

UNOFFICIAL NOTES

Hanamdong, True Father

September 24, 1988

-110 representatives from 122 world mission countries, (actually 138, TF has secret missions. Soon TF will have 140). 160 countries in the Olympics.

- Human body has a system and organization, functions cohesively, any organization should be like that.

- The right eye does not exist for its own purpose but there is some area which the left eye cannot cover; so the right eye exists for the left eye and vice versa; people don't think of that, nose, eyes, ears exist for each other, all five organs are interrelated so as to communicate with each other.

- Isolated, sole existence has no meaning

- The spine in the back exists for the sake of the front.

- A more profound question is why East, why West, why heaven, why earth
(spine creates balance)

- West exists for the East, but are they really harmonious? Whites think all exists for them, this history needs to be judged, time must come when each part exists for the other, white for black, left for right, this is inevitable.

- Anything not parallel with this, will be judged in the last days.

- The history of God is to lead to that ideal with all parts serving all others. Until we reach that ideal the world will undergo constant judgement, no one can escape this

- Western nations exist for Eastern nations, the Western culture that doesn't profit Eastern culture will disappear, Eastern culture that doesn't benefit Western culture will disappear

- God is working for this ideal, God has been using religion for this, religion doesn't recognize national or other boundaries, God has been working through religion for 3 purposes: for a free peaceful and ideal world, this is God's true love, that is why God has erected religion throughout history.

- What kind of freedom? Freedom exists for true love,
- What kind of peace? What is the centre? Democratic government? Military government? Have they peace? Also communists are talking about the ideal,
- The World of peace is for the sake of erecting true love
- Peace is not just for oneself, or by oneself. Peace means relationship on every level; the ideal is transcendent of the concepts of class, even students when talking about ideal there is no such thing as class; those who pursue an MA cannot say they have nothing to do with elementary school; all are related. One ideal relates all types of people.
- Peace = world peace, not just "my" family, freedom has been abused by the Western world. No formula, no responsibility.
- People say "freedom will give us development, unity". What kind? Free to spend, free to earn, but have to pay taxes. A limitation? The government wants to preserve freedom to tax people, but people want freedom not to pay tax. Is that unity? Freedom must be flexible, harmonious, giving and taking. Freedom is flexible harmony.
- Do holy men not eat or not go to the bathroom? Even holy men are tempted. What makes man holy and great is the will and the principle to resist temptation. That is freedom.
- The concept of freedom to increase harmony and relationship is true freedom but not the abuse of freedom that is destructive. Western democracy is declining because of the abuse of freedom.
- Harmony based on power or money cannot last, only freedom and harmony based on true love can last. A stronger value than freedom is needed to motivate people to undertake great effort. Working 10, 14 hrs a day to earn money wouldn't last without motivation, love is the motivation.
- The eye seeks beauty but beyond that love is more substantial; the nose has freedom to smell love smell; the ear has freedom, wants to hear love words, knowledge is good but love better.,
- There are 4 senses and the hand is the fifth sense. The God given 5 senses are to relate you to the purpose of life. Without an object of love the 5 senses are dead, there is no life.
- Freedom is action for love and prosperity; abuse of this is problem for western youth.
- Democracy without true love will perish, true love comes

before freedom, and freedom is for the sake of true love,

- Would the eye say it exists for freedom or to serve the purpose of true love?

- Most mysterious joy when you bite or lick the most precious part of your lover, did you ever bite your wives hip or behind?

- Would your hand like to touch your wives hip, breast, would your wife say you are not clean or would it seem like perfume to you?

- Father is talking about love, the highest virtue for which God created man - true love not the immoral secret dirty acts

- True love has been broken down and replaced by satanic love, that is why God's heart is broken; once you have tasted true love you can never separate from it; once there is a base of true love all will follow.

- God has been heartbroken because of the loss of true love, true freedom, true happiness, true peace

- When true love is involved, law is secondary. Do you have 10 commandments in every room? Do you have to knock to open your bedroom door? Just go in, throw your coat lay down on bed say I am tired.

- with true love there is no formality or procedures, true love is blind colourblind, timeless, always there to be wellcomed, true love cannot be an obstacle to anything,

- Propagating true love can open the closed mind of western people. True love can win, open the frozen minds. The true love way cannot recognize boundaries.

