture, not a marriage. Do you hear what she said? She said, I will pay you 5K if we get married, even though we don't stay together. You understand that? You see what I'm saying? No, no, marriage, you're supposed to stay together.

Family: The Cornerstone of the Kingdom of God

The whole point of marriage is going all in, 100%. None of this 90-10, 99-1 crap. 100%. You go all in or you get the hell out or don't come in the first place. You can't just get out like a marriage that you made a covenant with God. God is not your man servant in heaven. He is your Lord and Creator. Amen. He gets to set the rules. You have this kind of incredibly pathetic shallow, vapid and empty culture where they're pursuing lifestyles and moments in their life to show on the internet, to brag about and get likes from friends instead of building character. You understand what I'm saying? Building character is hard. You've got to get trained and you've got to get feedback. You have to be corrected you have to be chastised you have to be fixed in things that you do wrong. You've got to be encouraged in things that you're doing well.

So this is a natural process of that but you see in the modern world where these girls are brainwashed to worship career over relationships and then you're 35 guess what it's gonna take you freaking two three years just to get to know the damn man. And by the way, you've had so many failed relationships and treated men so arrogantly for the past 20 years, you have terrible habits. You're not going to be attractive to men and you're older. Meaning that if he's a successful, he's got money. Why would he go after a 35 year old? He wants to have children and go after 22 year old or 23 year old. If he wants kids, why would a man, there's nothing. Girls are not taught reality. They're not taught after 30 years, 90% of your eggs are dead. You have to know this critical data. You must know this. It's critical for life planning, critical for future planning and investment planning. This is your critical investment.

Let's give it up for our young Kings and Queens here who are starting families, my goodness Lord. But what are these people doing? Raising kids is physically taxing, right? So if you've done physical training, martial art training you've done the hard stuff. It's easier much easier But it doesn't mean it's easy. Anything that is worthwhile is tough but is it worth it? The young people here who are having children young what are they doing? They're choosing, I will choose relationships over money. I will choose relationship over career. That's what they're choosing They're saying my children are more valuable to me than what firm I work at. My progeny and my descendants, these people who are not liabilities and trash appendages these are critical, critical relationships. Critical, critical, which in the end 85% of women want by the way, they all say they want to get married and have children. Later on, but they still want it.

You have to plan realistically you can't just start. Oh, I worshipped my career the last ten years and all my relationships have failed. I've had sex with this or that man. I did whatever I wanted and I've just played around. I've treated men arrogantly and I can kick them out. How the heck are you gonna get married with that type of pathetic white belt mentality? You're not even disciplined. I don't care how much money make you're not disciplined in controlling your damn mind. How are you going to control your emotions when you're dealing with a person? How are you going to do it respectfully?

The whole point of the marriage is to give glory to God that means the man is committed to what? Love the wife unconditionally even though she's unloving at times. No woman is always lovable. Shock surprise! Is that true girls? All I hear is giggles I hear giggles no answers. Right, but God tells us we have to love her because it's training. It's a training. Even though she may be unlovable at times, we change her through loving her and being patient also leading her but doing it with love, Amen. The wife is commanded to respect the husband unconditionally. You don't get this man to work his booty off at the job and then when he comes home, act like a fool or lunatic by screaming. Wives you should not be hooting and hollering every day. You should not be saying to him, you have to love me, God said it. Well, girl, God said you have to respect your husband. You understand how that works? God is very fair with his sons and daughters. And he tells the daughters, you must respect your husband. So what does that mean? You have to respect him even when he's not respectable in your eyes. You have to show respect. You can't act a fool.

But if you've been in the system, this matrix system of stuffing the feminism down the female's throats, making women arrogant and narcissistic, they will not tolerate being criticized or chastised. These women will always offended by everything. Who in their right mind, would even want to be near you? That's why in the Western world, men are saying, ***Men Go Their Own Way (MGTOW)***, but there's also the waves of the Western feminism movement. Western women are arrogant, no traditional values, bisexual, open marriage, whatever the case. This is insane when people have no traditional Christian values.

