You must remember the words "Restoration through indemnity."

This is the course you must take. Our lives and acts must be in accordance with the Divine Principle or we cannot succeed.

For Americans, where liberty and freedom are considered the most valuable thing is Democratic Society. Were you think you can do whatever you please.

Liberty and freedom - everyone wants them.

The Divine Principle says there is no liberty without responsibility.

There is no liberty without responsibility needed for things of higher dimension.

Liberty would not have us do things according to our own will.

Even in the Democratic world, one is punished for going against the law.

Only by carrying out responsibility can we enjoy liberty.

We want to enjoy liberty to become better and higher.

Democracy teaches us to dominate ourselves.