- the 5 senses assembled in the face are the most important part of the body, there is even a sixth sense in the brain. Your face appearance is advertising what you are, particularly the eyes, why the eyes? The nose is stationary, the mouth moves, talks; the king of the 5 senses are the eyes.

- the eye is round, almost like floating in air. All 5 senses "computerized". (Co-ordinated) The eyes can distinguish from the standpoint of true love, how much true love the other will engender, the eye evaluates, the eye sees everything, can adapt, would like to see in all four directions.

- from the eyes of true love all things can be determined high, low, good bad, etc. the eye was supposed to see God but it was broken, it cannot see now, the harmony of all senses is the eye, it can see God, sense God, we were made

for that originally. Because of the fall of man, the eye has "cataracts".

- the UC is an eye surgical operation to have vision to see God, to see true love, to have a true vision,

- unification members feel society and nation cannot exist without me, why do we feel pity about our surroundings? Because we came to realize that everyone is headed for hell, but was destined for heaven. True love is forever

- Satan's love is not, has no root, only true love can connect forever

- without knowing true love, you cannot even talk about eternal life, once you perceive true love, you know automatically.

- the tragedy of all tragedies is the fall, how often have you called out: I am from fallen lineage, that affects all mankind,

- have you ever imagined how deep is the root of True Father, you don't know. How much have you poignantly realized you are crafted in TP's root? Are we real or fake in true love? To what percent?

- therefore religion is a battle against yourself, a declaration of war against yourself, all the time, not just once,

- liberation theology is trying to evade the responsibility of the war against oneself, instead tries to declare a class war, true love is not a commodity

- We must always declare in the past, present and future, I am a liberated man, liberated from sin,

- everyone will be judged by this conditions, even Dr. Pak, Rev. Kwak us. Liberation of the world with true love is the ultimately goal, when we join UC you are half good, half evil. The goal is to eradicate the evil half to be a whole good being.

- not everyone has a vertical heart foundation. When we reach the world level we get to the root, many have a horizontal foundation. The vertical line cannot just connect with history. Most of all we must make the vertical line within ourselves. Our ancestors connect there. To the vertical centre many horizontal tribes can connect.

- God is the true love vertical centre, we know God exists but don't know how to make relationship. Only one God not two. What is God? True love centre of my parents vertically.

- Creator is subject, creature is broadened horizontal point of God's love. The ideal meeting point is the connecting of the two.
- We need more vertical power, we need a ladder to climb for vertical power but have no foundation because of sin. We have to make the vertical love foundation in our mind or we cannot stand on God's side, If we make it neither God nor ourselves nor anyone can move it.
- We don't have a centre, are not stable, are like leaves on the water, need to have a centre within us that is unchangeable,
- Hell is darkness. The only light in the Spirit world is true love.
- God wants to make true love ladder where heart and mind connect - vertical and horizontal
- Righteousness is vertical, Original mind, American tradition = vertical, people = horizontal, needs root, scholars search for it but don't have it.
- A tree needs roots, and water, without it, it is like the end of the world as proclaimed in the Bible,
- The Original mind must follow conscience not the outside world = religion says we must cut off from bad influence.
- By ourself we have to break out of fallen world, not by God or Messiah, individual not family. We have to save ourselves, but we don't know how. So we need highest level teacher, That is the Messiah.
- Liberation theology says, save society, Bible says in the last days there will be wolves in sheeps clothing = communists,
- If we stand on world level, live for the world then we don't need to be taught, but go automatically. Now is completely the end time. All UC members must stand on world level, must have ownership of true love. Without God, America will perish.
- Since Danbury how much has the world changed towards the Moon point of view.
- Why is there no prosperity in UC? It is Our responsibility. God and TF and TM know the FMs are working hard, but are you sacrificing yourselves?
- Here we are God's spiritual Olympics. The Lybians came to the Olympics. If they have no money then TF will give them.
- There is Competition between UBC and Moscow Ballet,

- We represent all the free world. We must give some kind of gift to the communist world. We have absolute true love authority, our time has come, TF was in many hard places but didnt die.

- Elders are problem like in Moses time, many righteous people in Korea, more than among us.

- Making spiritual Olympiad conference now. Second generation in our countries are future hope.

- Take strong concept of spiritual olympic games, FMs stand together, centred on true love. Father is the model for the gold medal. Which medal do we have in our spiritual Olympics? Gold, silver, bronze or hell medal? We make the defeat, not TF.

