Photo date and location unknown

From now on as we build Heaven on Earth, we need to live by the Teacher's tradition.

Up until now you did not know clearly of this tradition. What you knew was not centered on the traditions of direct children of God, but the tradition centered on your (fallen) parents. There is no doubt about that.

In truth, True Father, the True Parents' tradition is the root of the center of all centers. A true child stands in the position of Abel, while you standing the position of Cain. Cain and Abel must unite. You must become one and follow True Fathers tradition.

Focus only on True Father! Don't be affected by any stories you hear from somewhere else. Focus on the teachings and words that Teacher taught, and on the Principles of the Teacher. We should not listen to any other talk.

The words of the Principle is what the Teacher historically solved. It is a record of victory through many struggles, to build the foundation of victory. The Principle is a record of victory that Satan(who kept it hidden in history) returned to fallen humankind. It is the foundation of victory. It is a fulfilment that God wishes for.

It is important that we know that recovering the principle is a great blessing and victory. We recorded the victory that can solve all the lost history of the whole human history.