So these men are saying no, heck no, why would I want constant grief? You know and constant bickering and constant fighting when I come home I want peace. When I go outside I'm at war

when I come home I want peace. Amen. When you're outside you're at war for your family. When you come home you want peace. Peace and quiet, but that doesn't happen, if you have kids. You don't want to be in this bickering fighting crap all the time. As soon as you come home, it's a freaking war zone again. That's going to be bad for your children, bad for your marriage, Amen. This non-traditional feminist values have sociologically made women less happy. They are mad and offended at every little thing. Men have to walk around on eggshells. No, no, men don't have to deal with that crap. Men have options too. That's what men are saying bye-bye, I'm going to places where traditional values still exist. They're going to Latin America, and they're going to Asia. Those women are less brainwashed by this feminism self-worship cult. They can be corrected by their father or the culture of Korea.

The Queen was in a sewing class in Korea. Whoever is older they're called sunbae it means they're your seniors. But they could be one year older than you. It shows the Korean military culture. The sewing master, the sewing teacher, got upset, he was disrespected so all of kids had to do push-ups. They got hit, not only push-ups, they got whacked. This is in the sewing club. See, the Westerners are like, what in the hell is this? You'll all grow up too soft. You know what I mean? Koreans are sewing and you get whooped while you're sewing. The only thing the Western world, middle class and above, kind of thinks about that is like, oh, that's like a hazing ritual in gangs or something. You know, you do push-ups and get beaten. That's something you would see maybe the Bloods of Crypts do or some of that. But certainly not in the suburban areas, no, no, no, nothing barbaric like that. She was in the sewing club and they got whooped because they disrespected a guy who was one year older than them. I'm not saying we should be like that culture.

But I'm just telling you, that's why Koreans of that generation and older are so much tougher than the normal Westerners. They got so babied, so coddled, so soy milk, you know, even the moms don't want to give the babies dang milk, no breast milk. Just give them soy. Oh my gosh, I mean, it's just total narcissism over and over again. The children have to be no burden to me. Throw them in daycare. I got to go back to my career work, legal, my lawyer work. When you're dead, nobody's going to give a crap that you were a lawyer. Nobody's going to care. You're gonna be eaten by worms and nobody gives a crap.

But everybody will care if you were a mom who loved your children and you invested in that relationship and you put your youth and your time into that relationship. Oh yeah, now when you die people will be truly crying and truly, truly miss you and truly, truly grateful and they will carry on that legacy for life saying my mom was a true woman. She's not perfect, but she did this that that or my dad whatever case you're in, do you understand? Because you're investing in these relationships. When the young people, when you're young, who are you giving your youth to? That's a key question.

The world says, give your youth to the tax collectors, right? Because you got to be a good worker and make a lot of money, but then half of it they'll steal. So you're going to be paying the banks, so you're giving your youth to the banks. You gotta take your little loans out to do this or that,

whatever. You gotta pay that all back with interest. You gotta give it to the banks. Or you gotta give it to this CEO or company, whatever the case may be. But in the end, what about your relationships? When you are 40 and your body starts breaking down, which it does, by the way, you start getting more injured, you're visiting the hospital more often, let's put it that way. When you hit 50s, 60s is true, you go even more. That's when you start getting like big ailments like diabetes or cancer or whatever. Your corporate people are not going to show up to feed you as you are dying.

But you know who will show up if you've invested your youth into those people and those critical relationships? You know who will show up? Your children will show up. If you poured into them, they will show up. Easy to say, folks. Why? Because they know you put that money, not the cash money, but you put that investment into them. That doesn't have to be money. Bill Gates put a lot of money in his children, or these billionaires put money into their children, so to speak, into education. But they don't spend any damn time with them. So the billionaire class has the most psychological disease, illness, in their children, the most. Has the highest rate of psychological disease. Did you know that? Mental illness, did you know that? So actually, Donald Trump becoming more successful than his dad is an anomaly because usually if you're given money, you become less successful. You become, you lose it all. Is usually what happens in the generation of wealth, right? Donald Trump actually didn't do that. He became more rich than his dad, which is, it's a testament to his ability to build the brands, whatever the case may be. Where are you giving your youth? What are you investing in? This is the key.

The young people here are putting in the work. They're putting work and energy into their critical God-given lifelines, their critical relationships. They're pouring their energy into their marriage relationships with their spouse. Young people are training to become a good Kings and a Priests and a good Queens and Evangelists by becoming more patient, overcoming emotions by training together and pouring energy into one another. That's why we hammer on the young couples by saying, you've got to go on your one-on-one date training. And the first generation are saying, we didn't have date training when we were young. I know, I'm sorry. I understand, you were in the indemnity period, you had to pay the price. It's not in vain. You paid the price so Cheon Il Guk could exist. You paid the price with True Father as the Lord. We had to establish the nation which involves sacrifice. So I understand what the first generation is saying, but after the age liberation, you can be happy. Under True Father's authority the training creates the best blessed family. This comes off the back of the first generation sacrifice. It's not a loss, Amen. It's not a net loss, Amen. God wins.

