

36th Anniversary of True Parents' Holy Matrimony

Sun Myung Moon

May 3, 1996

East Garden

Excerpts of Unofficial Notes by Tyler Hendricks

Photo date and location unknown

Those who rule and control clean water will rule the world. Therefore the key is the ice of the poles. The Paraguay cuts South America in half north/south, so it is a lifeline. Father wants to establish foundations at the key spots to control the river. Everyone depends upon the river. Eventually this river will control the world because of the resources it offers.

Kodiak is near the north pole, Argentina near the south pole. Also Siberia is strategic. These regions will save the world. Oceanic business loses money, but it is the key to the future. Father started making 400 fishing sites in South America, building 400 boats, and small landing strips.

Tourism will flourish centered on water sites. Ocean surpasses mountains. Thousands wear almost no clothes on the beach, and can easily urinate in the water. That's how water gets polluted. Therefore people will seek isolated beaches; therefore need planes.

Leisure industry will dominate world in future. People will be sick from water and air pollution. Which costs more, gasoline or bottled water? Urbanites will seek clean air and water. Movements for raw food: fish and vegetables, and to live without clothes. It will extend the life span, by allowed skin to breathe. Like the life of Adam and Eve. But how can we live on the north pole? This eliminates the north pole as an option for pure water environment. Therefore we will choose the warm climate of South America, where we can go naked.

Pantanal, twice size of Japan, 3,000 species of fish. We will make fish farms for 3,600 species. You can live there without clothes all year.

While fishing is the best time to make plans for the future. As a fisherman is the best way to travel freely. No one suspects. A fisherman and hunter naturally travel to the best places. It is clear that Father is physically sacrificing more than them, so they do not fear he is after comfort.

He ignores bad weather. Also a good way to find out about the country from other fishermen. Women can do this. [This all can be accomplished through golf as well. Much better for socializing with others. Through meeting food magnates, you can feed the world.]

Sleep culture: sleep all day and work all night. Paraguay has surplus electricity to provide light. Punish people for staying awake in daytime. Abundant fruit to be picked. No houses necessary; just rest under all the trees. Wear shorts and a bra for women. Nothing to be ashamed of. Once you see genital areas a few times you lose interest in looking.

Youth education through television distance learning. You may think I'm crazy, but look at the impact I've had on the world. Father remembers Betty, in 1965 her husband was a pilot. She worked in the basement with publications and house staff, ignoring persecution. She said she is 66 now, and Father remembers those old days. Even though her family and friends opposed, she abandoned them for Father, by an unseen, intangible force. What kind of force? Father's face, or a magic power? No, the truth of Divine Principle. It is powerful and revolutionary. The same motive for all of you.

That power makes the Kingdom on earth, turning nations upside down. It holds true love, life and lineage. The kingdom starts there. Everyone has a sexual organ. 'til now it was a dark place. But it connects to love. Therefore the human race could not find love. It is the essential power of man and woman, and connecting their life and creating blood lineage. Without this, we could not make an ideal family, tribe, nation and world. People don't know this, about this secret dark place. The Christian world cannot understand this. But Divine Principle lets you understand. This is more valuable than the entire human race.

Fallen couples' love cannot connect to this. Their love is connected to hell; Divine Principle love is connected to heaven. One man begins the reformation through this book. Teach it and the world will be recreated. The book is the teacher of teachers. Professors should use this book, and talk a short time. That's all.

Unification teachers' teacher is Divine Principle. Read again and again, page by page. Center on the book, not talking. You gain higher understanding day by day, researching, adding.

The point of north and south connecting creates a loud sound. Read it more than 100 times; read deeply. That one book will make a revolution everywhere. It wakes up the original mind. Persecution is no problem. Go the straight way. Read it everyday and you will be influenced well and be able to speak on it. You can't image Father's effort and Pres. Eu's effort to structure it. When Pres. Eu was formalizing it, Father checked each paragraph, and Pres. Eu had to get Father's approval. Even now Father sees westerners trying to come up with different versions, (even) any translation. You must learn Korean. The unification of language must be done, through Divine Principle and True Parent's guidance.