- We have to inherit from TP. Not society, but us, are the problem, we must take sovereignty, centred on true love.

- We have man's portion of responsibility, we have to win. We must take sovereignty. There is no excuse. Representing TF we can do anything. We have TPs support. We are standing in A+E position but now we have parents.

Vertical parents

Horizontal parents

True children and us if there is connection we can go anywhere

- After 2 years TF will not use an interpreter. If we don't study Korean it'll make trouble all of our lifetime. Famous scholars are now studying it, to investigate TPs thought.

- If we learn Korean we can teach our country's leaders. We should have a realistic attitude, 7000 legislators in US are learning Godism.

- Are we going to learn Korean or not? No excuse under any condition. Raise hands to promise.

- TF felt Satan attacking last night. Cut on forehead. Any kind of sacrifice for indemnity must be faced squarely.

(After lunch)

- Korea has special soil elements, spiritual atmosphere, surrounded by water on 3 sides, pure water, very special fish on Cheju.

- (TF gave 100\$ to each country to be spent in a creative meaningful way for our country. TF gave 100\$ seed money to 61

Japanese members to start a fishing business in US 4 years ago. This year the sales go up to 100,000,000\$ annually. When we grow 5 times this amount then we'll have virtual hegemony over fishing business. Each of the 61 held that 100\$ as sacred, framed it and prayed over it saying "God bless us with the same attitude TF gave it to us." The key is not the money, but how sacred you hold it to be and anything that TF gives.

- TF feels this is seed money for all continents of the world. Use it for the country and for your posterity.

- Now the providence for going home to your home country has come. Before, you were asked to leave your home town. We were persecuted for this. From the homeland of our faith we'll go back to our home country and bring the blessing back with us. With this seed money. This is a historical event.

- We are no longer in the second son's position. We now have restored the birthright of the elder son's position dispensationally. That is why we can go back to our home country.

- Time has come to make a god-centred community, centred on God, TP and elder sons position.

- When we go back we'll have a movement. Shall we have a family, clan, tribe, nation or world movement?

- We don't have our tribe. We only have elder sons position. From there we have to combine with younger son. Then on that foundation TP can stand.

- Why TP send back to home country? We have to combine to form one brotherhood more than outside people.

- Until now Satan's side has been in the elder sons position. Now we are. We received it from Satan, God is making true love foundation.

- From now control of all the world's missions is ours.

- TF, and Moonies represent God's side. Only we have love right.

- We must know clearly that we are representing TP.

- For 40 ys to now many kinds of people have been shooting arrows at TP, aiming but they couldn't hit.

- No matter how miserable our situation, don't worry. That is blessing way. That way we can inherit Satan's property. If Satan comes against us and we don't fall down = we gain control. He relinquishes it to us. By receiving persecution we inherit ownership.

- After persecution = heavenly side victory, the whole country comes back to God's side.
- After false accusations to TF = Danbury = all people changed, bowed down to TF = material wealth.
- We don't know how much persecution to TF from Americans, We don't know how famous TF is for taking persecution in US.
- Those who rejoiced at TFs imprisonment are now going down. Satan's world includes all things. After God's side wins = ownership moves from Satans side to God's side.
- Satan's side is losing property and young people. TF taking blessing property. Small country of Korea cannot digest all worldwide blessing, must be multiplied to the world.
- Even communist world is waiting for Rev. Moons activities, they have been waiting for a long time.
- We should go back as heavenly children, tell people to follow you and receive God's blessing. Good news for you. Bad for TF. He has suffered much for it, we don't deserve it.
- Until now, God said " You take out parents, family, friends, but now = go back home, We go back and claim ownership of our generation. We start the ancestor of true love for our nation.
- Go back and make your unification family, TP second advent of Messiah came to this world, did their work.
- You are now new Messiah, 4th Messiah. Now go back home taking wife and children. Completely opposite to Jesus' situation.
- From this Olympic time and for the next 4 years do your mission and the whole world will be turned upside down.
- From '85 - '92 = 7 years, 3 have passed, 4 more.
- Overall this is a very important message: if US and christianity had accepted TF = for 7 years to 1952 messianic mission would have gone to world. Failed. TF indemnified 4000 years in 40 years. That mission has been resumed. 7 ys crucial time. We are third wave of the Messiah.
- TF is assigning us the messianic mission. 3 ys prolongation from 85 = 88 = victorious. Now for 4 ys positive kingdom building.
- We'll save nation and march beyond it to the world.
- Democratic and communistic worlds are both without hope, only hope is in Godism with TF. The war is over. We'll wipe

out, the scattered forces and reap the results, the major forces are defeated. They are escapees, they ran away, scattered.

