The establishment of Hoondokhae

October 13, 1997 Victoria Plaza Hotel in Uruguay

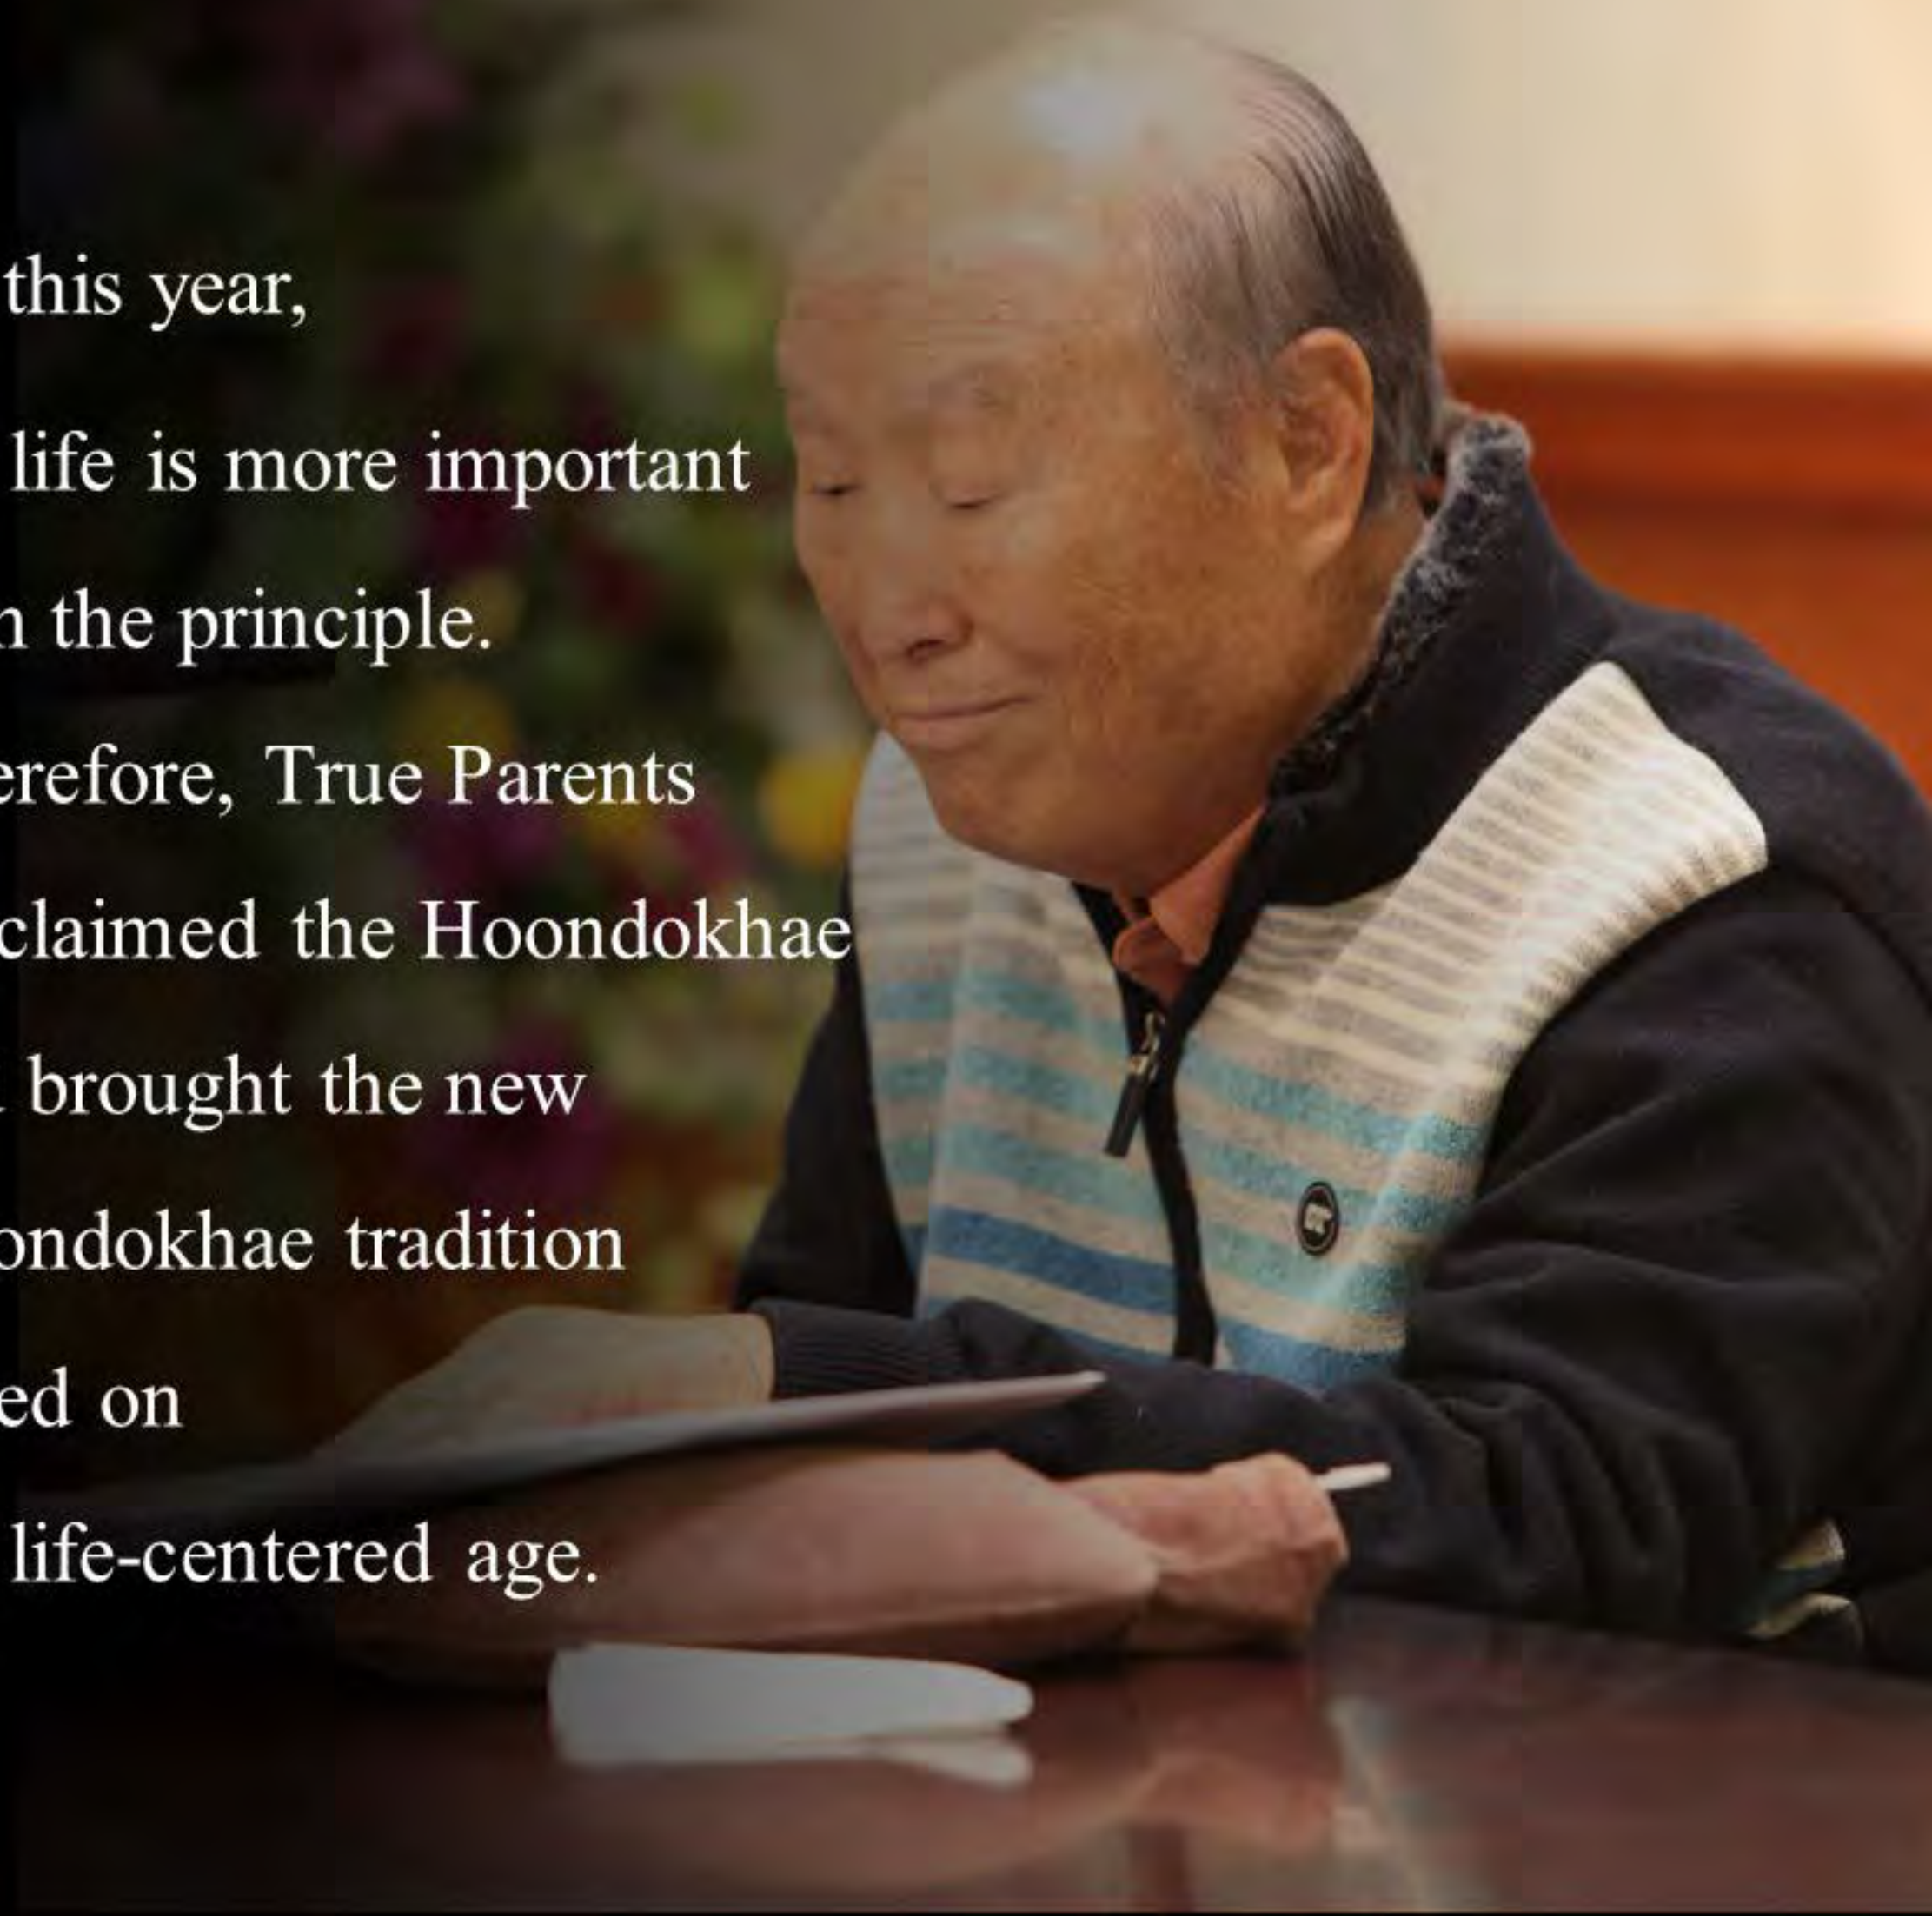

Sunhak Institute of History

On October 13, 1997,
True Parents established the hoondokhae
at the Victoria Plaza Hotel in Uruguay.

In this year,
the life is more important
than the principle.

Therefore, True Parents
proclaimed the Hoondokhae
and brought the new
Hoondokhae tradition
based on
the life-centered age.