But the world and the matrix tells you no children liability there are burdened there are 1 million dollars per child If you are a young person and you're your worshipping career, how in the world are you going to make a million dollars per child? You're being fed this propaganda. You're thinking a million dollars per child. If I have three children, I need to make at least, I have to be putting in at least three million dollars into the bank. That's how the normal young person is thinking. Do they have three million dollars in the bank? Of course not. So then what does a child become? The child becomes a burden, something to be put up later, as their body and their

fertility is dying. You understand how that works? Is it really a million dollars to raise a child? No! Of course not. And this is what the people who live off-grid and people who live in our community are showing. No, it doesn't cost that much.

Peterson Academy “Learn how to think, not what to think”

Jordan Peterson announced on Fox & Friends that they banned him for like two and a half years. They're getting him back since Fox & Friends cancelled Tucker Carlson and other MAGA people are leaving Fox News. So, Jordan Peterson, can we invite you back to, anyway, he was on Fox News. He announced he's launching an online college, a university November 2023, called **Peterson Academy**. It will have 30 professors, some of the top thinkers in the world as the professors. And guess what? It's going to cost you \$4,000 for all four years. \$4,000 a year is good. I mean, that's pretty cheap, right? The normal kid is paying, what, \$10,000 per year, but if you go to the elite schools, 50K, you're gonna be paying 50K a year, I'm sorry. You go to any of the elite schools, it's 50K a year. You're gonna get, you're gonna be able to talk to the, be thinking with the highest level thinkers who actually wanna change the education system. Obviously, we're not affiliated with this, whatever. The point is, he's reducing the price of education, and he's actually going to give a real liberal arts education. It's not a conservative university, so to speak. It's a classical liberal arts university. But it's going to cost families \$1,000 a year. You could work at Starbucks and make a thousand a year easy. So kids wouldn't have to go on debt. All you have to do is work part-time. And you will be thinking and training with top-level thinkers. Why is thinking very important? Thinking is important because if you don't think you make stupid decisions. That's why having high-level thinkers around you which you're talking to and learning from, you're putting out dumb ideas and they're fixing them and giving you feedback. It prevents you from making catastrophic errors if you are thinking with people who are trying to help you.

They are not trying to rob you through the state or get the biggest buck they can get, charge you \$50,000 a year for useless brainwashing education. You come out with blue hair and with a beard, dressing in pink neon dress with high heels. Do you see these “transwomen” they are males with full damn beards and pink neon dress and high heels. They also have chest hair flying out everywhere too, it's the most disgusting. You are so messed up dude, you are in a freaking cult. You call us a cult. You are so messed up with reality. That's why I think they like the blue hair, because it just doesn't exist in nature. You can't, like, we can't grow blue hair. I'm going to be a god. Only gods and deities can have blue hair in my magical unicorn land. So that's probably why they do these unnatural colors. Seriously, young people, they just want to say God can't make my hair blue, but I can. This is pathetic. But imagine folks creating a top-level University that's fully accredited so all the businesses that hire you after that can see the accreditation, and so they know you are competent both in conscientiousness and academic learning and prowess all those kind of things. But at the same time, the cost is not going to make you a slave for the next 20 years trying to pay the loans off. You're paying \$50,000, you know how slowly that, you're not going to make big salaries, right? You're slowly cutting away with that every month, or every, maybe a couple hundred dollars, but the interest is going, People are paying off their college debt at 40, 45, 50? You have no assets, you are poor, you have nothing.