- We are more important in the eyes of God than the presidents of our nations as representatives of TP.

- We are heavenly Olympic champions. National champions. What is our armor? Sacrificial love. TPs sending us out as their representatives for our country.

- While we are here meet Olympic and other reps with dignity as TPS representatives. When go back meet the Minister of Defense and other such people. There are many champions. They have welcome banquets for the athletes. They'll invite you, main guest, That is the purpose.

- Love ladder and dedication is the only way to go up to high level.

- When we make a friend of the national champs from our country to cheer for them, they'll invite us to sit next to the president. Only we spent our money to cheer them. We paid our way. All the weapons, Mc Col, UBC etc. cash in on them when we go back.

- TF is dealing with US president now. He prompted the table with an American here, TF told him to meet the CIA chief, the Ambassador, that US must change. The man said, yes. TF said, tell Bush; tell Reagan, he was an important man. Manpower, Mooniepower, organization power. They have only their own power, TF has every kind of people, variety. God wants that. Until now He didnt have it. Even God respects ReEv. Moon, says, you are taking my position. TF wants 120 countries represented. Together as 110 we set the condition. When we came in, we looked like 3 day old fish eyes. Now our eyes are shiny, sparkling, several hours later.

- Internally and externally TF has given gifts to us. The internal secret. If we know TF is the truth = practise. By 2000 the world will bow down before us. Among us here are presidents, ministers, evens kings and queens of the future. Why not.

- Claim ownership. Claim responsibility to bring the nation back to God, then exercise power. Clean up the problems of terrorism and immorality.

- For 40 ys TF has always taken upon himself responsibility to oppose unrighteousness, in Japan, Korea, US.

- Our standard should be that we should exceed the historical standard of the past. TF says he doesn't believe we'll do it, but he'll think about it.

- Entire SW is standing up cheering us because TF is sending champions to their own home. We are the elder position (SW will obey us), Both worlds ownership, making completion, we have to tell the SW to follow us, make powerful action.

- Father - son relations is our power. We are not alone, our ultimate responsibility is: representing TF, we are the father of our country, the presidential mansion is supposed to be our residence. We deserve the best as his representatives. We are the king of love in our country.

- Jesus was king of kings. It means first ancestor in the kingdom of true love.

- The timetable today is the recreation. God has to put recreative energy in it. Until now God has been making the providential way. That is completely different from original creation way. It is restoring the historical way, the going back to the beginning way. That is the recreation way.

- We have to have the original meaning of creation. We have to stand in God's original position. We have to have absolute love.

- Absolute valuable centre is not God, but God's love. God completely put himself into the ideal of creation, for man not for God. From this point we can find out for the sake of others. God's existence is forever for man, centring upon love.

- Love means making relation for others, we have to give every ounce of ourselves for this purpose, beyond the degree of the fervour of first love. Even in the fallen world first love is so strong. We have to go beyond that.

- We are looking forward to seeing our own parents, our longing for TP and True Kingdom should be stronger than that for anything in the fallen world. If there had been no fall, we should 've been born in the lineage of TP.

- We have bloodline with our parents, but wife comes from another lineage, originally all should've been from one lineage. More dramatic when the distance between spouses is wide.

- Even birds travel from continent to continent. How much more so in humanity. Birds migrate for better environment, a better mate to make better generation.

- Dramatic God's family is to mix East and West, North and South. More Godlike, more principled dispensation.

- If you only marry with own country, you have only one country. Two is better. Then broader foundation on which to stand.

