

## Let Us Welcome a New Member from California

In Jin Moon  
August 9, 2011

Lovin' Life is proud to introduce Adrianna, a descendant of Jewish ancestors whose hope is to bring people to True Parents and the Divine Principle.

From the testimonies of the people joining our church in America emerge important lessons: People are longing to meet True Parents and anyone, anywhere, can be successful in witnessing. Age doesn't matter; it's about heart and the willingness to put oneself out there so that our Heavenly Parent can work through a person. We also see the impact of our national broadcast; new members love In Jin Nim's sermons and the powerful music of Sonic Cult.

### Adrianna (22), California

*Adrianna is the descendant of Jewish ancestors but attended Christian churches while growing up. Last December, the Lovin' Life Witnessing team met her in New York.*

I traveled with the team back to Los Angeles and met Rev. Juan (Morales). I saw them bowing, singing holy songs, and studying the Divine Principle and Father's autobiography. I watched lectures and videos, and basically everything made perfect sense. I had had some confusion from reading the Bible, but through the Divine Principle all my questions were answered.

When I saw True Father at Caesar's Palace, it was the best day of my life. I've never had such a good experience. I believe that Sun Myung Moon is the Lord. When Father walked in, I saw the coming of the Lord. When Father was bleeding, I saw that Satan could not enter his mind, and he could not entertain any evil thoughts. I can see that True Parents are one with God.

I just wish that people would see Reverend Moon with spiritual eyes and have the experience that I had. If we just look at him with our physical eyes we will see a 92-year-old man who is controversial. But my experience was being able to see him as the Lord and also being able to see that Satan was not able to penetrate his mind and spirit, that Reverend Moon is unable to entertain any evil thoughts. I saw the oneness of God with him. That's what I wish people can see in him – who he really is. In my own experience he is the returning Lord.

A lot of people are confused today, but God gave him a mission and that's what he's doing, and that's all he's doing. That mission connects to my life. I, with many others, am in the position of John the Baptist. I want to be able to tell people about True Parents. I've been thinking a lot about the failure of John the Baptist lately, and it needs to be reversed. I hope I can bring people to True Parents and the Divine Principle.