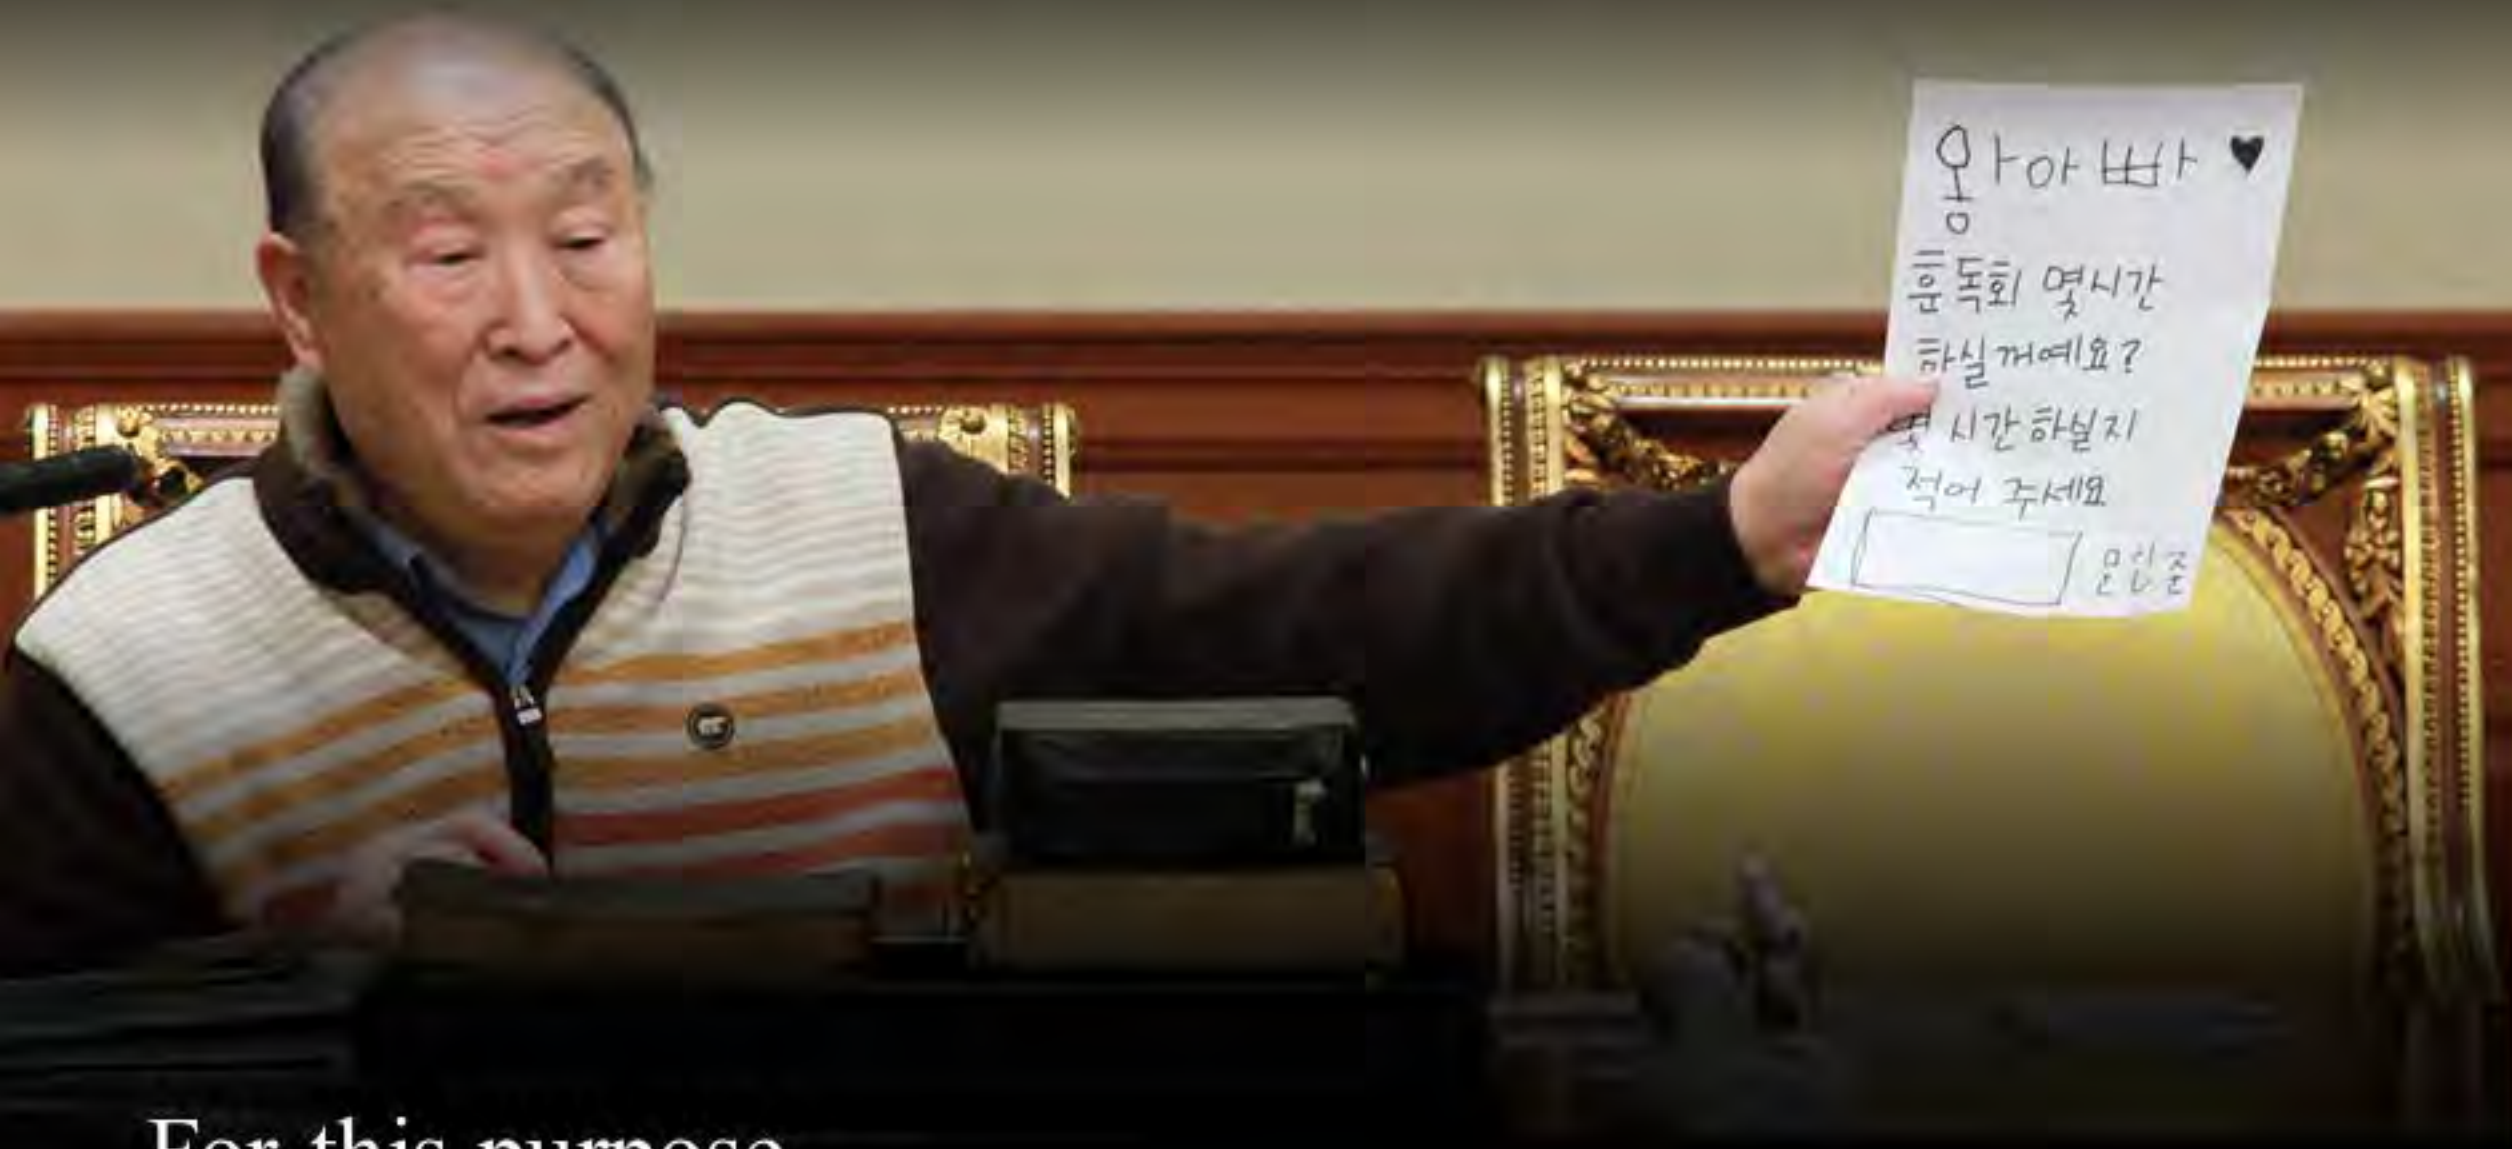

Each Chinese character of Hoondokhae has the meaning. 'Hoon(訓)' consist on 'words(言)' and 'river(川)' and this Chinese word means that the words bring the life and the eternal life and flow everywhere over the national borders.

‘Dok(讀)’ means that selling (賣) the words (言).

Ture Parents mentioned that the principle words should be bought by all people without money.

The reason of the hoondokhae is not only the cutting off the Satan's lineage but also the creating the ideal world in a reality through the blessed family.

For this purpose,
we should do hoondokhae until being a
substantial manifestation of True Parents' words.

T rue Parents are the words with the character of a subject partner so do not skip the hoondokhae how they are busy.

Even though the right before the True Father's holy ascension, True Father never stop the hoondokhae.

You have no idea how seriously I do hoondokhae. There was a time that only a few people were in front of me when I spoke. I was so full of lamentation and I spoke like that even in front of only a few people. I spoke of great things, not to thousands of people, but to dozens. Imagine how grievous my heart must have been. When you hold hoondokhae, you come into contact with the world of that heart, so you shed tears unconsciously or you feel a lump in your throat without knowing why. That is the power of hoondokhae..