Sovereign Citizens of the Kingdom of God [1 hour 24 seconds]

In Cheon Il Guk, 18-year-old should already be a homeowner. You'll build your own house, by the time you get out of high school, you'll have a damn house. You'll already be a homeowner on a property management training. You'll already have learned basic carpentry, electricity, electrician, sewage and plumbing. So you're not only learning abstract theoretical ideas like mathematics, which is great, but you'll also be learning very practical skills as well as part of the peace militia training

And because you've been saving up from a young age, your parents have taught you the basic, basic, basics. Like if they give you a dollar, they've taught you from a young age, don't use the entire dollar. You cannot use the entire dollar on candy. Your parents were responsible. They taught you the basics of money management. They don't just give you a dollar, oh, go buy candy. No, they use that moment when they're rewarding you with a dollar to educate you that that dollar now 50 cent should go into savings okay 10% should go into sharing with God and his community that's the tithe right 40% go buy some ice cream. Are you with me folks? You start that training young it's not obviously the most advanced sophisticated financial planning system, but when you're young it's better than use everything that you have. Here's a dollar use everything that is irresponsible. Right? Many parents and grandparents do this, right? Do not do that to your children folks. We want to teach them responsibility so that the money don't rule them right? So they don't worship money. They're always just chasing, chasing money.

No, they dominion, but when they have money they are saving they are sharing and they're spending. Are you with me? But appropriately, right? That doesn't kill them in their future. Are you with me folks? Right, so your kids have been doing it from a young age. They've gotten allowances of what they did, cut the grass, now by the time they're in high school they have accumulated a couple thousand dollars, which is not unrealistic. Maybe they got a present from grandma, which was \$5,000, right? Or whatever the case may be, right? They accumulated some money. Now they put that into being a homeowner. So instead of being a homeowner at 50 years old, you're a homeowner at 17 or 18 years old. You own your house.

You know how it works. You know how it's built because you built it in your class with your class of class project. You know how installation works, you know how the framing works, you know how electric and plumbing works, you know basics. You know this kind of stuff which is critical for probably those skills will save you probably hundreds of thousand dollars down your life path, right? If you have to call a plumber to clean out your sink when it's just clogged with hair and debris, and you have to pay him two or three hundred dollars for that, you're wasting money, you understand? You're wasting so much money. You could literally just fix it by taking the dang thing out, plunging it out, pulling out that hair mess out and tossing in the trash. Takes you five freaking minutes but you do that over and over and over again two, three, four or five times a year, it starts adding up after 20, 30, 40 years. Are you with me folks? And it's not only a clogged sink, it's a this and that, and the toilet. It's just endless. If you own property, it always

has problems. Everybody knows who has a property, right? So you're learning and training this stuff.

In Cheon Il Guk, the young people are training to become what? They are training to become owners early in life, not slaves, but owners. To have dominion over money, not worship money but rather have dominion over it. We don't worship money as God. All our blessings come from God. God blesses us with money. We must use money responsibly, Amen. We don't let it dominate us. You're building these skills so by the time you're 18, you're a homeowner. By the time you're 20, you already own land. You're already property managing.

You may already have two or three organic farms. Organic healthy food you can eat, instead of spending good money for food grown with pesticides and herbicides. So by early age of 16 years or 18 years, you're already a homeowner. You're already learning how to manage your property. You're already building assets. You're preparing for marriage too because you've been training to make sure you go to church. You've been doing your training also preparing for marriage. You have been building up skill sets. But you have been building discipline for a strong work ethic. You don't complain. You know what I mean you're tough because you know how to fight. You know how to defend yourself and defend others. So you're tougher than others and you're knowledgeable and you're skilled. And you become an owner and a sovereign and have assets and then you have land. You see that's the Cheon Il Guk model.

It's not just everybody live on one pot of land, right? Your kids will inherit the land and they are encouraged to be owners of land. They have to purchase their land. The young boys will be raised, blessed and become young kings. What it made the first thing they had to do, they had to work and they had to buy their own what? Their own rod of iron, their own rifle to protect their house. Dad didn't buy for them their first gun. My boys had to work to buy for themselves. Same with their house, they built their own house. Lifelong time of skills and they have an asset which they learn how to manage from a younger age. And at the same time with these new formats coming out with internet and all this COVID crap showed what, that everything can be done online actually and there's no hiccups and no problems, right? Less than people thought. And especially if it's decentralized and it's done in a church or with a community and they're also going to university but it's cheap, it's like good quality thinking level of your interacting with very high-level thinkers, but the price is so not cost prohibitive. You are getting incredible value for that bang for the buck. Right it's something like a Jordan Peterson, this can this could wreck the fake university system, and it's great. Praise God! I hope it wrecks that fake system, which literally robs young people of 20 to 30 years of their life. You are a slave. When you take that, you're literally 20, 30 years, you've got to work to pay that back. You don't own anything. Nothing is yours.

