Proclaiming the End of Communism

August 13, 1985, in Geneva, Switzerland

• Sunhak Institute of History •

Second International Congress of
Professors World Peace Academy

In 1985, when Ture Father was
at the correctional facility in Danbury,
he met Dr. Morton Kaplan
who is a professor of political science
at the University of Chicago.

ly,

“It’s not a lie, Dr. Kaplan.”

“Oh, you’re back.”

▼ From [PREDICTION] by Kim Jin Myung

“Think about it, Dr. Kaplan. Communist society is built on control and compulsion. There is no love. Today, humanity is loving each other more than any time in history. Communism can never triumph over God, because ultimately, God is all about love. You must believe me. It’s going to be no more than seven years.”

“If nothing happens within the next seven years, both you and I will lose all trust from people.”

“That’s only a minor issue, compared to the progress we will make if I am right.”

True Father directed Dr. Morton to proclaim the end of communism at the 2nd international conference of the Professors World Peace Academy, in Geneva.

This conference would be held for five days from August 13, 1985.

his hand trembling. He started to talk again only after he had smoked the cigarette down to the filter, "What about including the word 'maybe?' We can tone it down by saying 'maybe the USSR will collapse.'" "Come on, Dr. Kaplan. Don't you have any confidence at all? History will remember you more for saying "Communism is over" than for the seventeen books that you have penned up until today." Eventually, Dr. Kaplan gave in and said, "All right, I will do it even if it makes me look like an idiot."

When Dr. Kaplan listened to the suggestion, he was so surprised because at that time, the power of communism was strong and 'the End of Communism' was impossible.

That's why, Dr. Morton re-suggested to Ture Father to add the expression 'Maybe' in front of 'Communism is over.'

However, True Father did not change his mind. He emphasized ‘proclaiming the End of Communism’ at the second the Professors World Peace Academy. Finally, Dr. Kaplan decided to follow True Father’s order and the Professors World Peace Academy was held under the title of “the downfall of Soviest Union”.

After True Father's prediction, the Berlin Wall was broken down on November 9, 1989. Before breaking the wall, over 50 borders were opened and it helped to break the Berlin Wall in 28 years.

Furthermore, the dissolution of Soviet Union was proclaimed in December 1991 to 1992.

This incident was the first movement to dissolve the Communism country power.

True Father's prediction became real.

“

History is not merely a record of coincidental events. Human events have been flowing in a clear direction and with a clear purpose. They comprise the history of the providence for the re-creation of human beings to their original state, through indemnity, a history of restoration for their salvation. Because of this insight into the origin and direction of history, I was able to predict accurately the sudden end of communism and dialectical materialism, which I proclaimed at the 1985 Professors World Peace Academy conference in Geneva, Switzerland, when the Soviet Union was at its peak. Today, I am declaring that it is time for all nations and religions to break down their barriers. Through this, the era of one family under God will arrive and last forever. God is leading history. With the help of heavenly fortune, under the auspices of the Abel UN, we will now make rapid progress toward a world that transcends religion and nationality. It will be God's kingdom on earth, which we call Cheon Il Guk.(Pyeong Hwa Shin Gyeong, 240)