Which is easier, to abandon your family or learn Korean? Within 3 years if you dedicate you mind, you can learn Korean. From May '96, you must maximize use of Divine Principle book. You don't need a teacher, just the book. Even the teacher forgets the details. Even the teacher is a student. The teacher is not the owner, but the introducer, like a guest. To own the book, you must reach the standard of God's heart, because that is the source. Every sentence was checked by God. God is the source.

Dr. Y. O. Kim insisted that her book was good to introduce Divine Principle to the west. Father saw many mistakes and omissions. Dr. Kim couldn't answer. Even if it's difficult to comprehend,

stick with the original book. When Father asked Mrs. Choi to translate the book in forty days. She was a professor of English. She translated in forty days, then editing and printing.

Fundamental difference of Korean and English: Korean goes from root to leaves; English from leaves to root. How to overcome the gap? Through reading the translation, it is far below the experience gained from reading the original language.

There will be 100s of translations, but the Korean is the root and all the branches can be cut off someday, and all can study the original root. Do you recall God's Will and the World? There are many secrets there you cannot comprehend. Some of you have Ph.D.'s or are seeking such, but those are garbage. God is the king of Ph.D.'s. A true Ph.D. is one of tears and prayer. Those who seek a western world Ph.D. are mixing in a garbage can of western thinking. You should go to a monastery and fast and be celibate for ten years and obtain enlightenment. You cannot find a diamond in a desert; only in the diamond mine.

Divine Principle book contents will empower your 10,000 generations to find God, peace, happiness and unification. Father is not a fool. 50 years ago Father made his handwritten version in Japan. A Japanese scholar offered ¥250,000, today equivalent to hundreds of millions of dollars. A gangster will kill for a suitcase of money. The Divine Principle is worth infinite money, and can save all humanity. It cannot be compared to money. It should be our family's greatest treasure. Bequeathed generation after generation.

Jin Sung Eu is here. When the original Divine Principle was introduced to his elder uncle, a well-known scholar and genius, he was shocked. If other theology is a rifle, this is an atom bomb. He told his younger brother to study it and become famous.

Unification Church members discount the value of Divine Principle. Divine Principle is the truth, that which God loves most. If we neglect it, God resents us. Some of you are pursuing secular Ph.D.'s in theology. It is not necessary. Important is teaching them. To find this truth, millions were martyred and oceans of tears shed. Recreation of man and woman's sexual organs, and their union. The sexual organ now is leaking. There should be one access, but there are many side holes. Only by Divine Principle can we seal them. How long has Father been speaking of True Love and sexual organs? Since the '60s, but recently it has become more detailed about sex organs.

They are the holy place, but the world has considered them the worst place, because of the fall. Only Father can build the ladder to cross the ocean to reach the holy place. If Father has to write the Divine Principle book again, he would take one night. Father has to fulfill the principle of creation. The rest of the D book actually has nothing to do with Father. He needs the original Adam in the position of John the Baptist. Some scholars try to correct or revise it; don't do that. They challenge Father, but when Father replies with the original, fundamental truth, they cannot answer.

Thousands have tried to destroy Father. Father is strange in many ways. He takes the position above the leaders in many fields. Don't take Father as a reticent old grandpa sitting around. He writes his own speeches, based on his clear idea. I want you to know there is limitless mystery and treasure for us to dig out in Divine Principle. Once Father told Unification Church members to pray about the meaning of December 17, but no one came up with an answer.

Did Father just conjure this up? Father spoke on eldership, parenthood and kingship from 1992. Now the era of kingship begins. Rebirth must be expanded to the world. Famous scholars cannot

do it. You must understand; you are walking sticks with no brains.

Pay attention to what Father is doing. Gain constant information from those around Father. When we are born, we take our mother's blood and flesh. After birth, teaming up with mother we exploit Father's blood and flesh. They take the source of life from the father. Mother's responsibility is to raise the children to be greater than their father. Then go beyond family to seek the national father figure. He owns everything, so all are receiving the king's blood and flesh. Like suckling pigs, crowding. The true king provides blood and flesh to all kingdom's families. He is like a father. But has there ever been such a king?

In spirit world, along with the king, you will share God's blood and flesh. This means you go through parental love. The husband receives the seed of life from God. Love is the way of creation and recreation. The seed is sown in the wife's womb, to create the life of the children. They are raised with love and care, and the human race develops, receiving blood and flesh.