In Cheon Il Guk our kids are taught to become future Kings and Queens, not slaves to the Soros, the Bill Gates and all these Satanists. They're supposed to be Kings and Priests. They're supposed to be sovereign people. They're supposed to have responsibility. They're supposed to have love for God, love for what? Love for their neighbor. Which means we're part of the peace militia as

well. We can't be petty. We have to have ethics. We have to be moral. We have to help people to count. But at the same time, you build skill sets with training.

Spiritual and Physical Dominion

1 Corinthians 9:24-26

24 Know ye not that they which run in a race run all, but one receiveth the prize? So run, that ye may obtain.

25 And every man that striveth for the mastery is temperate in all things. Now they do it to obtain a corruptible crown; but we an incorruptible.

26 I therefore so run, not as uncertainly; so fight I, not as one that beateth the air:

We see that wisdom is critical for the Crown of Glory in *Proverbs 4:6-10* But what is another part of the Crown? Does this say, so cry I? What did he say? He said, ***so fight I***. What does it mean in Israel? It means to wrestle, he who wrestles with God, right? Okay, so he said, I therefore so run, not as uncertainly, so fight I. What did he say? Did he say, so paint I? Was he painting? Was he cooking? He was fighting, you understand? I not saying painting or cooking is bad but you can't just do those things alone. He says ***so fight I not as one that beateth the air*** but I keep under my body and bring it into subjection. What does that mean? I have mind body unity. You see how that works folks? This is what he is talking about when he is talking about we are chasing after the Crown of Glory. In our faith life it's like you're fighting. It's like you're running this hard race where all people are trying to knock you off the road and you have to get to that prize. You have to fight for it. Even we fall down and break your arm or break your leg, you've got to keep fighting for it. Amen. It's not like fall down you little scrape. No fall down and break your leg. Oh, drag this thing and keep going. That's what he's talking about with the training. That's why training is so important.

Our spiritual training is like fighting. It's like doing hard, training, like this decathlon or this hard Olympic race where you have to compete against highly qualified, capable, fast people. And you still have to win. Are you with me folks? You have to at least keep fighting and trying. And it's this constant training which is critical for our mind-body unity too. It requires a 100% effort. It doesn't mean we'll be perfect, but we will become complete in the sense that God had made us to be complete. We will get to the point where we don't really want to sin. Sin is no longer attractive to us. It has no power over us, right? Don't want to sin. You don't want to run after chicks and girls anymore. Because you've come to the point where you understand your relationship with God now. It doesn't bring you anything. It's empty and vapid. Ghosts, ghost faces and memories. That's all it is. And the people who live bad lives and learned that those things that they chased after, never fulfills them. Empty dead ends, right? Why because we are built for relationships. We are literally built for relationships. God made us so we can have relationship with Him. He made man and woman so they can have relationship with who? With one another as husband and wife. He didn't build it so you can we can go run and be career people and neglect the next generation. Careers are not bad, but they cannot become the idol, are you with me folks?

Our lives have to be centered on God because that's the reason He created us. Key training is pouring into our energy into our critical relationships. Young people doing their training all the time. Let's give it up for our young Kings and Queens who are pouring into their relationship. Sometimes I feel bad, you know, always hammering this message in front of the first generation because so many of them say, oh if I had this when we were young. You just look at me with those googly, watering eyes. Oh Lord, you pull at my heartstrings. The young people need to be reminded about investing in their marriages. It's so critical. Why? If you go in half-assed, like these lunatic people who say, well, let's just go and cohabit. You're literally telling the quote person you love, well, you know, I will stay with you. But if something better comes then I'll leave you. It's an Insult to the other person honestly speaking and if you're so stupid that actually biting that hook, you are brain dead. That idiot literally told you that let's just keep weighing our options, until another person may show up. I could leave you at any time. What the hell? You can't build anything substantive with that kind of starting point. Do you understand, folks?

It's not possible. You can't come in and say, I want to fight in the UFC, but I don't want to train, and I don't want to get punched in the mouth. Then get the heck out of here, you bozo. You understand what I'm saying? You literally, if you want to get into UFC, you have to get punched in the mouth, you have to get choked, you have to get thrown around a beat up. You can't get there without it. This is ridiculous and it doesn't make any sense. Let's not get married and cohabit instead so I can enjoy you sexually. I can use you in any way I want, but just in case a hotter chick comes, I want my options open. We'll call it cohabitation, so you are good with it? Stupid so stupid how can you build anything of value like that?