- How wonderful is domination. "Got" is black korean hat. Throughout history koreans have worn "Got" on their head.
- True love owner is only God. No one can change this centre. If change = not true, not God. Not absolutely God.
- English doesn't have taste. Only true love can write men and women.
- Of TF says we are forgiven, we are. Unless we clean up while on earth, can't go to good place in SW.
- If this is not the truth why should TF suffer for 40 ys.
- TF too cleaned up record to pay indemnity so that True Mother's position could be restored.
- Have we cleaned up ourselves or are we cleaning up? Must before going back to hometown. That is viewpoint of the principle, perspective of principle. There is only one way, absolute, one way forever, today, older times.
- Because of fallen world atmosphere, TF is choked all the time. Of so = how about god?
- We want to liberate God. True love concept only fill your mind and body.
- Once UC world is established = someone who is blessed falls again, then they'll be judged by their ancestors who will tear them apart. Even God did not forgive Adam.
- To have true love we have to tear out all bad thoughts from our mind.
- Young IUC members are bad, especially Western, must clean up.
- All ancestors want to welcome Rev. Moon. He is in absolute true love position. Many women tempted TF but no problem to him. Even naked women came to tempt him as Satan's bait. He didn't take that bait.
- TF wants only absolute true love, ownership situation, taking persecution for it; without that we cannot reach ideal world.
- Everything good will come with love. How wonderful. Sweet tasting fragrant, making universal action.
- We marry, we love because we want to occupy God. It's that valuable.
- We don't need wealth. We don't need lots of property. Only

true love. Love race. We have powerful ambition. How much big? Too much big, ambitious. More than big to continue forever. Only true love that can satisfy is God's true love. Purpose of ambition is one: true love.

- Ultimate ambition is to occupy God. That is why true love exists, cannot go alone. Must go through spouse. Man is born for sake of woman, woman for man, both for love. God is continually investing energy so world will fulfill the ideal of love.

- Until that God will never stop investing, never rest.

- God is silent. You don't often listen to His voice, but He is everywhere. Behind the scenes He is quietly working.

- God can now directly intervene. Who'll make members in future? Not us, God.

- God is still serving humanity, never says 'Serve me'. God is waiting for true Adam and Eve. Who'll say 'Rest, I'll take on your responsibility'. That is TF's heart.

- That's why our foreign missionaries have been in satellite countries. Condemned to death but even grateful for any experience with TF, grateful to have shared any true love.

- No suffering FM wants to leave because they know TF has suffered much more. We've inherited from TPs, are indebted to them, are always in their prayers. We have no room for complaint, have ample reason for gratitude, we must be grateful to be a FM at this time, selected to be a contemporary of TP.

- TF was alone but overcame incredible odds. We have others working with us. We'll be on the righteous road but our path is easier. We have TF, our leader, teacher, have witnessed historical events around him.

- True love is our only asset with which to enter the Heavenly Kingdom. If we try to give it to others = it is there. If we keep it for ourselves = it is not there.

- Bush' and Dukakis' fighting represents America fallen down. The President's position is not for oneself. Must unify.

- The man who forsakes himself for others makes prosperity. The self-centred man makes perishment.

- Pray to always do more. This is TF's lifestyle. He is teaching to us, without this even our hometown won't welcome us.

- No matter how difficult my situation is, working for others is better, the better way.

- Love network concept. Forsaking self. Follow true true love concept. Follow for one year, 10 ys ; the bigger result. Pray pray even for 10.000 ys ahead.

- Is is our Cosmic fate to follow TP to Korea through Japan and past to continent China and then to the Soviets; we must help them.

From this time in 10 ys if you follow this accomplishment will accumulate like a high mountain.

- TF would like to bring 500 people every month here to learn DP in country where the root is. When going smoothly will make it 500 a week = 500 a day.

TF has too much manpower because he is too much great. Doesn't need too much. Needs only saving leader, country leader. 120 dedicated leaders = then all is finished. That's all. In future no proselyting time. Need quality, not quantity.

- TF's plan here is to deal with the leadership of the Olympics.

- From 1973 TF laid the worldwide economic foundation to the dedree that Red China and Sovietunion are trying to incorporate with us. Even We don't know

- With new start. TF will make new leadership. Then will prevent from making just a certain style of leadership.

- TF's plan is to have each centre grow to 40, then after 7,21,40 day workshop send members to pioneer in hometown.

- TF will buy a plane, have IOWC etc. "Blitzkrieg".

- over 3000 membership, over 7000 will be mobilized. This is how TF will let people go back to their home town.

- Over 40 membership trained, sent to hometown = have relatives, will be not only a religious leader but a political leader, get elected to congress. That's how TF envisions us to become leaders.

- What about leaders? Leaders (FMs)not in own country. Invite hometown people to come to see you. Other way is to correspond, then they will invite you to evangelize.

- 40 members can fundraise to invite your homeown people. Treat them, serve them, with great sincerity as host. They'll be converted and join.