A mother must have God's standard of love. Mother and child ascend the ladder of the father's leg. Then all the family walks up the king's leg. Then the kings and all families climb up God's leg. Then you all are the top. All people are the king, the 2nd God, the royal family, the king race. All individuals sacrifice for the sake of the family; family for tribe, etc. on

The father is the king on every level. This means God is the king on every level. Democracy is brotherhood, only effective until the king comes. Eternal king; it can never be changed. We cannot change our father. True Parents means family king, nation's king, world's king. Practice filial piety, patriot, saint, holy son, unchangeable in eternity.

So the Family Pledge begins "centered on true love," and teaches realms of heart and vertical ethic, centered on the family to world scale, become son of God and gain right of God's son. We receive the right from mother (?). Live for the sake of your family members; you will become the heir. To be the true representative of America, you must go to zero point and serve 240 million people. Not like the president who deceives and manipulates through the media. That's why Father took Carter out. Even with incompetent Pres. Clinton, if America listens to Father, it will prosper.

Earth is represented by mother, so treat it like your mother. Father is represented by heaven, so we ascend through our father. That's why we seek our hometown, then home nation. Go through 3 generations in your hometown to reach your home nation. That way we can create sovereignty and the Kingdom of Heaven. We must live with gratitude, from birth to death. Grateful for our hometown and our original home in Heaven.

Where you live is your hometown: your house, your family, God, yourself; alpha and omega are one there. The whole world is yours. Any resources useful for restoring heavenly sovereignty, and you keep it for yourself, you are... Most Americans don't have that notion.

Once we understand this, can we live as we wish? No. To prepare to have a better life in the spirit world, we must improve our life quality here. Centering on True Parents, all levels unite in one place, and combine with physical True Parents and spiritual True Parents. Misuse of public money is shame in spirit world. Public things . . .

To understand this, study Divine Principle. If you pass a place you don't understand well, put a check mark and keep going. If you don't take notes today, your descendants will hate you and Father will cut off your hands. You seek a higher chair, without knowing who you are. Make

yourself into a comfortable chair for God. With heavenly sovereignty established, angels will screen people from 120 miles perimeter. Check your mind and heart.

True Children should study Father's value; he is not just their physical father. If Father reveals all the details, you will shiver with fear, so Father doesn't.

In 1946, in North Korea he was known as a shaman, because angels reported to him on the condition of those in the church. That time is coming again. Until now Father has come down to our level. To open the world to connect it to God. Therefore even Satan cannot stop Father, because he made the foundation in the physical world. So Father is a ladder. Jesus lost his physical body. Father came as Lord of the Second Advent and succeeded. After WW2 was time to connect physical and spiritual, to make one world. But we lost the body foundation. Only Father's body could survive Satan's persecution. He could establish horizontal eldersonship, parentship, kingship. True elder's position over the nation to the world. Pushed down Satan's eldersonship, so Satan cannot invade around the world. This is direct dominion realm. God possesses the world base, and now must be established horizontally as kingship. Father is fighting on the world field, taking over Satan's king's place. Unification Church members must turn around Satan's kingship. Korea must make world field victorious position, Korean leaders. Unification Church members did not make that kind of action. Korea is the center of all nations. All nations' kingship returns to Korea. Father makes kingship world.

There is no choice, so Father is kicking them out. If they neglect their assigned nation, Father will give them punishment instead of award. In the 50s the Ehwa scandal, it is indemnified by the 54 leaders going to Chung Pyung. As Cain children, we who received the blessing were supposed to do our mission. That's why the Abel children are suffering. Not because of True Parent's mistake or God's mistake, but man's. Always wrong with elder son: Sung Jin Nim, with True Mother, Hyo Jin Nim is in trouble, Heung Jin Nim was killed, 2nd daughter Hee Jin Nim died. Pres. Eu's 2nd daughter died. Father's tribe 2nd son died, Mr. All the second sons were sacrificed. So Father connected Heung Jin Nim to God, since he knew this. Heung Jin Nim was sacrificed for the sake of the world, not his own mistake. Therefore Father could connect him to Heaven.