Spousal Training

When you get married be determined that this succeeds or we go to the abyss. Literally it's got to be like that! Why? Because when things get tough everybody makes excuses. When things are tough everybody wants to cry about it make excuses. That's not how you win. Marriage means being all in, I'm all for this woman and I'm all for this man. You understand? That's what it's about, for the glory of God, Amen. In the end it's not about us, in the end it's about making God happy, making Him proud of us. God sees your attitude and says, good boy, good girl!

Can you imagine your Father's sitting right up in this rafter, Okay? And then you go and say, Okay, I want to just cohabit. I want to have sex with you. I want to strip you naked and have sex with you, whatever I want, whatever we can cohabit, do what we got to do. But just in case I get a better deal, I want to leave you at any time. But we'll call it cohabitation and we'll pretend like it's trendy and cool and we're progressing. You understand, it's ridiculous. It's totally pathetic. What do you think Father sitting the rafter is gonna say? Oh, I'm so proud of you boy, proud of you girl. You know, He is going to throw down his hammer on you, on your head. Ridiculous, right? It's ridiculous. That's why in marriage, we take it serious. We take the training seriously. Others may say, oh, they're always just going on dates. They're telling them to go on dates. Yeah, it's called building and investing in your relationship with your wife. It's

important to have good memorable times, where you can see one another face to face, have discussions as well as having enjoyable moments and memories that will last your lifetime. In a sense, it's called romance. Do you understand? Doing those critical things are necessary for a healthy absolute sex marriage. This is necessary for healthy energy in the home where the parents actually love one another. Instead of just saying, oh, we don't have any money. I've got to save because I got to do this and that.

Okay, but you're saying that but then you're buying this and that which you don't need. So you're telling me that things are more important than your wife or your husband. You are now a hypocrite, right? And you claim that your marriage is so important. I'm committed to God and I'm committed to the marriage. Oh, your actions will speak, Amen. Right? Actions will speak so that's why training is important. In the scripture we read, the elders have to be examples unto the youth. It's not just what we saying but we have to train. The difference between what we say and what we do can't be exact. Because you can't be perfectly exact. But we want to get as close as possible. That's what training helps us do. It allows us to bring it closer.

What we say and what we do. Should be brought closer together. Amen. It's like running a race or fighting a fight. It's talking about the life of faith and the crown of glory that God gives us. We give all glory to Him through the effort we put in. The effort we put in will not save us. It is God's grace that gives us salvation. His grace, that free gift, that gives us salvation. The blessing of marriage and the blessing of True Father pouring His blood for us, that gives us physical salvation. We didn't earn that by training hard but we've received that by the suffering and the grace and the blood that Christ spilled for us. Once we receive these things, we must train. We don't want to abuse that blessing, Amen.

We want to be the best that we can in that blessing. Even though we're not perfect. You don't have to be perfect to become better. Amen? Is that true? So that's why it's so critical that we are practicing and training. So that our young people, no matter how busy you get, no matter how much money you're raking in, it doesn't matter if your family starts falling apart. Trust me, there's so many billionaires that their families fall apart. It really does matter. You're going to have a lot of heart grief. You're going to pay a lot of reparations, lawsuits and divorce courts and all this kind of crazy crap. All the money you made is going to be vanishing quickly. You understand? We don't want to be worshiping money. We're not built just to just gather resources that's what animals do we are built for relationship with the Creator and with those relationships that He has given us, Amen. Never lose sight of the importance of constantly tending to the key relationships that God gives us. Our blessed couples must remember it is very important to go on date training.

In Cheon IL Guk, training is enjoying your life with your spouse. Young people are spoiled. The first generation says is this is the heaven, we never got to experienced this. Here in Choen Il Guk, the young couples are training and enjoying their life by going out on dates with one another. What universe is this? This is called the Kingdom of God, Amen? It's what you bled for in your lifetime. We want to see our young people thrive after they get blessed. We want them to

thrive, Amen? We want them to have super marriages, super powerful blessing. Super doesn't mean they're perfect, that doesn't mean they never fight, no. They are no longer children because they know how to overcome and forgive. They know how to play, love, respect, work things out and move forward, Amen. Important to get push-ups in everyday. Get your training in everyday under the rod of iron cavalry on the bikes, jet skis and the planes. This is part of dominion training.

