

## **True Mother's instructions about Sun Myung Moon's current health situation**

Hak Ja Han  
August 18, 2012

**"For us there is no stopping!"**

Today on 7.1 by the heavenly calendar (August 18, 2012), the regional presidents representing the members of the world and a number of the heads of providential organizations gathered together and, albeit briefly, had a chance to meet True Mother, Hyung-jin nim and Kook-jin nim, who are attending to True Father 24 hours a day. At this time, they had the opportunity to receive important guidance from True Mother. This is the first official guidance given by True Mother since True Father was admitted to hospital. We would therefore like to share her words with all the members and leaders of the world.

Furthermore, the regional presidents and other leaders personally witnessed how all the members of the True Family, beginning with True Mother, are investing themselves completely with tremendous prayer and Jeong Seong for the sake of True Father's quick recovery. All members of the world should continue to offer prayer and Jeong Seong for True Father and, as True Mother reminds us, march forward without hesitation or interruption toward the victory of Foundation Day. She also mentioned that having this mindset will be the greatest Jeong Seong that can be offered by our blessed families and the brothers and sisters of the Unification Family toward True Parents at this point in time.

**True Mother's guidance given on 7.1 by the heavenly calendar in the 3rd year of Cheon-gi (August 18, 2012)**

**We will never stop. Please engrave these words in your heart.**

**We must certainly accomplish the teachings that Father has been giving us until now.**

**Currently, Father is fighting intensely against his illness. However, brothers and sisters [Mother uses shik-ku, meaning family member], please do not grieve. Please do not be disturbed, but continue on unwaveringly. You should have the firm resolution and determination to achieve all the things that True Father has been striving to accomplish.**

**I believe you have all worked hard until now and done your best. However, you need to feel now that the standard of having done your best is no longer enough. And so let's work**

**harder, ten times or even a hundred times more. The harder you work, the more Heaven will remember you. Please go forward with this knowledge that you will become blessed families remembered by Heaven.**

**What is important to us at this time is of course Father's current health situation. However, more important than anything else is offering Jeong Seong for True Father. Please gather Jeong Seong while praying for True Father's swift and complete recovery.**

**I do not want to cause you to worry.**

**Once again I ask of you, please take to heart that, for us, there is no stopping on the way. Please do your best. You should absolutely not neglect the various things you are preparing for Foundation Day. You should do your best in these preparations. Thank you for coming here as you have. Let us work diligently together."**

All the participants of the meeting gathered their firm resolution and determination together with their Jeong Seong and pledged in their hearts to continue with all the tasks that True Father had personally directed and assigned to them, especially the preparations for Foundation Day.