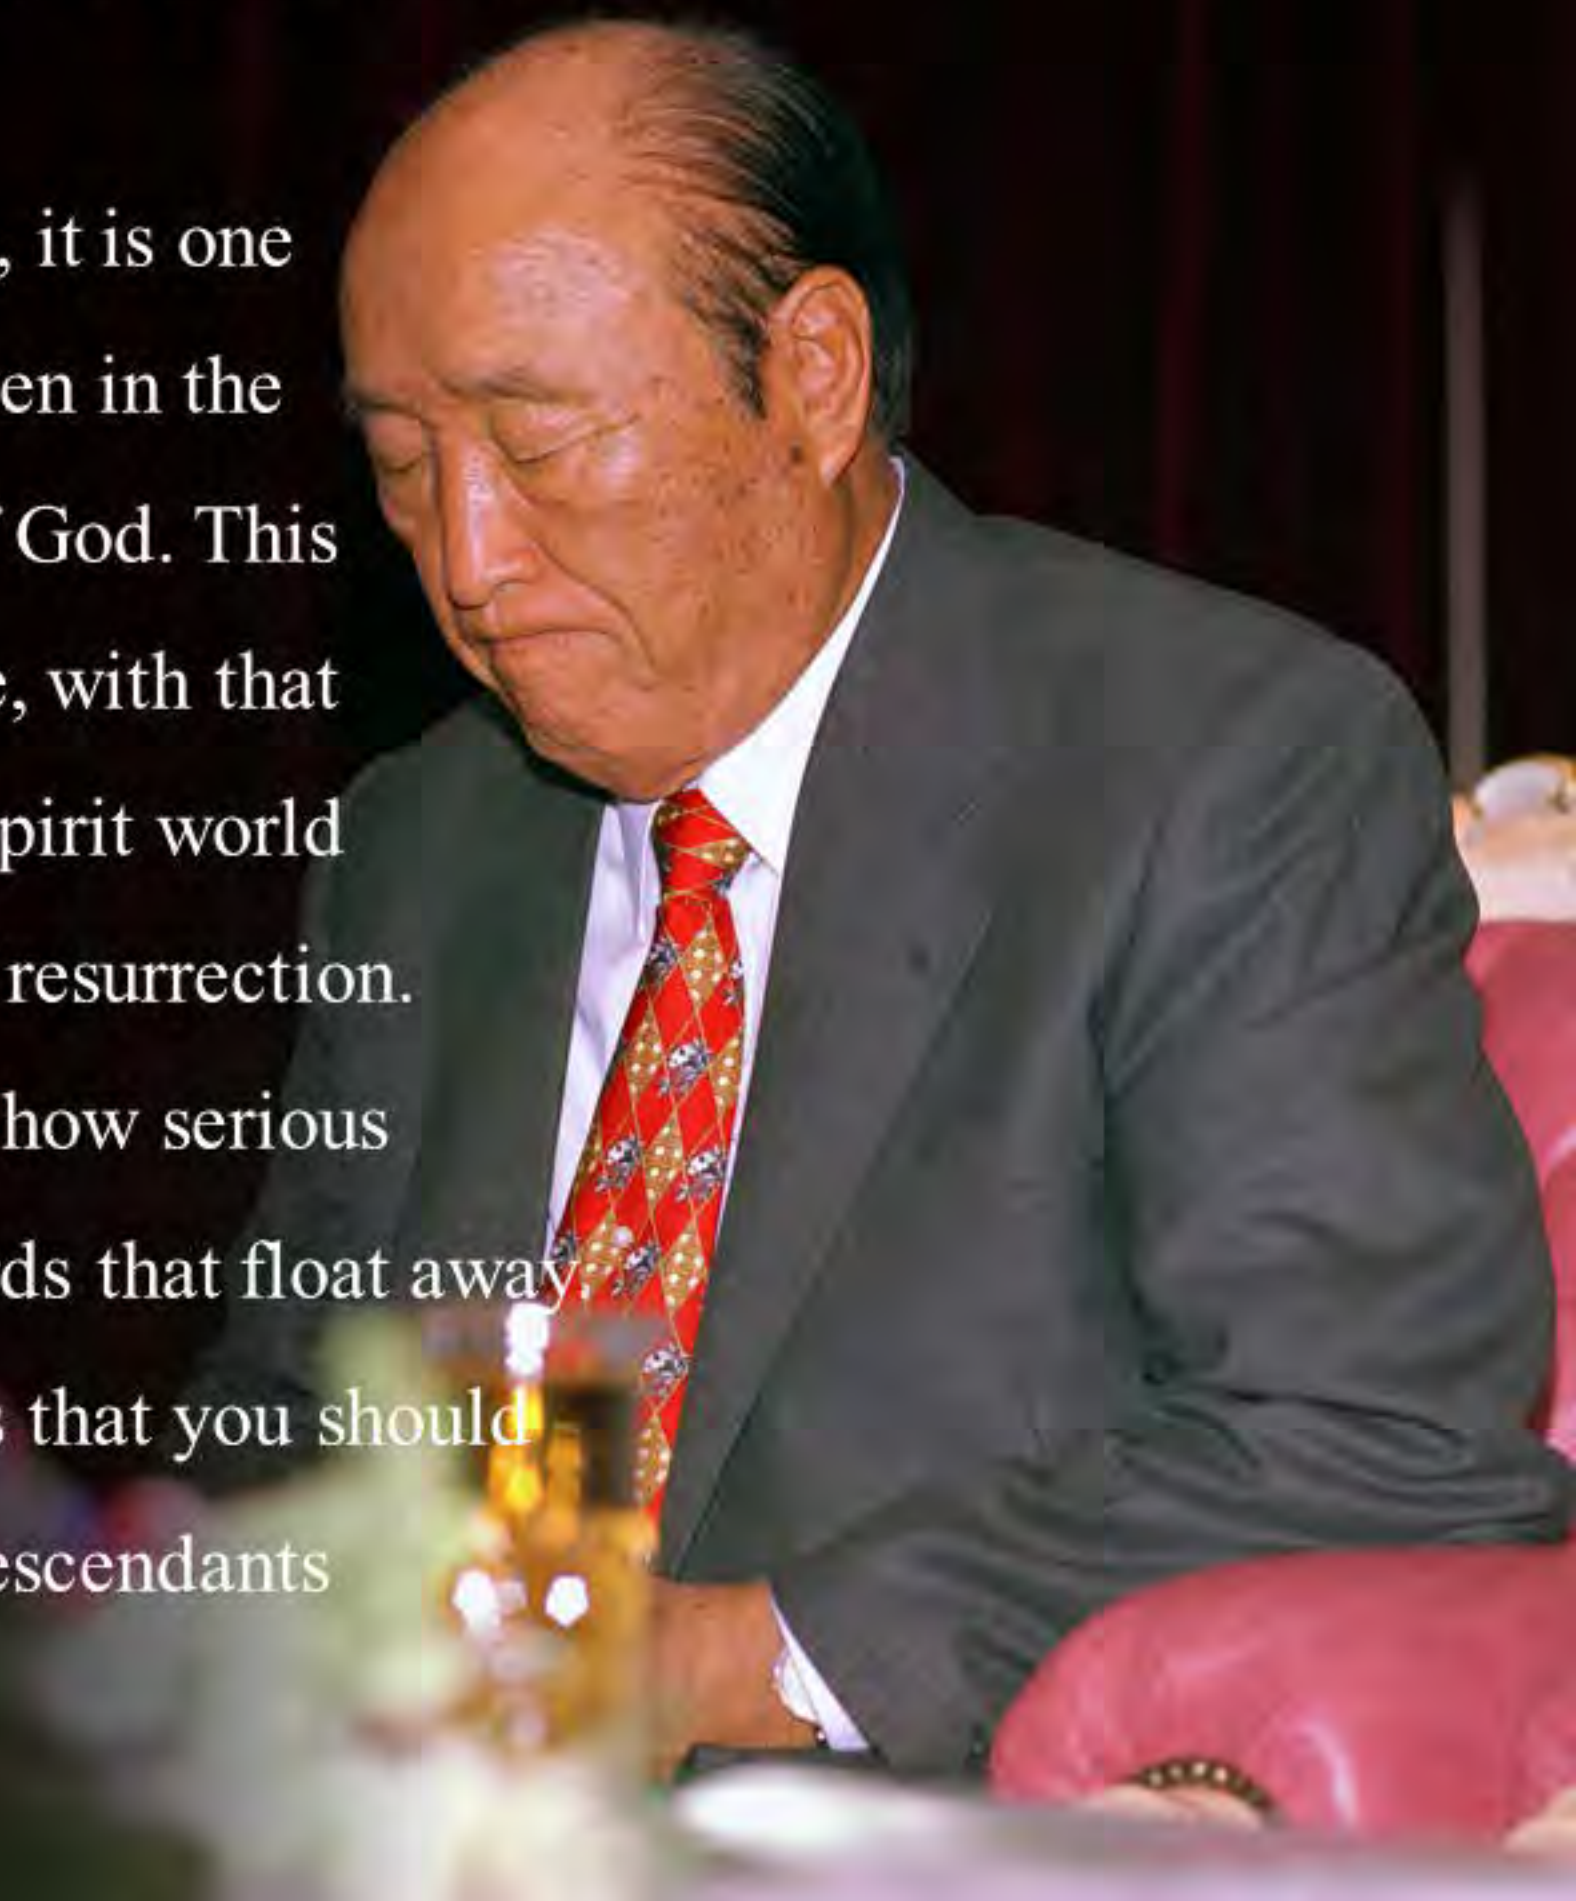

In terms of electricity, hoondokhae is a battery or generating plant. Not just anyone's words can have such an effect. I spoke those words as if on the verge of death.

When the Word appears, it is one that never before was seen in the world. It is the Word of God. This means wherever you are, with that Word at the center, the spirit world can work the miracle of resurrection.

You need to understand how serious this is. They are not words that float away. They are the final words that you should leave behind for your descendants

True Parents Words