Love God Love your Neighbor

But we do for the Lord God to strengthen the peace militia, strengthen our families, our community, right? We have an awesome brotherhood and sisterhood of training and giving glory to God, incredible adventures and exciting training, but at the same time, it's for God's relationships to be strengthened. Super win-win. People from other religions, say, it can't be that good! It can't We have to flagellate ourselves all day long in order to be holy. That's in the age of indemnity, before the coming of the Lord, Amen? Our Father, even in the age of liberation and release, He wants us to do hard things, but not for the sake of waiting in preparation for the Messiah. He's come! Amen! He's come! He's come! Which means now we can celebrate those relationships He's given us. Amen. It doesn't mean we're perfect but that's why we ask forgiveness. But we keep building, keep moving forward, keep grinding in a good way and having fun.

Those young people who are giving their youth to the children. Those kids, in 20 years, are going to be climbing the Colorado Rockies with them. They're going to be freaking doing Jiu-Jitsu with their parents. They're going to be riding motorcycles and jet skis. I mean, they're going to be doing scuba diving. They're going to be doing all sorts of incredible adventures and life memories together, training. And you're giving that to your children at a young age when you are still young you're still hot you're still good-looking you still spicy you understand I'm saying you look good your kids are going to say damn my parents good. I want to be like that yeah they don't see you when you're just grandpa. Your grandpa at forty years, I'm grandpa at forty something. That kind of incredible kingdom building life and that's what's so amazing the kingdom culture is so amazing.

The police militia is such a great gift Father has given us. We are bettering our skills and becoming better protectors. Our mindsets are being developed that we learn how to protect people and defend life and the Constitution. The training is also a place where our children train with us. And they do cool stuff like ice dunking and getting the healthy epigenetic release and the healthy dopamine rush from the ice. It's great training. Cold showers everyday, is great training because it makes you stronger against colds and pneumonia. That's why a father makes us do hard training, difficult stuff. Stuff that is not easy because easy stuff is cheap. Hard stuff is, that's got to require blood, sweat, and tears. But when we overcome that, when we accomplish those things, then not only our Father happy in heaven, not only our children happy because their dad is cool and their mom is doing cool stuff, but also we get that sense of accomplishment that we are progressing in the way that God desires.

And building and strengthening the key relationship he wanted from the Garden of Eden You understand from the Garden of Eden. We are blessed folks. We are blessed. We are blessed. So we got to run that race. We got to run, run, run and God is calling us God is with us Father's with us and the heavenly Kingdom is coming. We are going through a tribulation but Satan's kingdom has to come down.

Pastor Sean's Closing Prayer

*Let's pray. Father God, we thank you for all these things you have given us. We thank you for this study today. **1 Corinthians 9**, **Proverbs 4**, **1 Peter 5**. All those things where we are training and learning, reminded once again to become good shepherds, defenders of those who cannot defend themselves. Peace police militia, love God, love your neighbor.*

*Training lifestyle as seen in the analogy in **1 Corinthians 9** that you gave of the runner and the fighter. Let us be excited about training and the lifestyle you have given us. Let us be excited about pouring our energy into our marriage. Let us be excited about pouring our energy into training with our kids. Let us be excited of all the different things of the Kingdom that strengthen the Peace Police Militia that make it the most dangerous place for evil to flourish, but also the safest place for good to flourish. Amen. We thank you for all the things you're doing across the world because you are now changing the landscape of the entire globe even with all these crazy things like indicting of President Trump; trying to destroy the sovereignty of nations and bringing globalism with international communism. All this is doing is waking more people up at a faster rate.*

The Rod of Iron Freedom Festival is coming soon and we will be performing there and we pray that all those things can be for outreach and all for your glory and all to awaken people so they know that this is the critical time this is the final hour and they must stand activated against this matrix corrupt and evil system 666 based political satanism and that we are victorious in the end because we stand with you on the battleground and we stand with you leading us in the troops in battle.

We thank you Father We want to give you the glory honor and all the praise today. We thank you for our blessings that you've blessed upon us. We thank you for our spouse. We thank you for our children. We want you to bless those relationships. Inspire and chastise us so that we are training consistently without making excuses. In the end it's those relationships that are given from you to us. Let us be the best we can be even though we're not perfect. Let us be the best we can be every day by training. Every day we are improving and getting a little better. Let us give you all the glory. We want to thank you this day. We give you the glory praise and honor with all the kingship lines gathered here and with three generations, we pray your precious name, Amen. Amen and Aju, Praise God everybody! Let's all rise and give Him the glory, Hallelujah!