To save those who sacrificed for religion since Jesus Christ, Heung Jin Nim was sacrificed as a king to rule over them. On the foundation of True Parent's work on earth, Father could send Heung Jin Nim to heaven as a king to work there. Dae Mo nim has performed True Mother's role, Holy Spirit role, while Heung Jin Nim is king. They work together in this physical world. Since True Parents are in physical world, there is no True Parents foundation to give rebirth to spirit world. Therefore Dae Mo nim started performing True Mother's role, giving rebirth to spirits. Along with Heung Jin Nim, there is a foundation in spirit world similar to True Parent's foundation in physical world. They beg Father to allow to give blessing in spirit world who have gone through rebirth education from Heung Jin Nim, centered on 3.6 million blessing. These re-ed's spirits stand above AAs, and thus can use angels. When those spirits ascend above angelic world, they can receive the blessing, because they reached stage above fall. But they have to wait until Kingdom of Heaven is est. on earth. Dae Mo nim, Chung No nim (True Father's parents) and True Father's elder bro has received blessing in spirit world; therefore it is possible for all spirits to receive blessing. Only those who received True Parent's love on earth can enter Kingdom of Heaven.

This all is a condition, based on Heung Jin Nim and Dae Mo nim having lived with True Parents on earth. Therefore Father commanded that every Unification Church member go through Chung Pyung Lake training, to be cleansed and raised to level before the fall. Our body becomes the resurrected body of 6,000 years of humankind. Evil spirits who care only about their family,

nation, etc., dig into you and make a nest. Unless we can go beyond . . . God created with absolute faith, hope and love. Therefore, for us to qualify to enter Kingdom of Heaven, we must stand in Adam's perfection place. Armament of absolute faith, hope and love. Must go over this gate of absolute faith, hope and love. Obedience means having no concepts at all. From there, create the kingdom. Because the subject took that action, therefore the omega must. Then you OPEN true faith, hope and love, and you go back to combine as one with subject. That place is where TRUE LOVE begins. Creates Kingdom of Heaven forever.

God did not want hell. through the gate comes every historical ancestor in one line. Therefore you must have absolute faith, hope and love. That kind of man is Unification Church member. No relate to Satan. Forget your parents and nation. Only one direction. How can Unification Church members go over this place? Forget your husband and children. So difficult. Need to pray, you need God's power. This is dividing line of g/e; up and down. Your only thought is True Parents and True Children. How to combine into one with them is American leaders' homework. Needle pulling thread.

Today is 36th anniversary of True Parents matrimony. No one truly understands meaning of True Parents holy matrimony. So he gave this message. Father reaches king of gamblers, too, to get rid of Satan. One bet wins \$1,000. Once Father turns away from that world, that's the end of it for you who went with him. Father studied athletes, fighters. Even an expert at bank robbery. Abel king gives forgiveness to Cain king, who will follow him. As a student, Father visited and listened to stories of prostitutes. He comforted the tears from their complicated stories. He promised to save their world too. That's why Father welcomes all into the Unification Church. Father promised in tears to save the lowest possible world. Even if he is tired, he sheds tears and sweat in the Kodiak ocean, to indemnify those who died at sea cursing God.

Suppose your family is starving, and you tell them to wait until you catch fish, and you cannot catch a fish all day. You come home, and they are starving to death waiting for you. With that heart, Father fishes and works. If Father is position of grandfather, and sees his son didn't catch fish, then the grandfather has to help. Father exp's that heart. Father knows how poor South Americans are. Mother of five with no milk, and all five die. Father prays with that desperation. Skip meals and pray for those people. Heaven will respond, Father has confidence heaven will help no matter where he goes.

Father's path is king of tears, desperation, despair and love. You are centered on self-interest, and in spirit world we realize we misunderstood Father. What will you do? Even now, if there is good food in front of Father, he remembers that Adam could not share good food with God. Father has been mocked and persecuted and treated as the lowest possible man. On this special 36th anniversary, Father thought about Betty's life and that she could not receive the blessing, he thought she will receive a thousand times better blessing in spirit world.

Without tears, tears of blood, you cannot live Unification Church life. Even True Children do not understand clearly. In history, Cain killed Abel and Cain type could not show exemplary life to Abel. Therefore True Children think Unification Church leaders are thieves, cannot trust them, think Father suffered in vain. You who graduated Chung Pyung Lake Workshop will change. Will you be resentful to Father again?

To Mr. Sato: among Americans, who can fish best? (Sato: Tyler Hendricks; Father seems to discount it; looks for another).
